Hello everyone. Jiko here.

It's been quite the time since I translated the first part of this one huh.

Pretty much 5 months. But what can I say? I'm pretty lazy. Since I wanted to bring another chapter out i dedicated a day to translate it, so I hope you like it.

Still, didn't take away my laziness to translate all the moans and sfx. As the ones who read the previous chapter noticed...

But oh well.

Expect me to translate the 3rd chapter, though all i can say is that at least it will be sooner than 5 months

teehee~
