PRACTICALITY OF THE "V"

FINAL REPORT DOCUMENTS

TOP PRIORITY
CONFIDENTIAL
DOCUMENT

FOR AUTHORISED EYES ONLY

本書は、美容業界に新たな一頁を刻むものとして企画開発された生物の、実用に向けての報告書類を抜粋したものである。

そもそもの発端は、数年前から国内でも実用例のある“ガラ・ルファ”という魚の存在である。鯉の仲間、雑食性、温泉などのような比較的高い水温環境でも生存可能だ、というこの魚の最大の特徴が、生後二ヶ月から二年近くの期間の習性で、人間の古くなった角質を食べるというものだ。この彼らの習性は、生息地である国の一部では皮膚病などに対する医療手段として確立されており、その医療的効果の程とその存在は、先にも触れた国内での、それも娯楽施設での運用によって脚光を浴びることとなる。

“ドクターフィッシュ”と通称される魚がそれである。

そしてこの“生物による角質の除去”という現象に目をつけたのが、私の上司にして、のちに“V”企画開発室と名前を変えることになる商品開発課第二分室の真野という女性スタッフだった。部下の私がこう記すのもなんだがこの真野女史、折りに触れては突拍子の無いアイデアを思いつき、それを即座に実践するという特異な性格の持ち主で、そのアイデアという名の我が儘に私たちスタッフが振り回されてきた回数は枚挙に暇がない。

そんな彼女が、先に挙げた“ドクターフィッシュ”に触発されて今回提示したアイデアは、その奇抜さ、規模などを筆頭にあらゆる面で、最大級のものだと確信している。

“老廃物の除去吸収を習性とする人工生物の開発”

そう銘打たれた真野女史の提案は、一度聞いただけではもちろん、本人による説明を受けても非現実的に過ぎるとして当社役員会にて一度没案として処理され、部内では女史の火遊びの歴史がまたひとつ刻まれたというぐらいの認識ですべてが終わったと思われていた。

ところが彼女は諦めたわけではなく、それどころか、どのような人脈をもってたどり着いたのか、

“対象となるヒトを、その身体を傷付けることなく直接その体内に吞み込み、老廃物を吸収したのち体外に排出する生物”

を創り出すのに必要な情報、技術、さらにはそれに必要な人材の協力を確保したのち、その事実を役員会で発表したのである。

繰り返すが、真野女史はあくまで一介の女性社員であり、その彼女がいったいどのような糸を手繰り寄せてあれだけのお膳立てを実現させたのかは、未だもって謎のままであり、それについて詮索をするのは、私の社内的、社会的立場を考えると決して得策ではなく、ここでの言及は差し控えさせて頂くことをご了承いただきたい。

ともあれ、半ば事後承諾に近い形で彼女の提案は、『“V”企画開発計画』として、社外はもちろん、社内でも極めて限定的な人数しかその存在を知り得ない形で、具現化に向けて動き始めたのである。

そしてそれからの過程にも絵に描いたような紆余曲折があるのだが、それについては業務上、人道上の理由からここでは割愛させて頂く。

スポンサーとなりうる方々の目に触れるであろう本書において、このような隠匿めいた処置が適切でないという事は、当方としても重々承知の上なのだが、先にも述べた真野女史によって協力をとり付けた人々の中に、実名を含めた情報の一切の非公開を条件として本企画に協力を頂いた人々が多数いる事、さらにはその中に、世界的にも名の知られた人物が複数いることによるもので、決して自己利益の占有などを理由としていない事を、ここに強く言明しておく。

前置きが長くなってしまったが、次頁以降から“V=ヴァニス”がその運用に確証を得る結果を見せた実験をはじめとして、この文書を記す私も含めたスタッフが文字通り体を張った実験も含めた本企画の一端をご覧頂くこととなるが、被験体としてお目にかかる人物の中に、私に外見が非常に似通った少女がいることを始めにご了解頂きたい。人物認識に齟齬が生じるおそれがあるが、あくまで結果論であり、そこには何の因果関係も存在しない。

また、ヴァニスの老廃物の吸収行動の模様を本書内の随所でお目にかけられるわけだが、その様子を目にすることで気分を害する可能性があること、または精神反応に何らかの異常をきたすおそれがあることが考えられるが、それに対して当方としては本書の閲覧は自己責任であるとし、いかなる責任を負い兼ねるものをご了承頂きたい。

最後に、本書類の複製や転写及び第三者への譲渡はその一切を禁じ、その疑いがある者は当社社内規定に基づいて厳罰に処すものとする。

DIFFERENT CHANGES AND FEATURES OF EACH INDIVIDUAL FORM OF "V" DURING DEVELOPMENT.

• vanis— α

"V" REFERS TO VANIS, WHICH HAD A SECRET DEVELOPMENT TEAM THAT COMPLETED THE FIRST PHASE OF PLANNING AND DEVELOPMENT. THE VANIS HAVE KEPT THEIR NATURAL INSTINCT TO ABSORB NUTRIENTS FROM OTHER ORGANISMS. WE PERFORMED ANIMAL EXPERIMENTS AND FED IT A MOUSE, WHICH IT ALMOST COMPLETELY DIGESTED. WE ANALYZED THE CELLS FROM THE REMAINS THAT WERE DISPOSED FROM THE VANIS.

THE ORAL CAVITY HAS 3 FLAPS. IT HAS A ROUGH LUMPY TEXTURE ON TOP, WITH A SMOOTH RIDGED UNDERBELLY.

• vanis— β

IN COMPARISON TO ALPHA, SEVERAL IMPROVEMENTS HAVE BEEN MADE TO THIS VANIS, WITH AN EMPHASIS ON SAFETY, WHICH MEANT IT WOULDN'T DIGEST ITS PREY. AFTER A FEW SUCCESSFUL SAFE ANIMAL TRIALS, WE EVENTUALLY PERFORMED HUMAN TRIALS WHICH WERE A STUNNING SUCCESS, CONFIRMING THE SAFETY OF THE VANIS. THE ONLY ISSUE IS THE EERIE APPEARANCE OF THE VANIS. WE PERFORMED THE SAME TESTS ON THE RELEASED TEST SUBJECTS AS WE DID WITH ALPHA.

THE NUMBER OF ORAL CAVITY FLAPS INCREASED TO 4. MULTIPLE TENDRILS HAVE BEEN ADDED FOR EASY CAPTURE OF ITS PREY.

• vanis— γ

WE CONTINUED TO MAKE IMPROVEMENTS BASED ON BETA, THE PERFORMANCE AND APPEARANCE HAVE BEEN IMPROVED. AFTER A LOT OF HARD WORK, CHANGING THE GENETIC INFORMATION, WE MANAGED TO REDUCE THE LUMPS ON THE SKIN AND GIVE IT A MOSTLY SMOOTH BODY SURFACE, WITHOUT AFFECTING THE PERFORMANCE OF THE VANIS. THE VANIS ARE SHOWING MORE SIGNS OF INDIVIDUAL PERSONALITY WITH EACH VERSION. THIS VANIS IS TO BE STRICTLY KEPT IN STORAGE ROOM V-003.

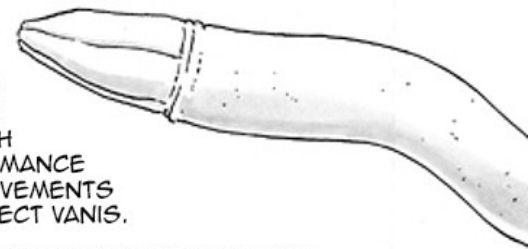

THE APPEARANCE OF THE BODY HAS GREATLY CHANGED SINCE BETA, AS WELL AS THE REMOVAL OF THE TENDRILS.

• vanis— δ

AFTER MUCH HARD WORK, EVEN FEELING IMPOSSIBLE AT TIMES, IT IS POSSIBLE THAT WE MIGHT HAVE FINISHED DEVELOPMENT OF VANIS. THE BODY IS NOW COMPLETELY SMOOTH, REMOVING ANY UNEVENNESS, WHILE MAINTAINING THE SAME PERFORMANCE AS THE PREVIOUS VANIS. IT WAS THOROUGH RESEARCH AND DEVELOPMENT, AND TESTING THE PERFORMANCE OF EACH INDIVIDUAL VANIS AND MAKING IMPROVEMENTS WHICH LED TO THE COMPLETION OF THIS PERFECT VANIS.

IT LOOKS VERY DIFFERENT COMPARED TO THE PREVIOUS VERSIONS, WITH ITS COMPLETELY SMOOTH SKIN AND 5 FLAPS. THE UNIQUE PERSONALITY OF EACH OF THIS VANIS LEAVES A SOPHISTICATED IMPRESSION.

“experimentation”

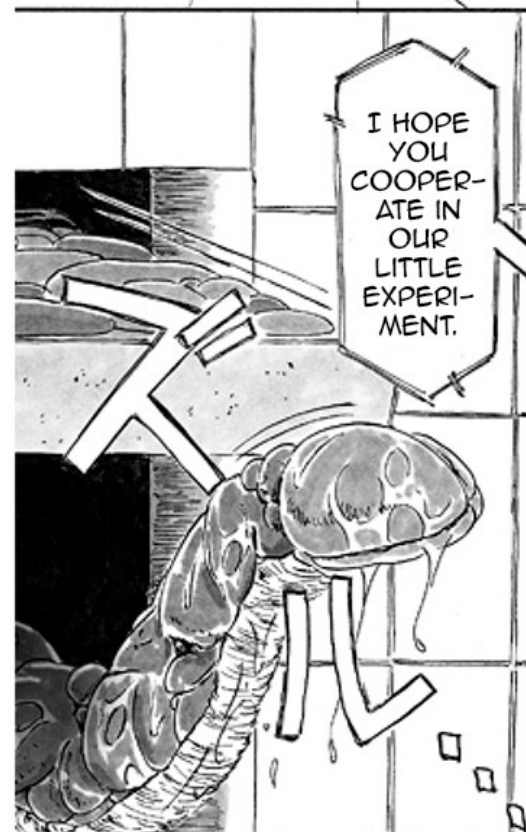

OH MAN,
LOOK
WHAT'S
HAPPENED.

!?

...
MH
...

I HOPE
YOU
COOPER-
ATE IN
OUR
LITTLE
EXPERI-
MENT.

I THINK IT
WOULD
HAVE BEEN
BEST IF
YOU STAYED
ASLEEP.

OH WELL,
IT'S TOO
LATE NOW.

NICE TO
MEET
YOU~

...
!?

THAT IS
A STRICT
ORDER.

YOU'RE NOT
ALLOWED TO
MISS A SINGLE
BIT OF DATA.

NOW THEN,
WE GET
TO WITNESS
VANIS SWALL-
OW A HUMAN
FOR THE
FIRST TIME.

N-NOT REALLY...

I HAVE NO
INTENTION OF
DOING THAT...

OH, THEN
INSTEAD OF
THEM, WOULD
YOU LIKE TO
TAKE THEIR
PLACE?

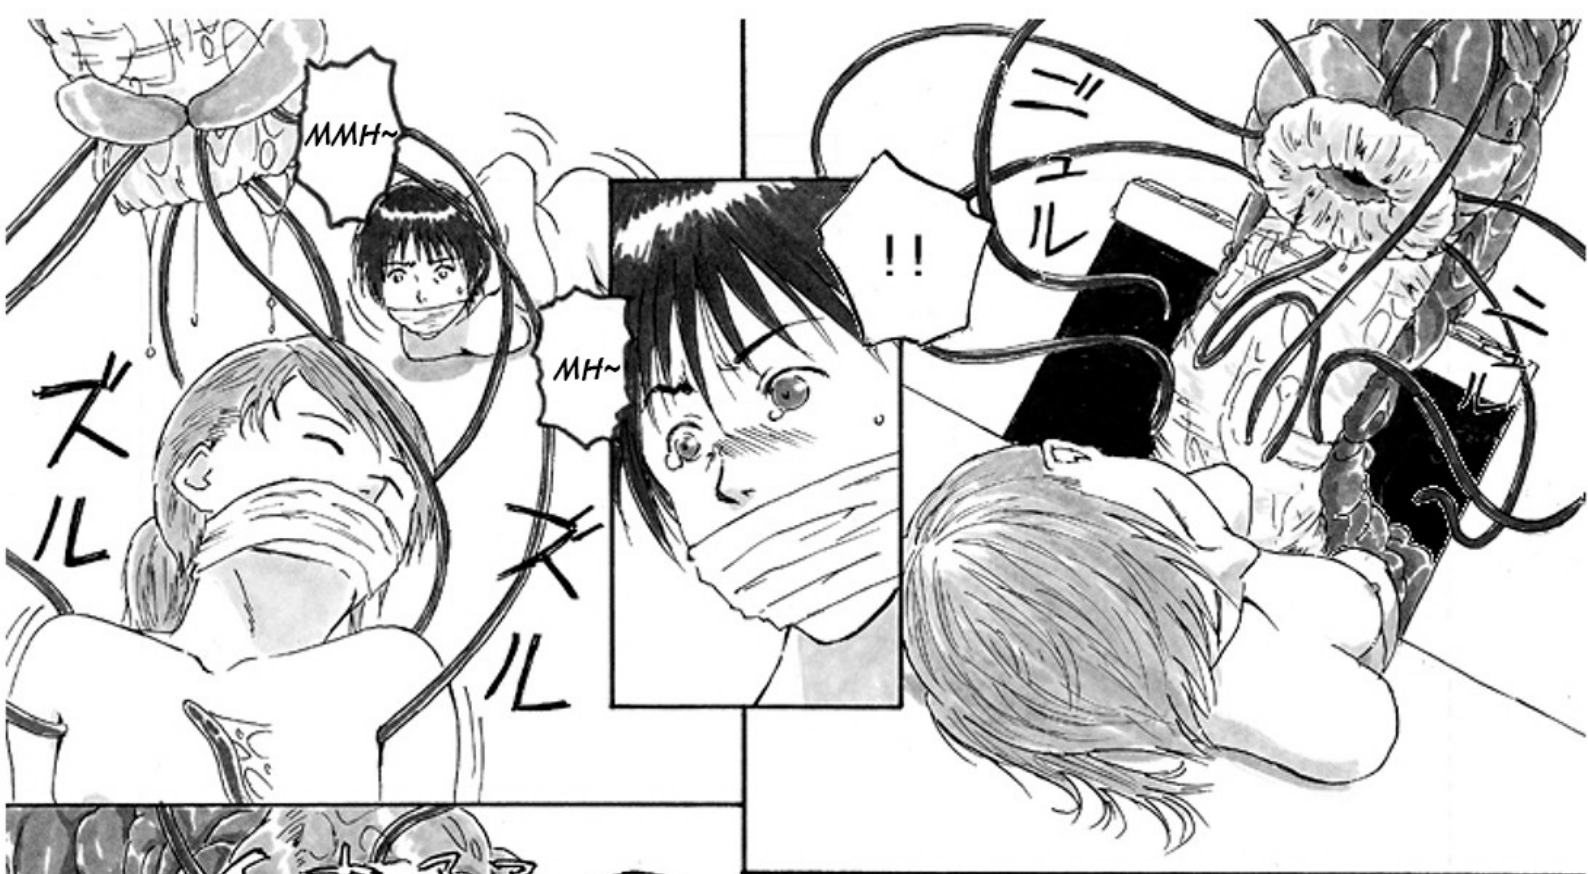

I MEAN,
WE KIDNAPPED
THESE GIRLS
AFTER SCHOOL...

