

Taking orgasm control to a new level.

Let's share both frustration and bliss, together.
Sakura's storyline will resume, don't worry!
Enjoy this side-story in the meanwhile.

Let's make
this the
last one.
I prefer
to do my
research
alone.

I'm actually
sorry for
taking it this
far after
tricking
you into
assisting
me...

I started
coming
to this
secluded
lab room
about a
week ago...

The
experiment
requires
it to fit
tightly.
Nothing
else
matters.

It's
too
thick
f-for
my
ureth-
raaaa!

Ok, it's
set up.

Haa!
Haa...

あかい
紅唯まと
presents.

meow...

Take this
chance to
leave or
you're
going to
regret it,
trust me.

Ah, no!
Allow me
to keep
helping you,
please!

I have no
idea what
these tools
are for
or what
we're even
researching...
But I don't
wanna
lose our
relationship!

The pump can force me to ejaculate at regular intervals and collect whatever comes out.

Let's start with 1cc every 30 minutes, shall we?

Two rings, one around the base and one below the glans, which provide a constant vibration.

The "milking apparatus" was built from three components.

While simultaneously applying electric shocks to the prostate.

A plastic tube inserted into the urethra collected fluids internally

The electrodes regulate the power of the rings and tube, which means...

Sensors on the testicles are able to detect the amount of semen stored along with impending ejaculations.

Huh...? Where is this...

Haa...

Haa...

Haa...

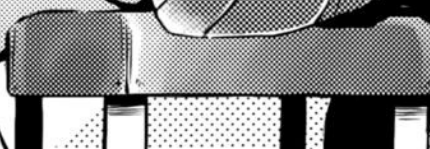

Maybe I talked for too long. Anyway, we'll finish up the last experiment here.

Ugh...

By the way, we'll be conducting our research here starting tomorrow.

I'm sure I'll find another assistant if you don't feel like helping me anymore... Ah.

Соня Снний
Карелник

She's a
t-teacher...
at MY
school?!

Some of our
students can
be complicated
to handle,
Miss Sonia,
but I'm sure
they're in
great hands!

...which means,
she'll be your
temporary
teacher while
still doing
research
for her PhD.

THE
NEXT
DAY.

Would our
kids have blond
hair like hers?
That'd be
so cool!

Russian
girls are
so cute!

Hey, wanna
leave this place
and have
some fun?!

**FIRST
OF ALL,
NO WHIS-
PERING
IN MY
CLASS-
ROOM!!**

This one looks
like the leader.
I'll teach you
how I do things!

She's
really
super
cute!

Eeeh?!
Wh-what
the hell
is she
doing?!

...

This place
is minutes
away from the
classroom...
Besides,
I come to
class every
day!

Don't
say that...
Please,
keep using
me for
your experi-
ments!

I see...
So you're
a student
here.

Then the
experiment
ends now.
I have no
intention of
furthering our
relationship.

This will keep
your dick in
a state of
constant
ejaculation.

I've lowered
the vibration
and shocks
even more.

Ah!

Let's see
if this
changes
your mind!

The non-stop
repetition of
the moment
of climax
feels good,
but it's also
quite painful.

Huhu!
Do you
like it?
This is
how being
milked one
droplet
of semen
at a time
feels.

My class
is next.
You'll attend
like that.

I tried resisting,
but... the
precise stimuli
make me cum
without fail...!
I'm gonna get
milked forever!!

Ah! Ah!

はあ...
はあ...
はあ...

Ah!

This... this
pleasure...
It gets
better every
second and
it just keeps
going...!!

Ah!

Ah!

Cumming...
I'm cumming!
It's not
stopping!!

Ah!

Ah!

She knows
everything about
my non-stop
orgasms... It's
so embarrassing!
I wanna die...

It's probably
stupidly late
to ask, but...
what's the
point of this
experiment,
Sonia...?

Ah!

Ah!

Ah!

It looks like
she's keeping
an eye on my
ejaculation data
on her PC.

Ah!

What's
going on?
I'm
registering
an increase
in the
semen
amount.

Does
doing
this at
school
turn
you on?
Sicko.

Oh crap...!
Other
people are
noticing!!

Hey, you're
shaking and
your face
is red!
You ok?

Whispering
in class?
Should
I write a
note for the
principal?

What's
this?

Uh...!
Under-
stood...

...I still
wanna do
this if
I can be
of help!

We should
really stop...
before
I ruin your
life forever!

