# AFTERWORD

I've finally done my third loli book. I thought this one up while I was daydreaming "How many creampies can I fit in one doujin?". I put a lot in, but I haven't actually counted them yet.

On that note, I disregarded the story, thought about what fap material I wanted to see, and ended up making a book that's about 80% sex scenes.

So, how was it? Personally, I thought it was great! Really, I should do more stuff like this...

If you have any suggestions or opinions, by all means, I'd be happy to hear them. I'll definitely consider them.
