Kantori

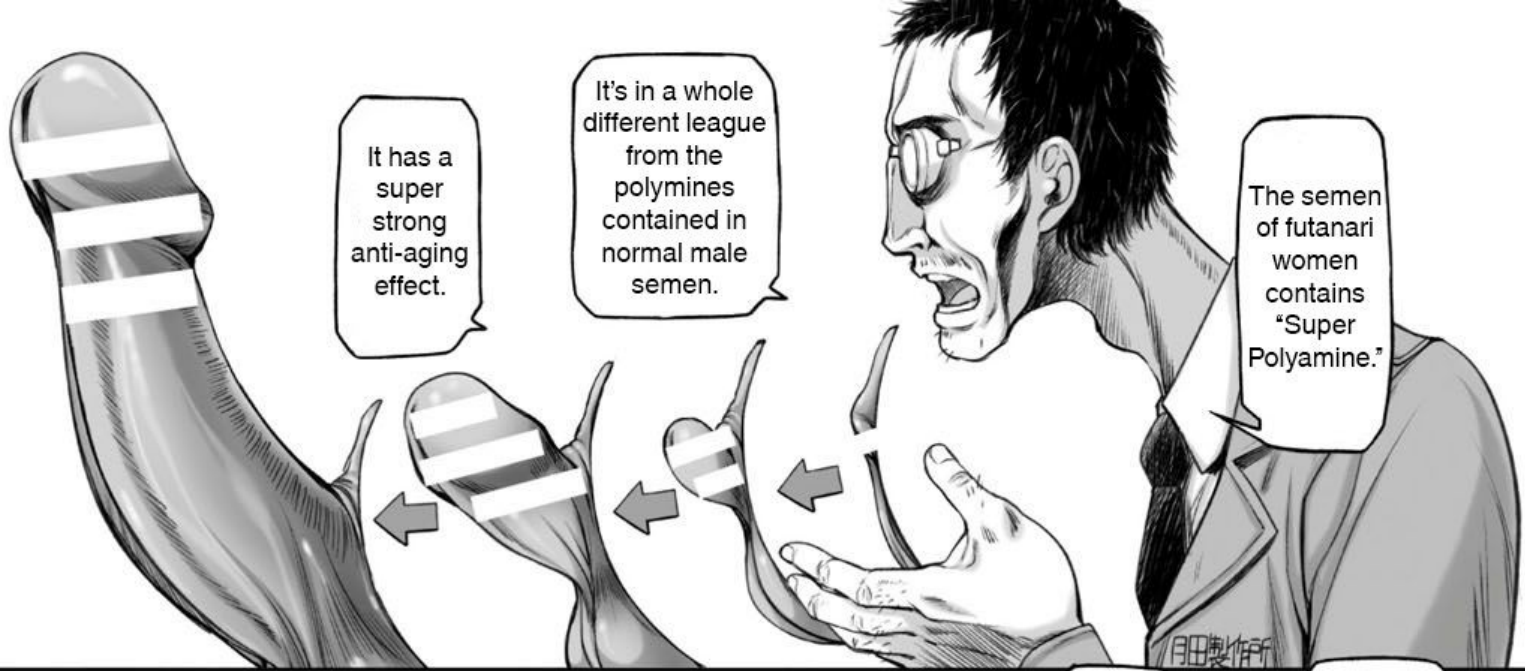

Saya...
this is a
triumph!

The trial
has to be
conducted
on you
futanari!

I know it's
been an
ordeal,
but...

ズズズ...

It has a super strong anti-aging effect.

It's in a whole different league from the polyamines contained in normal male semen.

The semen of futanari women contains "Super Polyamine."

You are aware of this, no?

Top physicians and government agencies all want the super polyamine!

We could greatly extend the human lifespan!

It is said that the effect is not limited just to beauty!

That's why?? I'm not stupid! You don't need to test the machines on my family!

It's impossible to publicly recruit general futanari women!

If I could just manufacture a machine to efficiently extract super polyamine...

