Sumomo Dou Original Work

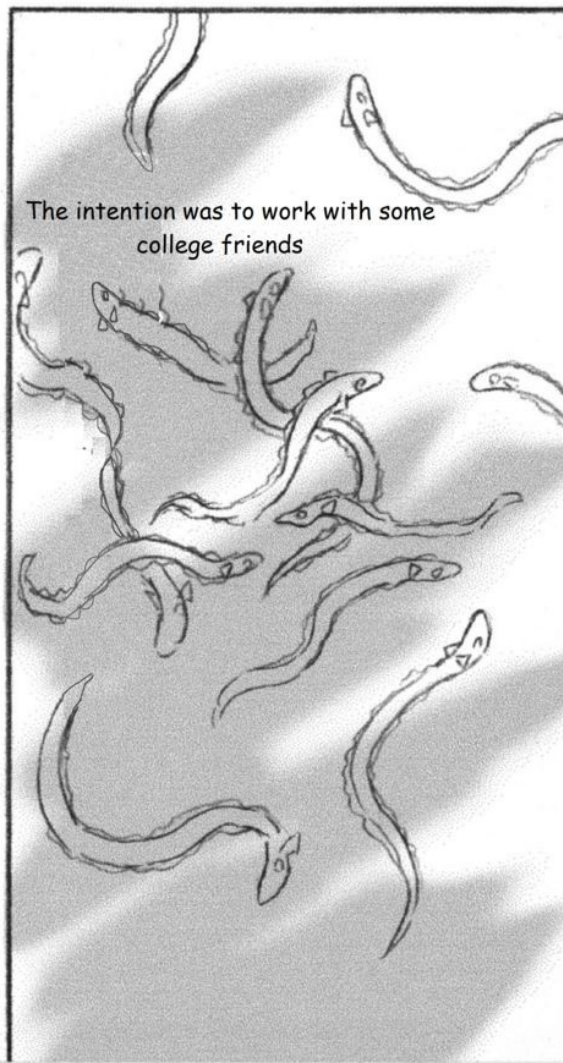

A high income while working from home. Earn 200,000 yen per month while staying at home. Eel demand has soared recently, leaving a hole in the market. There was a method recently developed where the eels are cultivated in a girl's body which can sell for huge profits. Growing eel at home in this manner can be very profitable.

"Are you kidding?"

"Don't you think this is embarrassing?"

"Drink this medicine, menstruation will stop for one month."

The intention was to work with some college friends

My uterus was injected
with eel larvae, water,
and food.

"I will now inject
the eel larvae"

There is a great feeling
of oppression...the egg
vibrator pressed against
my clitoris is vibrating
slightly.

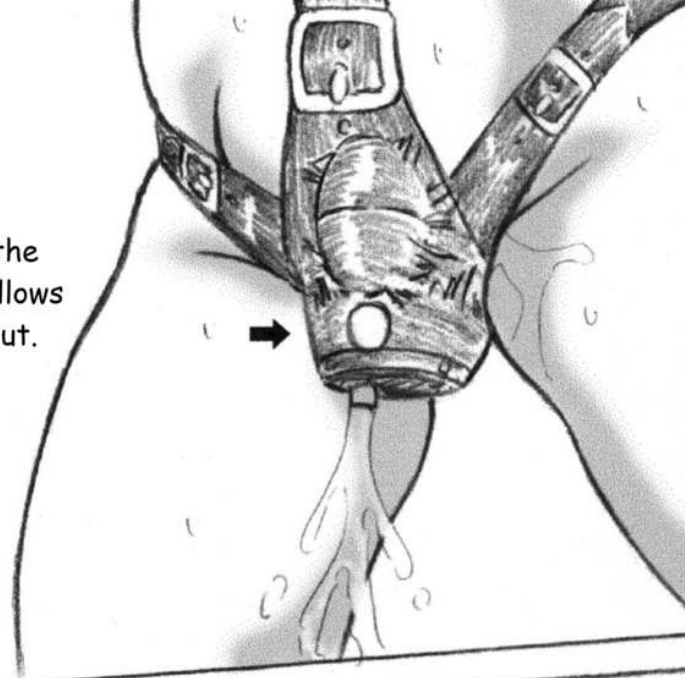

"You can return home
today"

There is a
strange
sensation as the
big dildo enters
the vagina.

I was given a free machine rental that I use once a day to inject nutrients into my body.

Pushing the button allows my pee out.

I gradually feel the eels wandering in the uterus getting bigger

I try stimulating my clitoris by putting my finger in the gap near the egg vibe.

"It is comfortable."

When flipping the switch, the vibrator in my vagina began to swell surprisingly...

the "expansion" is comfortable but somewhat unsatisfactory.

Belts were wrapped around my limbs and I walked like livestock to the treatment room.

Three weeks later my belly had become much larger and was so heavy I could not walk. I was brought to the farm for the remaining week.

