

Was it from a manga... Or some commercial?

It was a cold, rainy night in the middle of July.

The kind of outlandish scene you always see in fiction, anyway.

# My Dear Freaks

Were my actions outlandish too, though? You understand when someone can't leave a wet stray kitten behind, don't you?

She just immediately called out to a human(?) she'd never even seen before.

Are you really okay with following some human you've only just met?

Maybe the guy taking her home is the one who's got problems.

That's pretty reckless of you

It's fine... I have no place to return to.

Yep!  
♡  
I can be pretty reckless.

Not that it mattered. There was no one else who might complain in the house left to me by my parents.

Everything  
alright with  
the shower?

Thank  
you...

Oh, right. You did say that all you had was some few extra clothes. Something a little less formal would be fine, though.

Finding her lying under a streetlight was already as unrealistic as it could get.

Yes! It felt great!

Were our actions and conversation afterwards any more realistic?

If you want, I could lend you some sweats.

I've got eight sets of the same outfit!

Well, if you're okay with it...

I guess it's fine, since she doesn't have a hat on.

If I don't wear this, I can't relax. Do you really, REALLY need me to change?

Nothing she said surprised me at this point.

I can restore my energy without consuming nutrients, but I'll go ahead and eat!

You haven't eaten yet, right? I thought you might be hungry, so I got you some food. It is all leftovers, though.

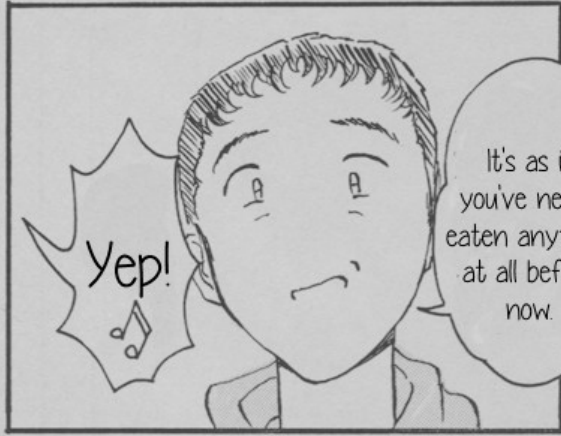

It's just some instant stuff, though.

Wow, so this is what "delicious" means! This is great!

*It's delicious!*

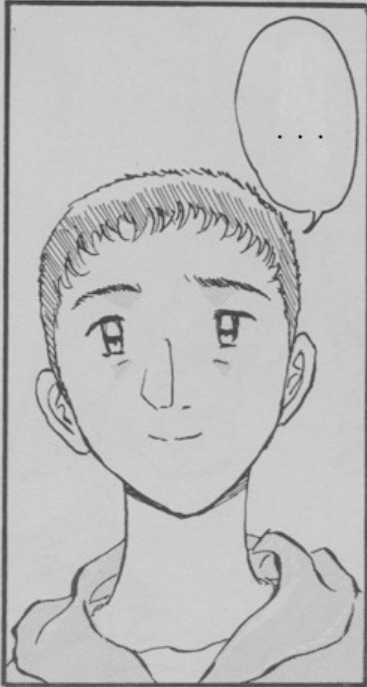

Yep!

It's as if you've never eaten anything at all before now.

