

Wah...?!
G-GOOD...

Hey! Good
morning~

Morning

Hey, Misacchi
yesterday was like,
totally hilarious!

Eh? Tell me,
tell me!

Au...

You want to
poop at school?
That's going
to stink.

Are you gonna
bother your
classmates with
the smell?

Ugh
...

Wow, you
peed lots.

Your diaper
is all squishy!

N-no...
that's
not it...

How about
poop? Did you
poop any?

N... no,
not yet...

Then do your
best and try
to hold it in~

Go ahead and pee in
your diaper as much
as you like, though!

Ahaha! We'll go
play after school,
so try to hold it
until then, okay?

Y...
...huh...?

Ahaha!

もああ...

Ahaha! This girl just keeps peeing her diaper all the time, so we don't change her wet diapers until right before it's her bedtime!

It's a bit yellow, too...

Wow, she really is wearing a diaper!

Sure, but...

...and that's how it is, so... be nice and play with her, okay?

Right?

N... ah, oh...!
Ahaha, err...!

Now she's farting...

I... can't hold it any longer...!
I need to go...!

I'm about to...
Oh no, here it-
Ah!

PFERT!

Ahahaha, come on!
You're a big girl, so try to hold it in.

If you do that in front of the kids, it's going to be embarrassing~

D... did you really have an accident?

It STINKS!
Why didn't you say you had to go?!

Eek! No...!
Don't lift my skirt!

Eh? ...Whoa!
She's having an accident already!!

I'm sorry!
I, um... H...!

Hey, what's going on?

Stinky~

I think that diaper lady is pooping herself...

Ew!

Just look at that Bulge!

H... I'll go ask my mommy to help!

No! Wait...!
Aaahhh...!! Please don't tell anyone!

Did you at least say
"Hafta poopy!" first?

Eek...!
Ah... uh...

Eep...
No... I, uh...

...so, you had
a big messy
accident, right
in front of
the children?

Pathetic~
Just how
old are
you, again?

Ewww,
nasty...
it's such
a mess.

Just what
have you been
eating, hm?

Oh, eeew...
Yumehime-chan
is such a little
poopybutt~

So dirty~

Hey, how about
we go eat at a
restaurant?
I'm hungry, so
treat me to
something

Oh, but I
won't be
sitting at
your table,
obviously.

Oh, yuck!
Now it's
starting
to leak.

Huhu, you've
got it all
the way up
your back.

A somewhat
unreliable
diaper that
starts to leak
right away.

A doubled up,
reliable diaper.
However, the
thickness of
it guarantees
that others
will notice it.