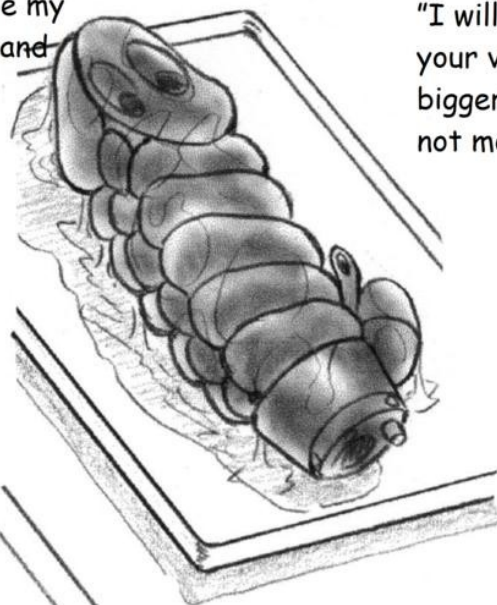

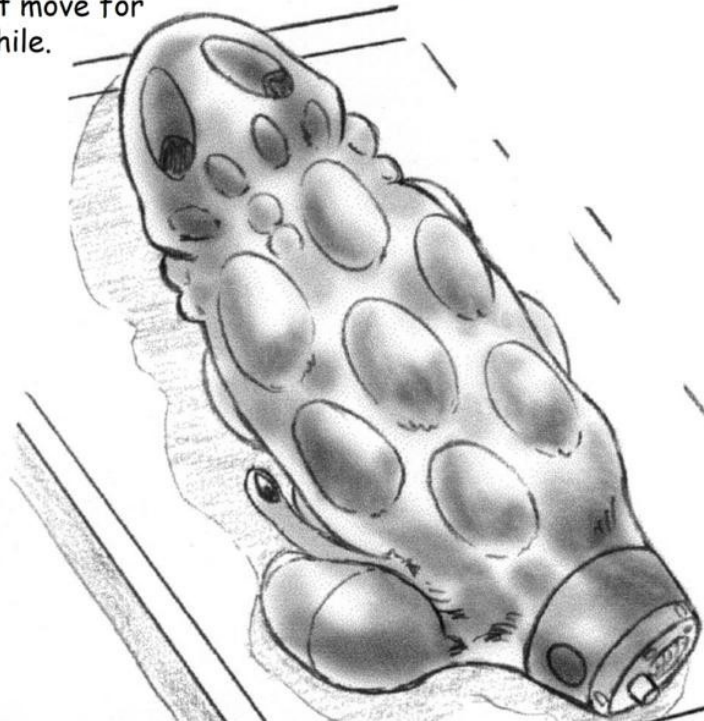

The vibrator was locked in place with a belt. My vagina is overwhelmed with a sense of oppression and pain, I could not move for a while.

A big vibrator pushes my vagina apart and slips into it. The painful vibs bumps scrape my G-spot. My body stiffens and the belts creek.

"I will exchange your vibs for bigger ones, do not move."

"Nuggggguuu"

Electricity begins to flow to all of the electrodes.

"UOOOOOA".

The eels, seeking an escape, violently thrash around the uterus

"Ugnnnhhhh"

The vagina dildo is pulled out. Cum and eels vigorously pour out. The sensation of the eels squirming out and rubbing against the G-spot many times causes countless climaxes, leading to fainting.

The day of the eel harvest came. My vagina is huge now from the large vibrator stretching it. An electrode is inserted into my vagina vibrator. Next, my body is tied up with rope hanging over a collection barrel. Electrodes are placed all over my body to simulate the eels to leave my body. The first shock up the vibrator sends the whole hive of eels into a frenzy.

Two weeks after the eel harvest is a rehab period, so I am playing games from home except for my university lectures. The games I play make me some money from live broadcasting websites, but the eel opportunity offers much higher income. I also enjoy the experience.

