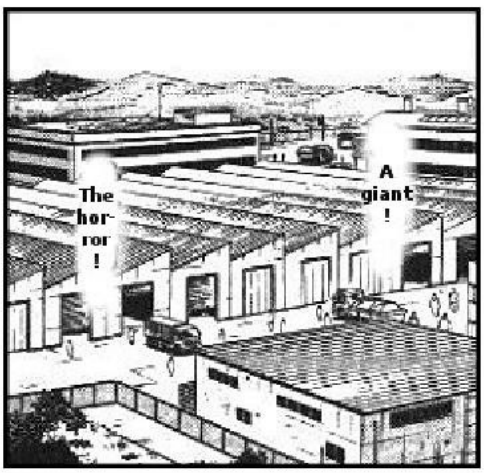
# 做什麼都可以喲～

Demo Scan



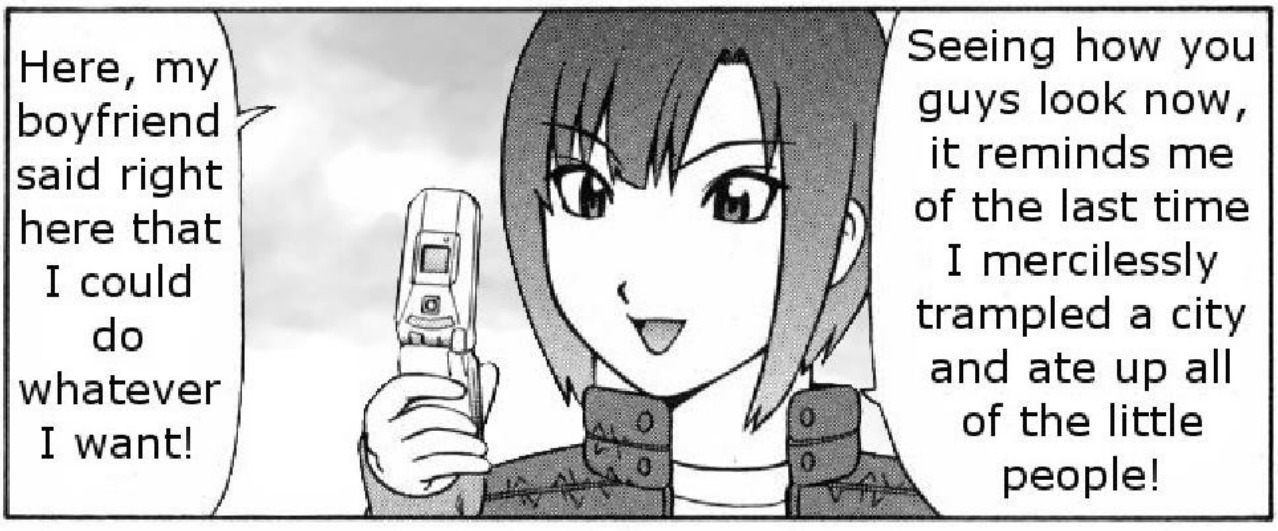
The horror!
A giant!

It's huge!
Look at her foot!

All citizens please evacuate in an orderly fashion.

I'm new on this planet, but I am highly qualified to destroy cities!
Sometimes it's for new cities ... sometimes it's to help in war ...
But whatever the reason, once I go into action I will crush that city beneath my feet within half a day, so that not even one building remains!