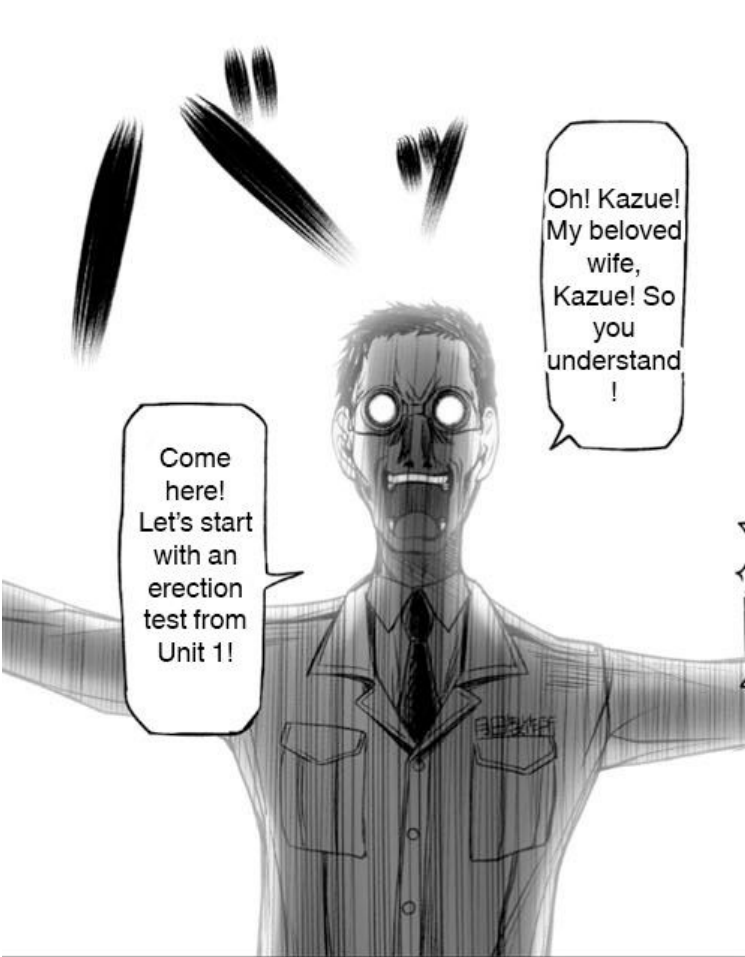

That's not the problem! Die! You old pervert!!

It's alright! It doesn't hurt! It should be comfortable!

So we have to keep this a secret within the family!

The Futanari Human Rights Group would run me bankrupt!

I could rebuild our family company!

Come here!
Let's start with an erection test from Unit 1!

Oh! Kazue!
My beloved wife,
Kazue! So you understand!

Tch!

How ...

very reliable.

ニタ...

Wait a minute! I...I will do it!

カッ

It's...OK ...I guess...

If...it's for the good of the family...then ...

Please use my body...

Mother!?

Mama!

I'm opposed to it of course! But...you should only need one of us!

Prototype
Machine
#1

You're a famous swimmer in college, are you not?

Hey! Why do I have to wear my school swimsuit ??

Many clients are your fans...I'm sure they will be pleased!

It looks lovely, Saya.

ガガガガ...

Your clitoris is small now, but we will get it erect with these motorized vibrators!

H-hold on!

Hnn ...

A little bit...

It is the basis of pleasure to confuse cerebellar prediction and sensory.

it unpredictably adjusts its strength and angle.

By measuring your brain-waves

It feels good, does it not?

Let's...
do...
this...

It seems good
quality futanari
semen can be
squeezed out
in large
quantities!
Super
polyamine can
be extracted as
well!

Please
relax - you
will be
there for a
while.

