Liberty Mansion's Landlord

Ioya Gonzaburou (62)

For those who are first meeting me nice to meet you
For those who remember me, it's been a while!
This is the Muscle Lover, Muma.

This time I took the reluctant assistance of Migiri-sensei in
helping me make a returning work after being absent for 7 years.
I'm very thankful for his assistance.

On top of that we both took up the task of drawing
each others characters. I'm very grateful of his open
heart that he would give me this opportunity

The stage this time is Liberty Mansions where the landlord
Gon-san toys with the 99 or so men living there, and at times
Gon-san himself is taken advantage in these erotic apartments.

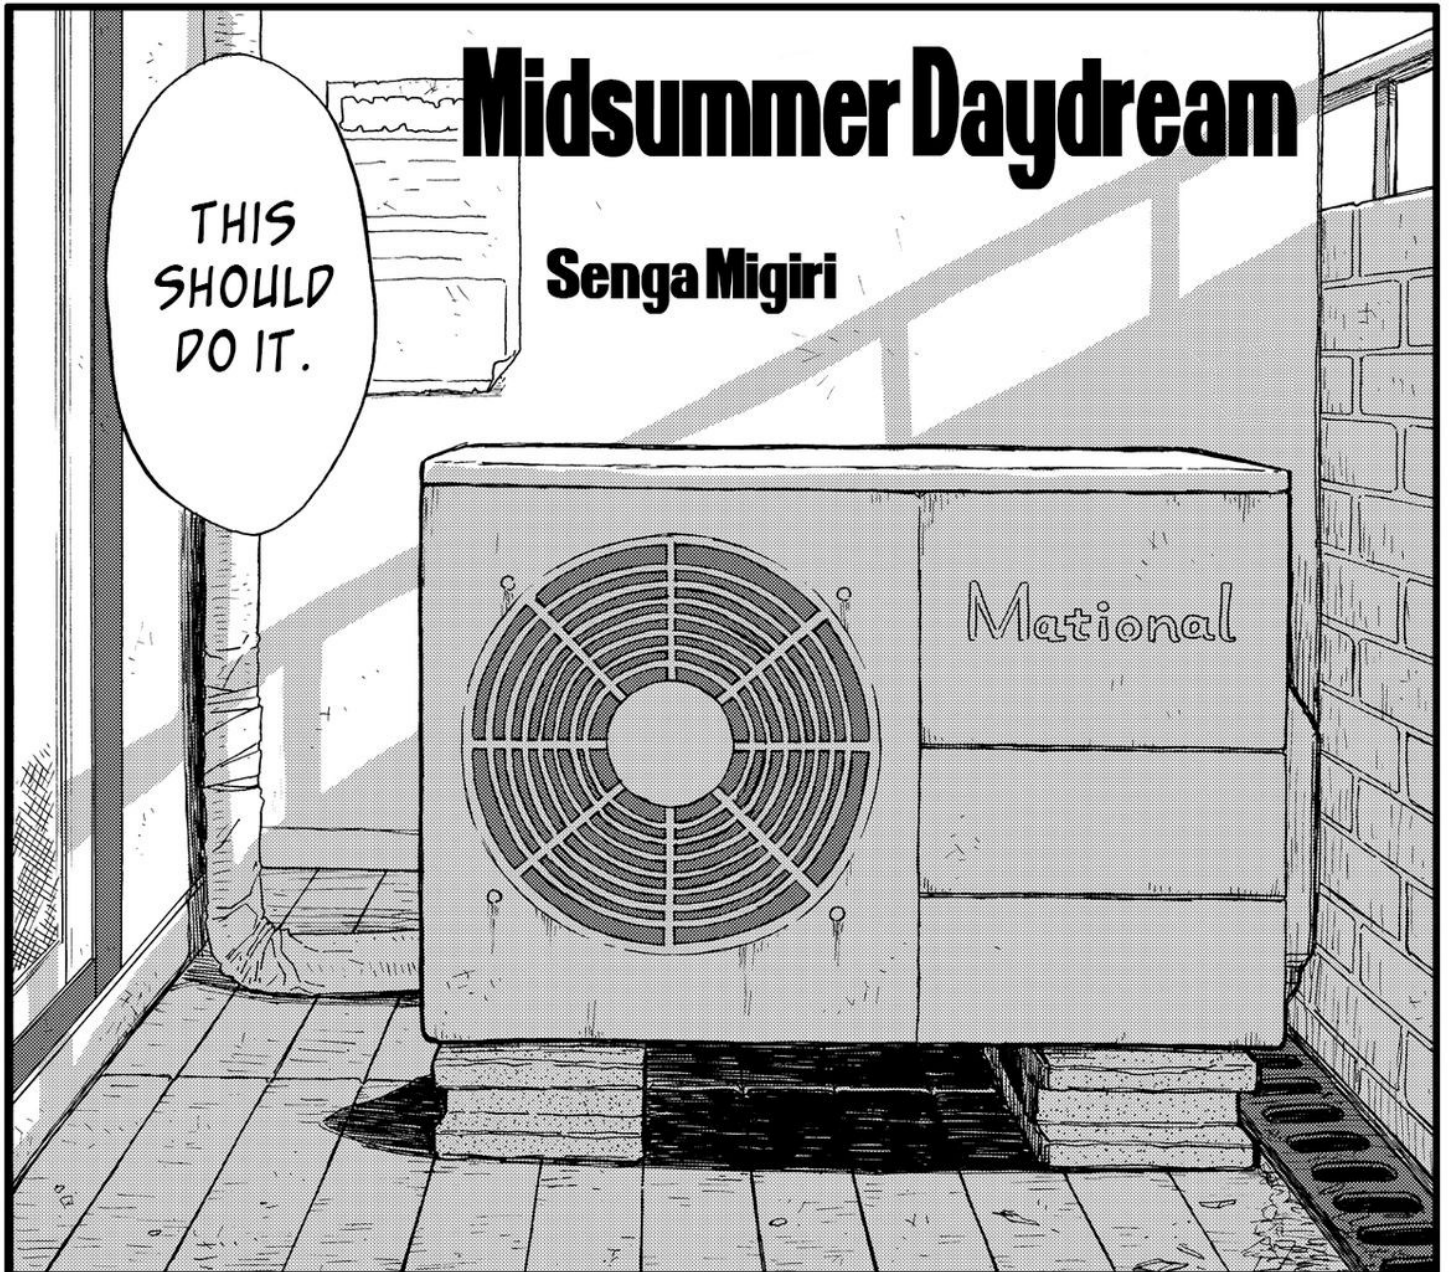

I wonder what other exciting situations will happen with
the other residents? I hope you look forward to it.

We're open for new residents as well.

END

Thank you for picking up Midsummer Daydream, this is SengaMigiri. This book started from me and Muma-san chatting on a certain SNS board.

Let's release a book together, what should we draw?

How about something with apartments?

So with that we started designing the landlord of the apartments.

We then drew our own characters that lived in the mansion and their own stories.

The name of the apartment Liberty Apartments, came from Muma-san. This isn't intended to be any connection to my previous game The M Apartments that I released earlier.

I just happened to use the same font for the name as well.

The character I made up randomly Hinoto Tadashi is an officer worker but he is the main character of my next game Species and Chimera. But of course this manga has no connections to that game at all.

It took me awhile to settle on a solid design for Hinoto's face so I went for something different than I usually did.

Honestly it might even change again by the time the game is released.

So with that thanks to Muma I hope you enjoyed this book with men and their big chests!

Thanks again!

Senga Migiri.
