Little Memory

Presented By Ponsuke

I was born and raised in a village with a declining population.

I'm the only doctor in this withering village...

Come in...
Come in...

U-UM...

It was a blistering hot August day when I first came across that girl...

I thought for sure the heat was playing tricks on my mind...

So whenever she has free time, she comes here to play..

Because she came from Tokyo, she doesn't seem to get along very well with the rural kids..

This girl is Hiiragi Nico. She lost her mother in an accident.

And so she was taken in by her grandmother who lives here.

Nico's mother was my childhood friend and my first crush..

Sit over there...

She was the splitting image of her mother. I was completely enraptured by her..

Maybe she knows how I feel and that's why she's been coming around to tease me so often lately..

I wish I could stay immersed like this forever..

It feels as if I'm floating in water..

Well?

It's small and weak, but I can faintly hear the sound of Mi-chan's life..

I can hear it!

Ah

Sensei... ね..

Ah