NO WAY
FOR ANY
EXCUSE

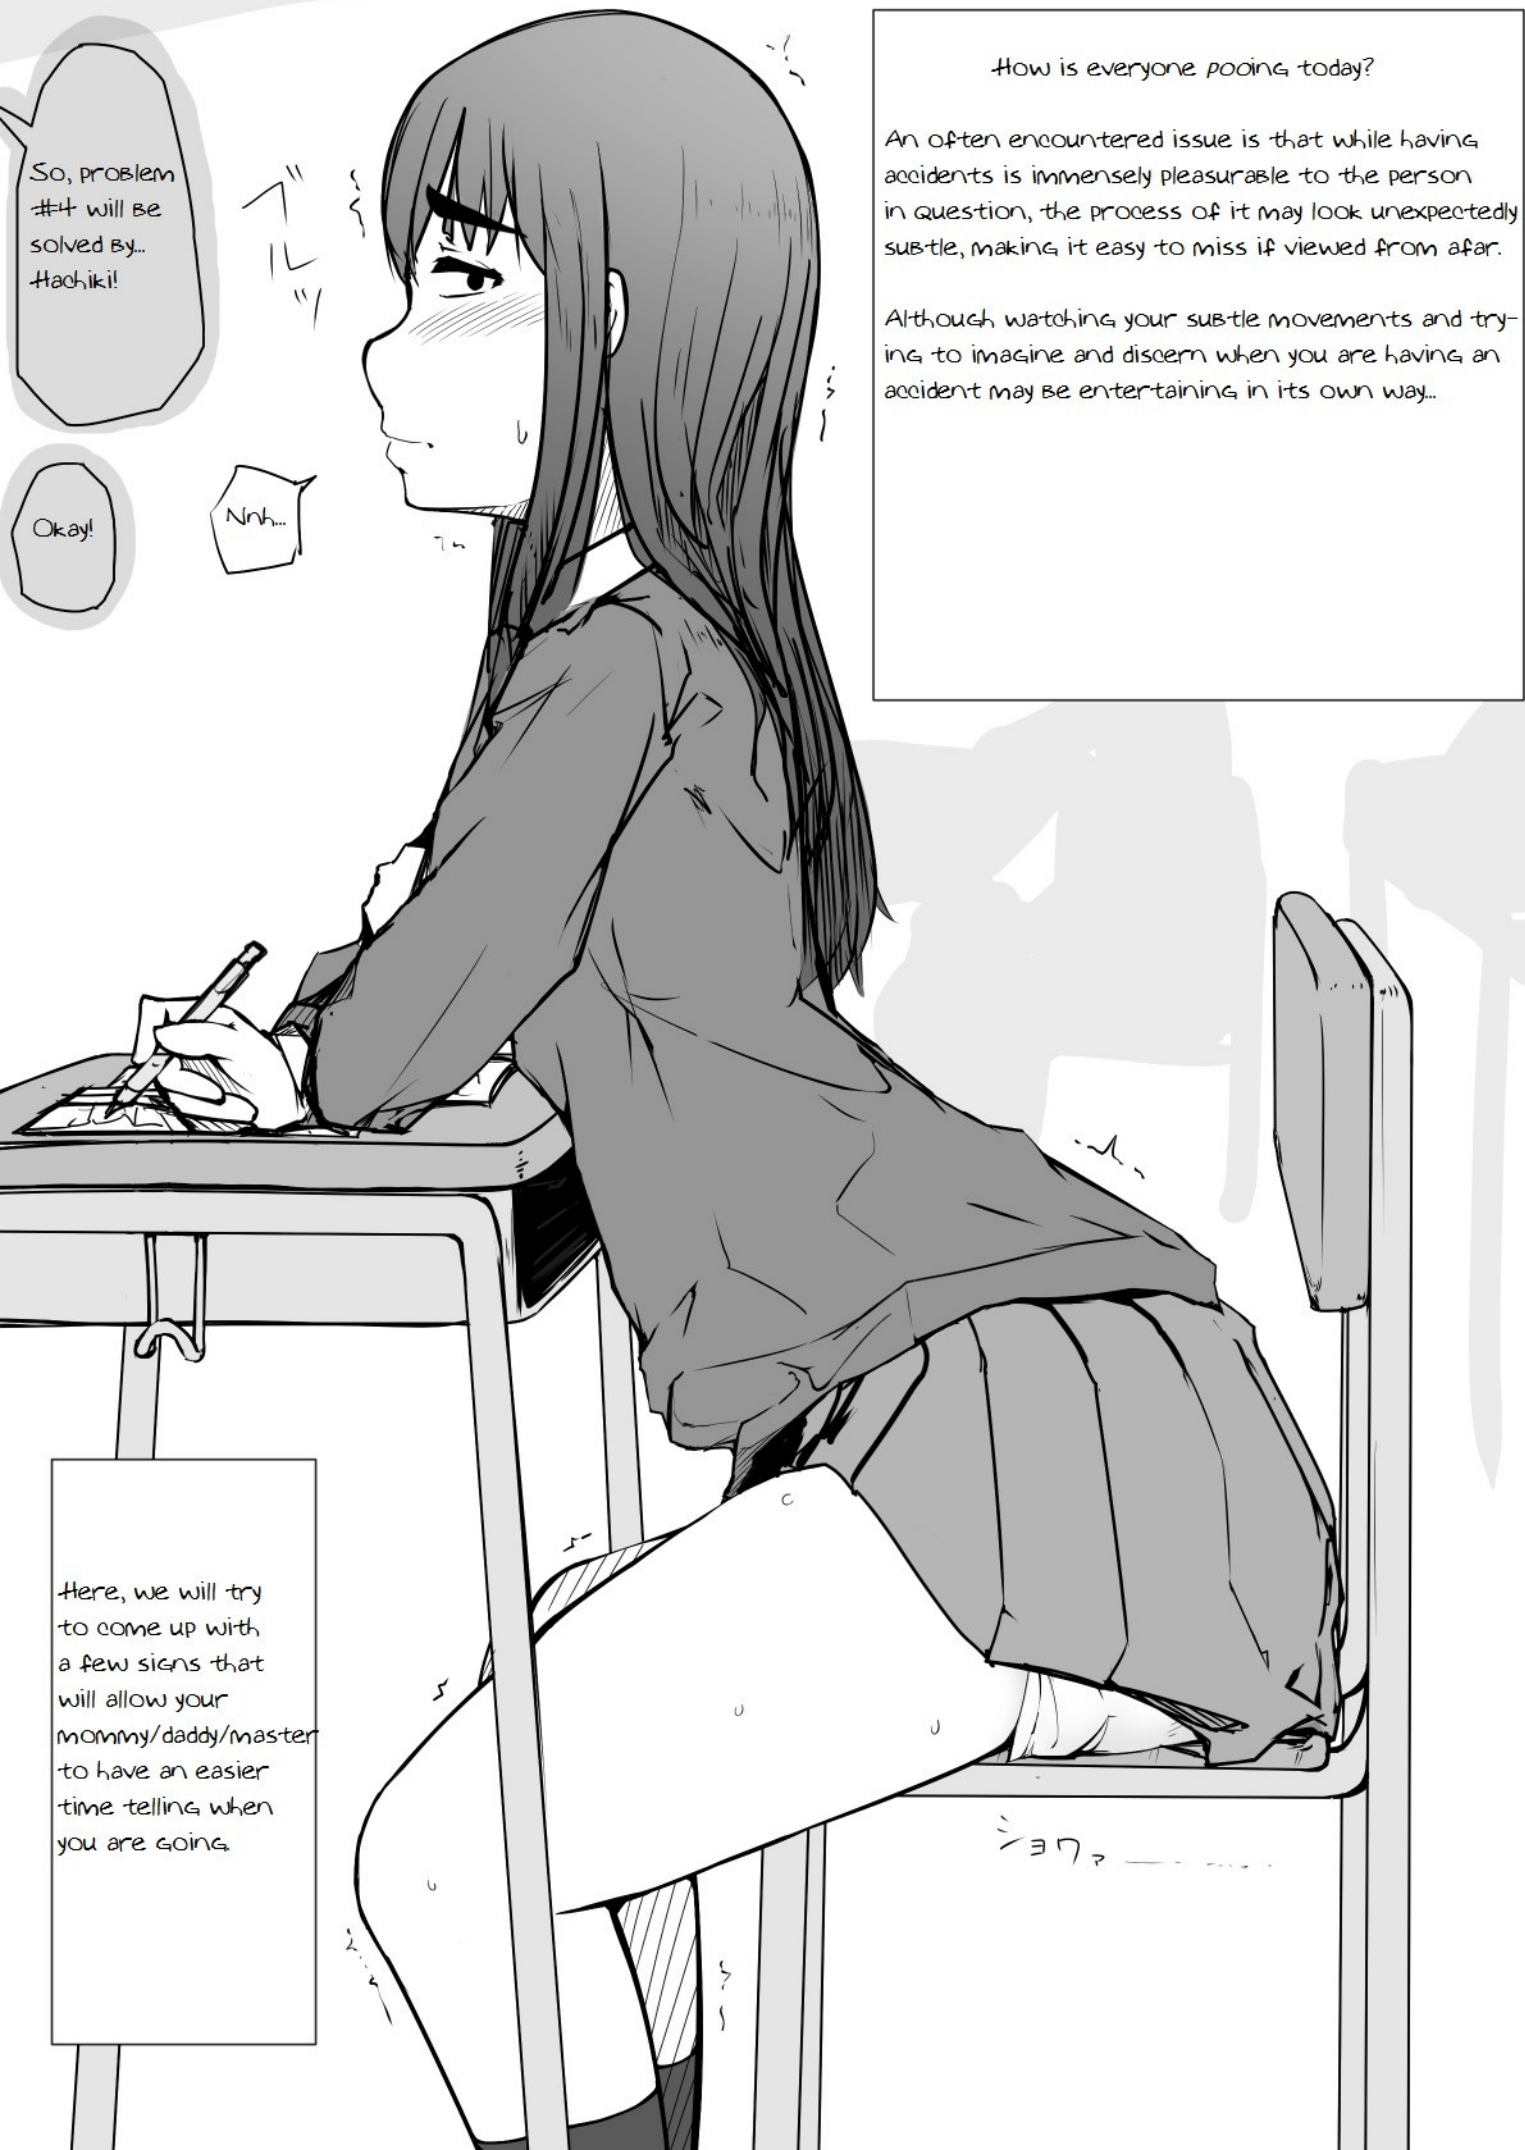

...GOO-GOO
Ga-Ga.

Mmph...

NgagooGi...
Ga Goo...
...mmh...

So, problem #4 will be solved by... Hachiki!

Nnh...

Okay!

How is everyone *poing* today?

An often encountered issue is that while having accidents is immensely pleasurable to the person in question, the process of it may look unexpectedly subtle, making it easy to miss if viewed from afar.

Although watching your subtle movements and trying to imagine and discern when you are having an accident may be entertaining in its own way...

Here, we will try to come up with a few signs that will allow your mommy/daddy/master to have an easier time telling when you are going.

ニョ?

...?
What is it,
Matsuyama?

Aah...
I'm... I'm
peeing...