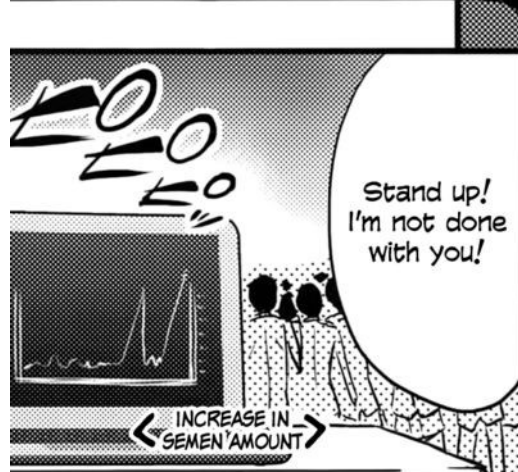

...interesting.
Then stand up,
spread you legs,
and put your
hands behind
your head!

Is t-this
ok...?

Whipping
won't fix
retardation,
sadly. You
can all learn
from this,
boys.

Stand up!
I'm not done
with you!

INCREASE IN
SEMEN AMOUNT

YUP!

THAT'S
RIGHT!

Ejaculating non-stop should've taken a toll on your mind as well. We should stop, yes?

Did that beat some sense into you?

...what you really want?

No, I understand. I do. Is this...

B-but I really want to be with you! And my desire grows stronger with every time I see you on tv or in books...!

...and yet, your semen excretion has increased. At least your little friend is honest.

Wha-?! Please don't do that!!

Yeah, but....!

You're a terrible liar... Only losers from my country read my books, and, of course, I've never been on television.

That's not it!!

So you thought you'd take advantage of my small build and dislike of crowds to fuck me, right? That's twisted even for a teenager.

I had heard that Japanese liked fair-skinned westerners like me.

カッ!!

ちゅ♡

ちゅ♡

おっ♡

You were crying again, Sonia...

W-W-W-WHOA!!
WHAT ARE YOU DOING?!

And now I finally understand why you cry when you do...

When you can't avoid being by yourself...
When you see people having fun and walking by...
Whenever you push someone away from you...

When you're lonely...

You don't want your loved ones to be hurt because of your research...
That's why you avoid people!

I learned about this watching foreign news...
About all the times you were kidnapped or a victim of arson.

It's so that no one else gets hurt by the attacks directed at you, isn't it?

And that's probably because you publish all your results openly and to the public... You get a lot of heat for that.

...don't study me. It's pathetic.

But... I think that's a line no one should cross...

I respect your integrity. You keep researching even after having isolated yourself.

Tsk... You hope to understand me with half-assed speculations...? You're just...

You can keep using violence and abuse as shields, but I know why you want to be alone.

And I...
I don't
wanna
see
them
anymore.

Tears of
loneliness
hurt way
too much.

So please,
can we do
it? We'll
research,
you and...!

Haa!
I want to
become your
assistant once
I graduate!
I'll study and
learn to do
everything
needed of me!
Some might
hate me for
this choice,
but I won't
regret it!

But
they
don't
hurt
anym-
ah!

Huh?
Ah, yeah...
They're
whip marks
from
earlier.

Ah
...!

These
...

??
??
??

70 4
70 4

Ah...
Her tits
are right
in front
of me...
I wanna
lick them
again...

need
to
keep
my
voice
in
check...

Her
little
fingers
closing
around
it...

I really
feel like
bullying
you!

C- CAN
I ?!

Go ahead
if you
wanna
touch 'em.

I won't
fight
it this
time...

Look at you:
sucking like a
hungry baby
even though
nothing
comes out.

You were
looking at
them so
greedily that
I thought...

I...

I prefer them small.

I'm sorry
I don't have
bigger, more
womanly tits.

They
must really
turn you on
considering
how focused
you are.

Aa ahh!!

3333...!

No more of
this!

I have
enough
data...

Haa

Haa

Sonia,
what's
wrong?

Hm... I've never done this before, but it seems pretty easy.

Ok then, I have a task for you!

I'm gonna shoot out too much all together!

Aaah!! Please don't stroke it now!

That thing was playing with you for ages...

So why are you screaming now?

EEH?!
oo

You can't cum until I say you can!

Show me how long a man can resist without cumming!

Is your willpower going to be enough?

UUH...!

NNNGH...

Sonia...!
I'm really
gonna
cum!
I'm...!

Aaah!!
Sonia...!
I can't
take any-
more...!

I don't
wanna...
leave you!
Sonia...!
Soniaaaa!!

Uun
ugh!!

Well, it will last only a few seconds in its current state.

