

But I was sure I closed it...

The gate has been open this whole time!?

What!?

But only I know this code sequence so how..!?

Someone must have broken in!

She would likely know this code...

If it's "her"...

Lilly!!!

What are you talking about? I'm just turning this human into a milk slave. Did you come here to help me?

My my.

You're rotten to the core!!

Momoka is the human I captured! Why are you taking her away!?

Chiiche!!

...That's right.

Lilly...?

Is that what you're going to tell me!?

Or perhaps you've gotten so infatuated with another human that you can't turn her into a milk slave again!?

I'm sorry Momoka...

Lilly...

Me too..!

This is the only way I can protect you right now...

Wha..!?

I love Momoka!

That's why I'm not letting you turn her into a milk slave!

Let go of me Lilly!

Ngh!

Do you plan on breaking the gate open!?

There's a fissure in the gate!?

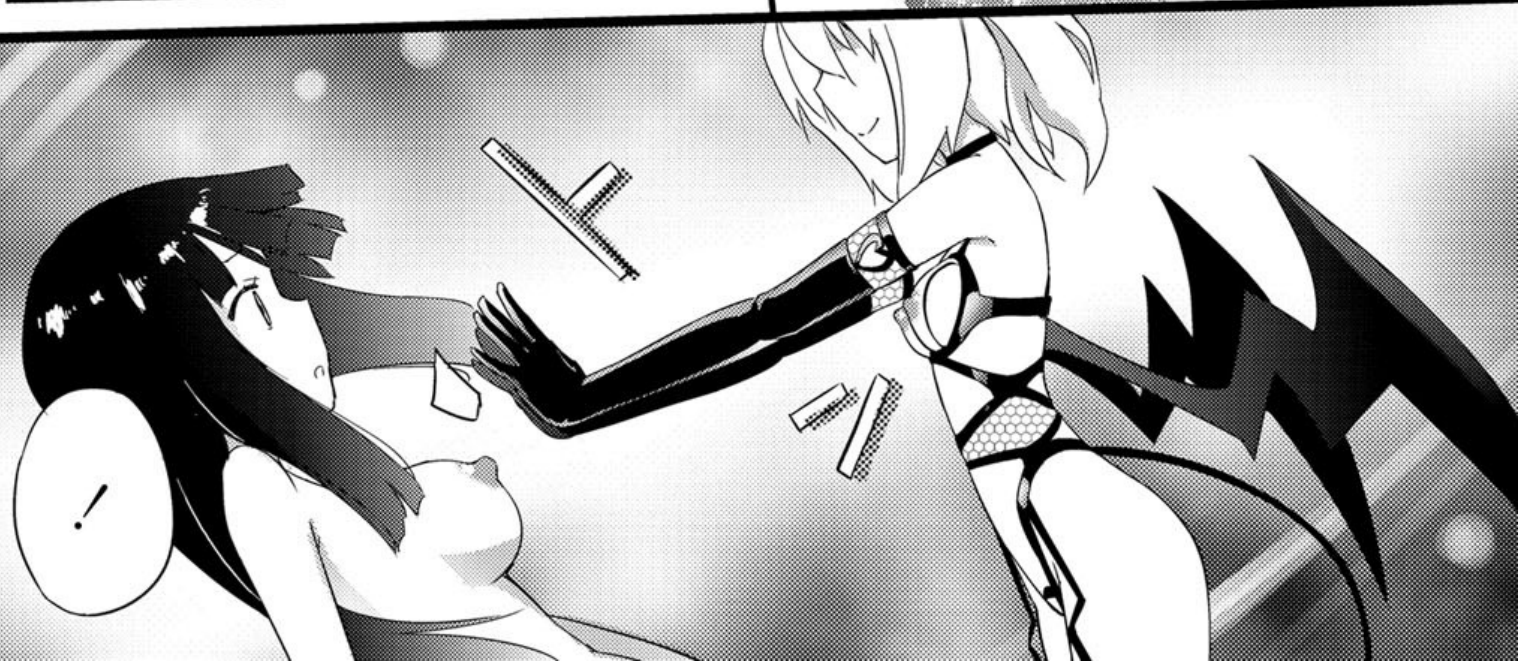

That's fine.

Stop this foolishness!
If you do this you won't be able to meet that human again..!

If Momoka stays here the other succubi will just try to take her so this is the only way.

!

I'm sorry
we have to
bid farewell
like this...

It might
have been
short but
I had a
lot of

Momoka...

I
love
you!

No way!

!?

Wh-what is this!? There's stuff written on the mirror...

Correct!

That voice... Could it be..!?

Th...

This is a new gate coding I've never seen before... Ah I know!

If I recall correctly she once said she would make her own gate when she became a proper succubus..

I'm
home!

Welcome
back!