N-no... it's...
nothing...

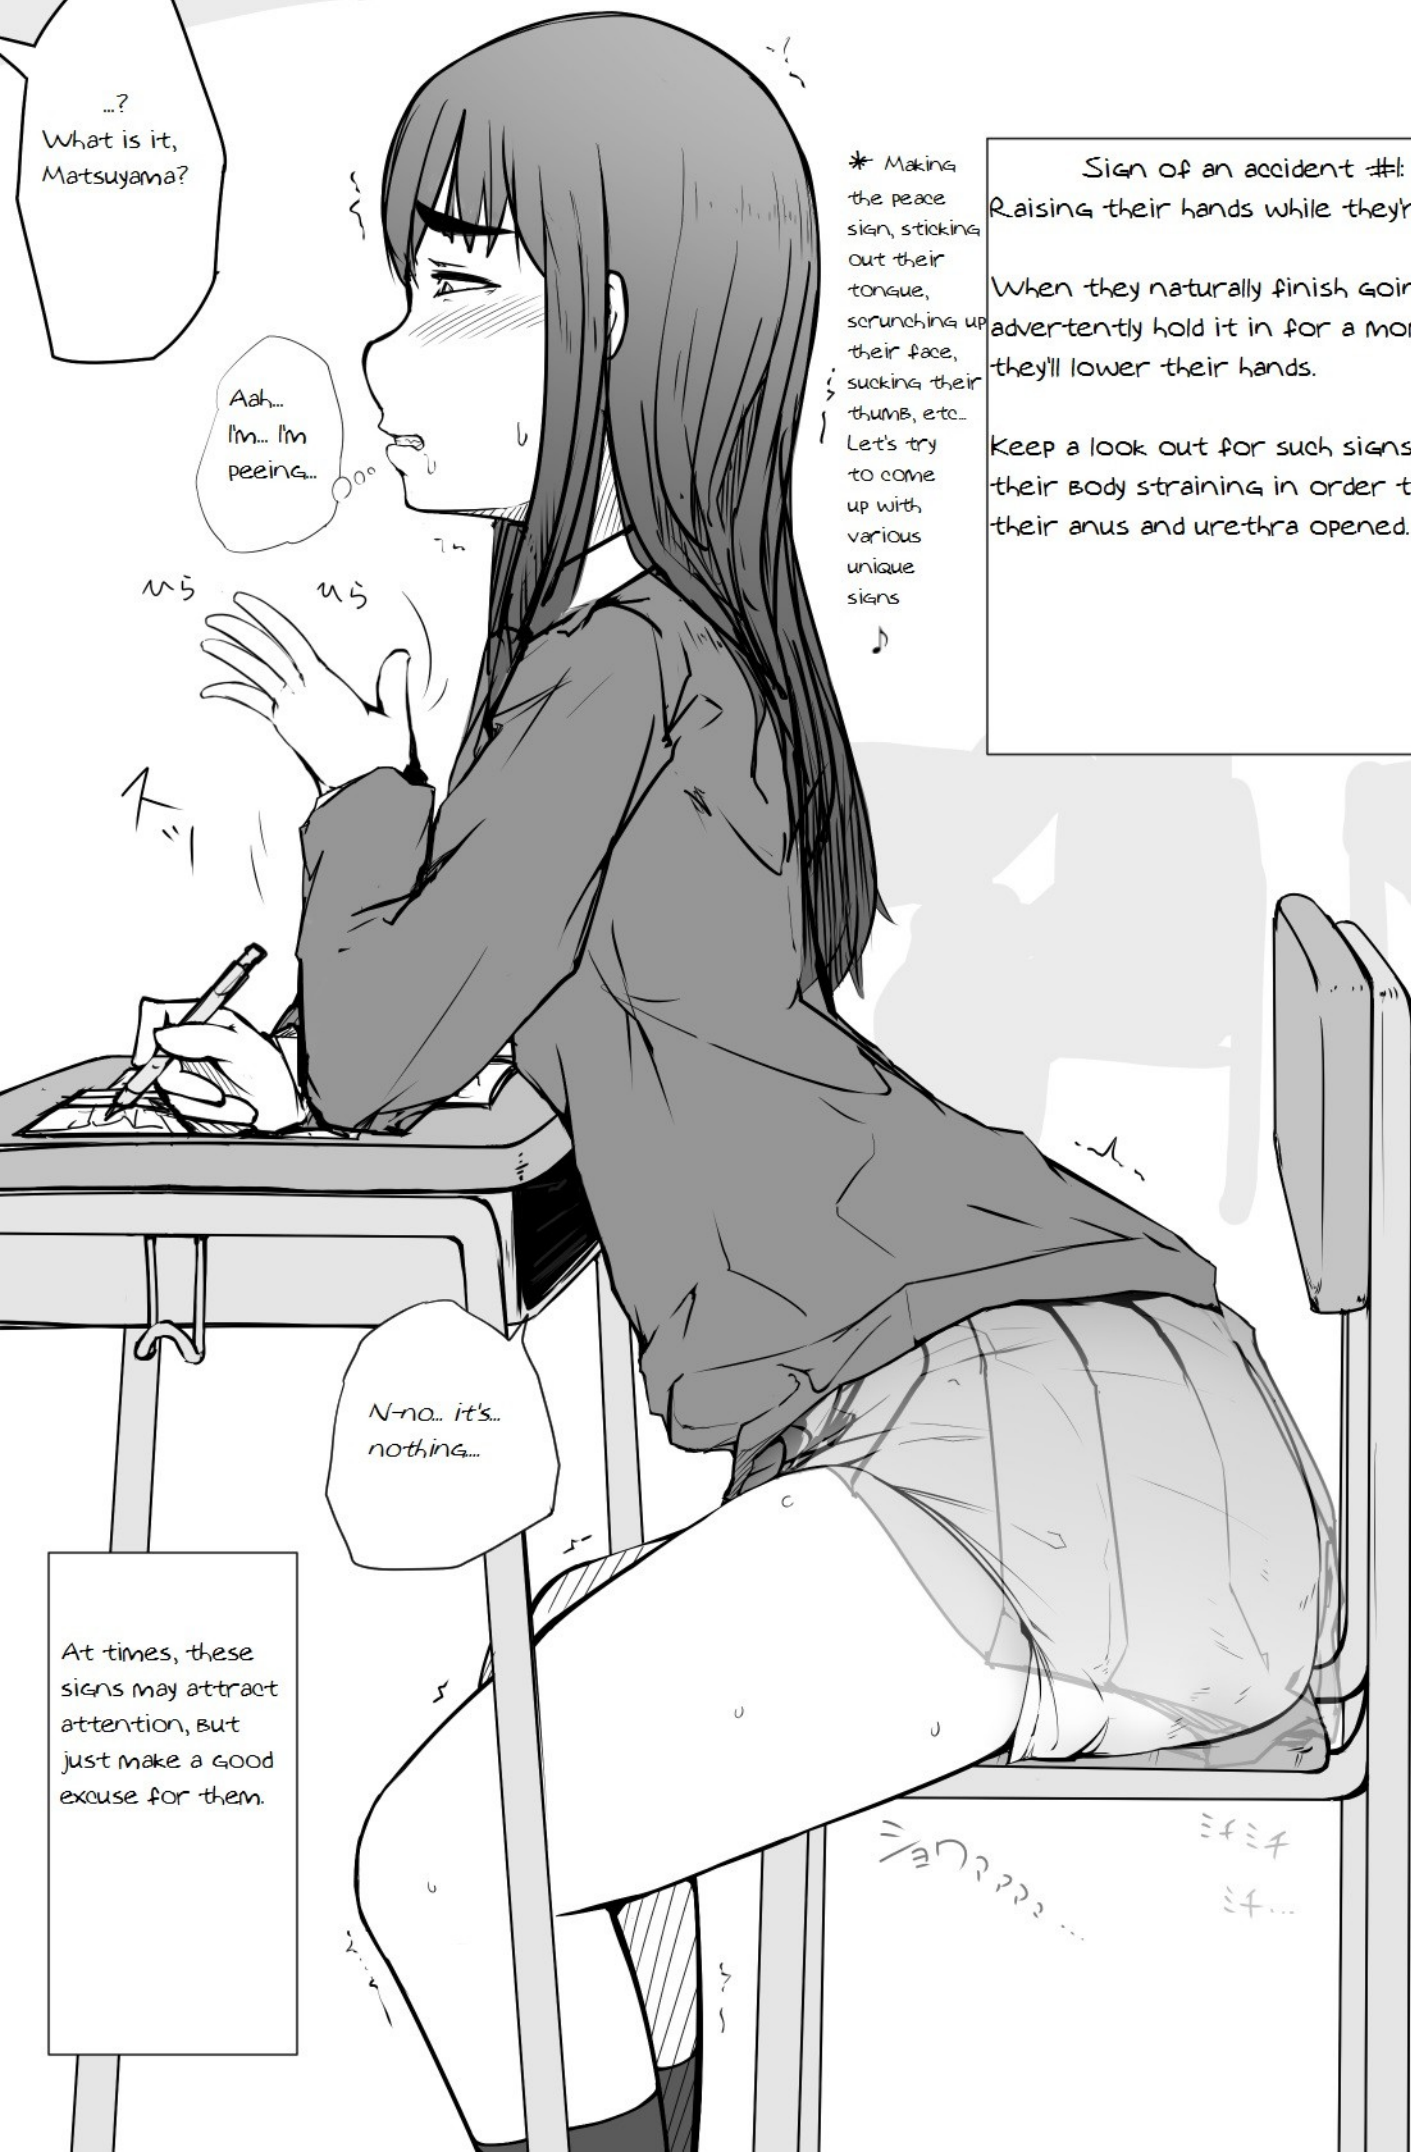

At times, these
signs may attract
attention, but
just make a good
excuse for them.