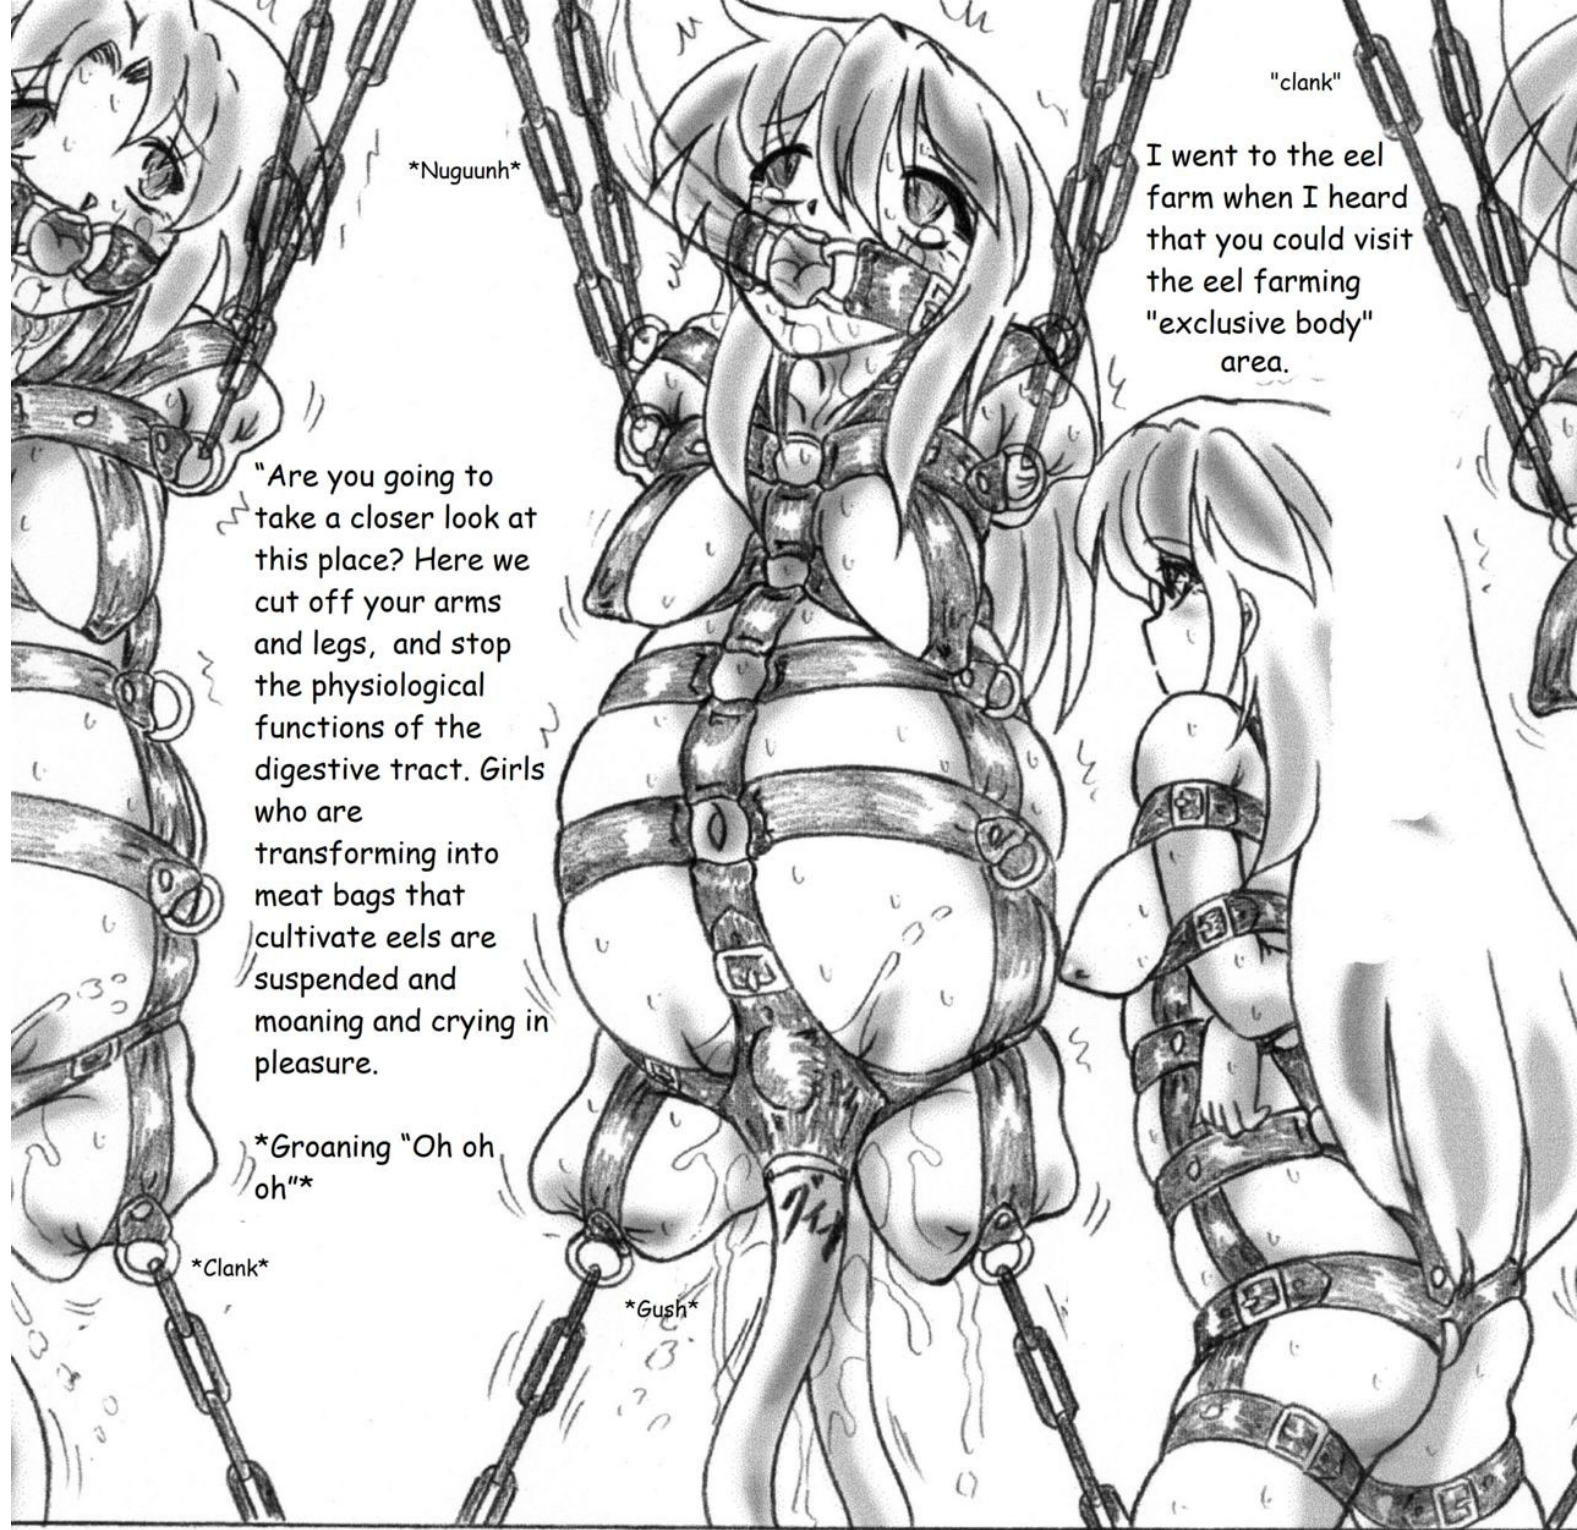

One day I heard from friends that a new method was developed called "exclusive body eel farming"

8

When I looked it up on the internet, images of girls without limbs were shown.

You can cultivate eels in the uterus, stomach, and intestines. This method allows for large quantities to be cultivated. Monthly income of 400,000 yen.

I was shocked... Monthly income...I was excited to see the body without hands and feet.

I went to the eel farm when I heard that you could visit the eel farming "exclusive body" area.

