Afterword

Thank you for buying this comic and thank you for reading until here.

Many thanks to Hanzou-san who helped me with the backgrounds, and everyone who helped me with this.

It seems that somehow I was able to release another story this time around too.

I still don't know what I'm going to do next, but I'll practice more to be able to release good manga.

Well then, I'd be happy if we could meet again somewhere.
