End

Heya everybody,

I said I would finish that other story about a girl getting fucked in the ass but, well, things happen ya' know? Anyway, I'm procrastinating a final and what better way to do it than something time-intensive and generally pointless?

Some stuff about the translation:

-Koshino refers to Narumi by お前 (omae) when he first tells her about his love for her ass. This is really what shocks her, since it's a very casual way of referring to someone, especially odd when you don't know them that well. This was, accordingly hard to convey in English but I think I got the point across.

-When training her ass, she says she 頑張る'd which means did your best, tried really hard, gave it your all, etc. She clearly went all out for him so I'd say she did her best.

-The time skip is kind of sudden and without explanation, I was a bit confused when I first read it. But when you only have 16 pages to get story and a lot of pornography, I guess you have to get the ball rolling real fast.

Well, thanks for reading and getting this far. Maybe this cleared stuff up if you had any questions.