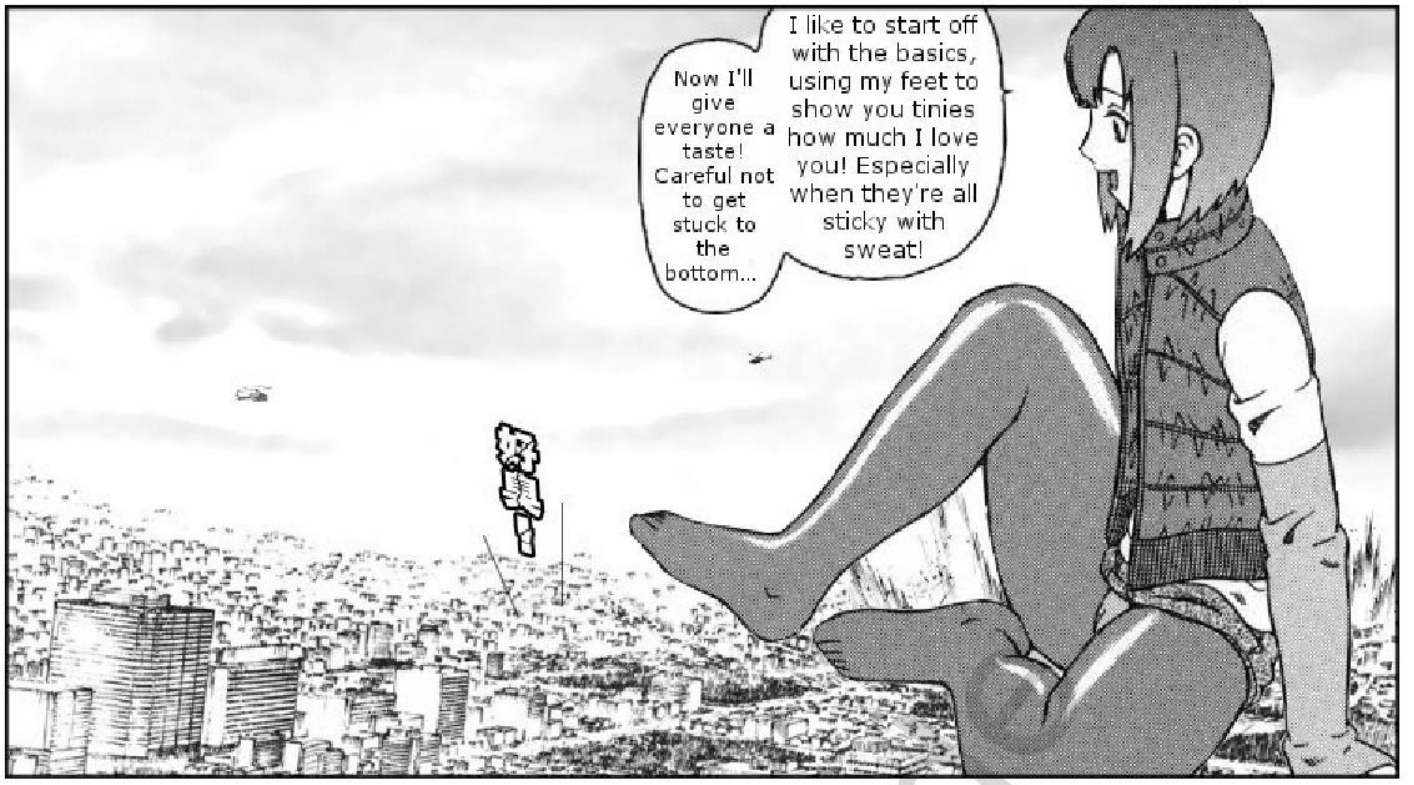
Aiya! Everyone is getting so excited! This could make me...



Here, my boyfriend said right here that I could do whatever I want!
Seeing how you guys look now, it reminds me of the last time I mercilessly trampled a city and ate up all of the little people!

