A new Mother-Son relationship doujin has been published!

The title is "Getting put to bed while wearing Mother's underwear".
On sale at DLsite.com

Monochrome JPEG 29 pages (including the non-adult pages), for a total of 432 yen with tax included. This product is very simple, with only the image files included, but on the off-chance that you get some technical issue with downloading the product, I highly recommend you purchase it under an account. (Redownloading is free)

This doujin is for all those hopeless Mothercon sons out there (aka you) who want to be spoiled by a beautiful woman who has that slight "older woman" air to them while throwing away all shame. For details on the contents, check out the product page.

It would make me happy if you got this on your computer to satisfy your embarrassing desire for a mother figure.

How did you like "Getting put to bed while wearing Mother's underwear"?

I like both young mothers and those cougar mothers, so I took a middle ground this time, and made a mother with an image of "Not old enough to be a 'mother' but still tries her best for her son". I hope you'll be able to get that feeling from the cover of this doujin.

While this will likely not appeal to non-mothercons, I had a really strong desire to write something that was simply about a mother who didn't expect her son to act like a "man" and loved him for being her son.

Let's meet again with my next work :)
