 Well... I kinda like the sound of that.  
 Wait, we are?!

But my Mama should know how to make dicks that don't go away!  
 s-so that's how it worked.  
 Actually, the dicks from that rod disappear after twelve hours...

To be continued?

# The Main Characters

Memiji

A super-naughty futanari tengu who is really interested in the human world. She fell head over heels in love with Chie-chan when they first met. She had expected her mom to object to her going out with a human girl, but surprisingly, she allowed it.

Chie-chan

A human girl who is really into youkai and old Japanese tales. She fell head over heels in love with Memiji when they first met. She had thought of herself as just a normal schooler, but after meeting Memiji, she was shocked to find out what strange fetishes she had (her smell fetish, in particular).

## Afterword

Nice to meet you & hello again. Thank you kindly for picking up this book. I think this is my first original doujinshi and first mainly futanari work. Tengu girls have been the big thing lately. Girls with wings are of course nice, but when you look at the nose on those masks, you just know even the girls must be hiding something pretty amazing between their legs.

I still have lots of things I'd like to draw these two doing, so I hope I can get back to them some day. I'm counting on your continued support.