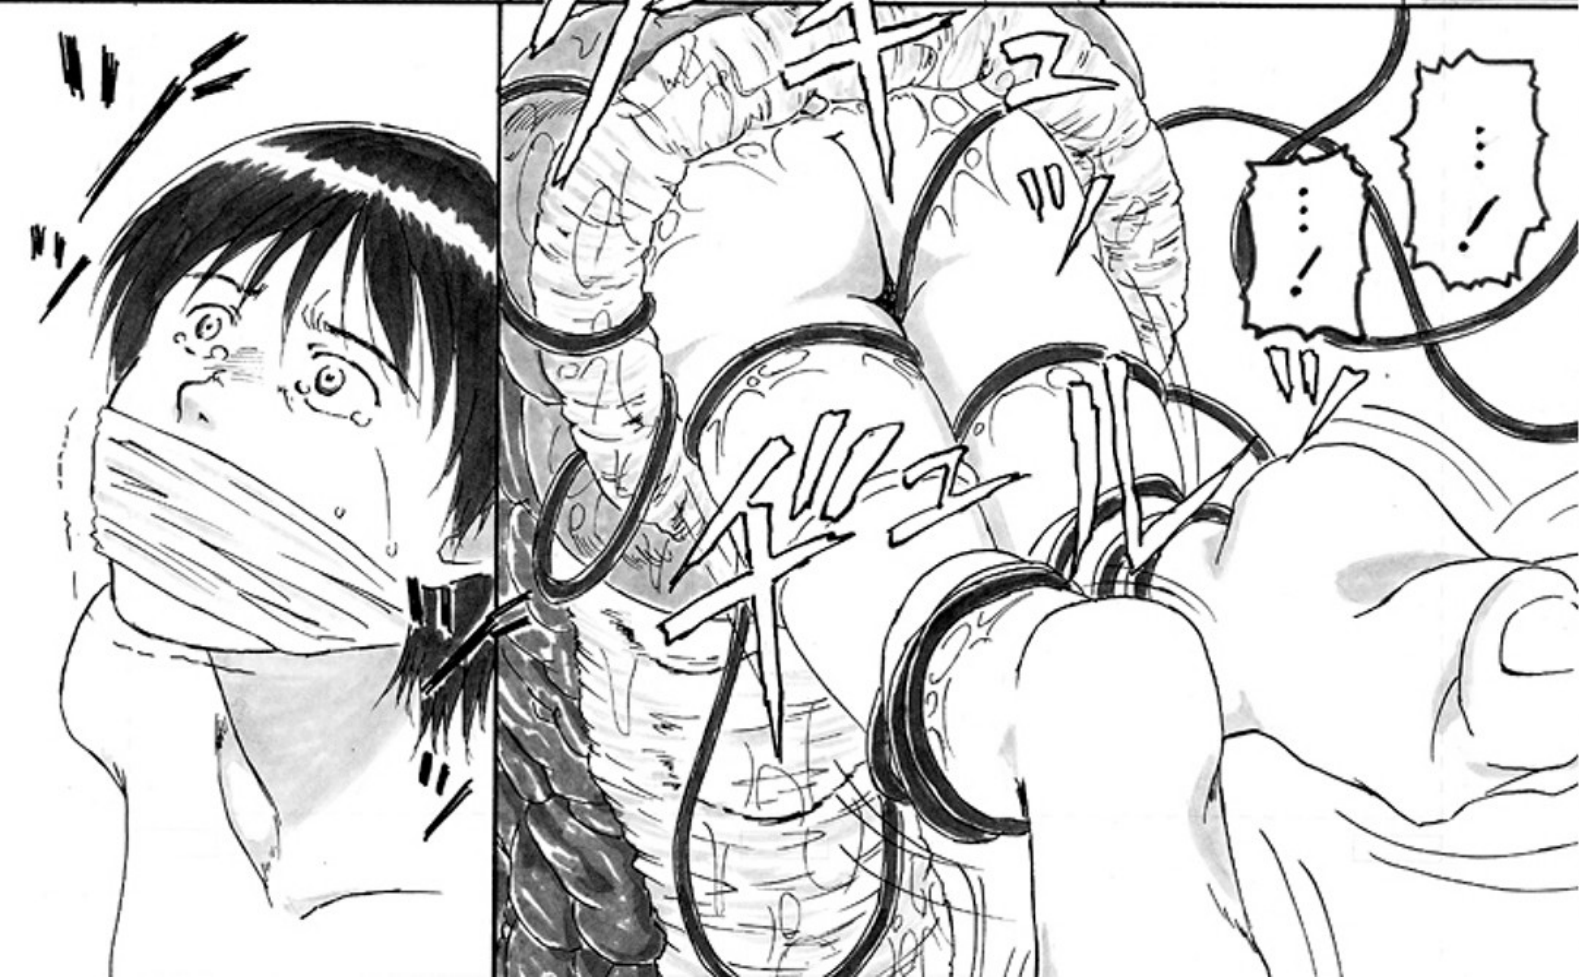

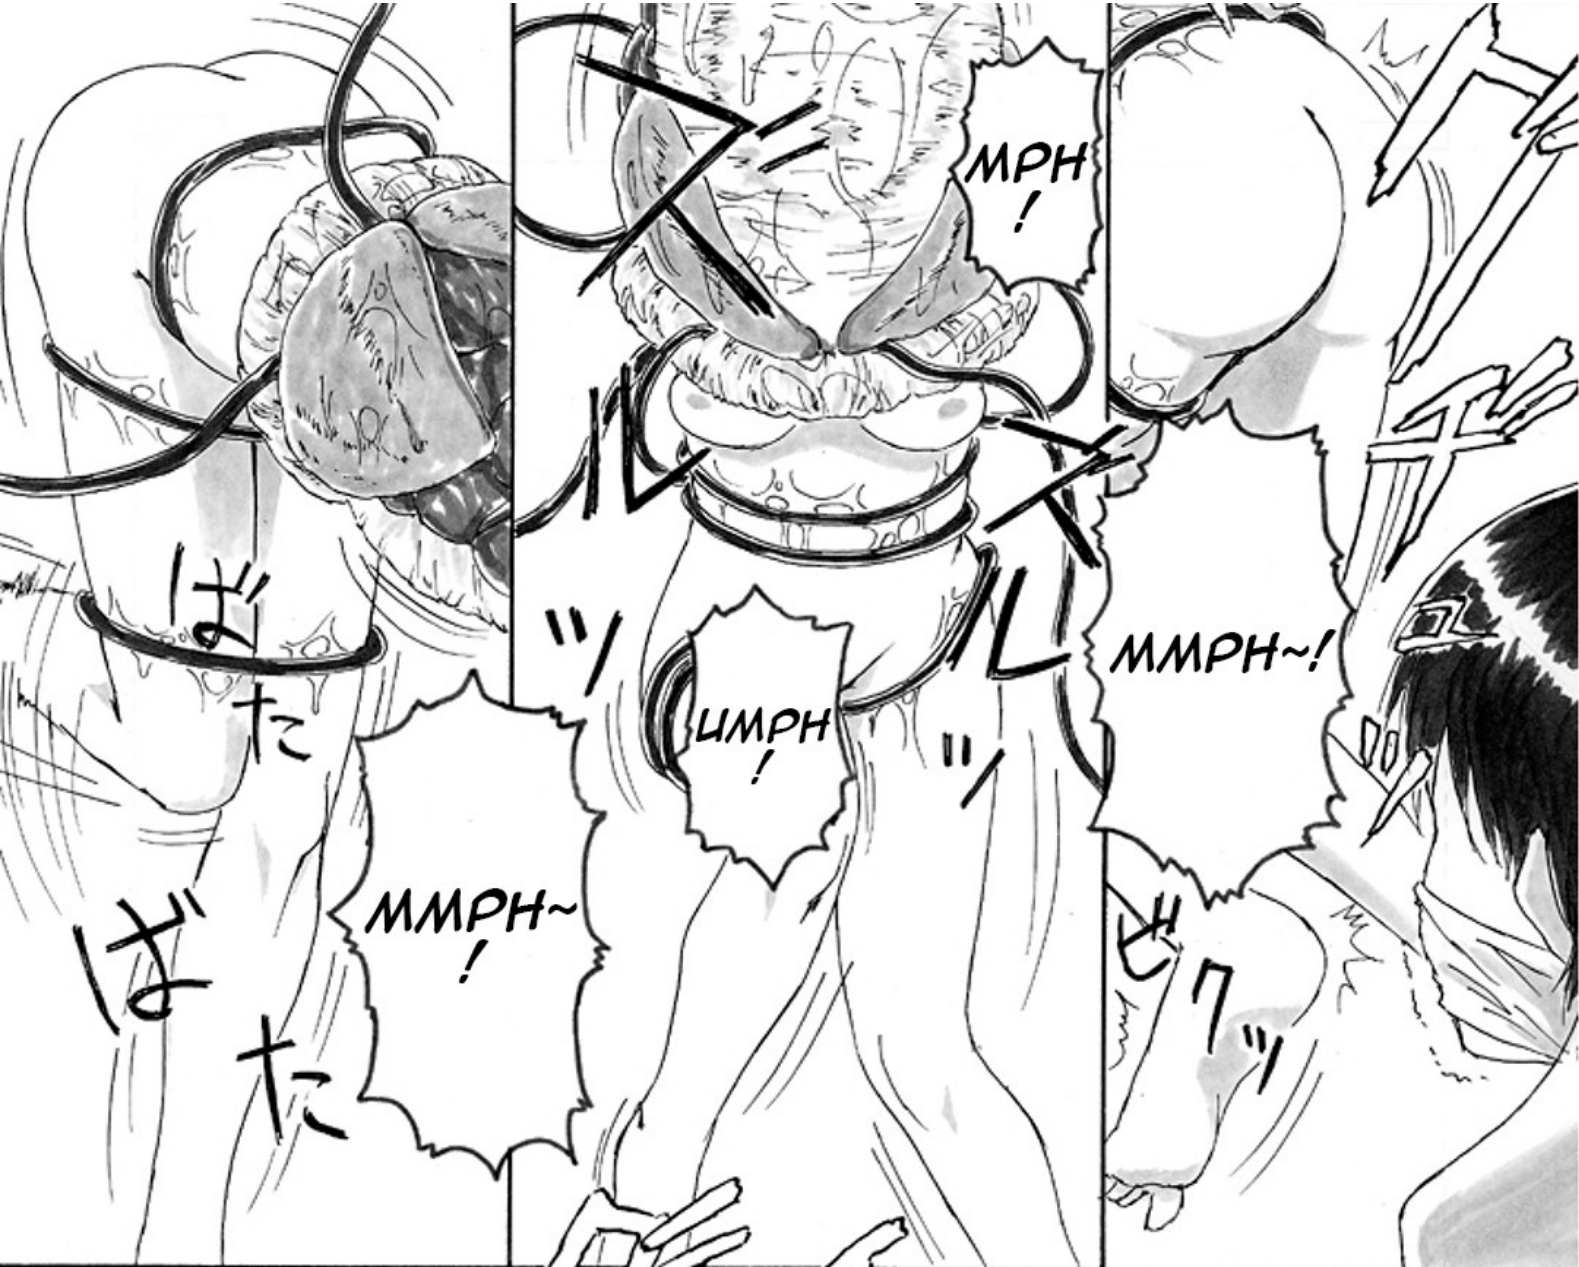

B-BUT...
IS IT REALLY
OKAY TO BE
DOING THIS...?

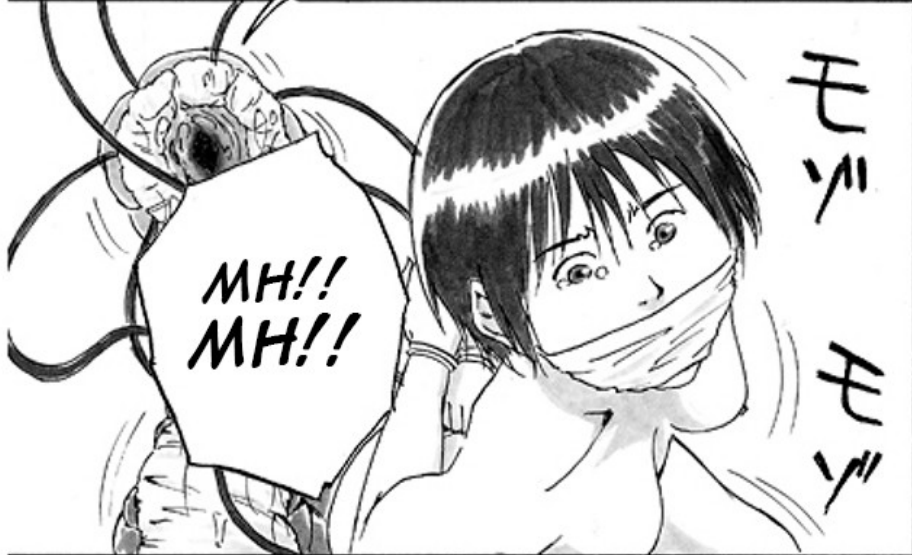

I'M COUNTING
ON YOU
YURI-CHAN.

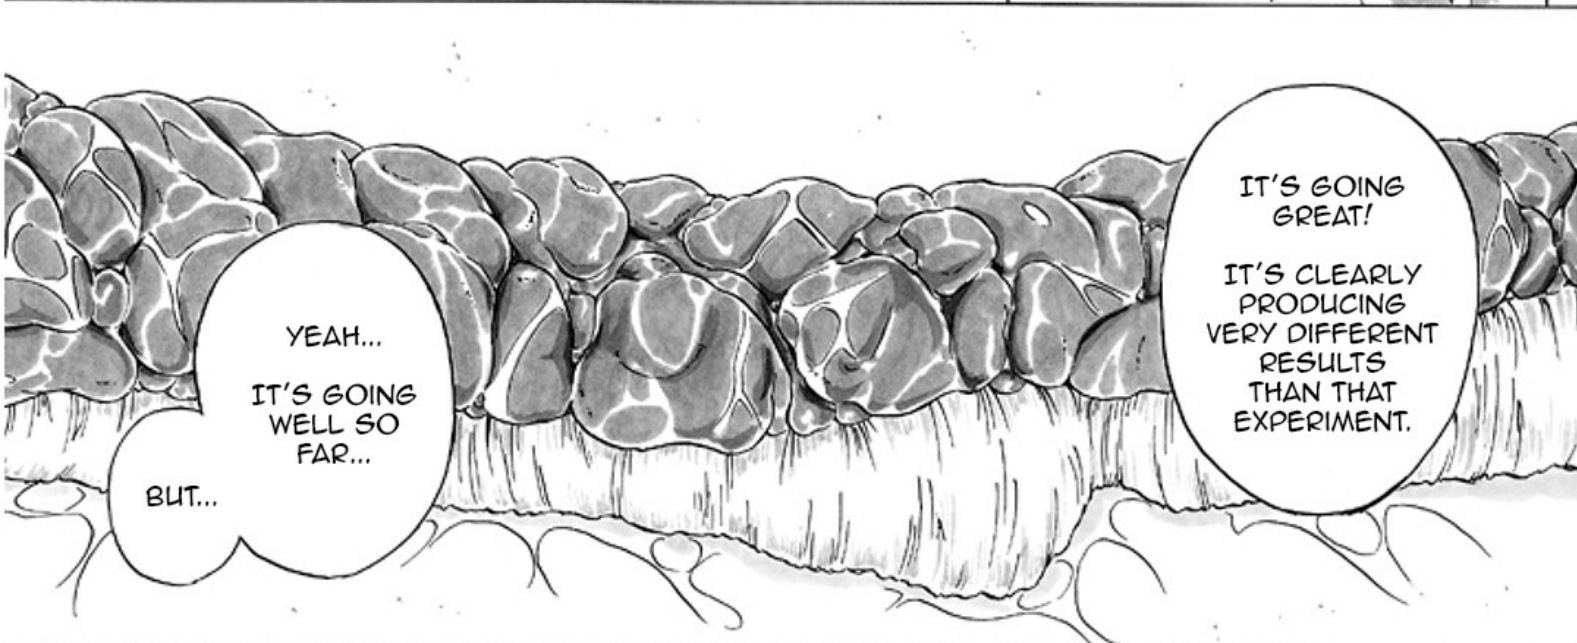

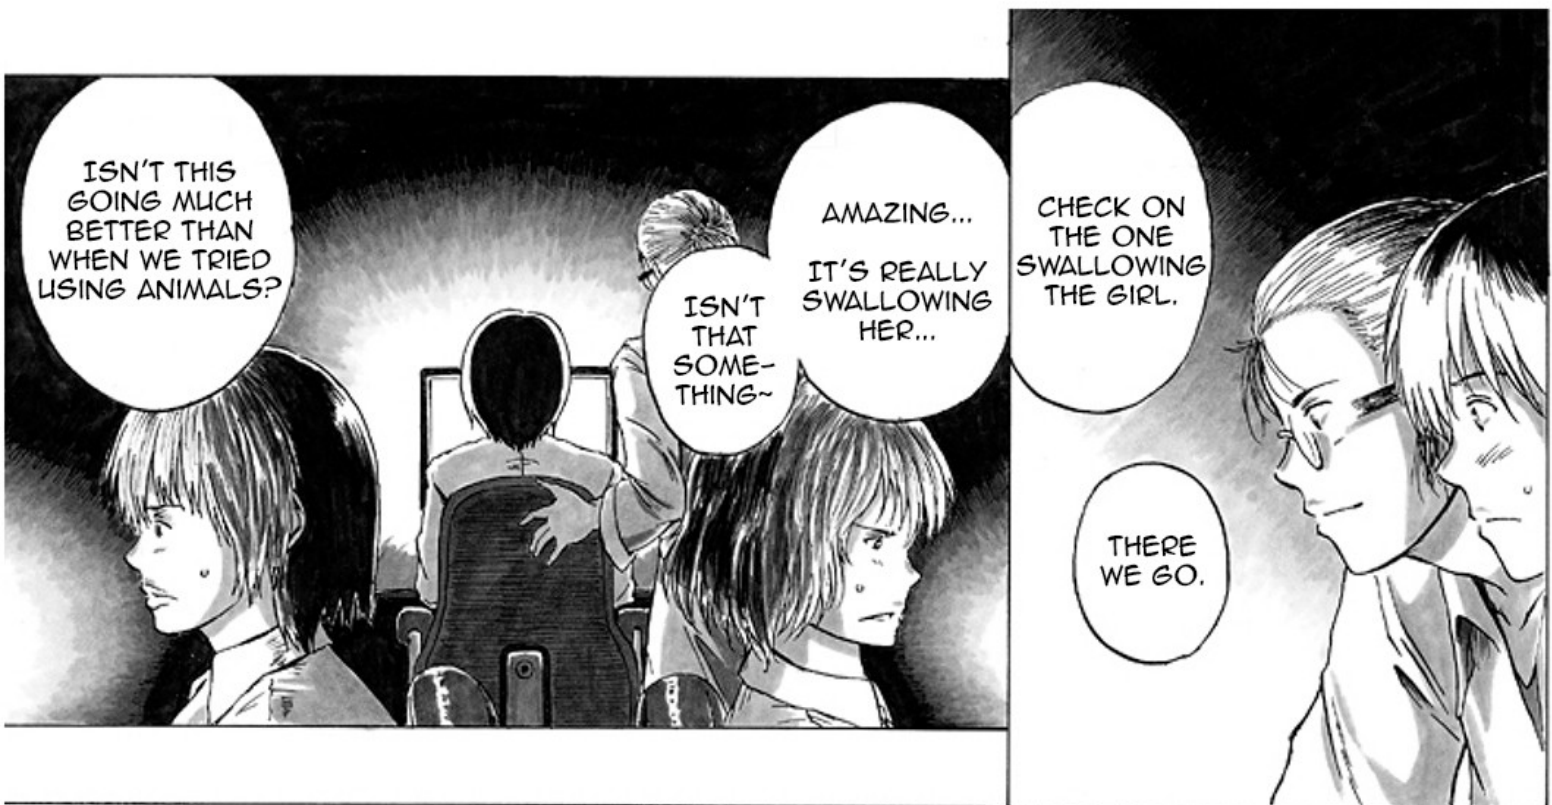

U-
UNDER-
STOOD
...

IT'S ABOUT TO
BEGIN.

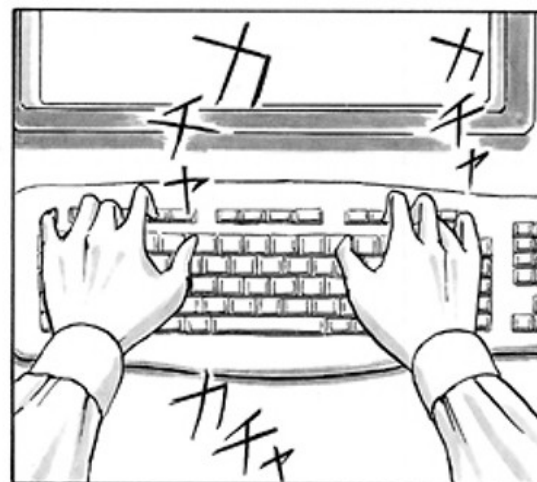

カ
チ
ヤ
カ
チ
ヤ

IT'S SWALLOWED
A WHOLE HUMAN,
I EXPECTED A LOT
MORE SWELLING
AND BULGING...

WITHOUT
EVEN
REALISING
IT, THE GUILT
I HAD FOR
THE GIRLS
DISAPPEARED.

IT'S BEEN 48
HOURS NOW,
SINCE SHE WAS
SWALLOWED...

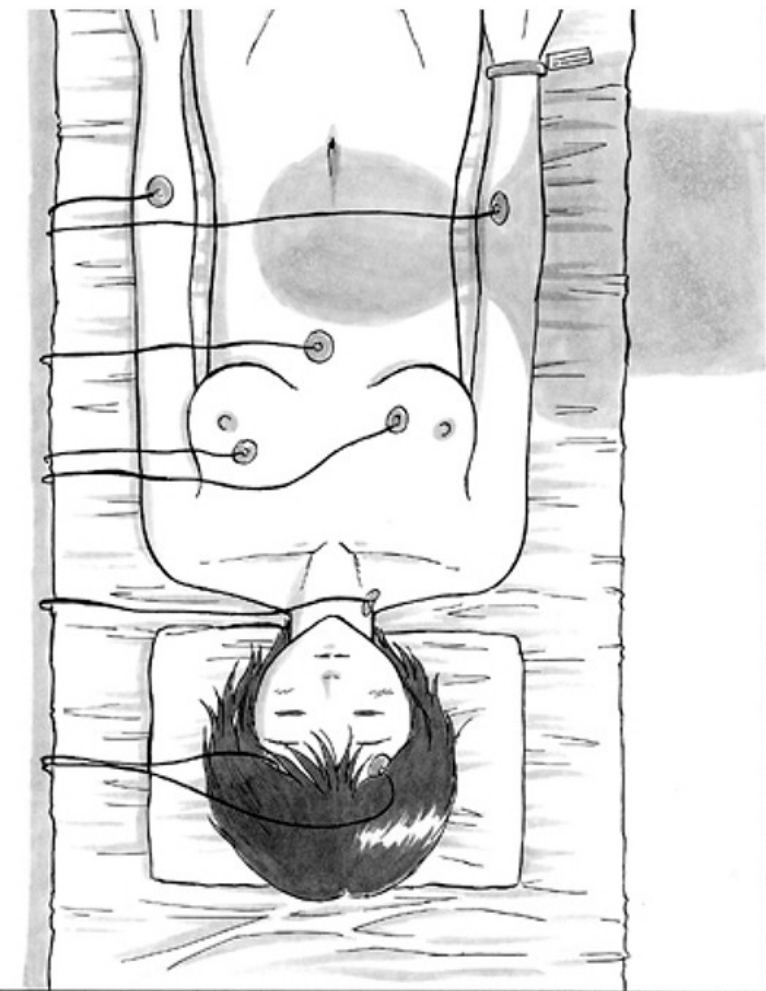

THAT'S A
NICE BONUS.

