Foreword

Hello and thank you for your continued patronage, this is Hiyori Mizuki. Thank you for buying my book.

This is the sequel to Sukimizu Syndrome 2, and while labelled as such, does not require you to read volume 2 as a prerequisite. You can enjoy it on its own. This funny, heart-warming slightly wistful story follows the earnest Eri and her boyfriend of the ribald nature, Ryou, with his school swimsuit fetish. Enjoy!

Also, if I may just mention a topic brought up at least 3 years ago about these kinds of publications 'not needing any more than 2 pages after the naughty scenes' or the opinion that having 'male characters with poignant facial expressions are totally unnecessary'. I draw these all these kinds of doujinshi not to limit myself, but to express my love for the things I like, and those include facial expressions of the male kind, along with the stories I want to convey.

Right now I'm thinking about letting this be the last chapter in this story, but anyone who wishes for a continuation is free to contact me through my blog or my pixiv and twitter accounts. I would gladly listen to your opinions, suggestions and anything else you might want to say.

Finally, I would like to thank the people who have supported me; the head editor, my friends who helped out in making this, the printing company, the various bookstores who took in my books and of course the people who purchased them. I will do my best from this point on so please bear with me.
