* BREAD/BUN FILLED WITH AZUKI BEANS/SWEET BEAN PASTE.

The year 2107.

An area riddled with poverty, known as Chaos, is increasing around the New Central District in Japan where technology has reached its peak.

Rumors say this is the result when energy sources switched from oil to bio-fuel in the 21st century and not enough fuel facilities were built at first for both areas due to the economic crisis.

However, in reality, it could actually be seen as a conspiracy to control energy rights.

The Bread Riot— In 2035 farmers were converting grains to fuel. The citizens, angered at the rise in bread prices, raided bakeries.

Give us bread!

Anpan!

I want to eat bread!

Afterword

Thank you for reading until the end of this tankobon from June-Net. It took 2 years to get from serialization to tankobon format. Furthermore, it will be included in the Piasu (Pierce) series, so there'll probably be less erotic stuff. I wonder if that will be all right, but perhaps I'm a little harsh on those who find erotica hard to swallow. I do apologize (well, that Pet Robo was a little...). At any rate this is a comedy so I'd be very happy if it made you laugh even a little. "The Doctor's an idiot. What a jackass" - I would be in utter bliss if you had such thoughts while reading this book.

Thank you so much for picking this story up.

I'd be happy to know what you thought of it.