SHE'S STILL
ALIVE.

OH, HERE SHE
COMES,
HERE SHE
COMES,

ム
リ
エ
ッ

THE NUMBER
OF EXPERIMENTS
IS REALLY
GOING TO PILE
UP NOW.

THE FIRST
EXPERIMENT WITH
HUMANS AND
THE VANIS HAS
PROVED THE
GUARANTEED
SAFETY OF THE
SUBJECT.

THE ONLY ISSUE
NOW, IS THAT WE
HAVE TO FIND A
WAY TO SECURE
MORE PEOPLE
TO BECOME
TEST SUBJECTS.

“presentation”

MY TURN
HAS FINALLY
COME~

← STORAGE ROOM 001 ~
STORAGE ROOM 01

INTERIM REPORT #3

2011/04/02

"V" REPORT BY THE PLANNING DEVELOPMENT OFFICE CHIEF,
MANO RURIKO.

AS YOU CAN
SEE FROM THE
PARAGRAPHS IN
THE HANDOUTS.

THESE ARE IMAGES
OF THE EXPERIMENT
CONDUCTED 2 DAYS
AGO, I WILL BE
SHOWING THEM TO
YOU WHILE GIVING
COMMENTARY.

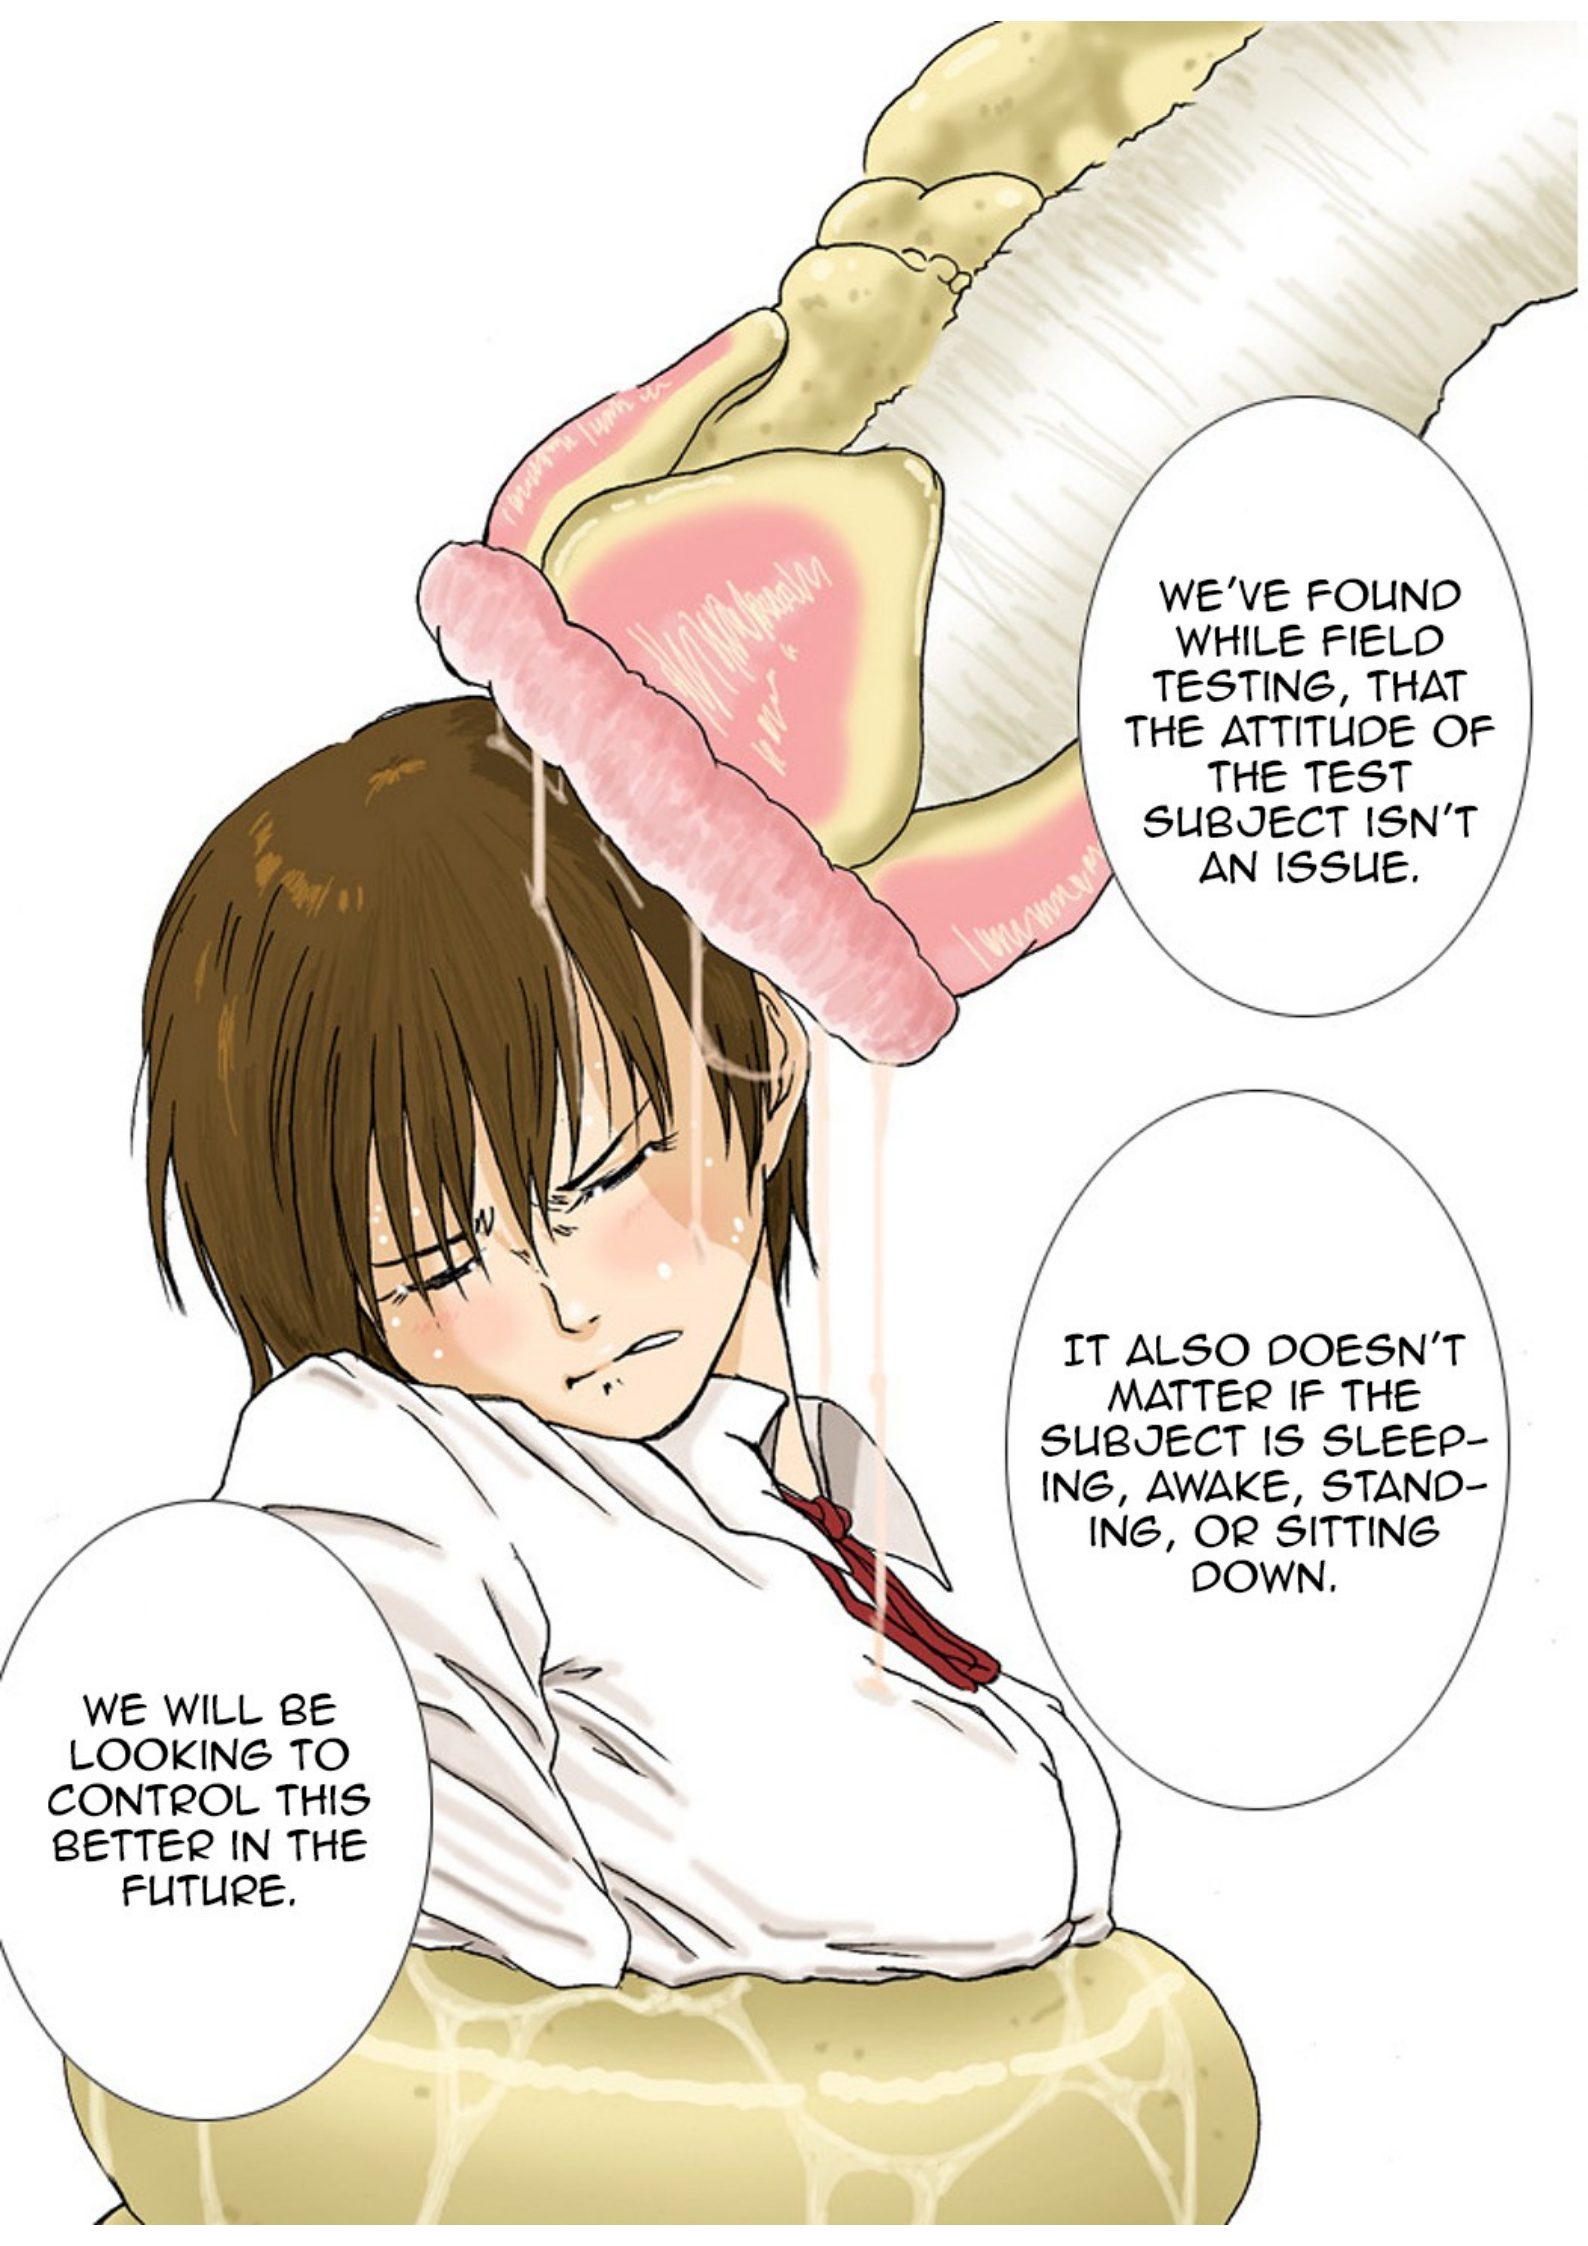

AS YOU CAN
SEE, IT HAS
ALREADY
CAUGHT HER.

THIS VANIS
LIKES TO TAKE
ITS TIME WITH
ITS PREY.

JUST LIKE A SNAKE,
IT USES CONSTRIC-
TION ON ITS PREY,
BUT DON'T WORRY
IT WON'T SUFFOCATE
OR DRAW BLOOD.

PLEASE JUST
THINK OF THIS AS
A WAY FOR IT TO
RESTRAIN ITS PREY,
TO ENSURE DELIVERY
TO ITS MOUTH.

WE'VE FOUND
WHILE FIELD
TESTING, THAT
THE ATTITUDE OF
THE TEST
SUBJECT ISN'T
AN ISSUE.

IT ALSO DOESN'T
MATTER IF THE
SUBJECT IS SLEEP-
ING, AWAKE, STAND-
ING, OR SITTING
DOWN.

WE WILL BE
LOOKING TO
CONTROL THIS
BETTER IN THE
FUTURE.

THE VANIS IS
EQUIPPED WITH
SPECIAL SENSORY
ORGANS ON THE
SURFACE OF ITS
BODY.

IT HAS BEEN
DESIGNED TO ONLY
SWALLOW A HUMAN
BY THEIR HEAD OR
FEET.