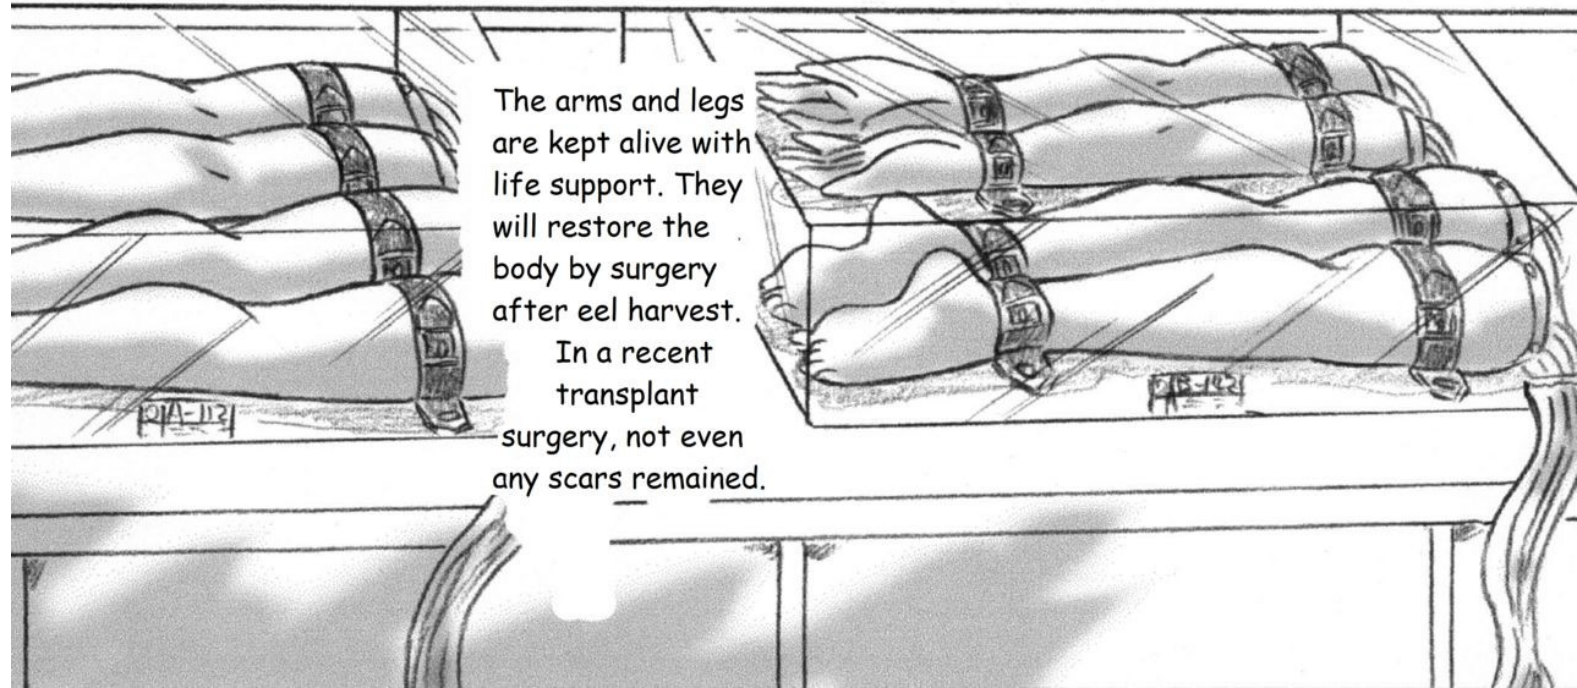

"Are you going to take a closer look at this place? Here we cut off your arms and legs, and stop the physiological functions of the digestive tract. Girls who are transforming into meat bags that cultivate eels are suspended and moaning and crying in pleasure.

Groaning "Oh oh oh"

The arms and legs are kept alive with life support. They will restore the body by surgery after eel harvest.

In a recent transplant surgery, not even any scars remained.

I got a summer part-time job. I went to go get some noodles and eel. Since girl "production" is embarrassing, it is not discussed and ordinary people do not know they are eating a girl's product... Is it delicious?

10

I enjoy watching videos on the internet of exclusive eel farming while self-restrained and masturbating.

It's been two weeks since visiting the farm and I'm worried about making a decision to become an "exclusive body".

I am really excited and horny while watching these videos. The vibrator sensations feel stronger. "Houhhh" What must it feel like to have no limbs? I'm so excited by the thought I cannot take it any longer.

"Please go to this place for exclusive body eel farming procedure"...I am afraid... Yet I could not put up with my desire anymore.

A line is drawn at the base of the limb with an oil pen. The limbs are fitted with straps to hold them down. "Just because this won't hurt should I be doing this?" The breathing mask attached to the mouth pumps an anesthetic into the patient. The patient loses consciousness.

I woke up from sleep and the feeling of my limbs was gone... There is nothing when I try to move. "It is terrible... this odd sensation for the first time." I had been transformed into a meat bag just to be used for eel farming. Drugs to temporarily stop the functions of my ovaries and gastrointestinal tract were taken. Eel larvae, water, and food were injected into my vagina.

12

My body is lifted by the chains and a tube is forced down my throat. Eel larvae, food, and water are injected into my stomach... at the same time another tube is shoved up my anus. After an enema, eel larvae, water and food are injected. After completion, my stomach was swollen so much it was hard to breath. A tube was placed into my lungs to prevent suffocation.

The processing stage was over.

"Nugguuhhh"

A huge vibrator that injects nutrients into her mouth everyday was secured in place. A large vibrator was also placed in the vagina and anus. The vibrators were set for a medium setting but would go to full power whenever an eel would bump them, bringing the girl to climax. The vibrators would undulate like a snake, rubbing all the walls inside the girl, causing the eels to react even more. The girls were left in a constant state of ecstasy.

The eel farming exclusive body grows eels in a short period of time and uses special food to grow the larger quantities. They grow rapidly and enlarge the stomach, intestines, and uterus.

drip

It was the day of the eel harvest. Strong currents flow to the electrodes all over my body. The eels do everything to avoid the current and try to come rushing out at once. Bound in a spread eagle position, forcing the anus and vagina outward, the eels rush out.

"Aaaahhhh"

The eels rush out and rub my G-spot and clitoris as they wiggle out of my body.

Eels start pushing out of the stomach into the esophagus and up out the mouth. They block the airway as they come out so I cannot breathe. When all of the eels are finally out, I can breathe again. I fainted after they were all out of me.

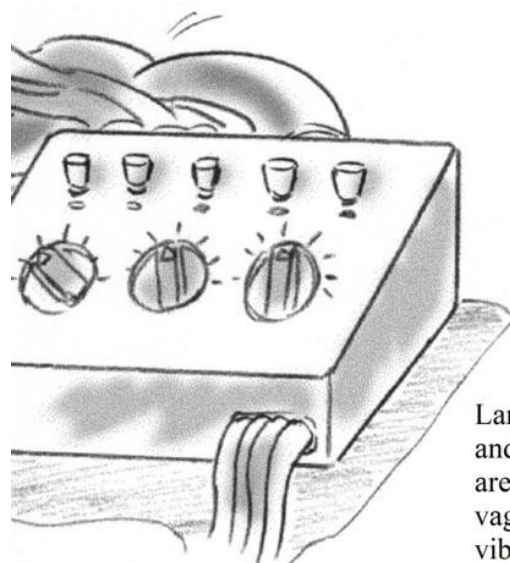

After the eel harvest I decided not to have the surgery to restore my limbs. I decided to appear in videos.

It is a pleasant feeling being fucked by men in this abnormal situation with no arms or legs.

The feeling of a dick is much different from the eels and is amazing and pleasant. I love the feeling of a dick down my throat while being fucked in the anus and vagina.

