

The CEO's Toy

2011 May, GG Comics #2

The genre of the magazine it was being serialized in this time was "Office Worker Rape" but for me both the genre of office workers and rape weren't exactly my specialty. I also didn't have much time to work on it so I managed to squeeze out 12 pages and make the main character Suzuki look sexy and have the focus of him be his genitals.

Thanks to that take on him he actually became quite a popular character. Another funny story is when it was still being checked before publication there was a misprint in the title on the contents page to where it read "Toy CEO" which left me laughing hysterically. It seemed like my character had managed to overcome his situation and turn it around quite splendidly