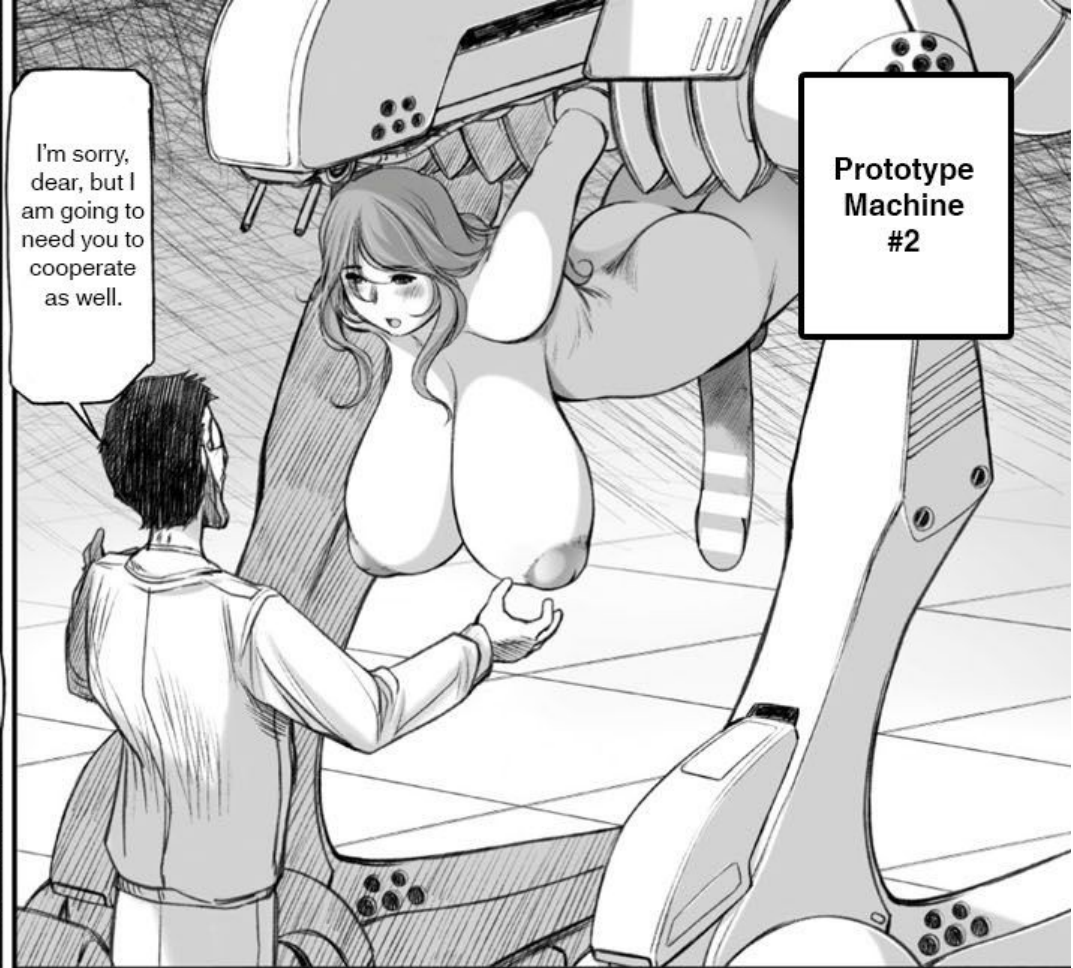

Thank you,
Saya. The
test of
prototype
1 is
successful.

Please...
please
use this
body as
you need.

It's alright my
love; I will do
anything for
the good of
the family.

I'm sorry,
dear, but I
am going to
need you to
cooperate
as well.

Prototype
Machine
#2

Thank
you! I
love you,
Kazue!

No...
mom
...

If you stare
like that, it's
going to
ejaculate!

It's embar-
rassing!

Despite it
being so
huge, your
cock has a
feminine
supple
feeling.

Ah, my
wife's
futanari
penis is
very
beautiful.

スリ
スリ
スリ

Look closely, Saya! Your mother is about to have all the milk sucked from her breasts!

We will add this to the semen collected from your testicles.

3 suction arms? That many? Do you also mean to suck...?

オオオオオオ

カク

Oh, it's lovely, dear!

That's right! Futanari breast milk also contains rare polyamines.

It is necessary to have high quality orgasms to extract polyamines of equal quality.

グハ

Then, the strongest sucking is performed at the moment when the pleasure value is highest while strengthening the speed of the microvibrations.

It works the same as Unit 1, adjusting the strength of the suction while monitoring the subject's brainwaves

Oh hh!

Ah?

オオオオ

オオオ

I...I can hardly stand it! This is my first time...feeling such stimulus!

あ

オオ

Aahh! Amazing! It's stretching out my boobs with each squeeze!

オオオ

オオオ

オオオ

オオオ

AH! My Boobs!!

OH!

I-I'M BEING MILKED Ahhh

IT'S SUCKING ME AH DRY!

Rina, look and see. Isn't Mommy so beautiful?

Even I...can endure it...no longer...

My husband... I'm going to cum in front of my daughters...

Mama...

Don't you want to be like Mommy soon, Rina?

Prototype
Machine
3

Unit 3 is a confidential pack-sized device that makes it portable.

Rina, take this school bag.

Huh? ...This is?

You're even going to experiment on my sister!? Stop it, you madman!

Oh my! What a pretty school bag! It suits you, Rina, dear!

Due to its compact size, this device can be taken anywhere, such as to school!

The shape is a bit different from my other bag...

This prototype is capable of sensing futanari.

Though still small and incomplete...

...And capture them!

So with it, we can discover all the hidden futanari lurking in everyday life...

Ah!
Th-they're
wrapping
around my
whole body!

How about
it, Rina?
Are you
starting to
feel good?

Mnn...
it's
making
me feel
weird!

Doing that
pleasantly
restrains
futanari
girls like
Rina.