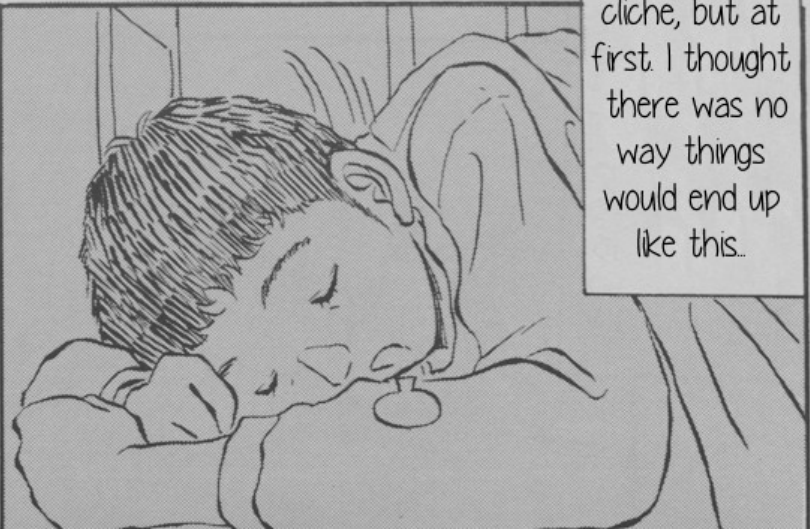

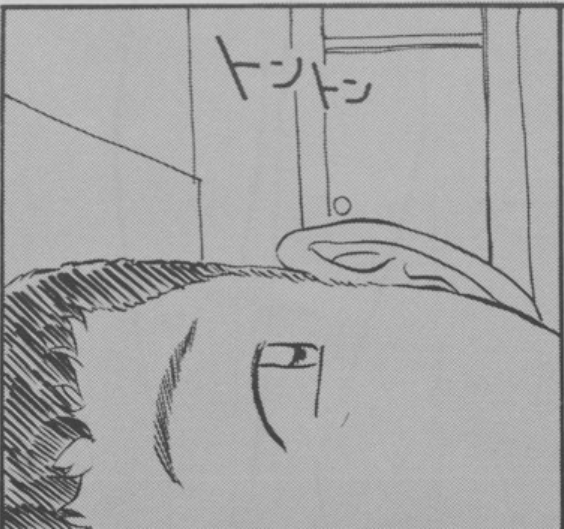

You're free to use any room you like.

I'm so happy right now...

It may sound cliché, but at first, I thought there was no way things would end up like this.

I'm so glad you were the one who found me.

I feel so relaxed here.

Um. May I lie down next to you?

Maybe this is a common occurrence for people who meet under these circumstances.

I didn't care about what was or wasn't real anymore. What happens, happens!

AAAAAAAH!  
SO GOOD!  
YOU'RE  
AMAZING!

YES!

**AAAHHH!!**

**I'M CUM-**

**MING!**

And so  
the days  
passed by  
in a dreamy  
haze...

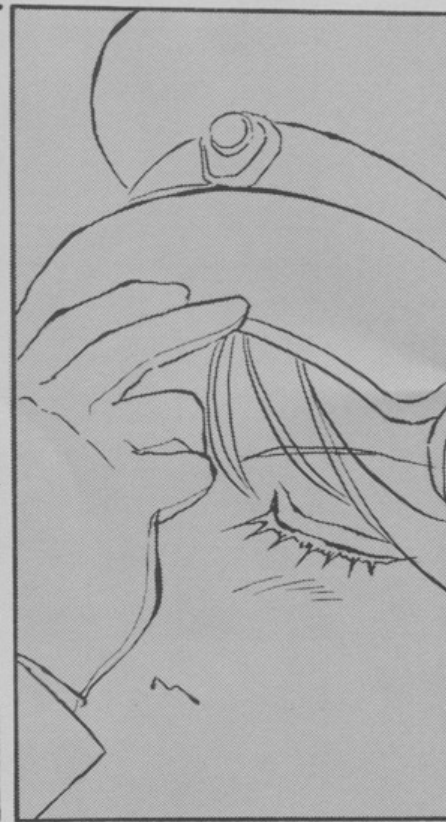

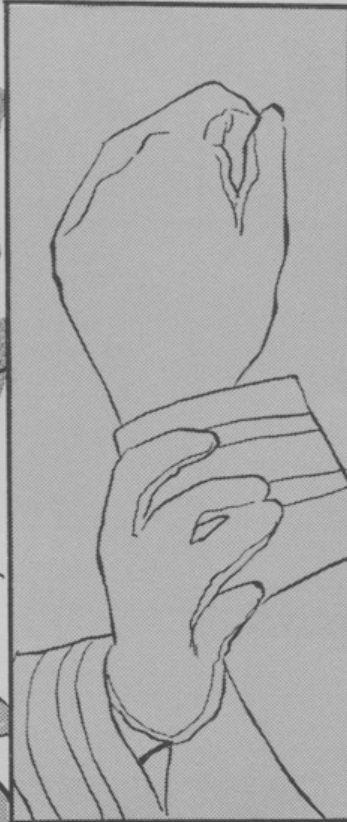

Time to return to your mission, Toden.