* Making
the peace
sign, sticking
out their
tongue,
scrunching up
their face,
sucking their
thumbs, etc...
Let's try
to come
up with
various
unique
signs

Sign of an accident #1:
Raising their hands while they're going.

When they naturally finish going or in-
advertently hold it in for a moment,
they'll lower their hands.

Keep a look out for such signs of
their body straining in order to keep
their anus and urethra opened.

Hey, who's making that noise?
I told you all to put your phones in silent mode.
Whoever you are, your phone's getting confiscated now.

What's that noise?

It's so loud!

Sign of an accident #2:
Attach an accident alarm.

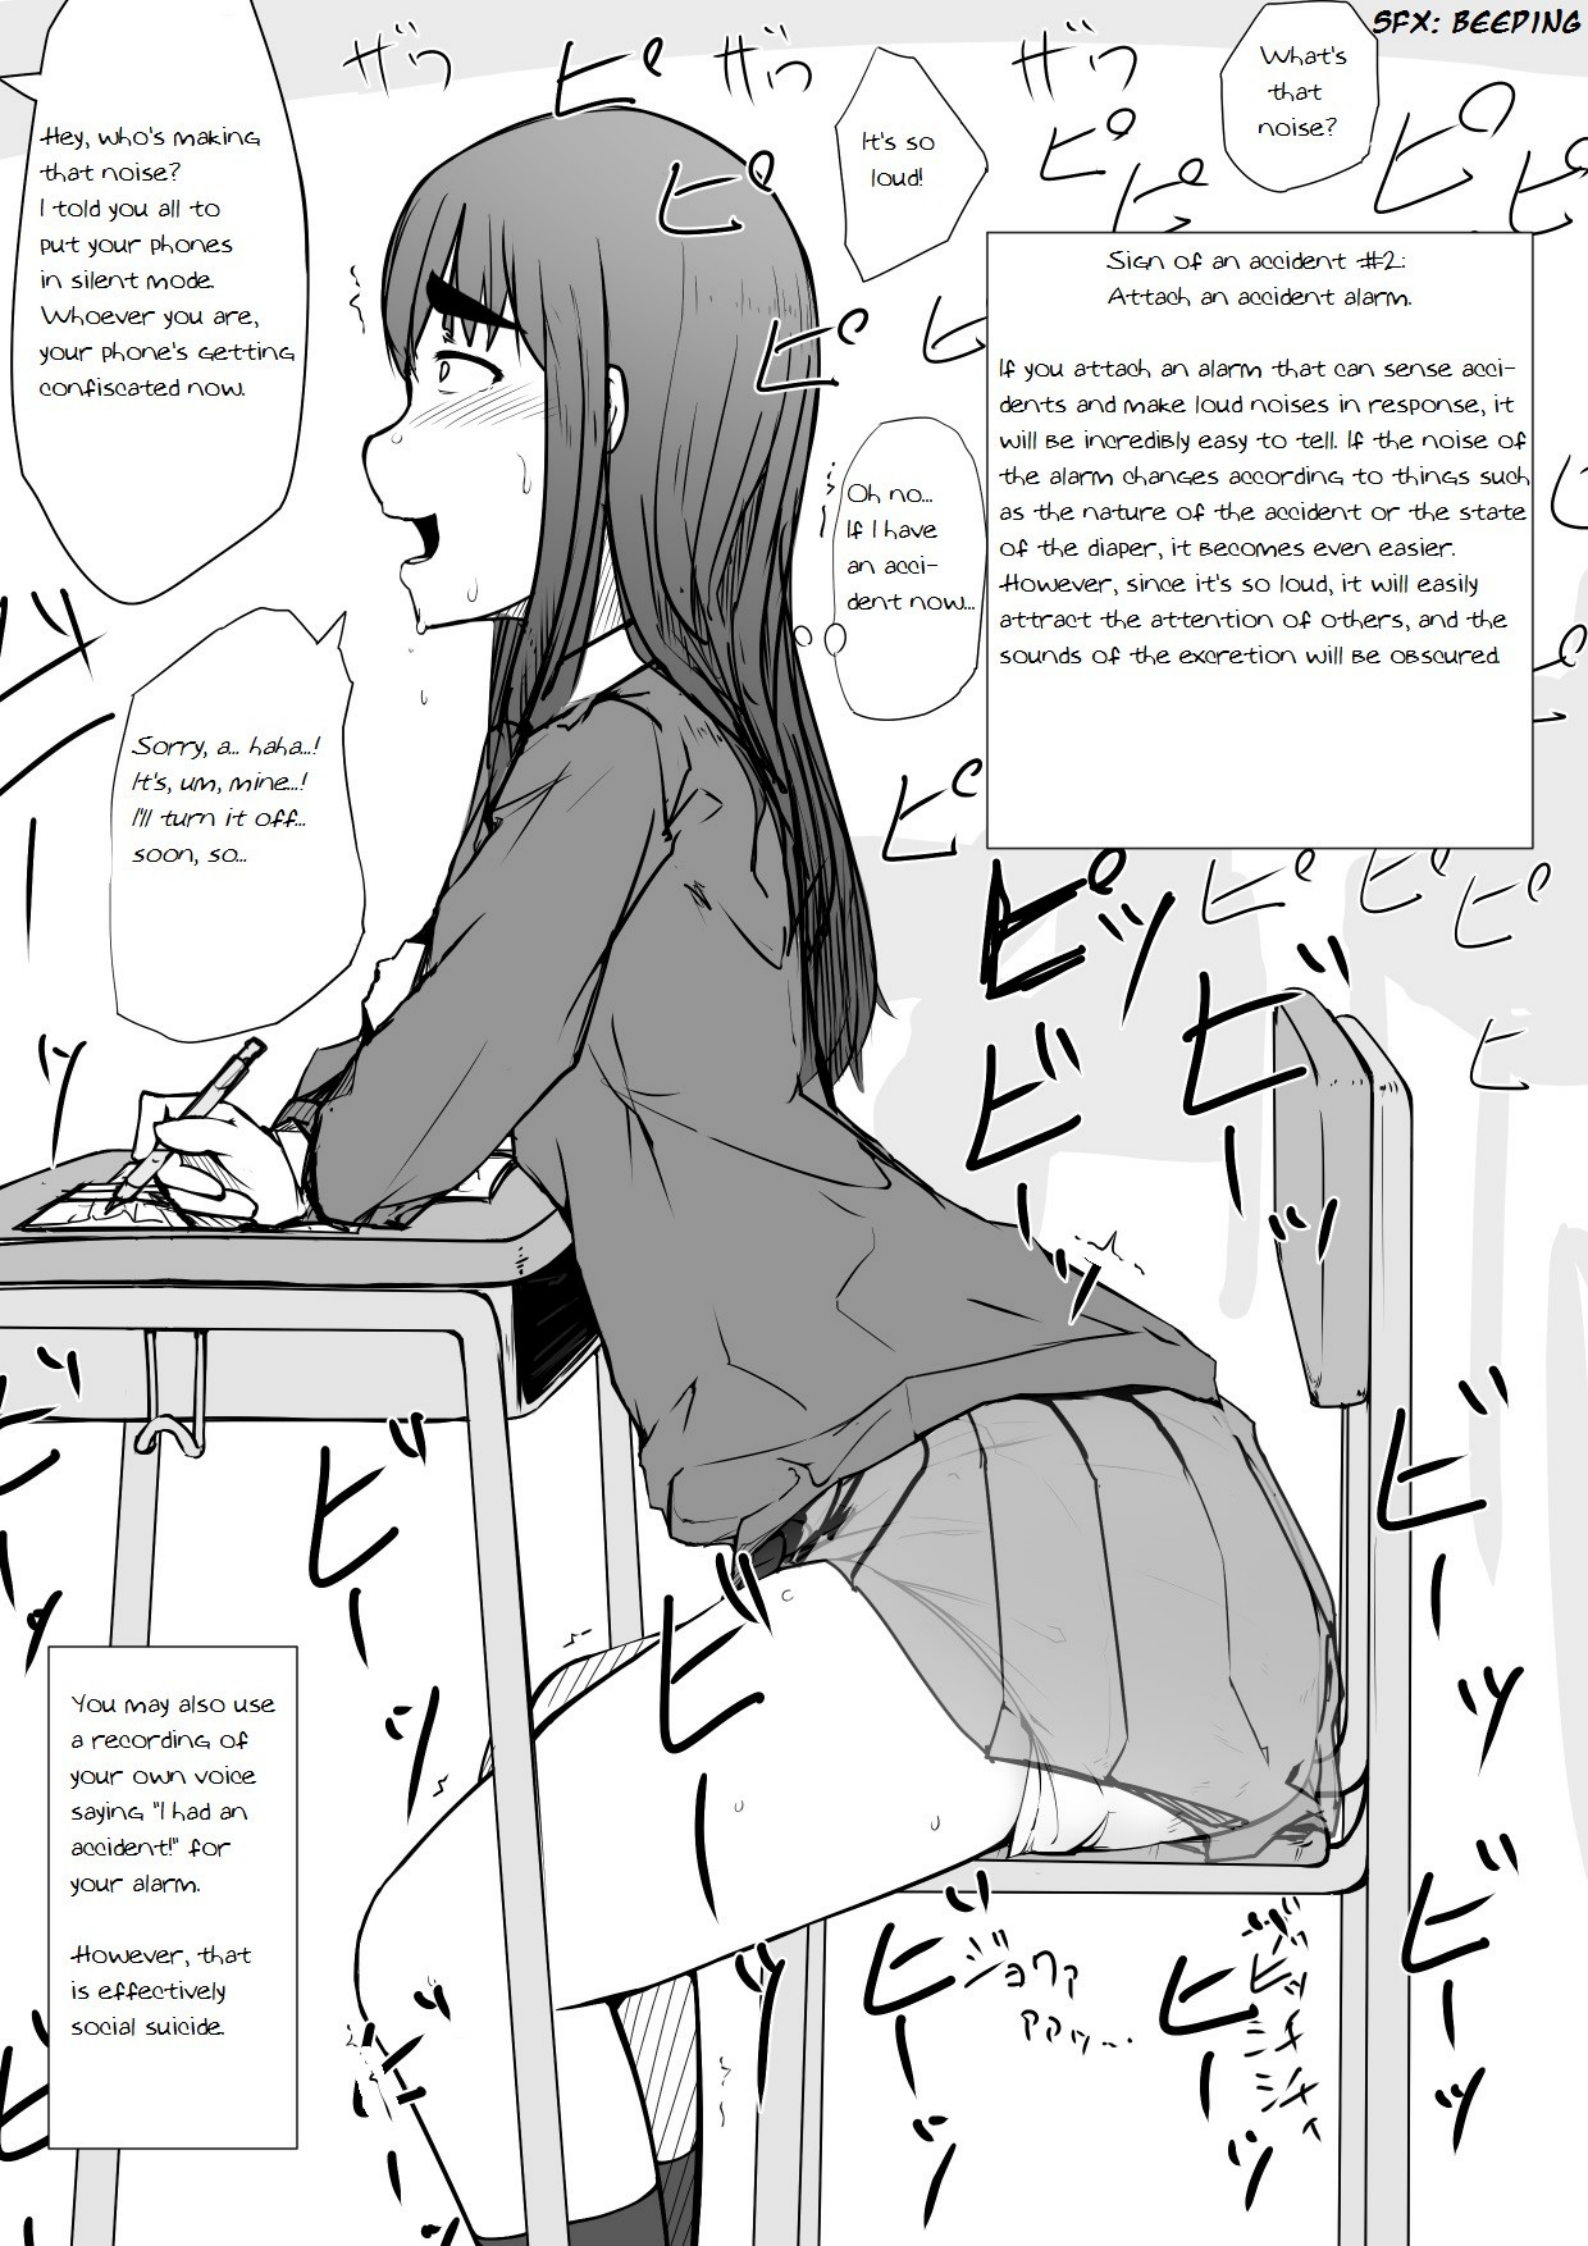

If you attach an alarm that can sense accidents and make loud noises in response, it will be incredibly easy to tell. If the noise of the alarm changes according to things such as the nature of the accident or the state of the diaper, it becomes even easier. However, since it's so loud, it will easily attract the attention of others, and the sounds of the excretion will be obscured.

Oh no...
If I have an accident now...

Sorry, a... haha...!
It's, um, mine...!
I'll turn it off... soon, so...

You may also use a recording of your own voice saying "I had an accident!" for your alarm.

However, that is effectively social suicide.

Uh, what?

PSSS...

Sign of an accident #3:

Expressing the noises with your mouth

If it's too quiet to be heard, you might as well express it with your voice instead

The sounds of peeing, farting and pooping. Make sure to express them in such a vulgar, realistic, yet original way as possible.

Go ahead, say it nice and loud for all to hear.

FRT!

Uuuch...
I think I have
diarrhea...

Let's try to come
up with an excuse
so people just see
you as a slightly odd
and repulsive person.

Ahahaha!

Er, what's
going on?
