You are completely addicted...

The life of a hikikomori is worth only as much as his PC is, don't you know!?!?

That's what you get for wrecking your old one. You'll have to endure it for about another week

I'm full of stress, my life is going down the drain

I'm being mistaken for some good-for-nothing NEET, this is not okay

I can't even watch my favorite series on hulu nor Ika-chan's show!

I can't check new video sub-missions. I can't update my blog

THAT'S BULLSHIT!!!

Post Script

Hello. The postscript starts here with this half-baked page.

This time, due to the boom of weird little sisters, I tried my hand at doing some little sister stuff.

Though, I had a plot ready since way before. Regrettably, due to my sloppy disposition, I didn't follow through with a plan and ended up barely making it in time.

That's why I'm stuck writing the post script while the book is in an unfinished state.

What's more, my PC keeled over and died, so I had to handwrite everything myself. I'm really sorry for my chicken scratches (NdT: no typeface can convey how unreadable the handwriting in this book was)...

By the way, I plan to continue this little sister thing with another book after this one, or at least, that was my original plan...

In the following pages, you'll see a brief story that takes place some days after the events of the previous chapter.

There is also some cosplay stuff I drew.

Honestly, I wanted to draw more.

Have I lost my edge?

Well, what will be will be.

I look forward to our next meeting

And last, thank you very much for purchasing this book!

I also confided my secret to him