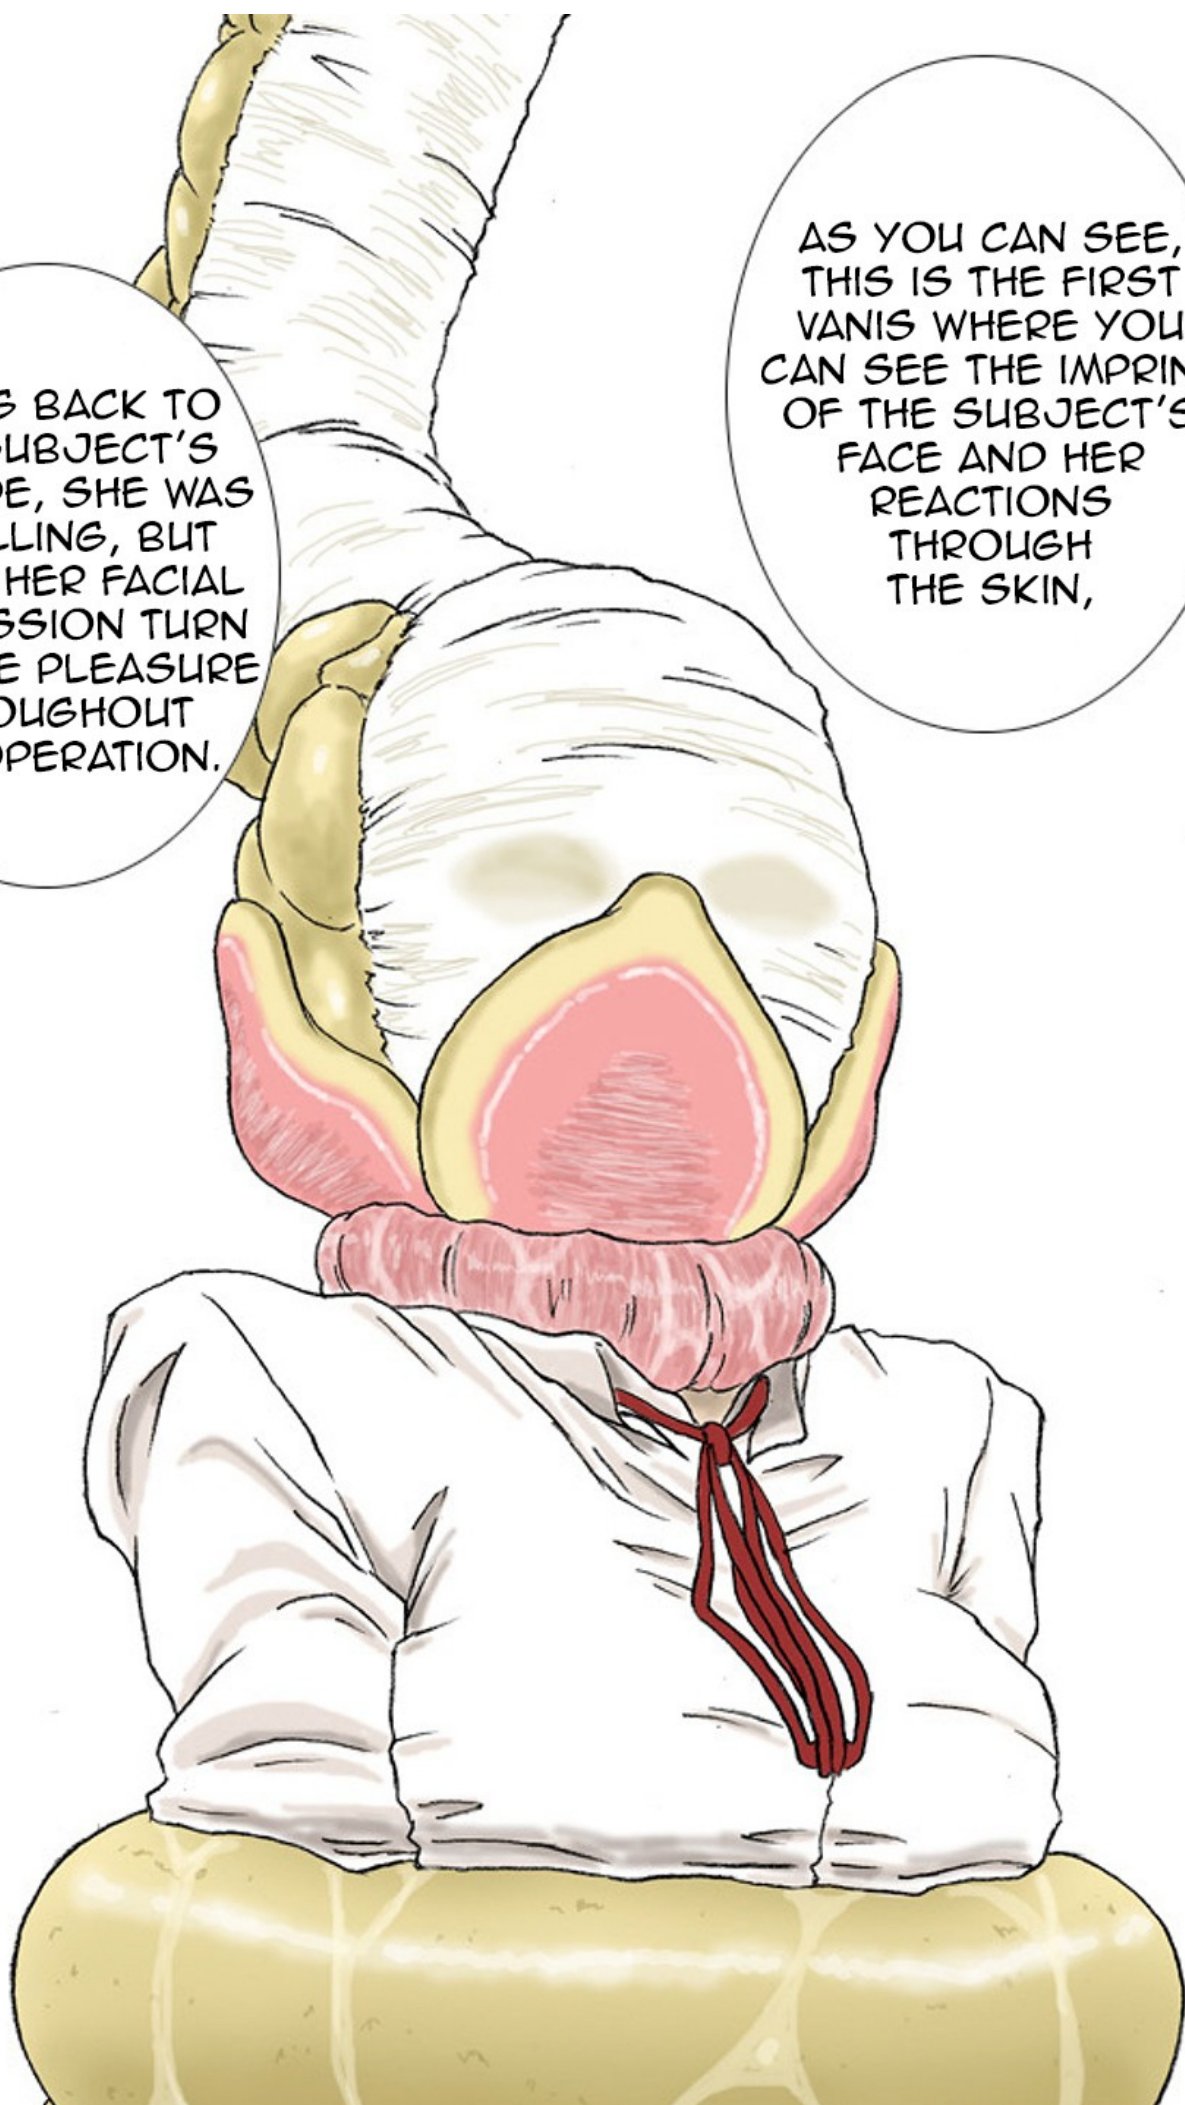

THIS ALLOWS
FOR SMOOTH
ENTRY INTO THE
MOUTH.

THE VANIS ALSO
SECRETES MUCUS
FROM WITHIN
ITSELF TO HELP
LUBRICATION.

GOING BACK TO
THE SUBJECT'S
ATTITUDE, SHE WAS
UNWILLING, BUT
WATCH HER FACIAL
EXPRESSION TURN
TO PURE PLEASURE
THROUGHOUT
THE OPERATION.

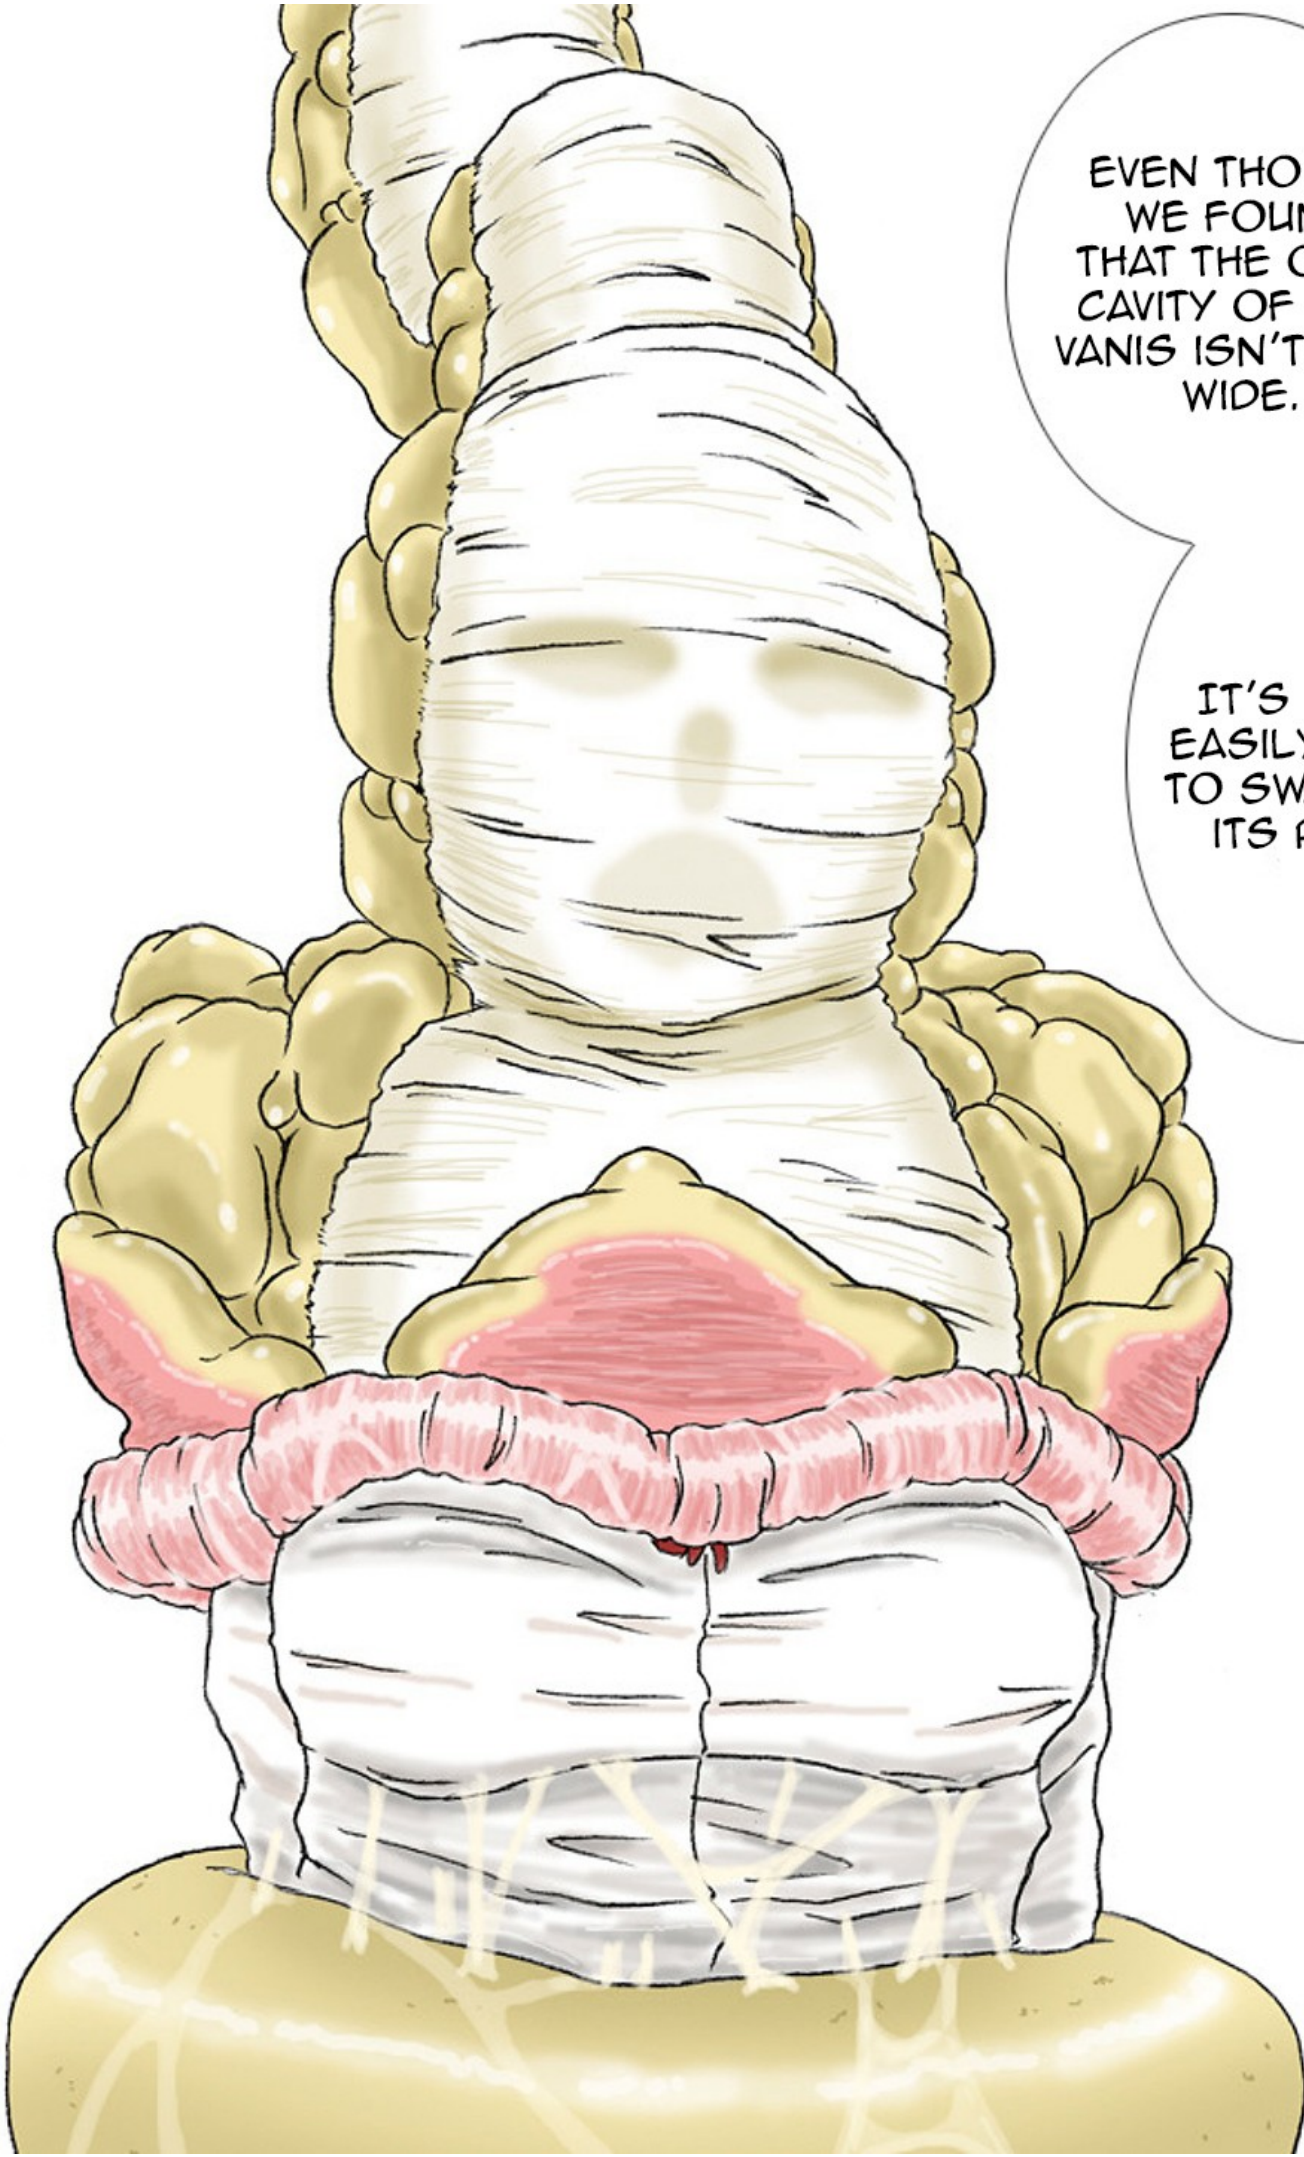

AS YOU CAN SEE,
THIS IS THE FIRST
VANIS WHERE YOU
CAN SEE THE IMPRINT
OF THE SUBJECT'S
FACE AND HER
REACTIONS
THROUGH
THE SKIN,

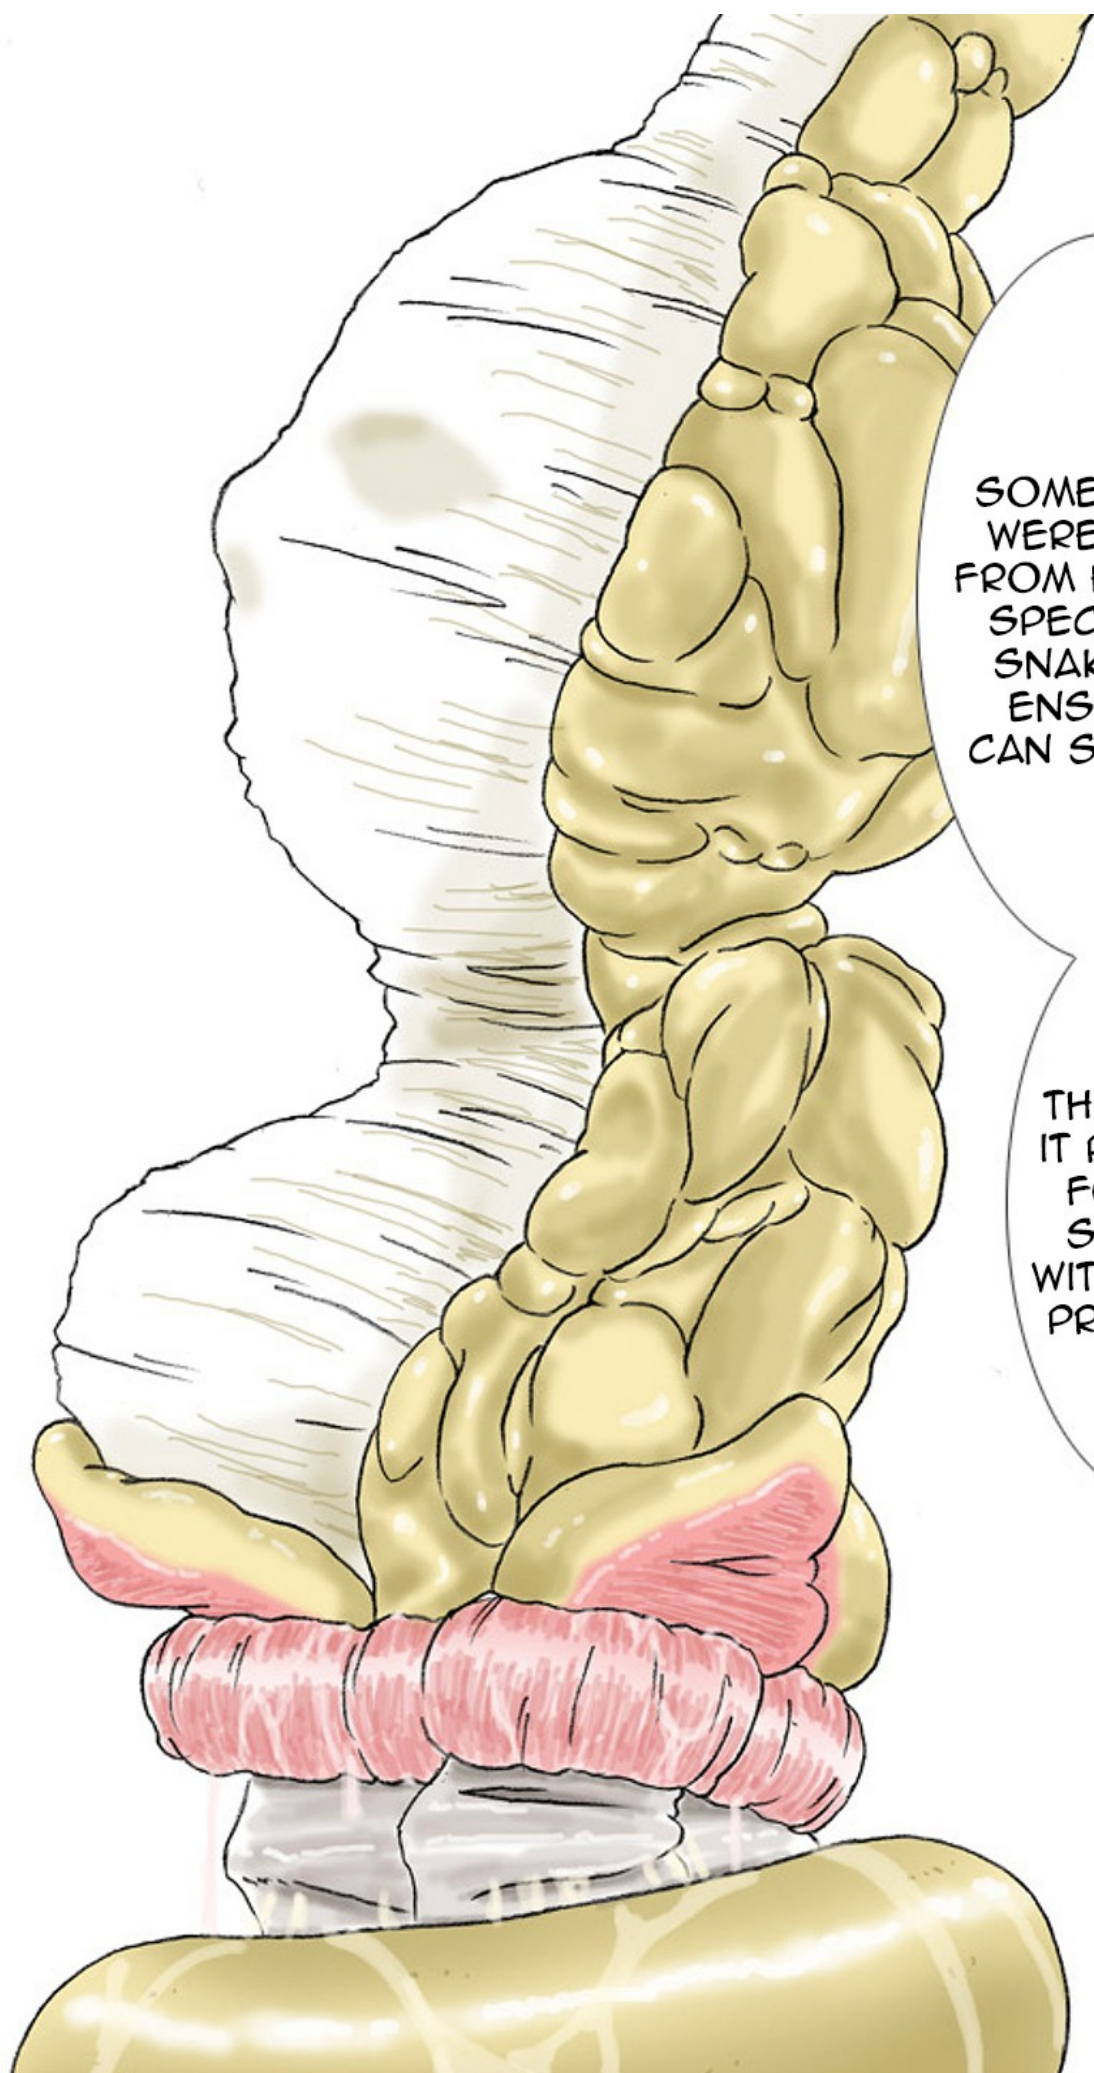

WAS CHOSEN
AMONG OUR
STAFF, BY USING
A "FAIR" LOTTERY.