It will begin
to tickle
you with a
slight
vibration.

I originally
developed
these
tentacle
arms for
minimally
invasive
surgery.

Ohh...it-it's
getting
bigger!

Ah!
They're
playing
with my
little
bean...

It feels
better
than
when I do
it...

Please
Papa...
stop...

Well then,
let's begin
to raise
Rina's
young
clitoris into
an erect
cock!

Ahn...
I've got a
funny
feeling
down
there...

It shoots
white stuff
out of my
pussy...I
don't want
it!

Wh-

Huh? What? Peel off...?

Today is an important exam!

Let's peel off your foreskin.

HN
NN
NN
!!!

N... no!!

Wait!

Please... make it stop!

My... my pee-pee!

My peepee is being eaten!

It reaches the testicles while stimulating the urethra.

This ultra-fine arm not only intertwines with a captured cock...

There are artificial fiber ciliary arms.

Inside Unit 3's suction tube...

Well, don't worry!

Ah? So you've never peeled back your foreskin before?

Oh!
Some-
thing is
going
in...

Stop
sucking on
it! Or else
I'll have to
shoot!
Ahhh!

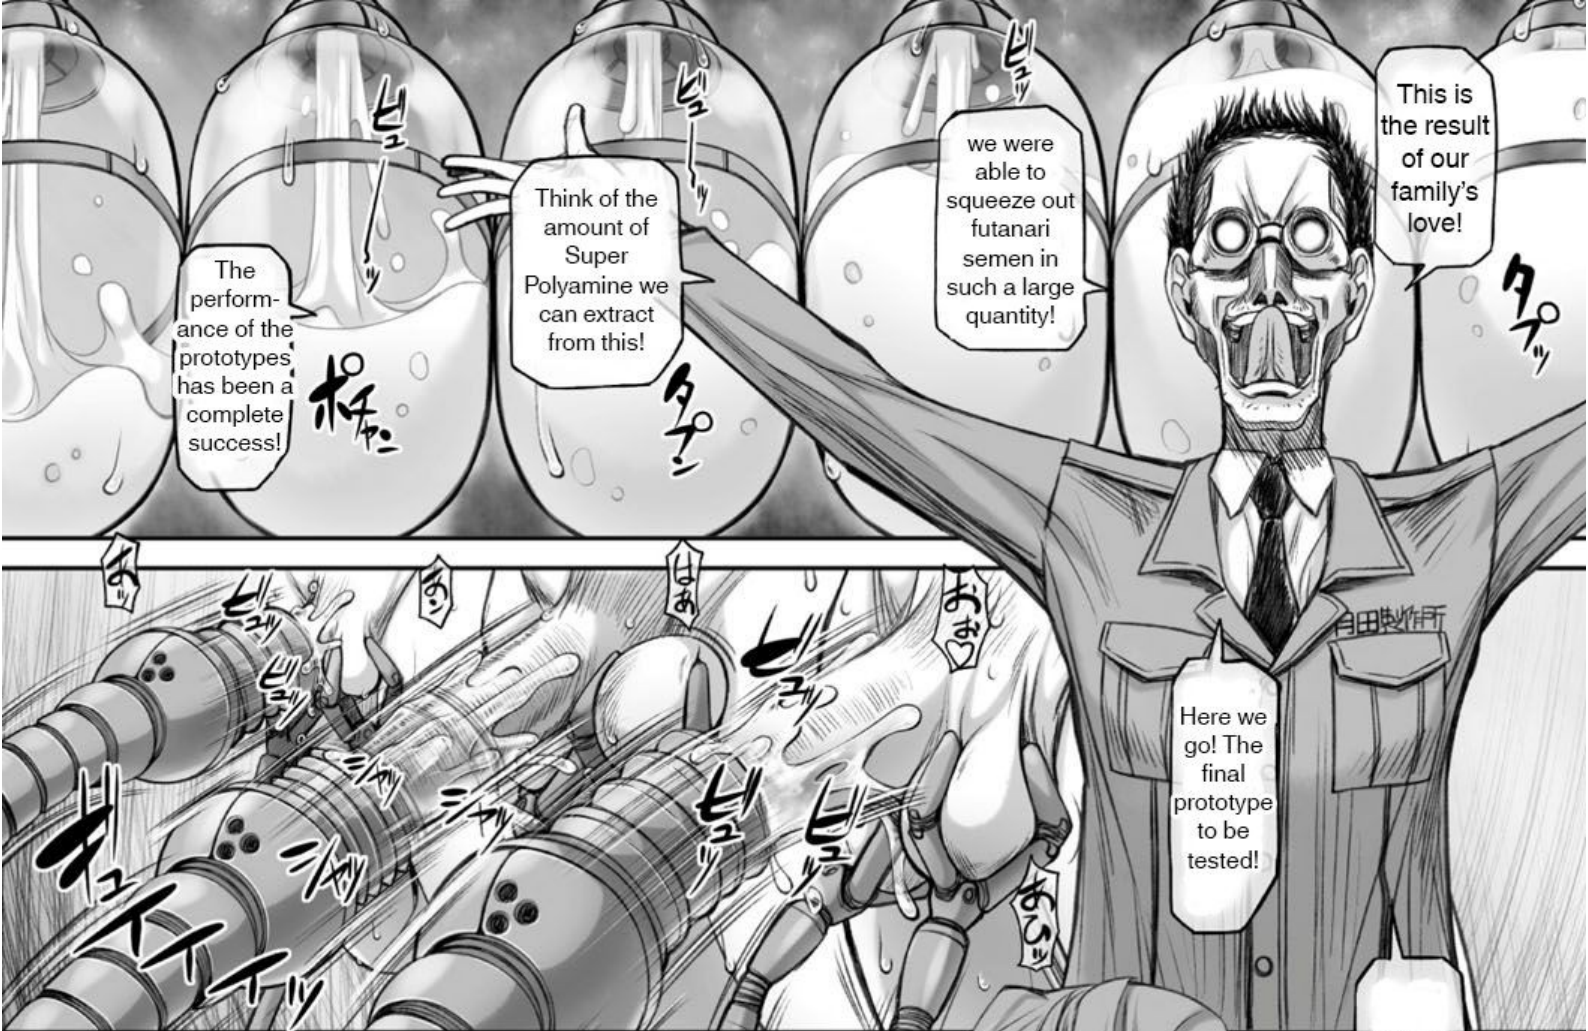

Ah!
I'm
going
to cum!

I...I
can't
take
it!