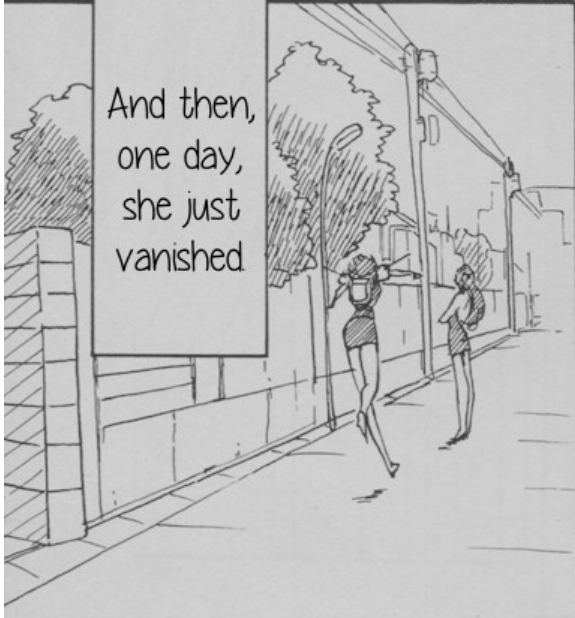

It's been a while.

And then, one day, she just vanished.

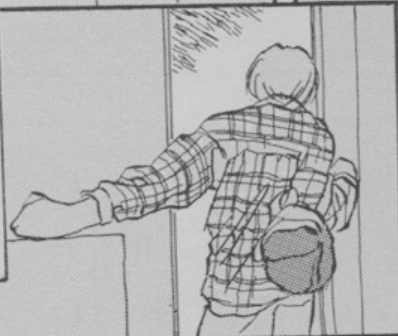

It was like the dazed feeling you get when someone wakes you up all of a sudden.

Strangely, when I realized that she would never return, I hardly felt anything.

Nothing's really changed in my life.

A year has passed since then.

It's just like it was before I met her... only, sometimes, I feel overwhelmed by nostalgia.

My life right now isn't so bad after all.

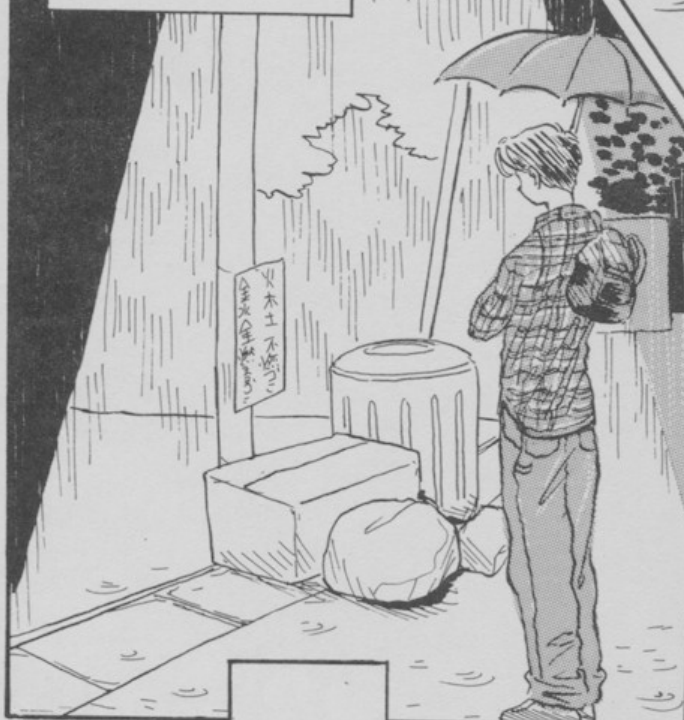

Like I can feel her close by...

The End

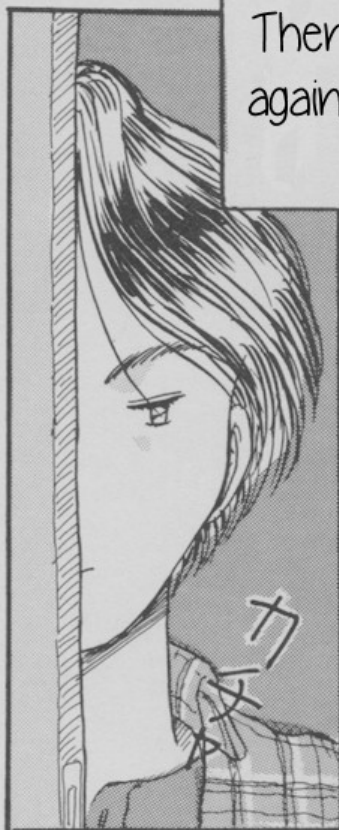

That was  
a year  
ago.

Back then  
I thought  
it'd be just  
the two of  
us, forever.

Then  
again...

...There's  
no way  
miracles  
can just  
keep on  
happening.

WELCOME  
HOME~!

Uh.  
yeah.

Maybe they  
happen to  
me often  
enough.

END.