AH,
BY THE WAY,
THIS TEST
SUBJECT.

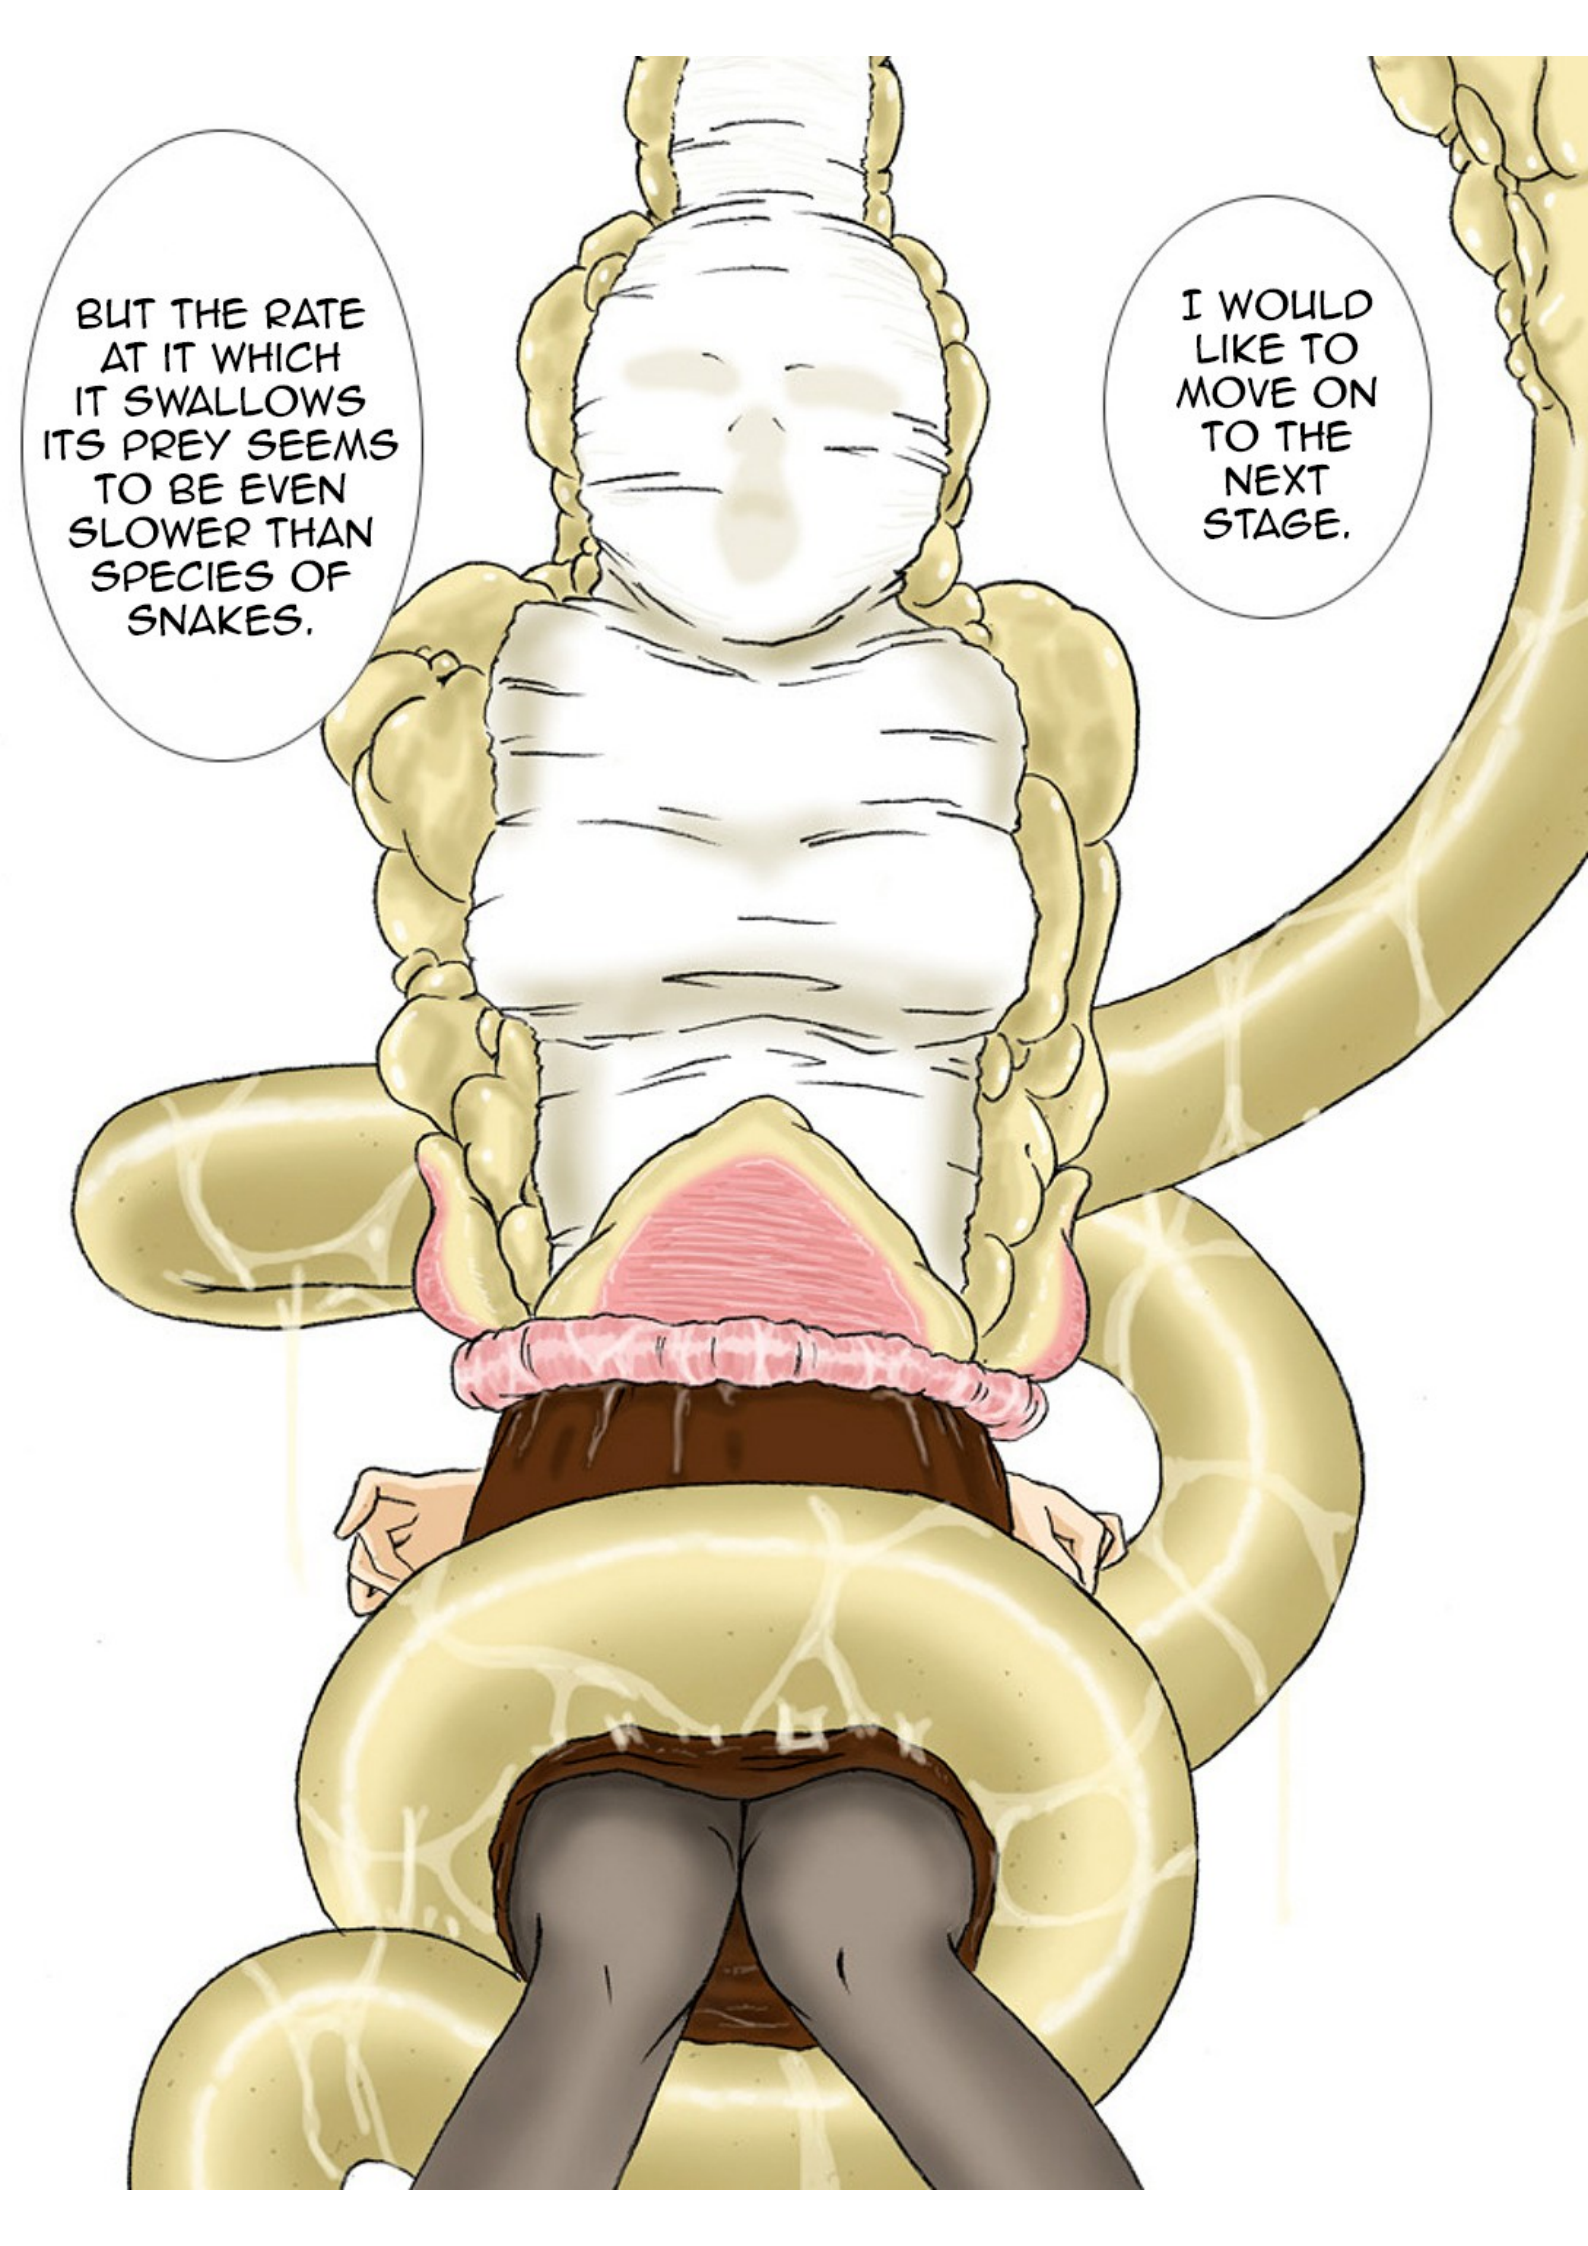

EVEN THOUGH
WE FOUND
THAT THE ORAL
CAVITY OF THIS
VANIS ISN'T VERY
WIDE.

IT'S STILL
EASILY ABLE
TO SWALLOW
ITS PREY.

SOME TRAITS
WERE TAKEN
FROM EXISTING
SPECIES OF
SNAKES TO
ENSURE IT
CAN STRETCH.

THIS MAKES
IT POSSIBLE
FOR IT TO
SWALLOW
WITHOUT ANY
PROBLEMS.

BUT THE RATE
AT IT WHICH
IT SWALLOWS
ITS PREY SEEMS
TO BE EVEN
SLOWER THAN
SPECIES OF
SNAKES.

I WOULD
LIKE TO
MOVE ON
TO THE
NEXT
STAGE.

IN THIS
CASE, THE
VANIS IS
SWALLOWING
HER HEAD
FIRST.

IT WILL TAKE
ABOUT ANOTHER
2 MINUTES
BEFORE HER
TOES ARE
NO LONGER
VISIBLE.

IT IS
COMPLETELY
AIRTIGHT
INSIDE THE
VANIS.

BUT THANKS TO
OUR UNIQUE
TECHNOLOGY, THE
SUBJECT IS
CONSTANTLY
SUPPLIED WITH
OXYGEN.

THOUGH
THIS WAS
ALREADY
MENTIONED
IN THE LAST
REPORT.

WE'VE MADE
MAJOR
IMPROVEMENTS
SINCE THEN,
IT IS NOW
MUCH MORE
EFFICIENT.