Nyaaa! The
white stuff
won't stop
coming out!
Ohhhh!

With this,
Prototype
3 has
been
proven a
success!

Thank you,
Rina.
Immature
futanari
semen is
extremely
rare!

Hug me close, girls!

No! Let me down! I refuse to cum anymore!

We have to plan for a situation in which a large number of futanari women are discovered.

Unit 4 emphasizes efficiency! It can milk 3 futanari cocks at once!

The penises of the 3 subjects caress each other and encourage ejaculation. It is nice, no?

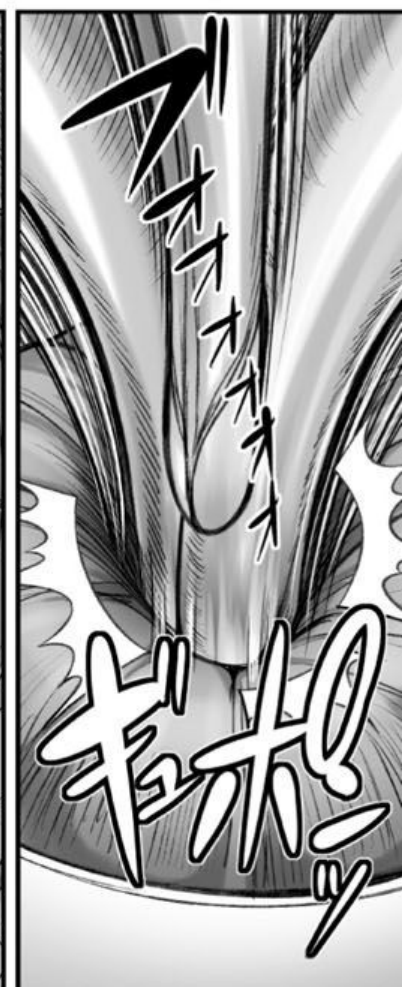

A powerful tornado vacuum sucks while wrapping the three penises.

I can feel... your cocks !!

Ohh!

Mama! Sis! What's hap-?

1
year
later

F..fucking
father! We've
already
extracted so
m-much!
W-why do you
still need me in
here?? Ahn!

月田製作所

Hmm...the
company
certainly has
gotten
bigger, and
many
futanari
women are
volunteering
to be
milked...

Th-then
why...?
Ahhh!

Saya,
we are
trying to
deepen
our
family
ties.

Yes,
dear!

Let's do
our best
with our 4
family
members
from now
on, right,
Rina?
Dear?

Awww!
I want to be
squeezed
soon! Just
like big sis!

End