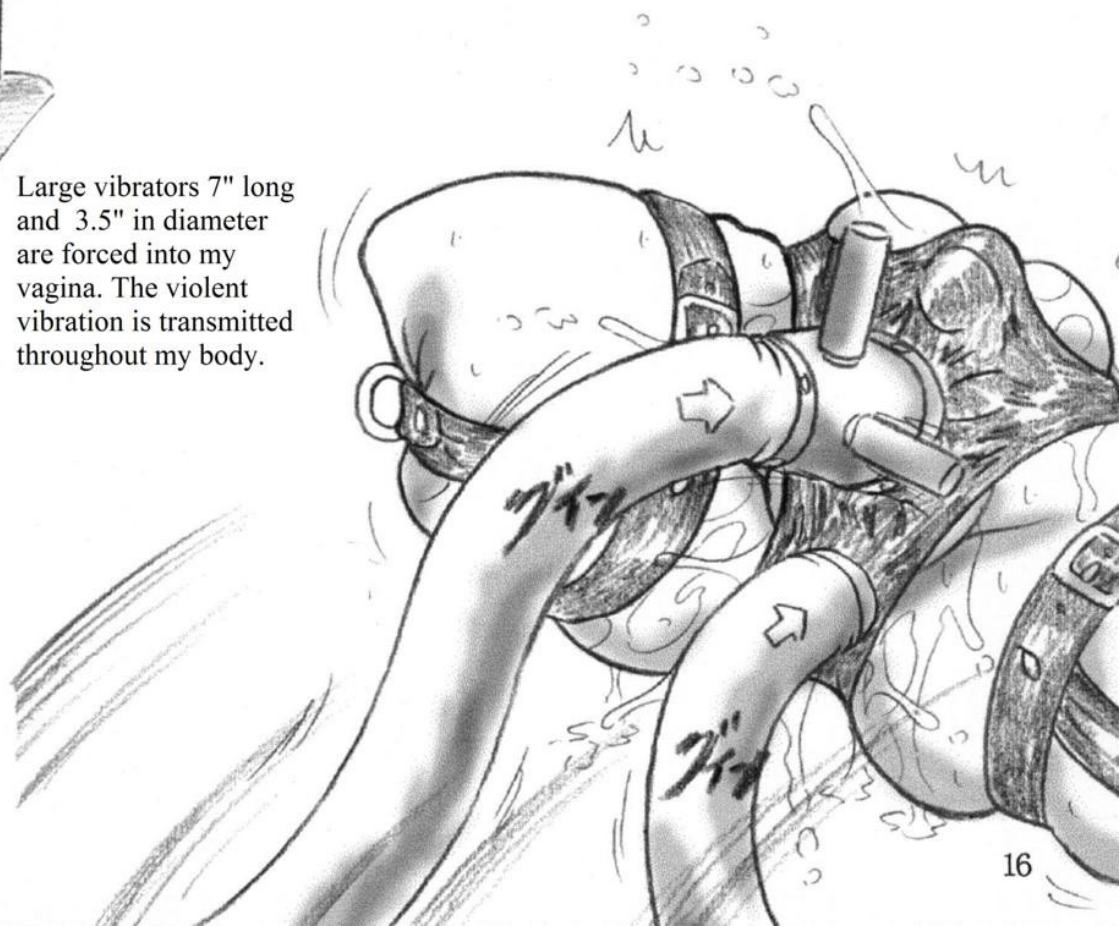

I also appeared in video that showed how much cum a girl can make continuously.