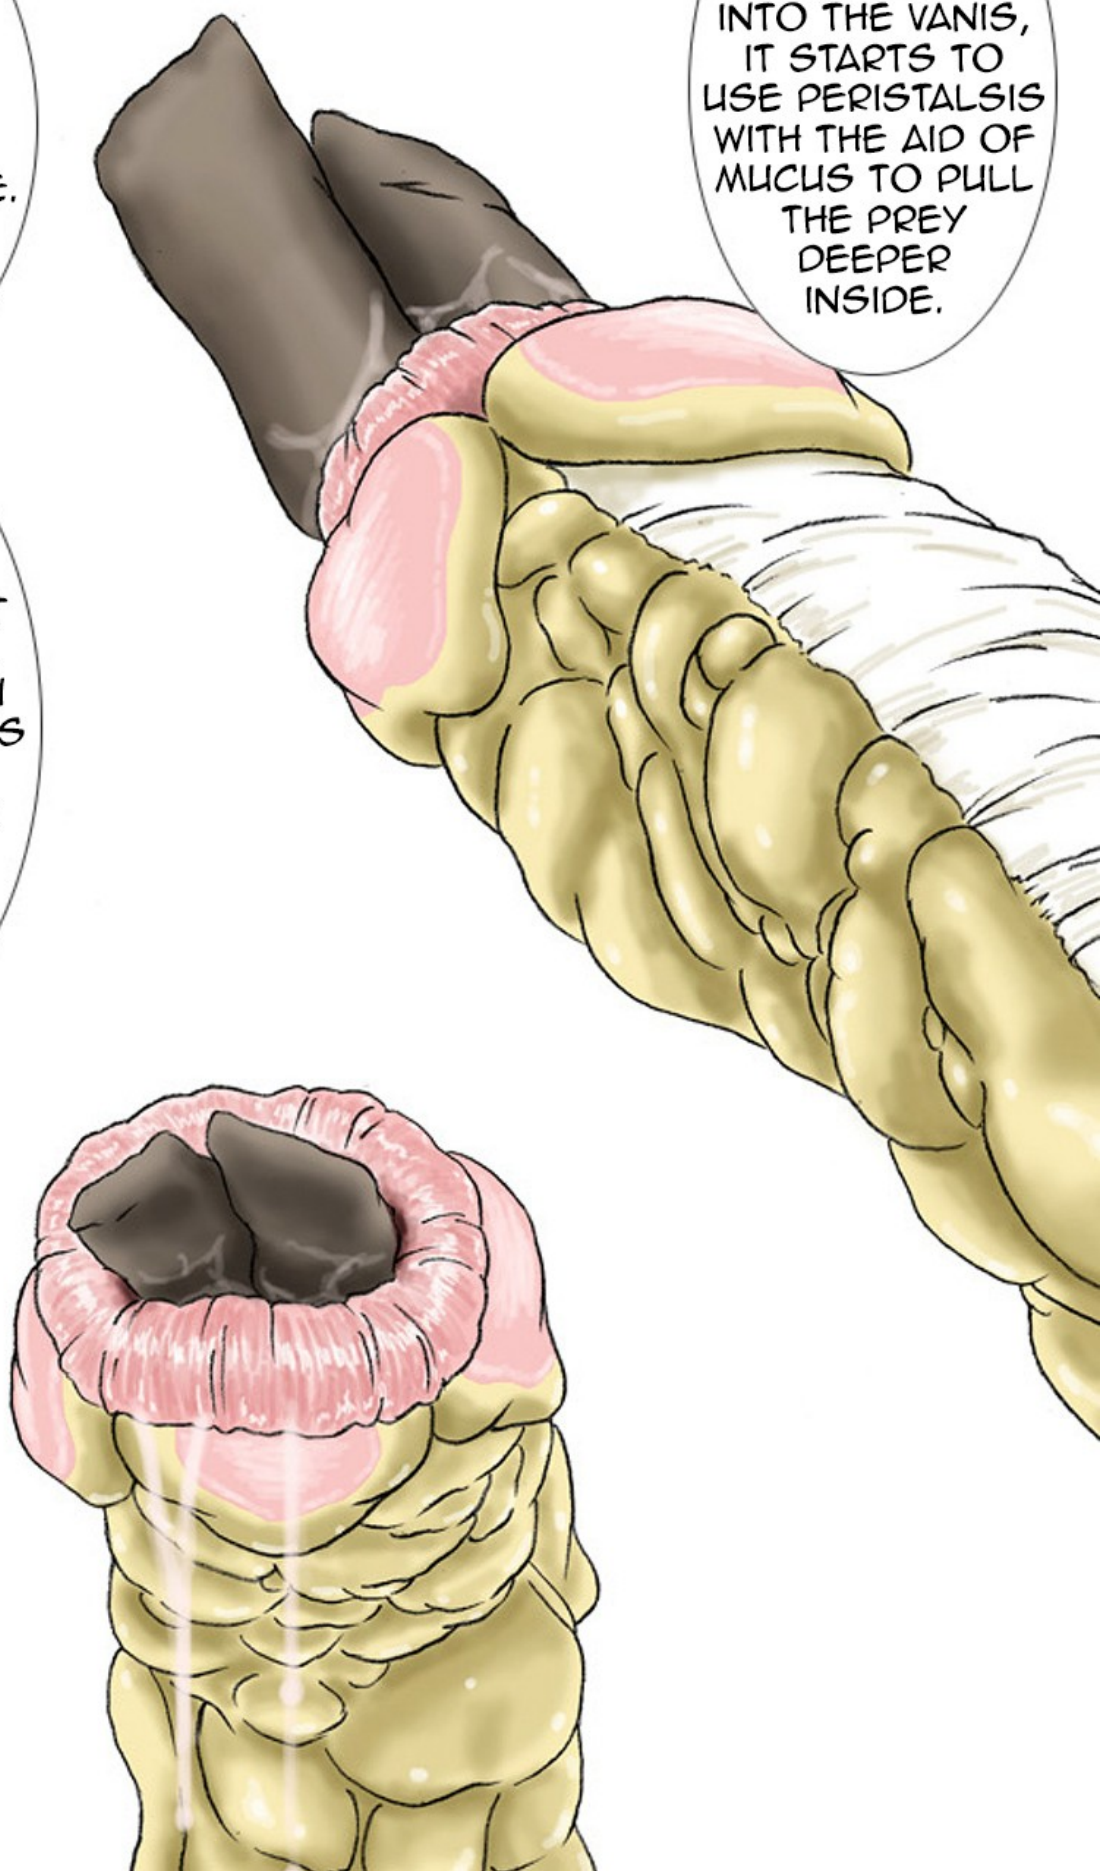

WE WISH TO
REDUCE THE
BURDEN ON
THE SUBJECT,
AND REDUCE
PANICKING

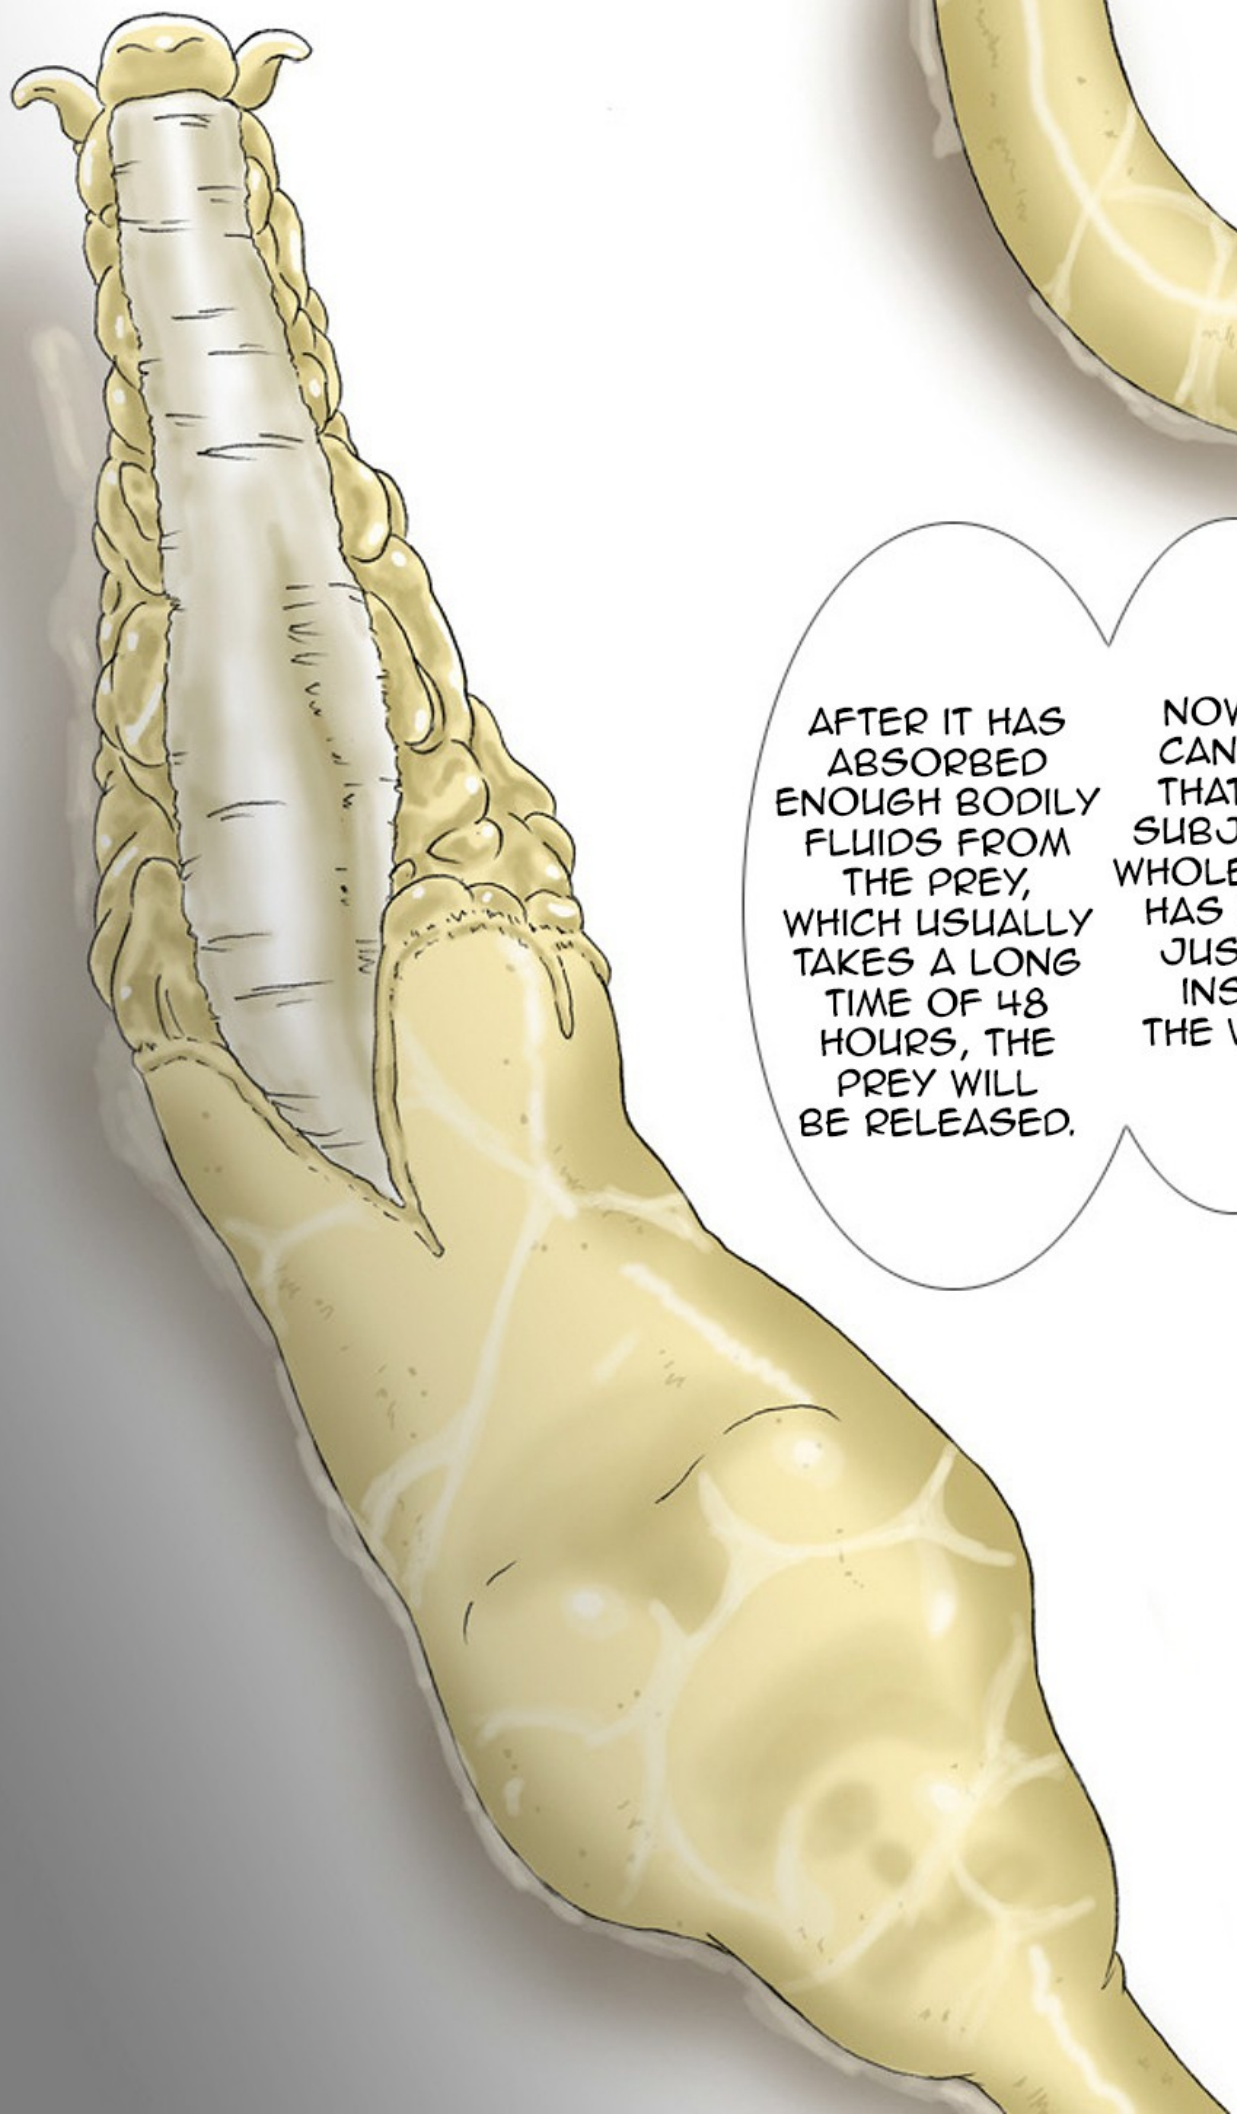

IT ALSO USES
THE SUBJECT'S
WEIGHT TO ALLOW
GRAVITY TO SLIDE
THEM DEEPER INSIDE.

BY THE TIME
THE KNEES
HAVE SLIDED
INTO THE VANIS,
IT STARTS TO
USE PERISTALSIS
WITH THE AID OF
MUCUS TO PULL
THE PREY
DEEPER
INSIDE.

WE NOTICED THAT
IN SOME CASES,
THE ABSORPTION
OF THE SUBJECT'S
WASTE HAS
ALREADY BEGUN
BY THIS POINT.

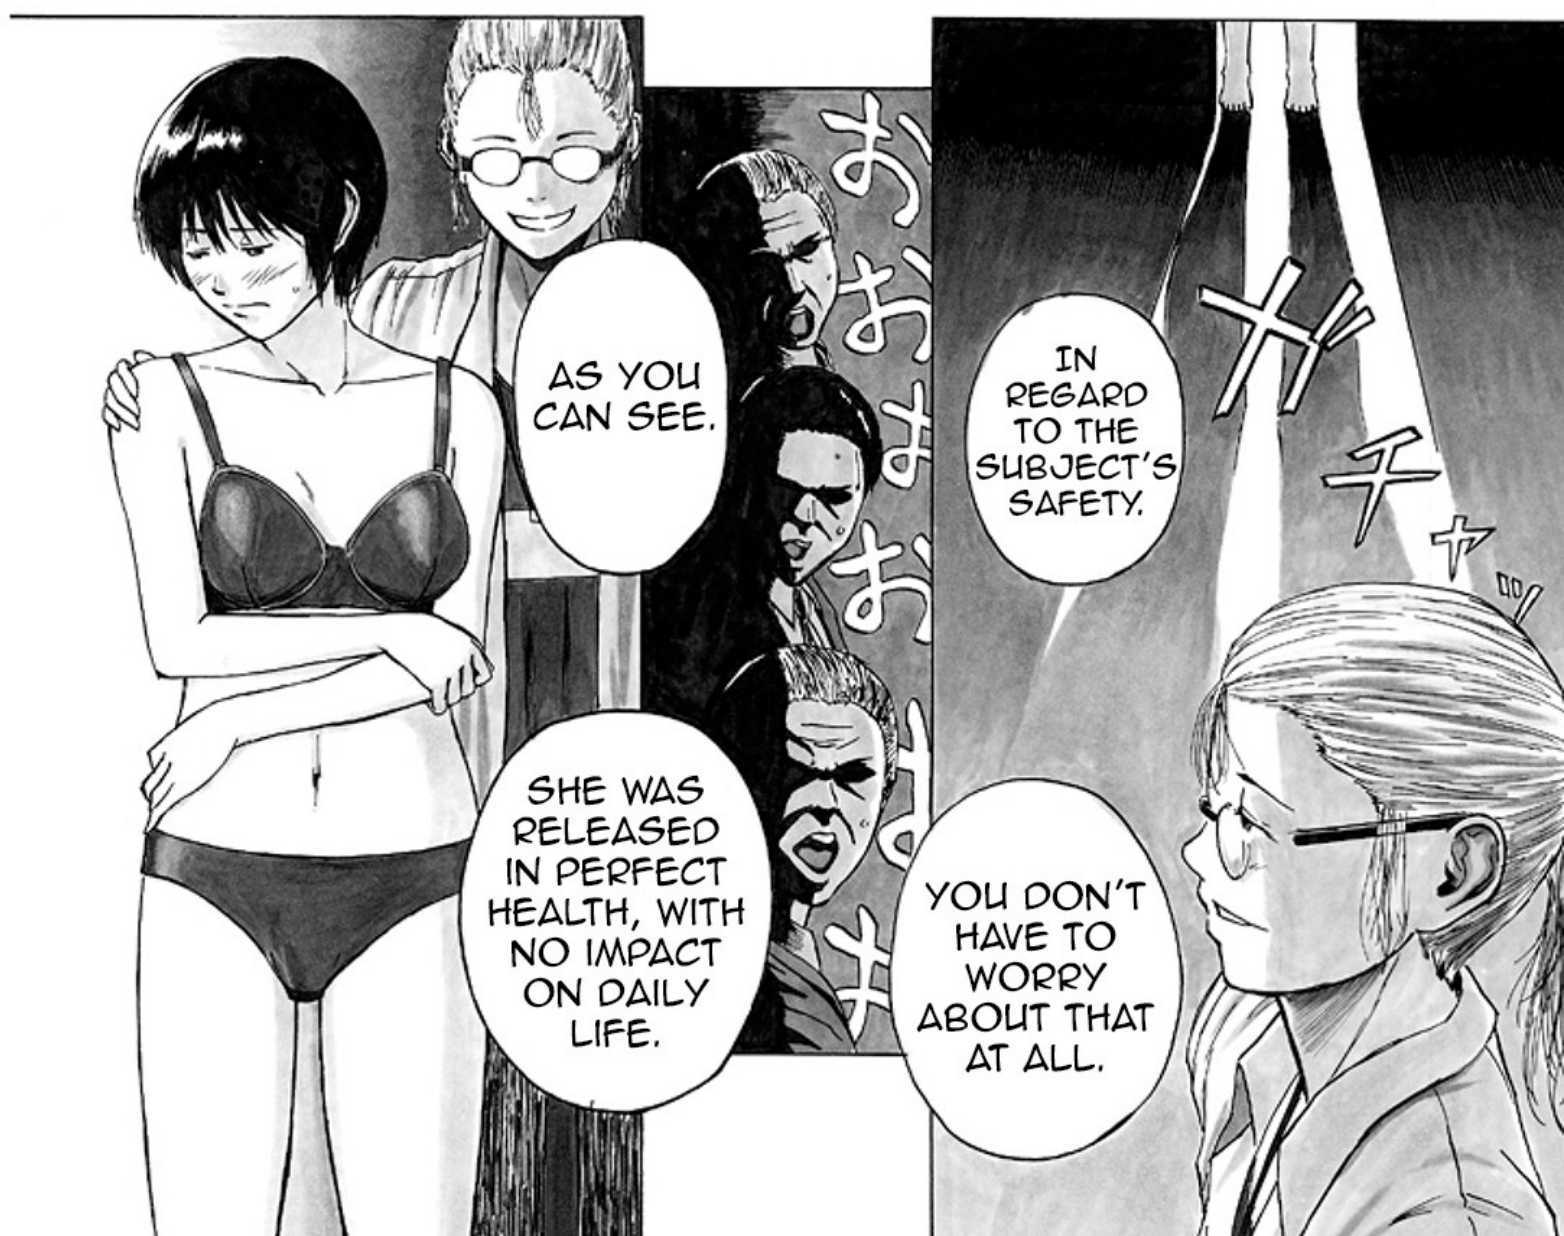

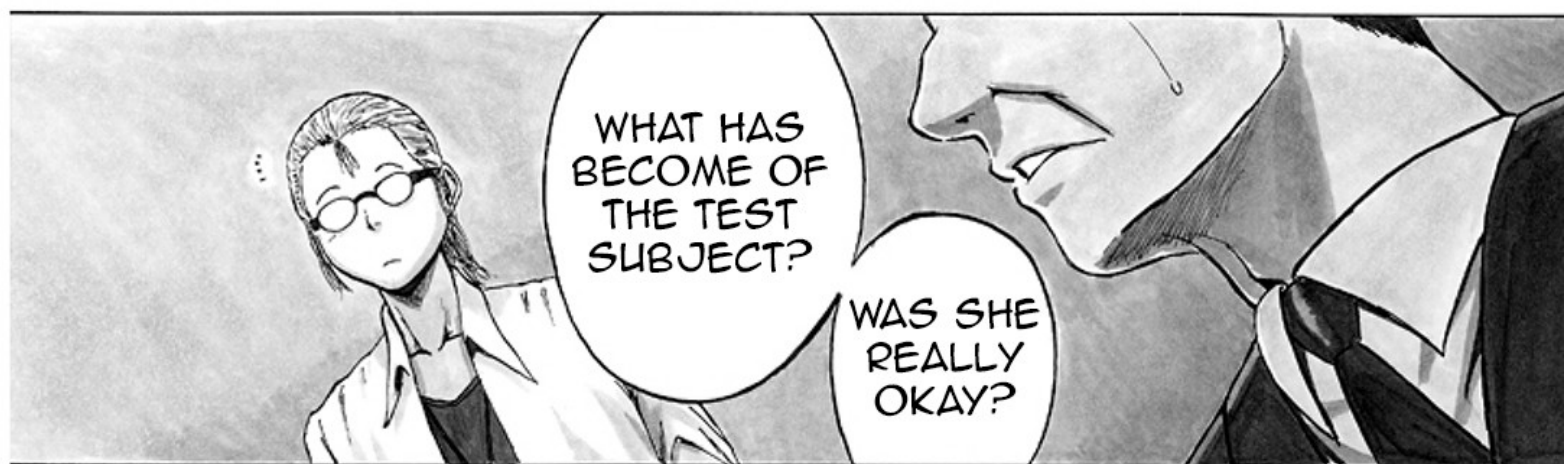

THIS SHOWS
THE EXCELLENT
EFFICIENCY
OF THE VANIS'S
BODY FUNCT-
IONS.

