

The story of naomi's mother's breast growth

96cm

I had already become an adult, so i thought my breast growth must be some sort of sign.

At first, my shirt would tighten because of my breasts, and made me feel really uncomfortable. Then, my breasts adopted a strange growing sensation.

I had been feeling this strange sensation in my breasts for quite a few days now, and my breasts had now started growing! At first i thought it was all in my head but...

My bra and clothes became tight and with each passing day, I learned from what I saw that my breasts were getting bigger and bigger

As my matching size became harder and harder to find, I had fully ordered a custom made bra.

It was really expensive...

My clothes and bra I had to buy replacements for and buy replacements for over and over again because they would immediately become useless right after i got them.

They started getting way too big, so I took a trip to the hospital so I could get a checkup. the diagnosis results indicated it was because of a hormonal imbalance. That's all that was explained to me, and I got very frightened upon hearing that.

Hormone stabilizing medication was perscribed to me, but it was completely useless. instead, the growing speed heightened, making me very anxious.

My growth was starting to take a toll on my shoulders and waist, and the clothes that i was wearing were also starting to have a hard time.

I also started to have difficulties getting to work. My breasts had gotten so large that my boss told me, with a straight face, to resign. Geez!

My breasts soon became so heavy that I couldn't even stand up properly by myself.

After that, i couldn't even go outside and there were no clothes that i could wear. Because of this, it came to be that i spent all day in one room.

"Why did things have to become this way", I would spend my time crying

Being visible from my position on top of my breasts was very embarrassing.

As your father started to give me assistance, I began to feel more and more relaxed.

After I had quit my job, a worried co-worker -- in other words, your father -- paid a visit. If he hadn't come to help, I have no idea WHAT would have happened.

My breasts never got to a point where they would burst, they were in fact very durable. In fact, i recall my pregnant belly hurting more than my breasts

And so i was bestowed with you, thanks to my ever growing breasts and the trouble they caused me.

But as a result of this miracle, I could obtain a very calm and peaceful feeling. "I'm becoming a mother", was what the situation and my thoughts turned into.

all thanks to your father's help too.

i'm having

when you were
born, my breasts
just wouldn't stop
giving breast milk,
and my breasts
were getting even
bigger. But now, i
have clothes that
