Preface

Hello, Rocket Monkey here.

It's already time for Girigiri Idol 3.

Although I was surprised By how fast the time has come to pass, I managed to finish the manuscript while struggling and now I'm sleepy...

This time I drew as many pages as I wanted and it ended up having more pages than the other 2 previous volumes.

By the way, in the Back of this page there is a summary of the previous volumes for those who don't have them, and to welcome the new readers (publicity).

Also, please support my commercial works as well.

The second tankoubon is coming out soon.

Thank you very much for purchasing this!