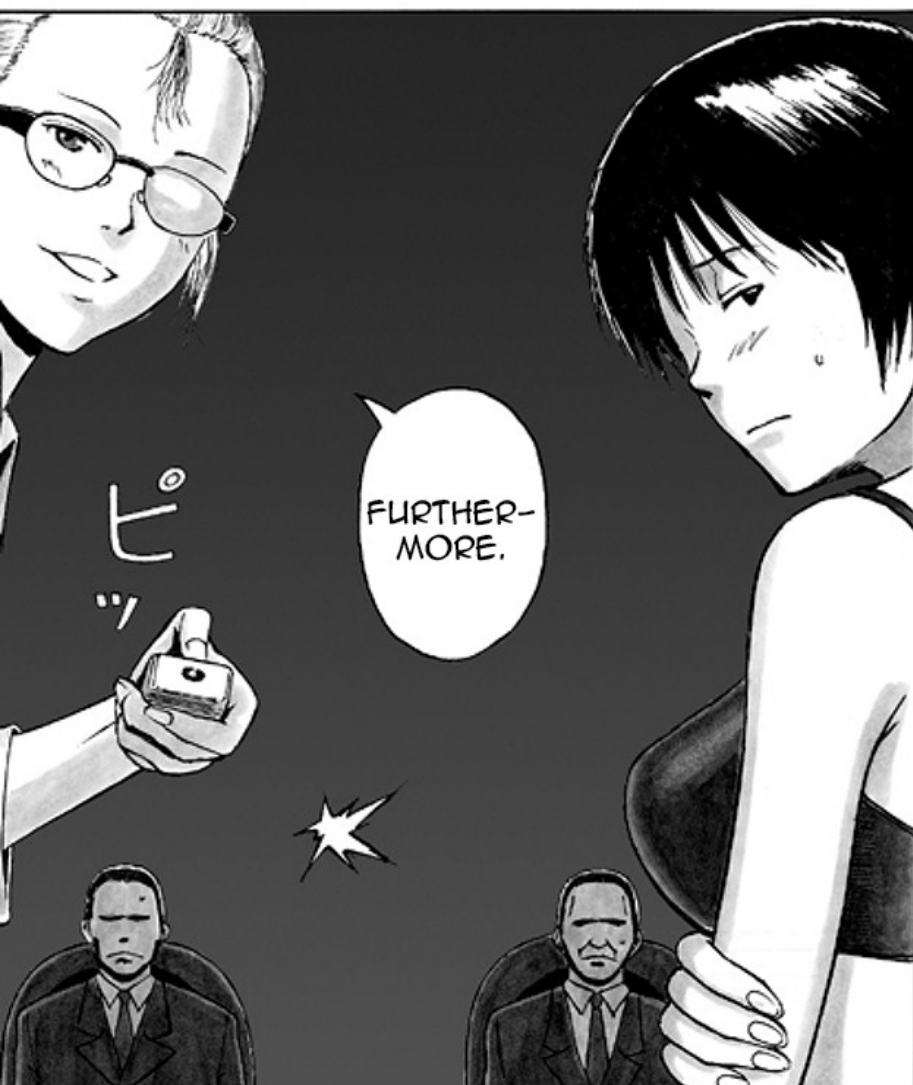

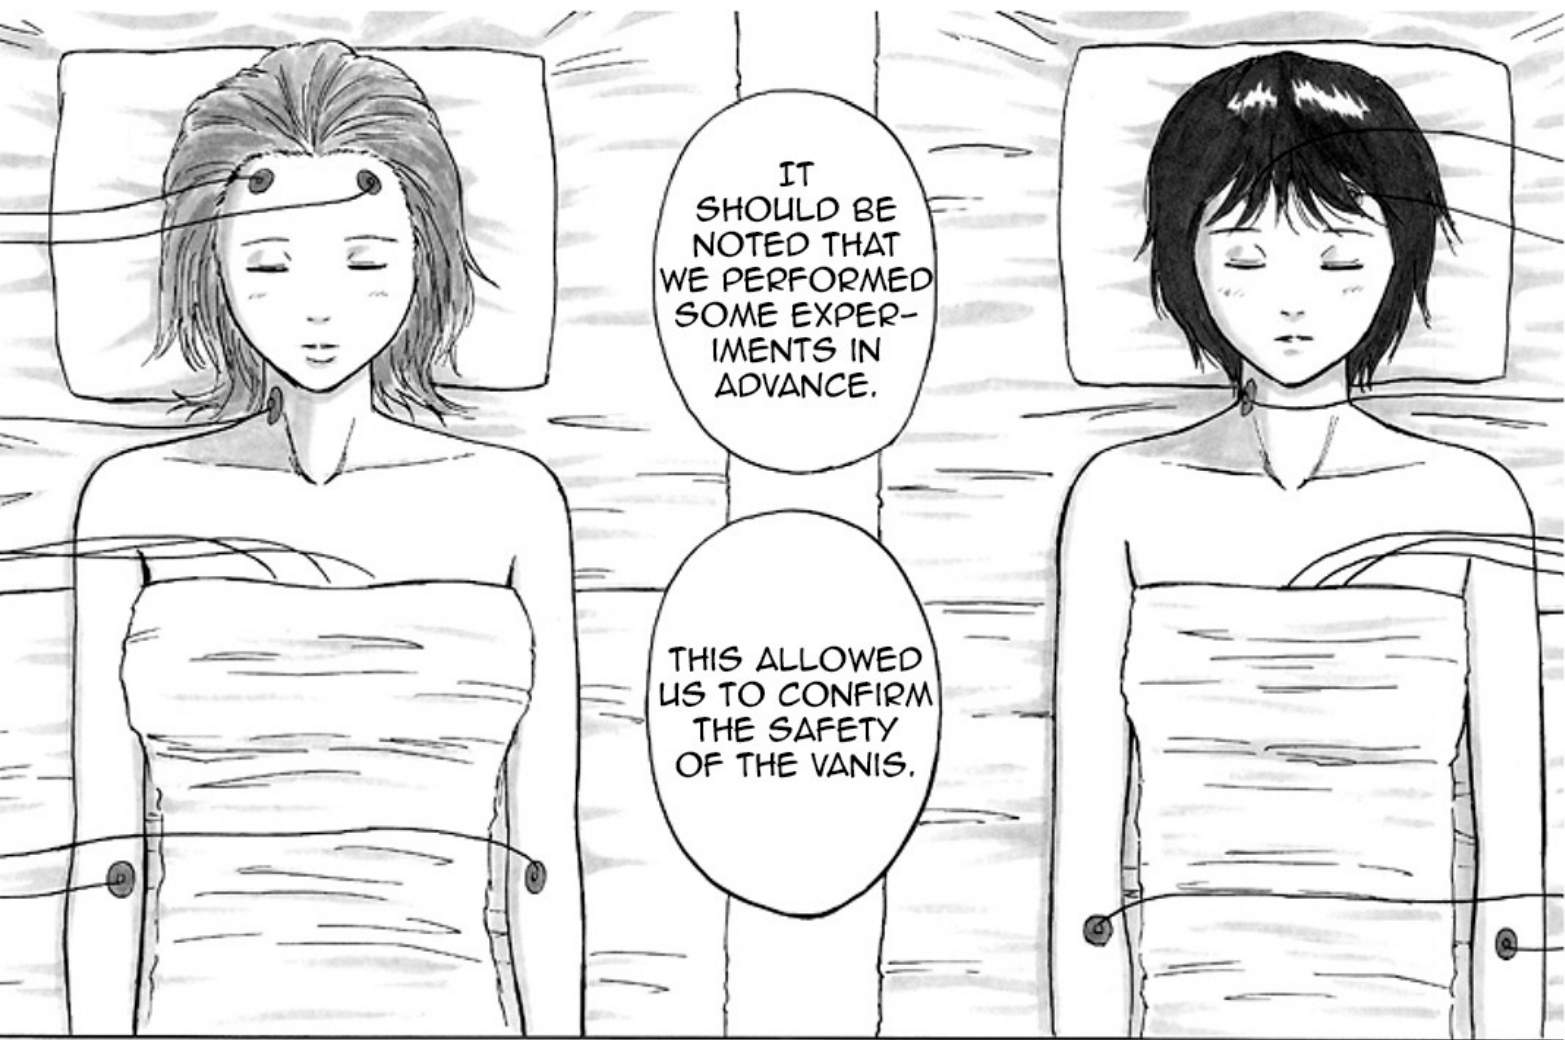

AFTER IT HAS
ABSORBED
ENOUGH BODILY
FLUIDS FROM
THE PREY,
WHICH USUALLY
TAKES A LONG
TIME OF 48
HOURS, THE
PREY WILL
BE RELEASED.

NOW WE
CAN SEE
THAT THE
SUBJECT'S
WHOLE BODY
HAS ONLY
JUST FIT
INSIDE
THE VANIS.

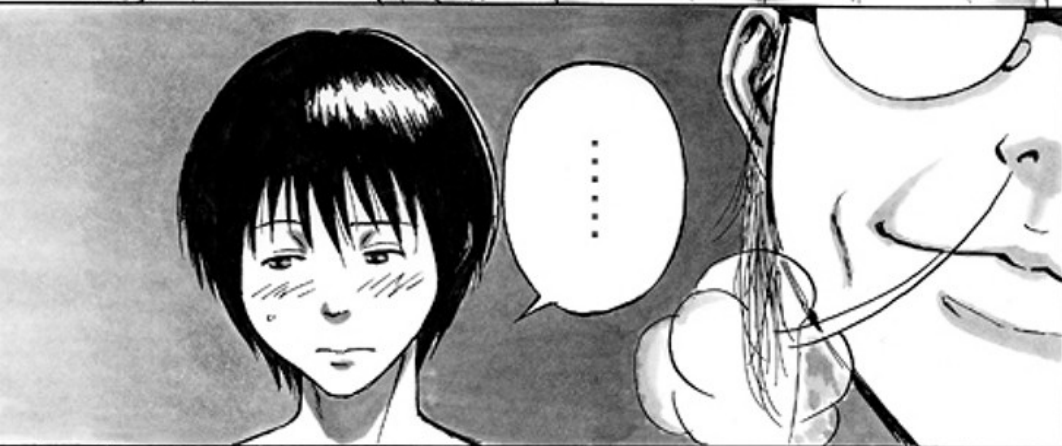

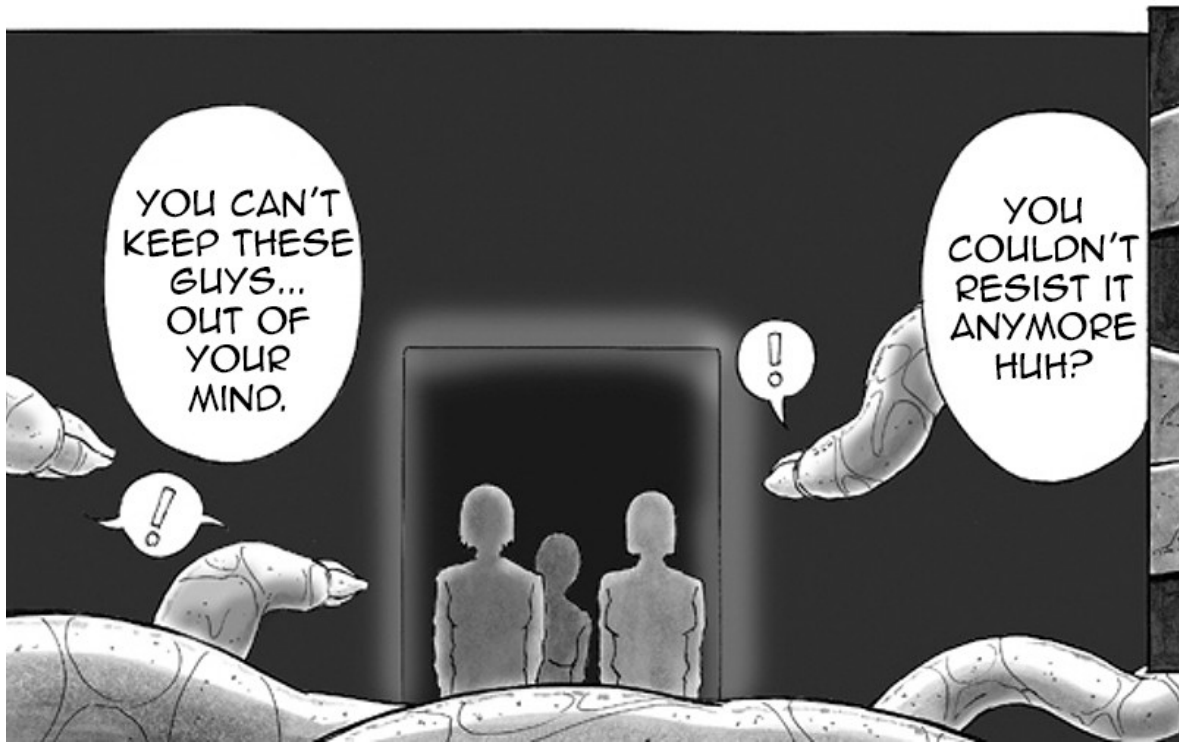

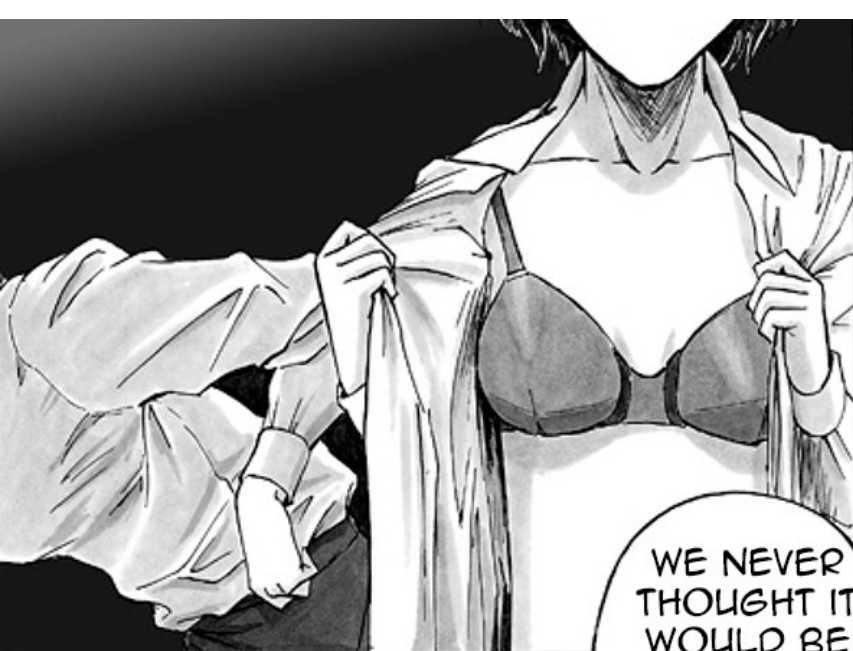

WE HAVE
EVEN FURTHER
IMPROVED THE
VANIS.

THEN WE
PERFORMED
SOME FURTHER
RESEARCH TO
TAKE INTO
CONSIDERATION
THE ABSENCE
OF CLOTHING.

