There are nucleuses in her prostate gland and those are the source of his power.

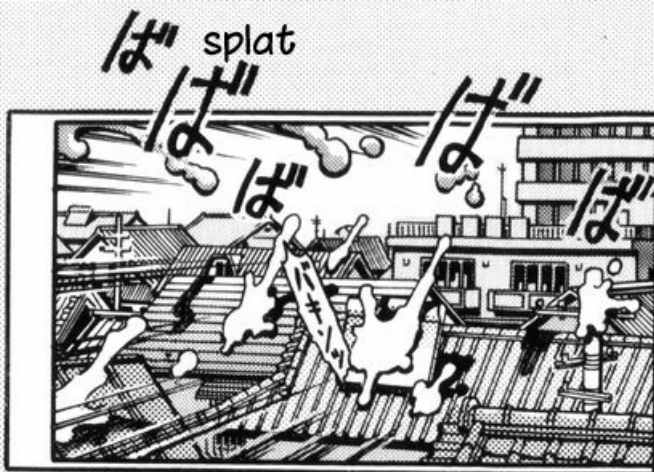

Put attention Subaru, dyuwa

Something is going to come out, right?

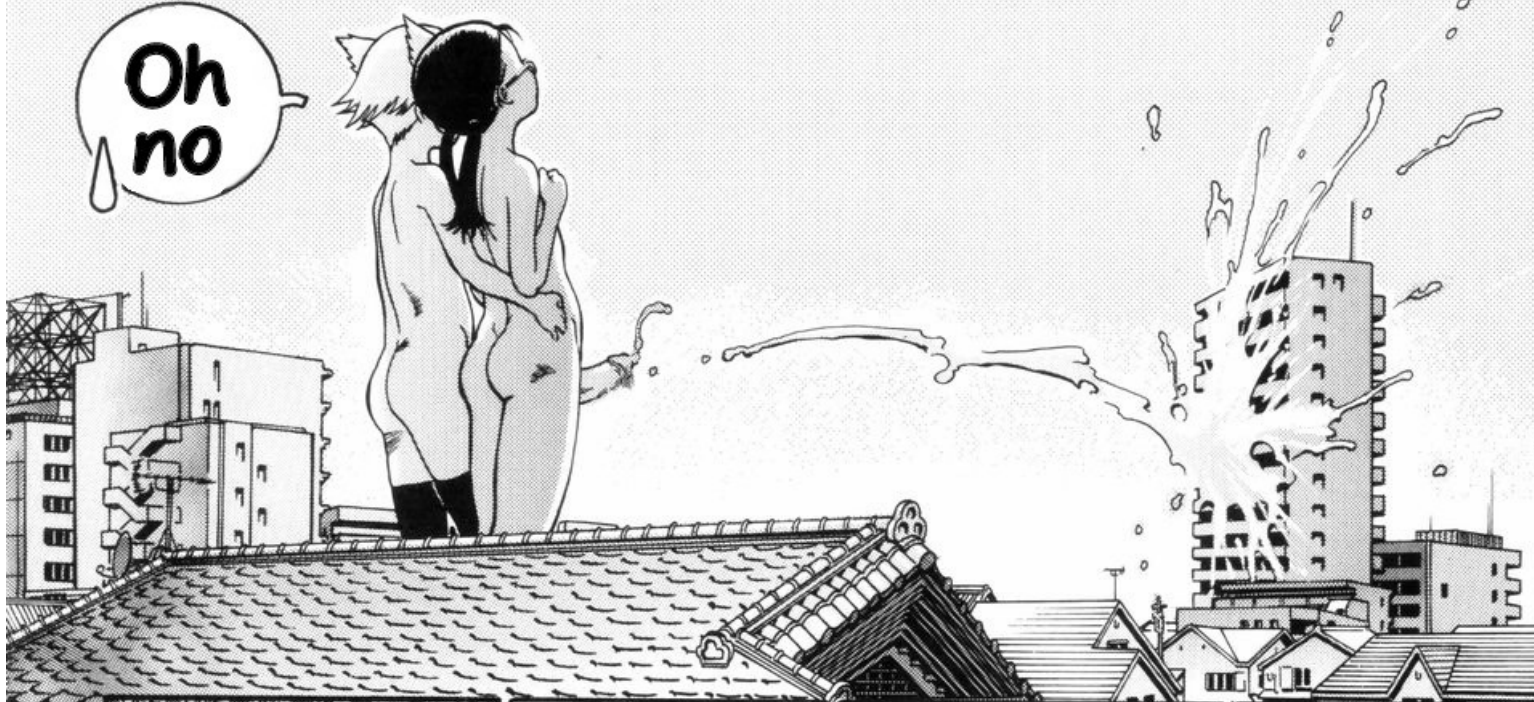

Don't hold back.

I have to drain the nucleuses by making her shoot them in the ejaculation.

Final note.

Tokusatsu it's a film genre that encompasses movies with lots of special effects and where heroes fight against giant monsters. Such as power ranger, Ultraman, Kamen rider.

you can imagine how it relates to the story.
