The FutaOna series saw its completion with the last entry, but I received many requests to print again some of the short stories about Tomoe I released in the form of kopihon and such over the years.

Many fans scolded me haha, wondering where did those extras go. Tomoe VS Snowman was the most requested, with Tomoe VS XL-Beans Natto being a personal favorite of many and Tomoe VS Electric Toothbrush right behind. I created this collection of shorts in order to neatly tie things up at the end of the series.

Please enjoy this rapid-fire selection of ejaculation-only stories!

Starting with Summer Comiket, I plan on finally launching a new series. It's called FutaKuma, and I hope you're happy to learn that it will inherit FutaOna's DNA!

Please look forward to it!