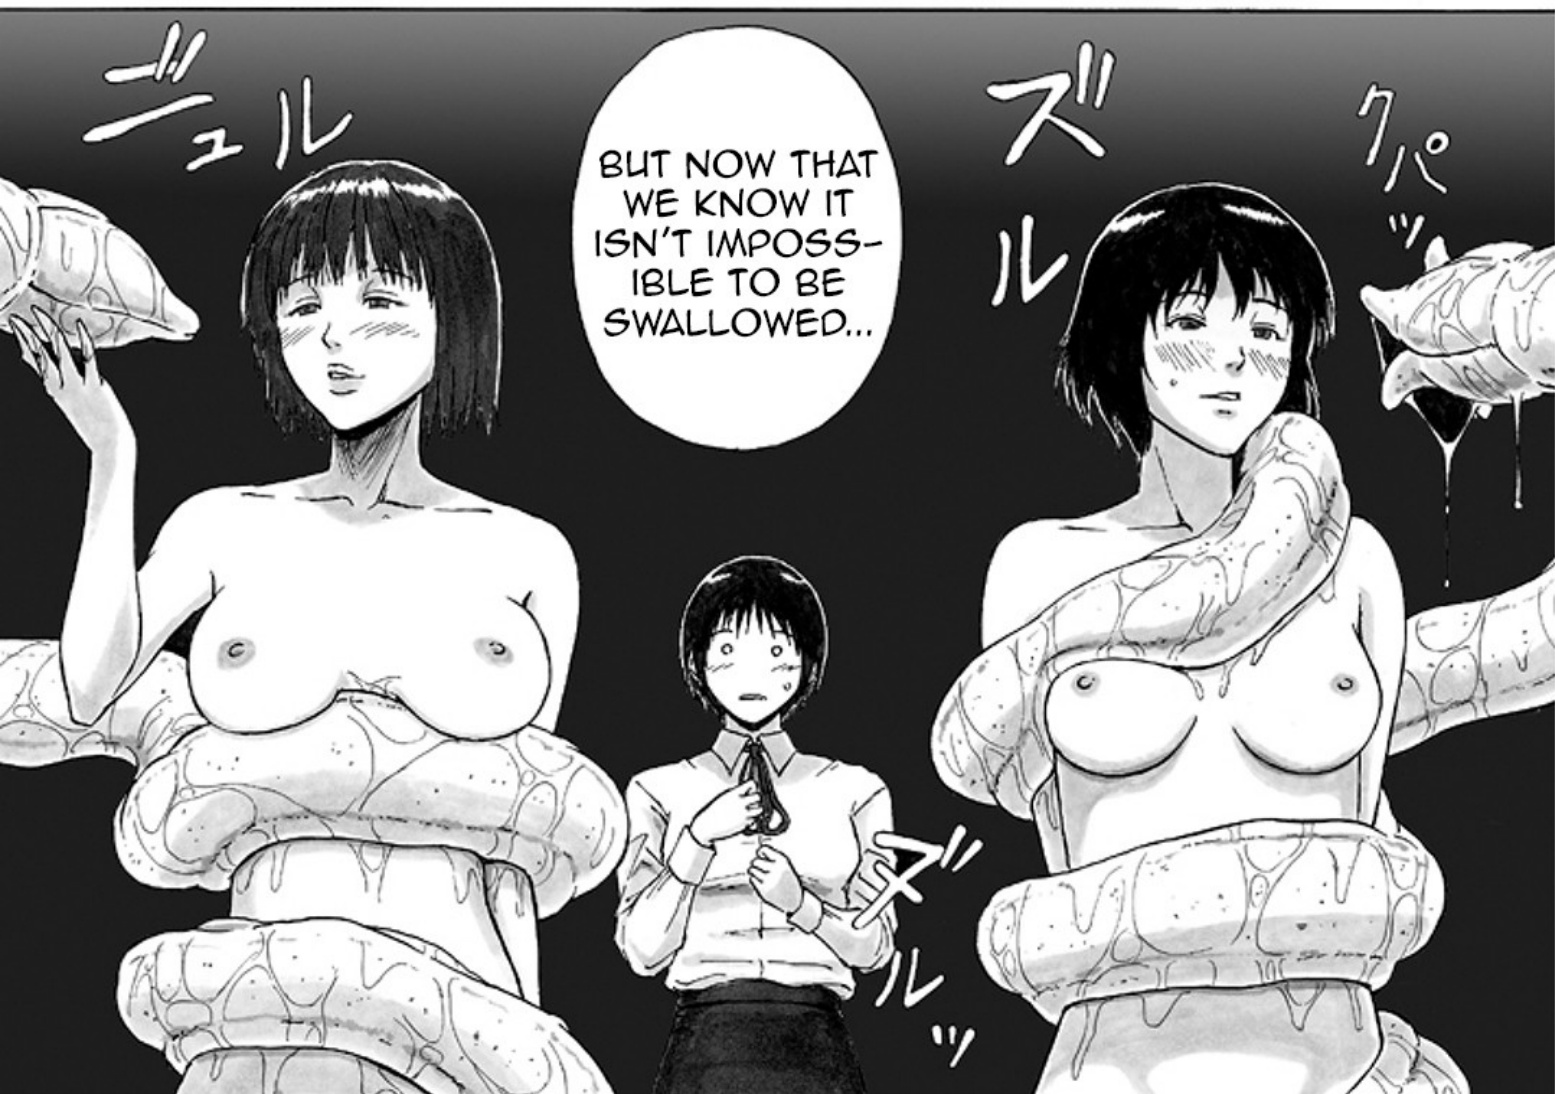

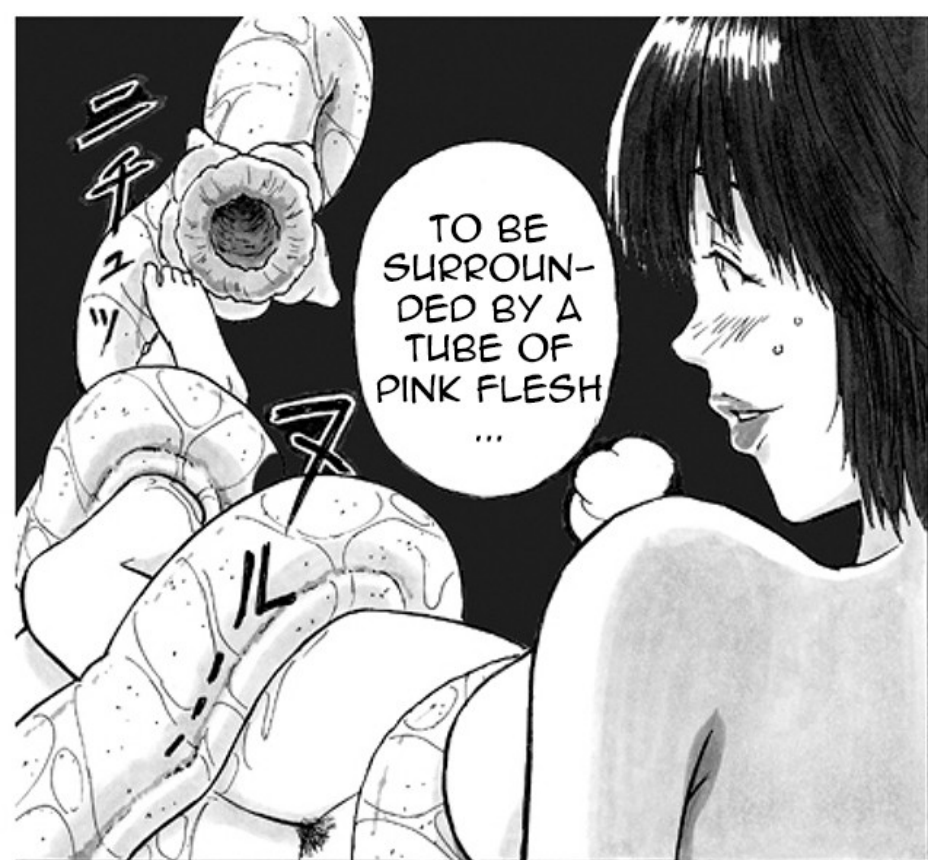

WE'RE
ALSO THE
SAME...

WE NEVER
THOUGHT IT
WOULD BE
POSSIBLE
TO BE
COMPLETELY
SWALLOWED
...

BUT NOW THAT
WE KNOW IT
ISN'T IMPOSS-
IBLE TO BE
SWALLOWED...

DON'T YOU
ALSO WANT
TO BE
SWALLOWED
BY THE
VANIS?

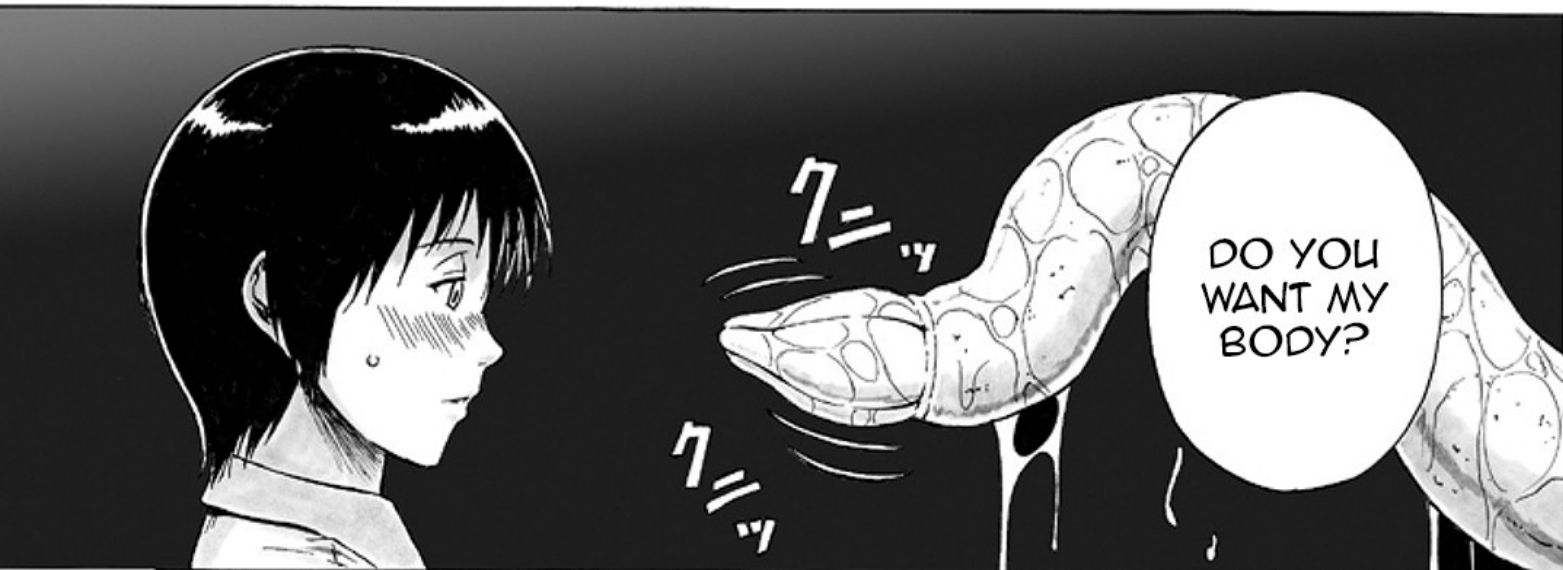

WHAT'S
WRONG?

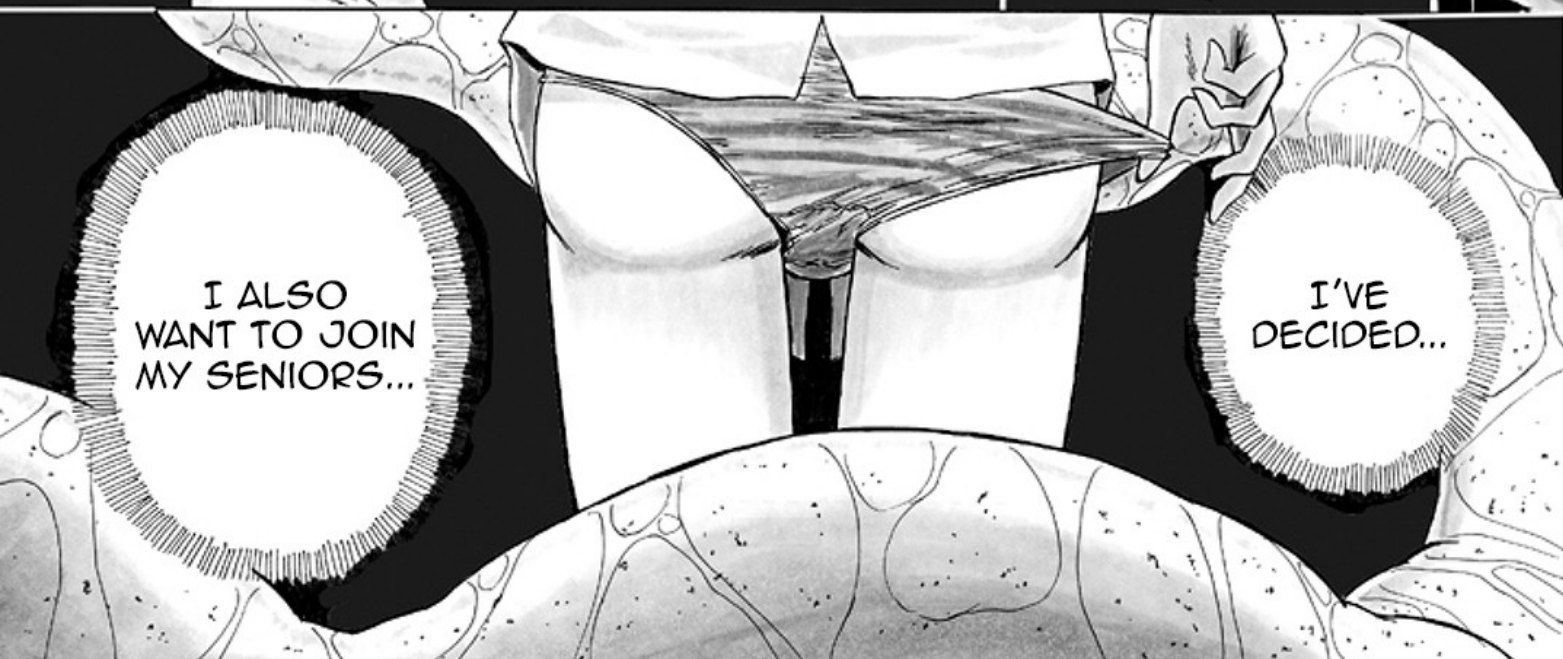

DAMN...

WHAT
SHOULD
I DO...?

I'VE
GOTTEN
REALLY WET
FROM
WATCHING
MY SENIORS
BE SWALLOWED...

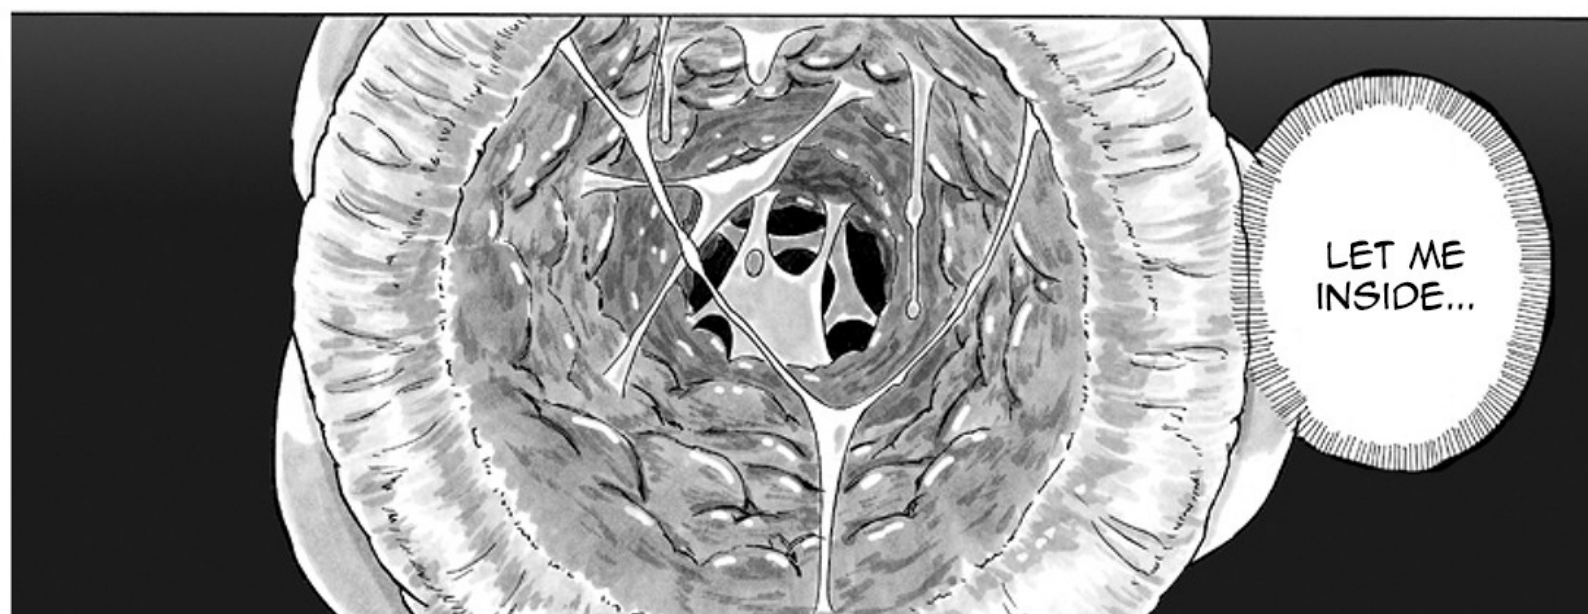

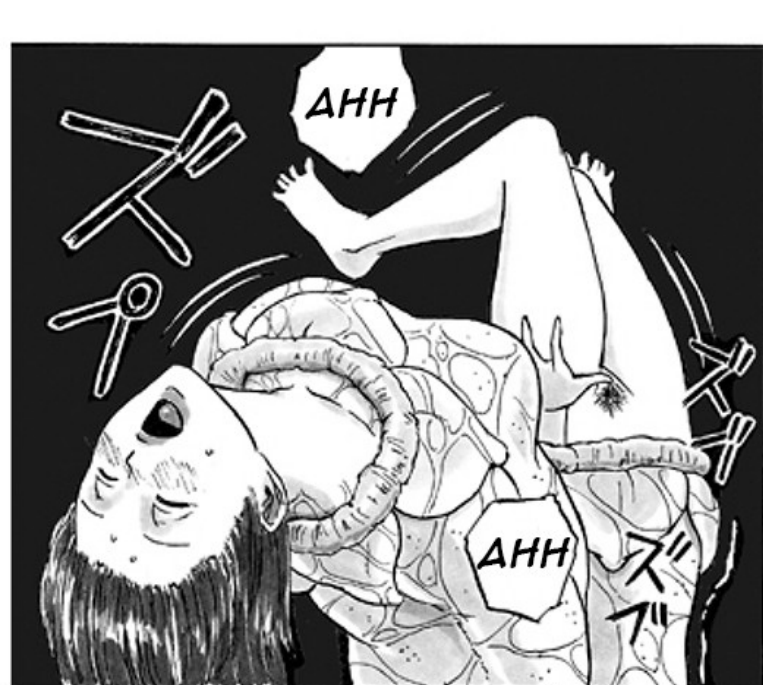

DO YOU
WANT MY
BODY?

I ALSO
WANT TO JOIN
MY SENIORS...

I'VE
DECIDED...

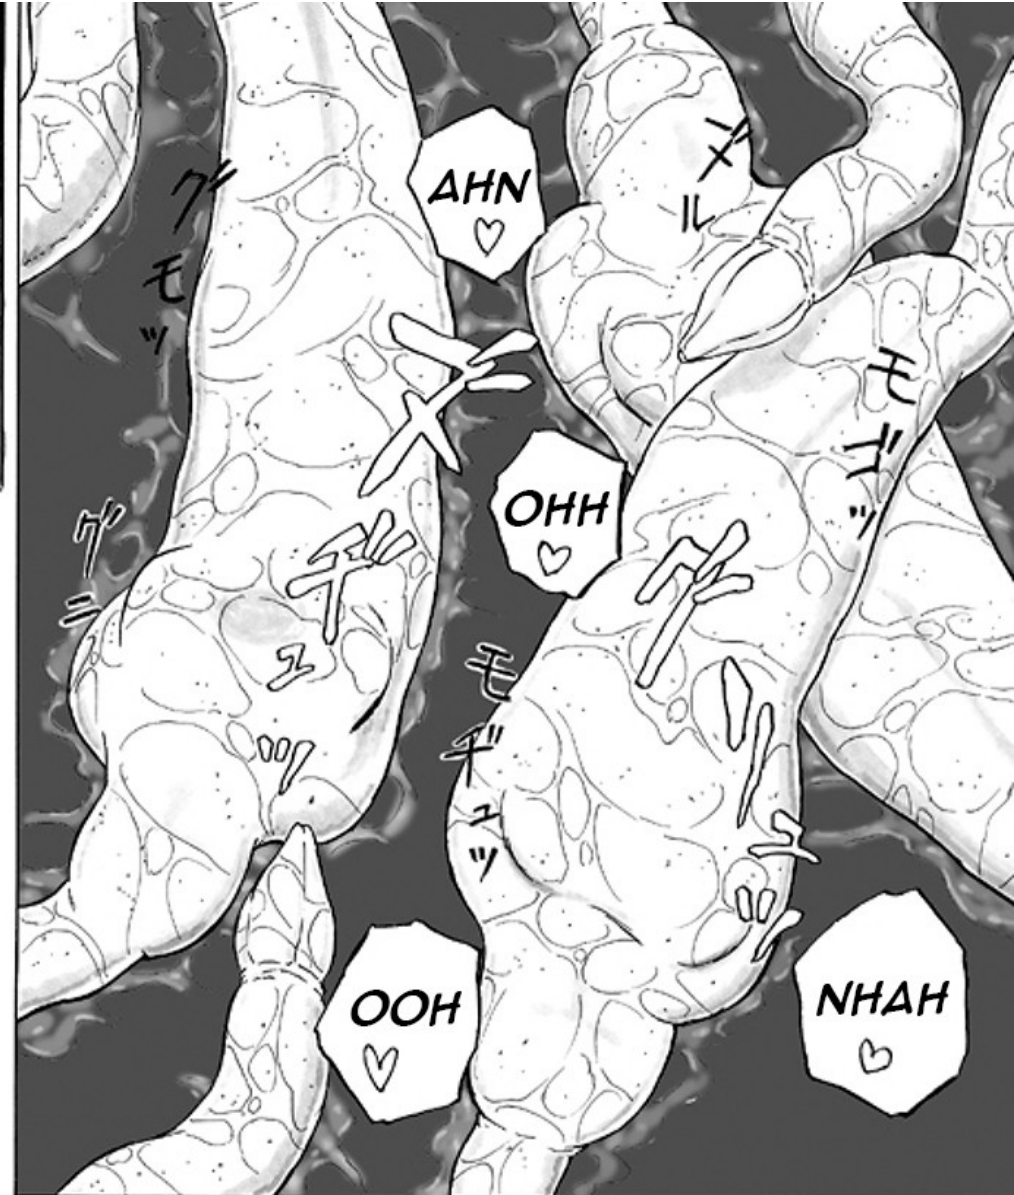

IT'S
TOO
MUCH...

FEELS
REALLY
GOOD...

THE VANIS
HAS SWALLO-
WED MY
BODY WHOLE...

THIS IS
UNBELIEV-
ABLE...

MORE...
