This is what you cal [posession] Like what you experienced just now You can do whatever you wish to your target's body. ♡
Navi Fox
During posession, your real body will retain some fragments of your soul. So you will act exactly like how you normally would. This is safe so don't worry. With simple commands you can also instruct your original body to do things.
Navi Fox
This was a tutorial round so there was a 30 minute exit timer put into effect. In the next rounds you will be able to setup your own timer for any duration of time.