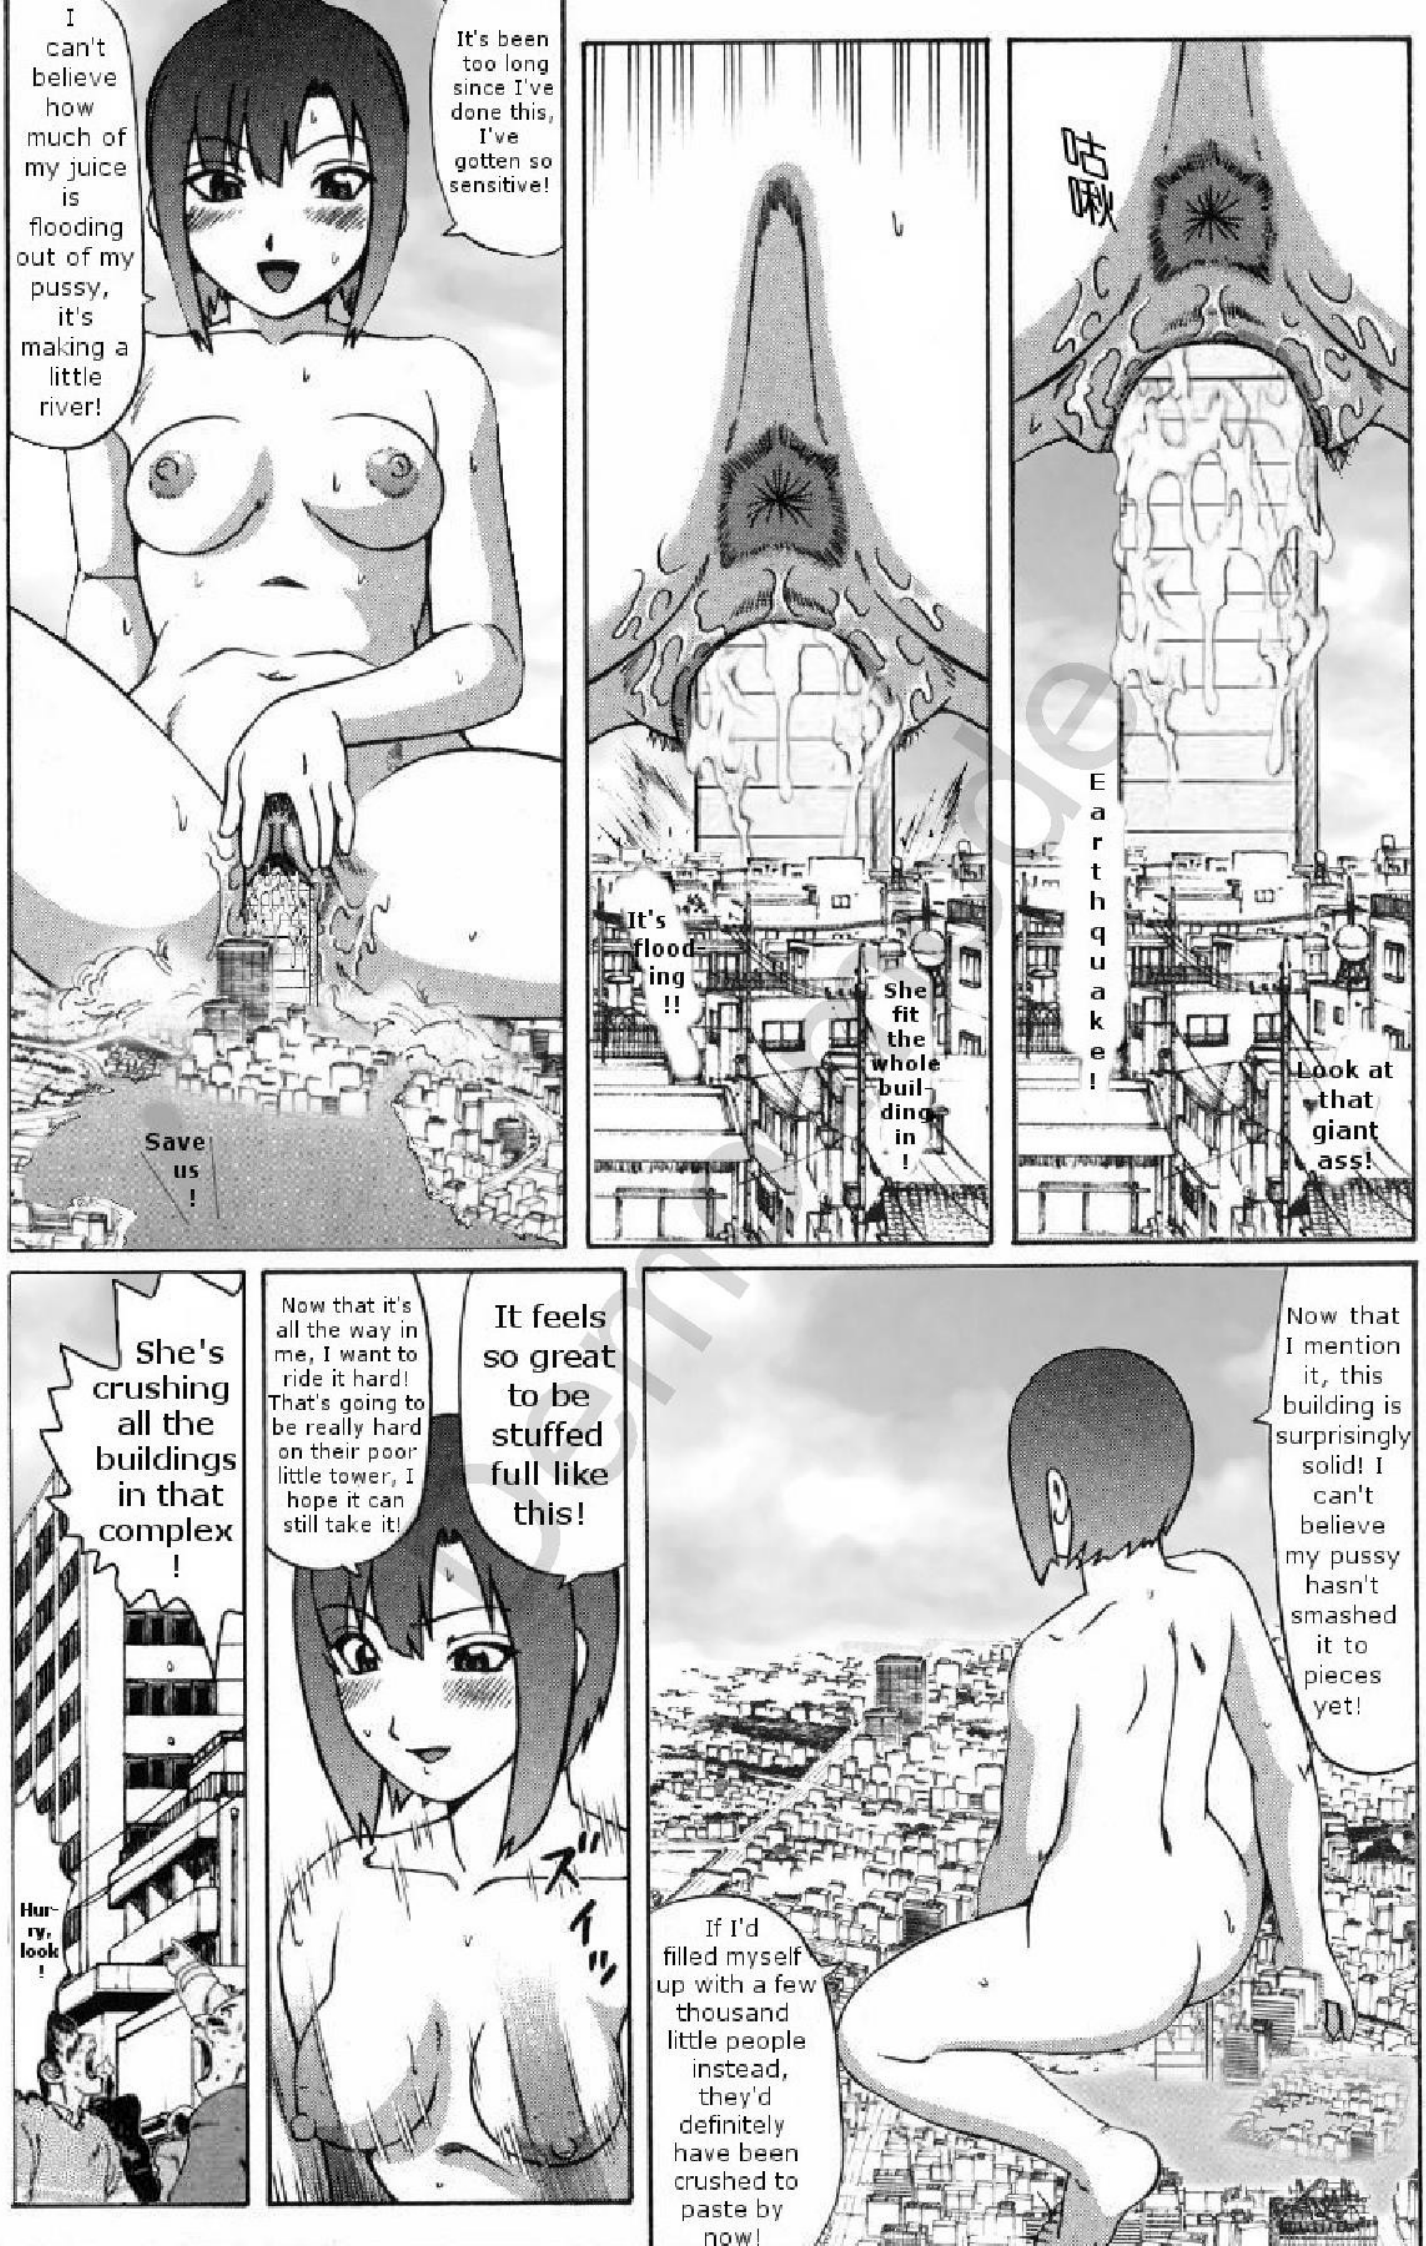
What is she talking about?
It sounds dangerous ...

