LET'S BECOME AN EXPERT!

前突 書然

Hi, it's Alpha.

Somehow, 'Expert ni Narimashita!' has reached four volumes! If you count the compilation with the main story, it would be eight volumes, and with the folding book it would make nine. The last series 'Camilla and Chrysanthemum' was eight volumes counting the folding book, so it's around the same number.

Both Expert and the main story are reaching the climax, so I should be bringing it to a close soon. The less sexually focused 'Expert ni Narimashita!' is the foundation for the setting of the stories, but I don't have a fully formed vision for the story's plot yet. I will continue to improvise and draw whatever comes to me.

This time the story has the atmosphere of an everyday scene. Like, 'I get the feeling these characters do this sort of thing pretty often~' or something like that. Compared to my previous draft, it's been cut down and made more concise.

In the previous book, the preview hinted that Mifu would appear in the new issue, but... um. No, I have actually written a story with Mifu! Honest! I already decided on her lines (mostly), and all that was left to do was to put her name on it, really. Though it's kind of a waste that I had to cut so much of the material... Sorry, sorry! Sorry for having so little of the original product left to read! All the time I was thinking about how excruciating it was to not be able to use the material...

The only time Mifu had appeared was in the Winter Comiket goods, so due to there being a one year gap between her first appearance and the book... Ohhhhh... No way would people remember her.

Though a friend discovered that the previous Comiket staff were still using the posters, which made me pretty happy~ There won't be any goods produced for the Winter or Summer Comikets, so seeing them still using it was a rather cheerful discovery.

This may be off topic, but Mifu really got shafted. What a tragic character.

I hope you enjoy this book. Well, then-

後書 妄想

Thank you for reading to the end. As for me, being finally able to grasp the characters gets me excited for what to write next. Manatsu sure is a convenient character, being the first to initiate almost all the sex scenes means she's easy to write. Eki's tsundere-ish lines were very fun to write and easy to get into. Black hair is great, isn't it? It's easy to draw as well.

But increasing the cast and extending the volume count through continuations and sidestories would make it all too confusing, so maybe I should be thinking about a standalone work that introduces the Expert storyline... I don't really have the time, but... sometime soon... I should make it... I guess.

Next time would make it winter... that was quick. Maybe I can do something spectacular this time. I have to work hard and put out books!

It's getting too long so I'll leave it at this. May we'll meet again in another issue.