But I'll publish the research as soon as it's efficient enough!

Can you believe the whole school is being powered by your semen right now?

It's on!

Yeah... About that... This is more of a question than a complaint...

Research on new energy sources is often the target of sabotage, but the world will know about this regardless because the news... Just loves obscene topics!

IT'S AMAZING!!

YOU CAN GO HOME, ASS-HOLE!!

But if you don't want it...

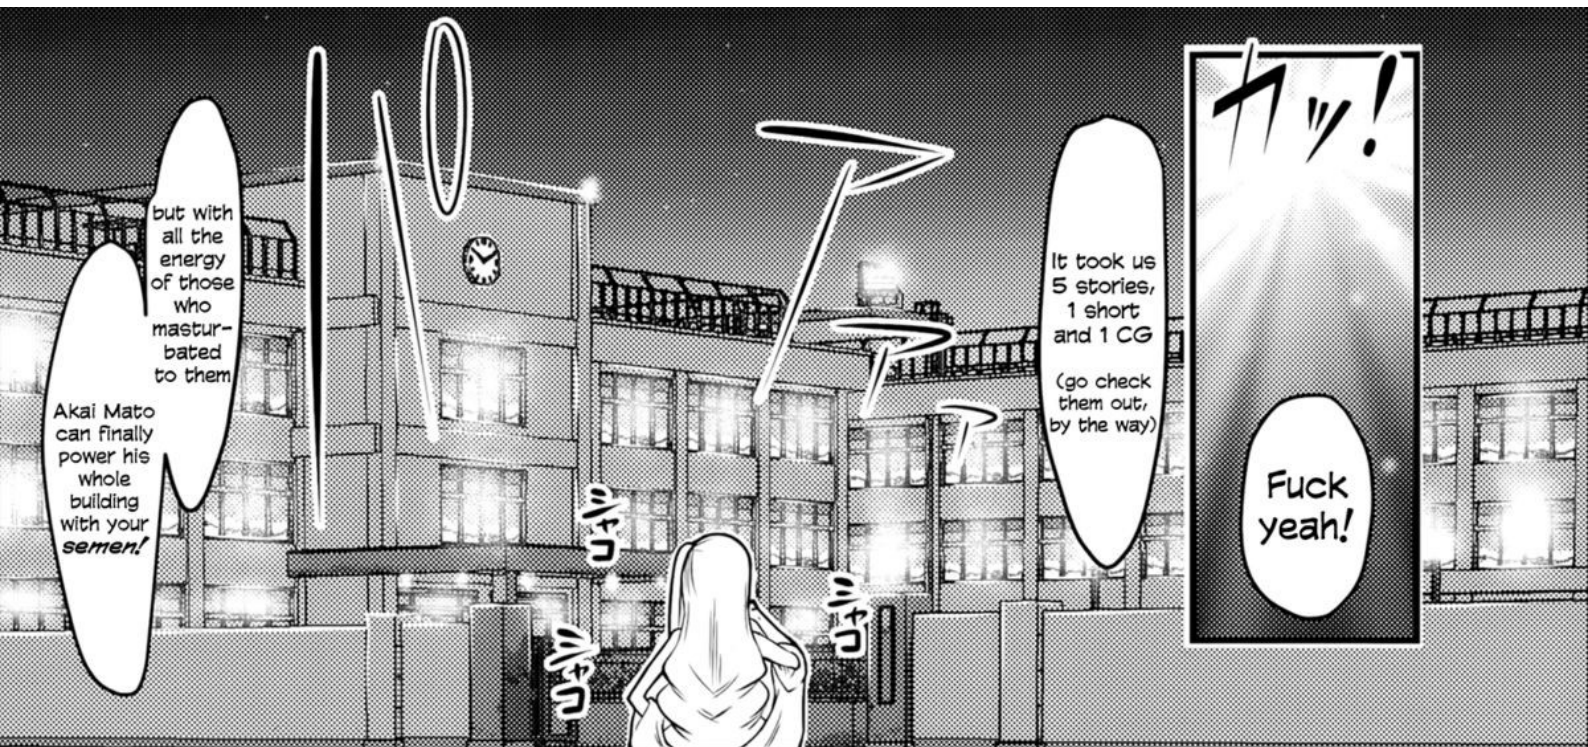

You're the one who said you wanted to be next to me. That's just to keep you safe! That's the reason for the heavy armor....!!

It's really hot in here... And you're making me wear the pump, too. It's all sorts of uncomfortable, and...

Is there a reason for this robot?

...I won't. I told you I'll always be right next to you!