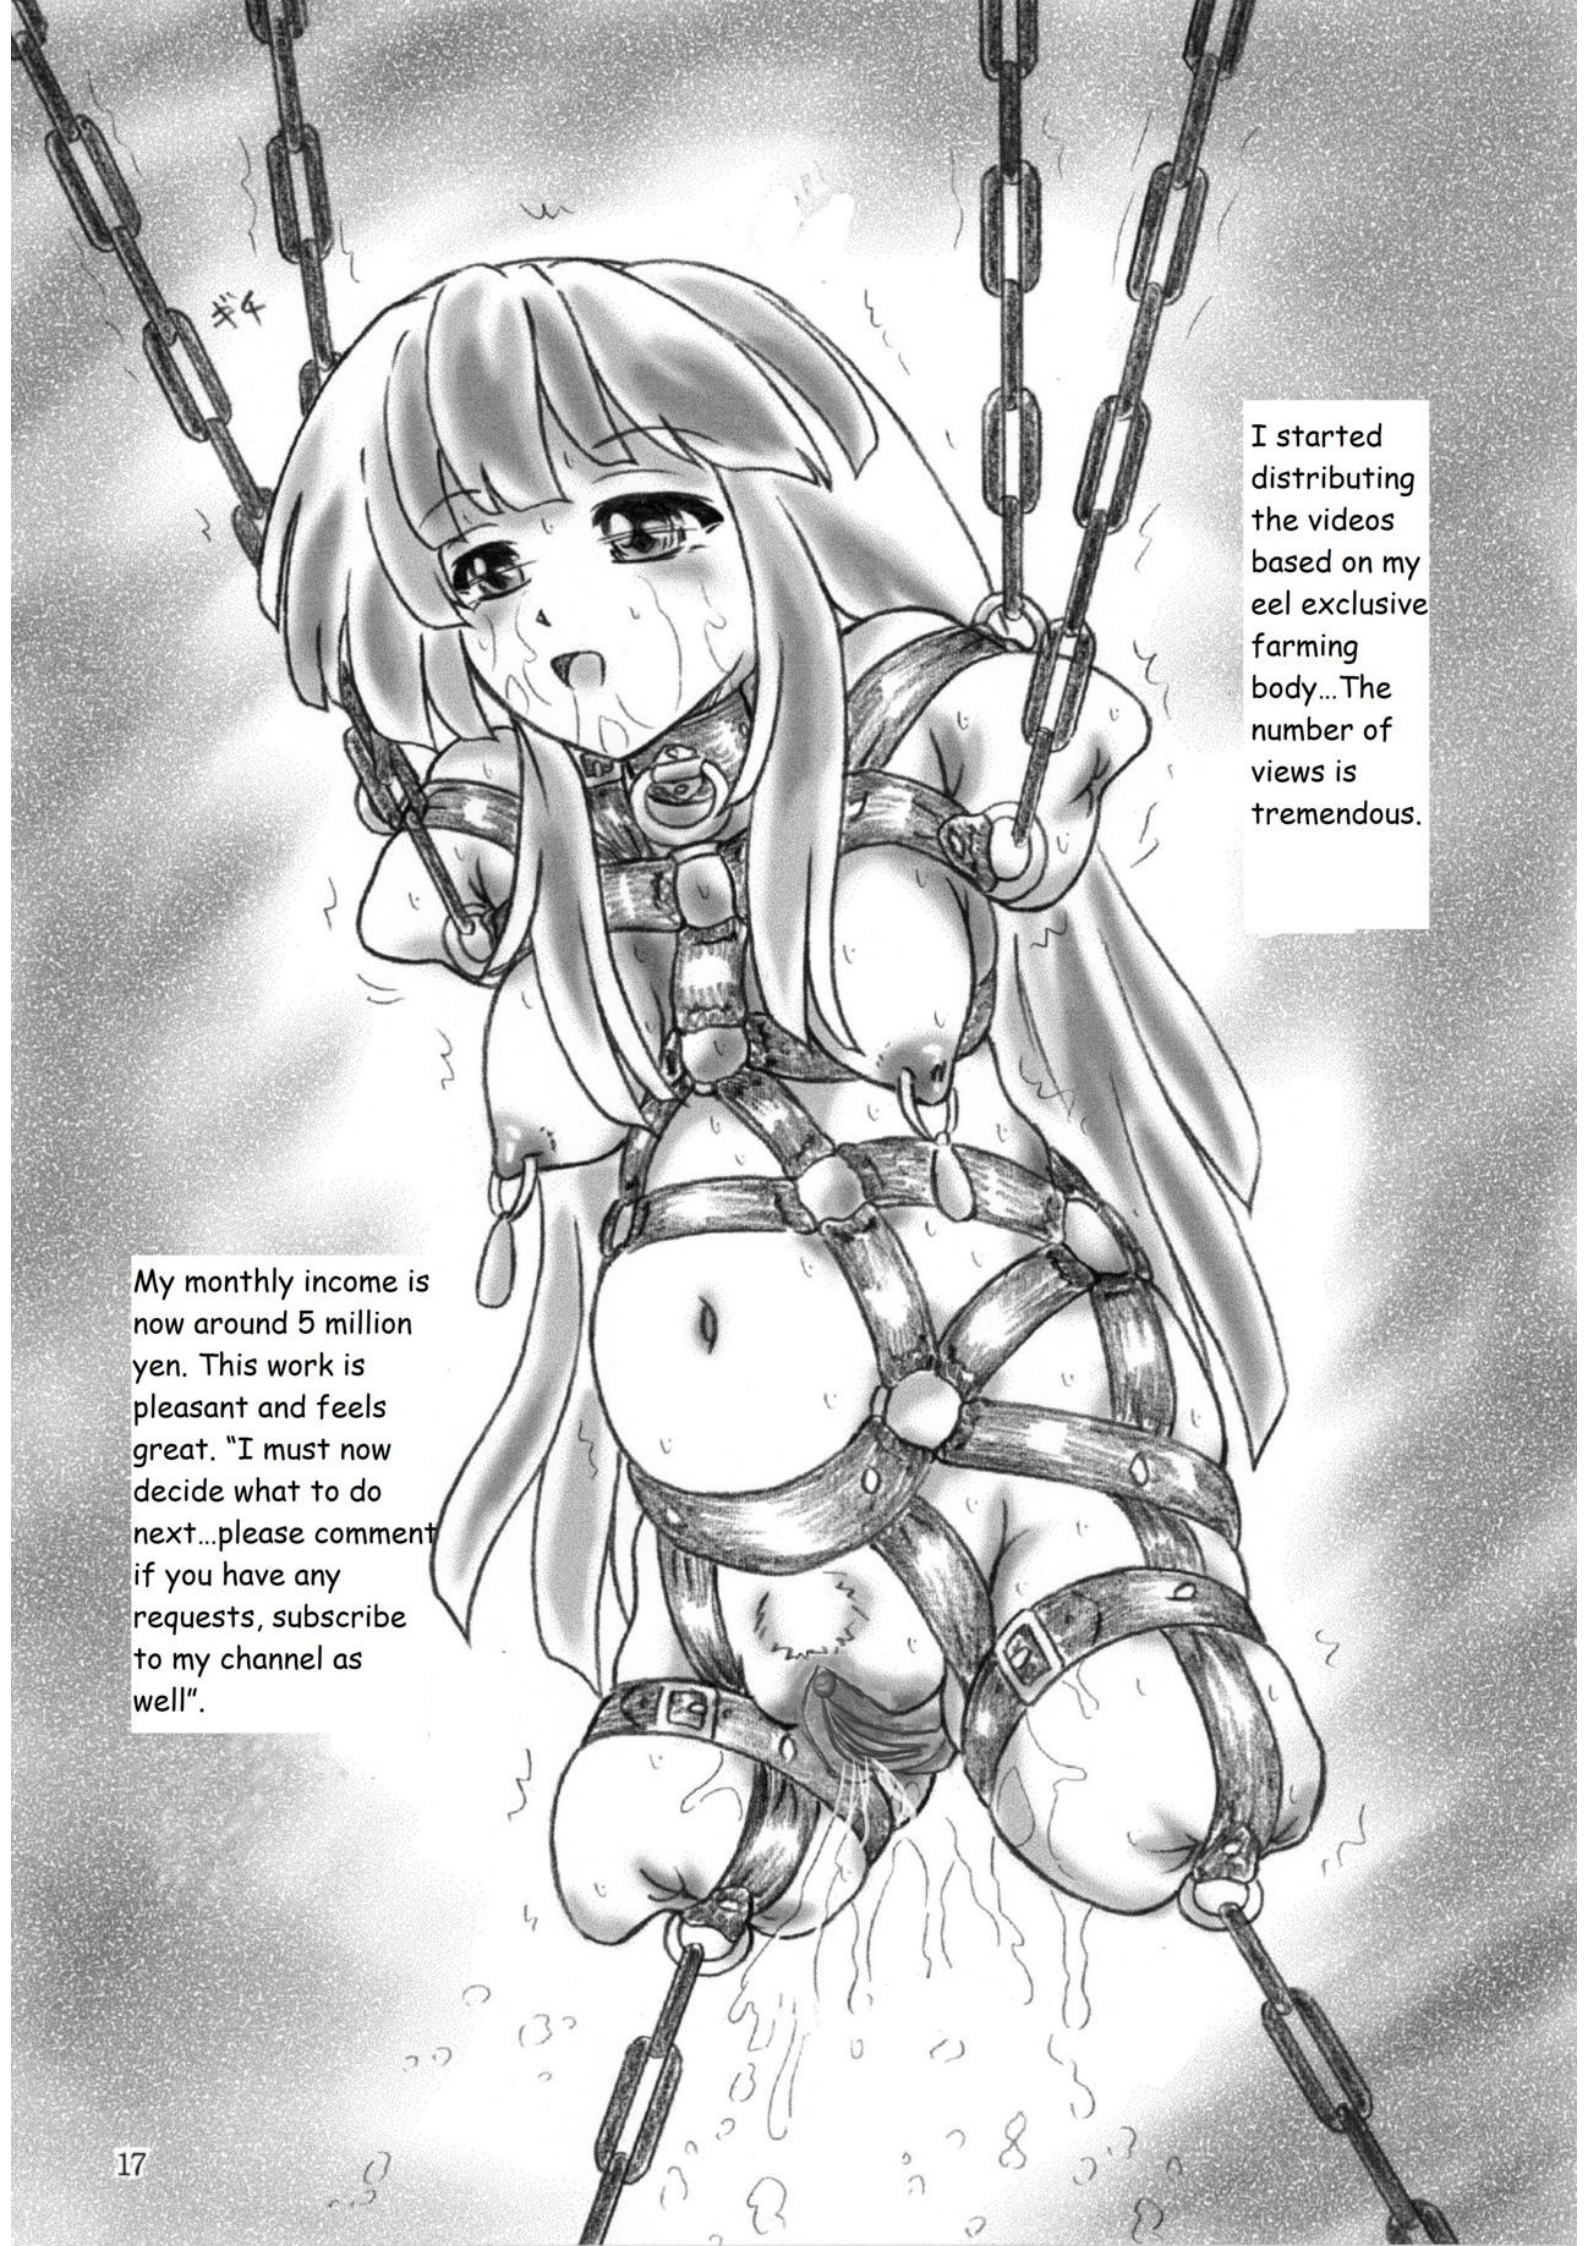

Large vibrators 7" long and 3.5" in diameter are forced into my vagina. The violent vibration is transmitted throughout my body.

In the vibrator, an electrode stimulates the G-spot and clitoris...The inside of the rectum and vagina are filled with a pleasant substance that causes countless orgasms.

