

A Day in the Life of an Ero-manga Artist

"ERO-MANGA
AND ANIME
IS TURNING
PEOPLE INTO
MONSTERS.
STOP DRAW-
ING IT."

Dear Gesundheit

I warn you. You should immediately cease
the production of your indecent works.
As long as people like yourself exist,
parents will not be able to let their children
walk outside without having to worry.

An article published by Shoushuu university
Emeritus Professor Matamachi Gaeta
the other day once again shows that both manga
and anime of obscene nature have a negative
influence on the healthy development of the youth.
Even when the person reading is an adult,
there have been studies done showing that it
negatively affects their personality.

When comparing the people who have read
"anti-social works" to those who haven't, it's found
that there is roughly an 30% increase in crimes
committed, especially in the likes of child abuse,
rapes, drug abuse, and domestic violence, which
are evidently the type of crimes that
appear in your manga.

Pages where fictional stories have lead
life crimes are increasing rapidly.