I'm being washed away!
Is she spitting on us!?
ダラーッ
ムグムグ
It's no use, you silly little things! Just be glad it wasn't piss or your city would already be gone!
Hey! I can feel thousands of you little people struggling under my feet! Trying to hide in the seams along my toes?
Seems like [?] is just too big
Mo-ther!
Giant-ess!
Don't kill us!
Save us!



Ha! Can my giant toes really knock down so many of your little buildings? You guys are just too weak! How does everyone feel about my feet? All your little bodies are going to be stuck to the soles! If everything is this easy to stamp down then it'll be no problem to crush this whole city!
ﾌﾞﾞﾞ

let's review them, shall we?
I've just thought of some games I used to play all the time,
グイッ
To be honest, I don't think I can resist ...
Oh it's perfectly alright!
Waaa!
Hurry, escape!!
Seeing you hide in that perfect building... you must want to be there when I mount?
I know you guys aren't so naive as to think this will stay innocent just because I'm still bundled up!
スルッ
Please don't...
ズイッ
Look at that!
What's she doing!?
Let me get this thing nice and slippery first...
Ha! I bet there's half a thousand of you little bugs hiding in this building, right?
シコシコ
Earthquake!
It's going to collapse!
If you haven't run away yet, don't bother. My pussy's already so wet, I'll just flush you out in a minute!
Wow, it really has been too long since I've done this... I'm soaking wet just talking about it!
Can you see my pussy? Your little skyscraper is going inside!



I can't believe how much of my juice is flooding out of my pussy, it's making a little river!
It's been too long since I've done this, I've gotten so sensitive!
Save us !
It's flooding !!
She fit the whole building in !
咕啾
Earthquake!
Look at that giant ass!
She's crushing all the buildings in that complex !
Hurry, look !
Now that it's all the way in me, I want to ride it hard! That's going to be really hard on their poor little tower, I hope it can still take it!
It feels so great to be stuffed full like this!
Now that I mention it, this building is surprisingly solid! I can't believe my pussy hasn't smashed it to pieces yet!
If I'd filled myself up with a few thousand little people instead, they'd definitely have been crushed to paste by now!

チャリン
ピッ
Oh that's right, didn't this all start because I had a date?
No waaay! Who could be calling me now?
ブルブル
ブルブル
ブルブル♪
Hm? Well, it's just that this area is undergoing some recons-truction
and the building is... it's... it's broken, that's all.
ズルルル
クチュ
クチュ
Ah, darling! Are you finished? You're almost here? Only three minutes more?
Oh, me? I'm... I'm... just killing time!
Oh, and could we meet some-place else?
Let's meet in the next town over, how about it? Hm? Why meet so far away?
Well it looks like there are an awful lot of broken buildings in this area ...
Right! All of them could use some recons-truction!