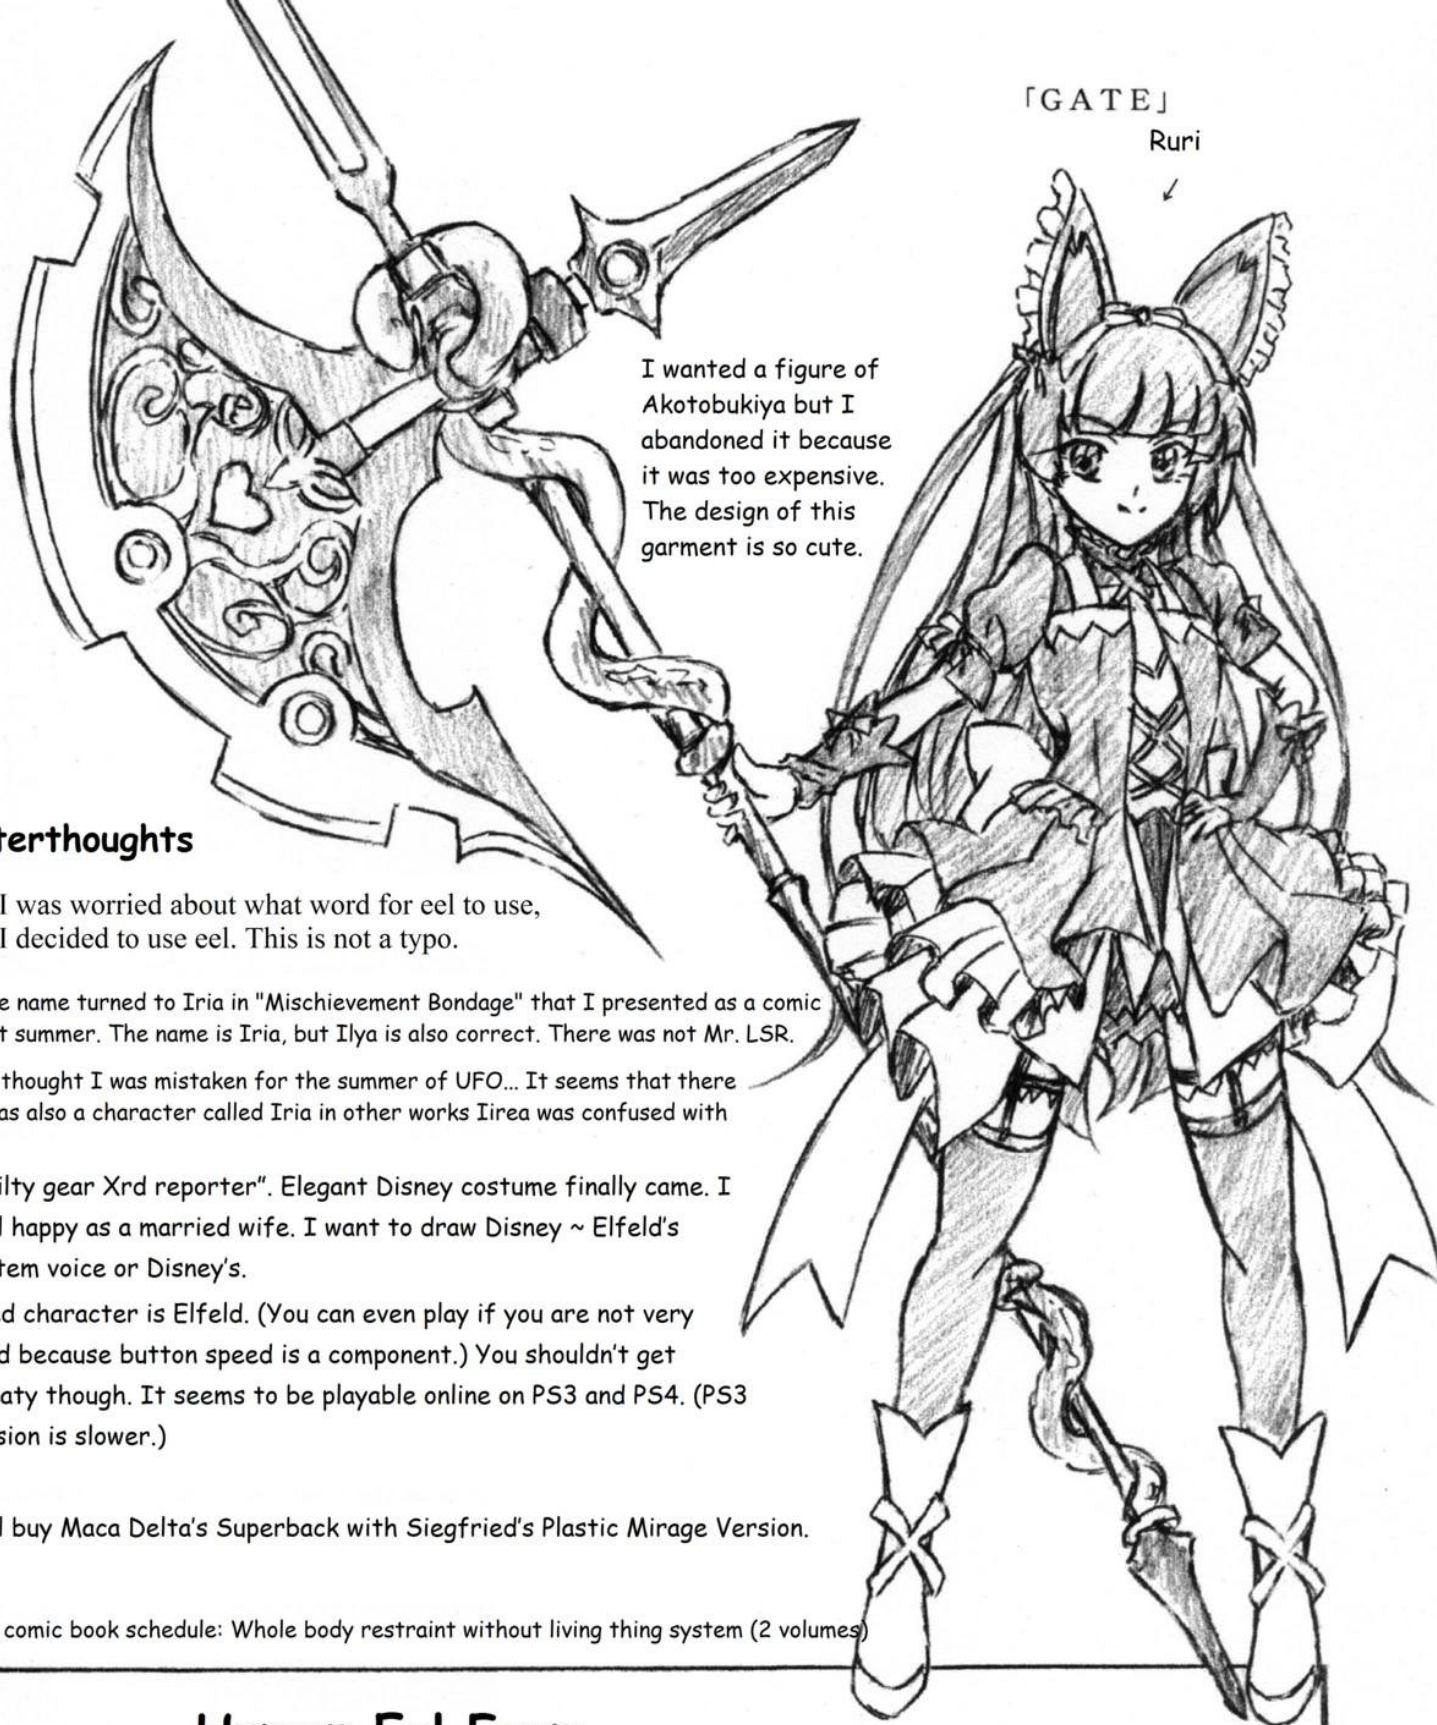

"Oh Oh Oh!"

I started distributing the videos based on my eel exclusive farming body...The number of views is tremendous.

My monthly income is now around 5 million yen. This work is pleasant and feels great. "I must now decide what to do next...please comment if you have any requests, subscribe to my channel as well".

Ruri

I wanted a figure of Akotobukiya but I abandoned it because it was too expensive. The design of this garment is so cute.

Afterthoughts

I was worried about what word for eel to use, I decided to use eel. This is not a typo.

The name turned to Iria in "Mischievement Bondage" that I presented as a comic last summer. The name is Iria, but Ilya is also correct. There was not Mr. LSR.

I thought I was mistaken for the summer of UFO... It seems that there was also a character called Iria in other works Iirea was confused with

"Guilty gear Xrd reporter". Elegant Disney costume finally came. I feel happy as a married wife. I want to draw Disney ~ Elfeld's system voice or Disney's.

Used character is Elfeld. (You can even play if you are not very good because button speed is a component.) You shouldn't get sweaty though. It seems to be playable online on PS3 and PS4. (PS3 version is slower.)

I will buy Maca Delta's Superback with Siegfried's Plastic Mirage Version.

PS4の「Fate/EXTELLA」 Cass Fox and Elizabeth

It seems to come out- Is it an action thread? I would like to do something awesome. I hope to see Elisabeth's pants like the CCC (Striped). If Iriya's Zwei Form enters the market, I will buy each PS4 body but wish I didn't have to pay for the DLC

I also want to play the sound of Hatsune Miku of PS4...I am using an amplifier built-in speaker for games FUZE TSX 220. This sounds pretty good, but the size is big. (but only cost 10,000 yen) Natural bass, good sound spread, etc. The optical cable I am using is thin; I should maybe get a new one.

When a red and white cable for voice input is attached it sounds good.

PS3 is full this year and next year I will not be playing the game anymore as there will maybe be a new Guilty Gear game. Either way, I may not get it.
