After the 30 minute menu, the regular finished up with the complimentary fried rice.

Aa ahn! Uhaha!

Ah... She's trembling! adorable!

Monster Paedo (brief) explanation

Sup guys! It's your favorite sadist loli lover and lecher, Buu-chan! This time around I've written the continuation to an old original of mine, Monster Paedo. For those unfamiliar with it, here's a little break-down!!

There's a certain room deep down the corridors of a certain building... In this room, deeply sadist little girls train perverts who have a masochist and lolicon predisposition. This unique S&M club, commonly known as Monster Paedo, works in secrecy. (Opening hours: 5-10pm. Open until midnight on weekends and national holidays.) Some of the activities available to the members are: continuous ball kicking, glans binding, nipple training, prostate torture, and much more...

Sadist Toddler Club "Monster Paedo"

- Target customers:**
- People who enjoy being kicked and trampled by very little girls.
 - People who are willing to do anything a little girl tells them to do.
 - People whose biggest desire is receiving sexual stimuli from little girls.

Any new potential member gets kicked and punched in his dick and balls for a fixed amount of time. They're accepted as members if and only if they're able to get hard with the abuse alone. ("Accepted." means the backdoor examination can start. Difficulty: extreme)

Meet the Girls

Name

Hina Ichiboshi

X years old

With a tendency to spacing out, Hina can actually be extremely reliable when she has a goal or the moment requires it. She went through a silent, mysterious phase in the past.

Torture: Spitting, verbal abuse
Food: Greasy potato snacks
Hates: All men cuz they're scum

Name

Arisu Mitsumi

X years old

When she was a lot younger, she found out her dad was a closet masochist after using his erect dick as a punchbag while he slept. She made him slip into a wet dream; the shrill cries he let out as he came stoked Arisu's pleasure and made her a sadist.

(The dad still thinks that was all just a dream to this day)

She's normally a laid-back and optimistic girl.

Torture:

Ball busting, face stepping

Food:

Sweets, mixed-fruit drinks

Hates:

The values of our society

Normal, boring things

Name

Yuki Futama

X years old

She comes from a rich family made entirely of sadists. Her parents are the managers of the S&M Club Monster Paedo. Despite coming from a rich family, she's an independent girl who much prefers getting by on her own, to the point that she will only take money when she rightfully earned it by working at the club. She's a manipulative, overpowering sadist, but she's still a good girl.

Torture:

Anal blasting, provocation

Food:

Any fruit at all

Hates:

People who inconvenience others

Commercial

If you've missed the previous one

There's still a ton of things I'd like to explain, but it looks like I'm unquestionably out of pages. (*sweat*)

By the way, I know Manshoo's story is completely unrelated to the meat of this book, but I really hope you enjoyed it either way!

Thanks a bunch for reading all the way to here!
