

Book about short story ideas that I came up with while pondering over talks of official works but cannot use anywhere else

Transient Melody 2012 WINER

I drew a color illustration.

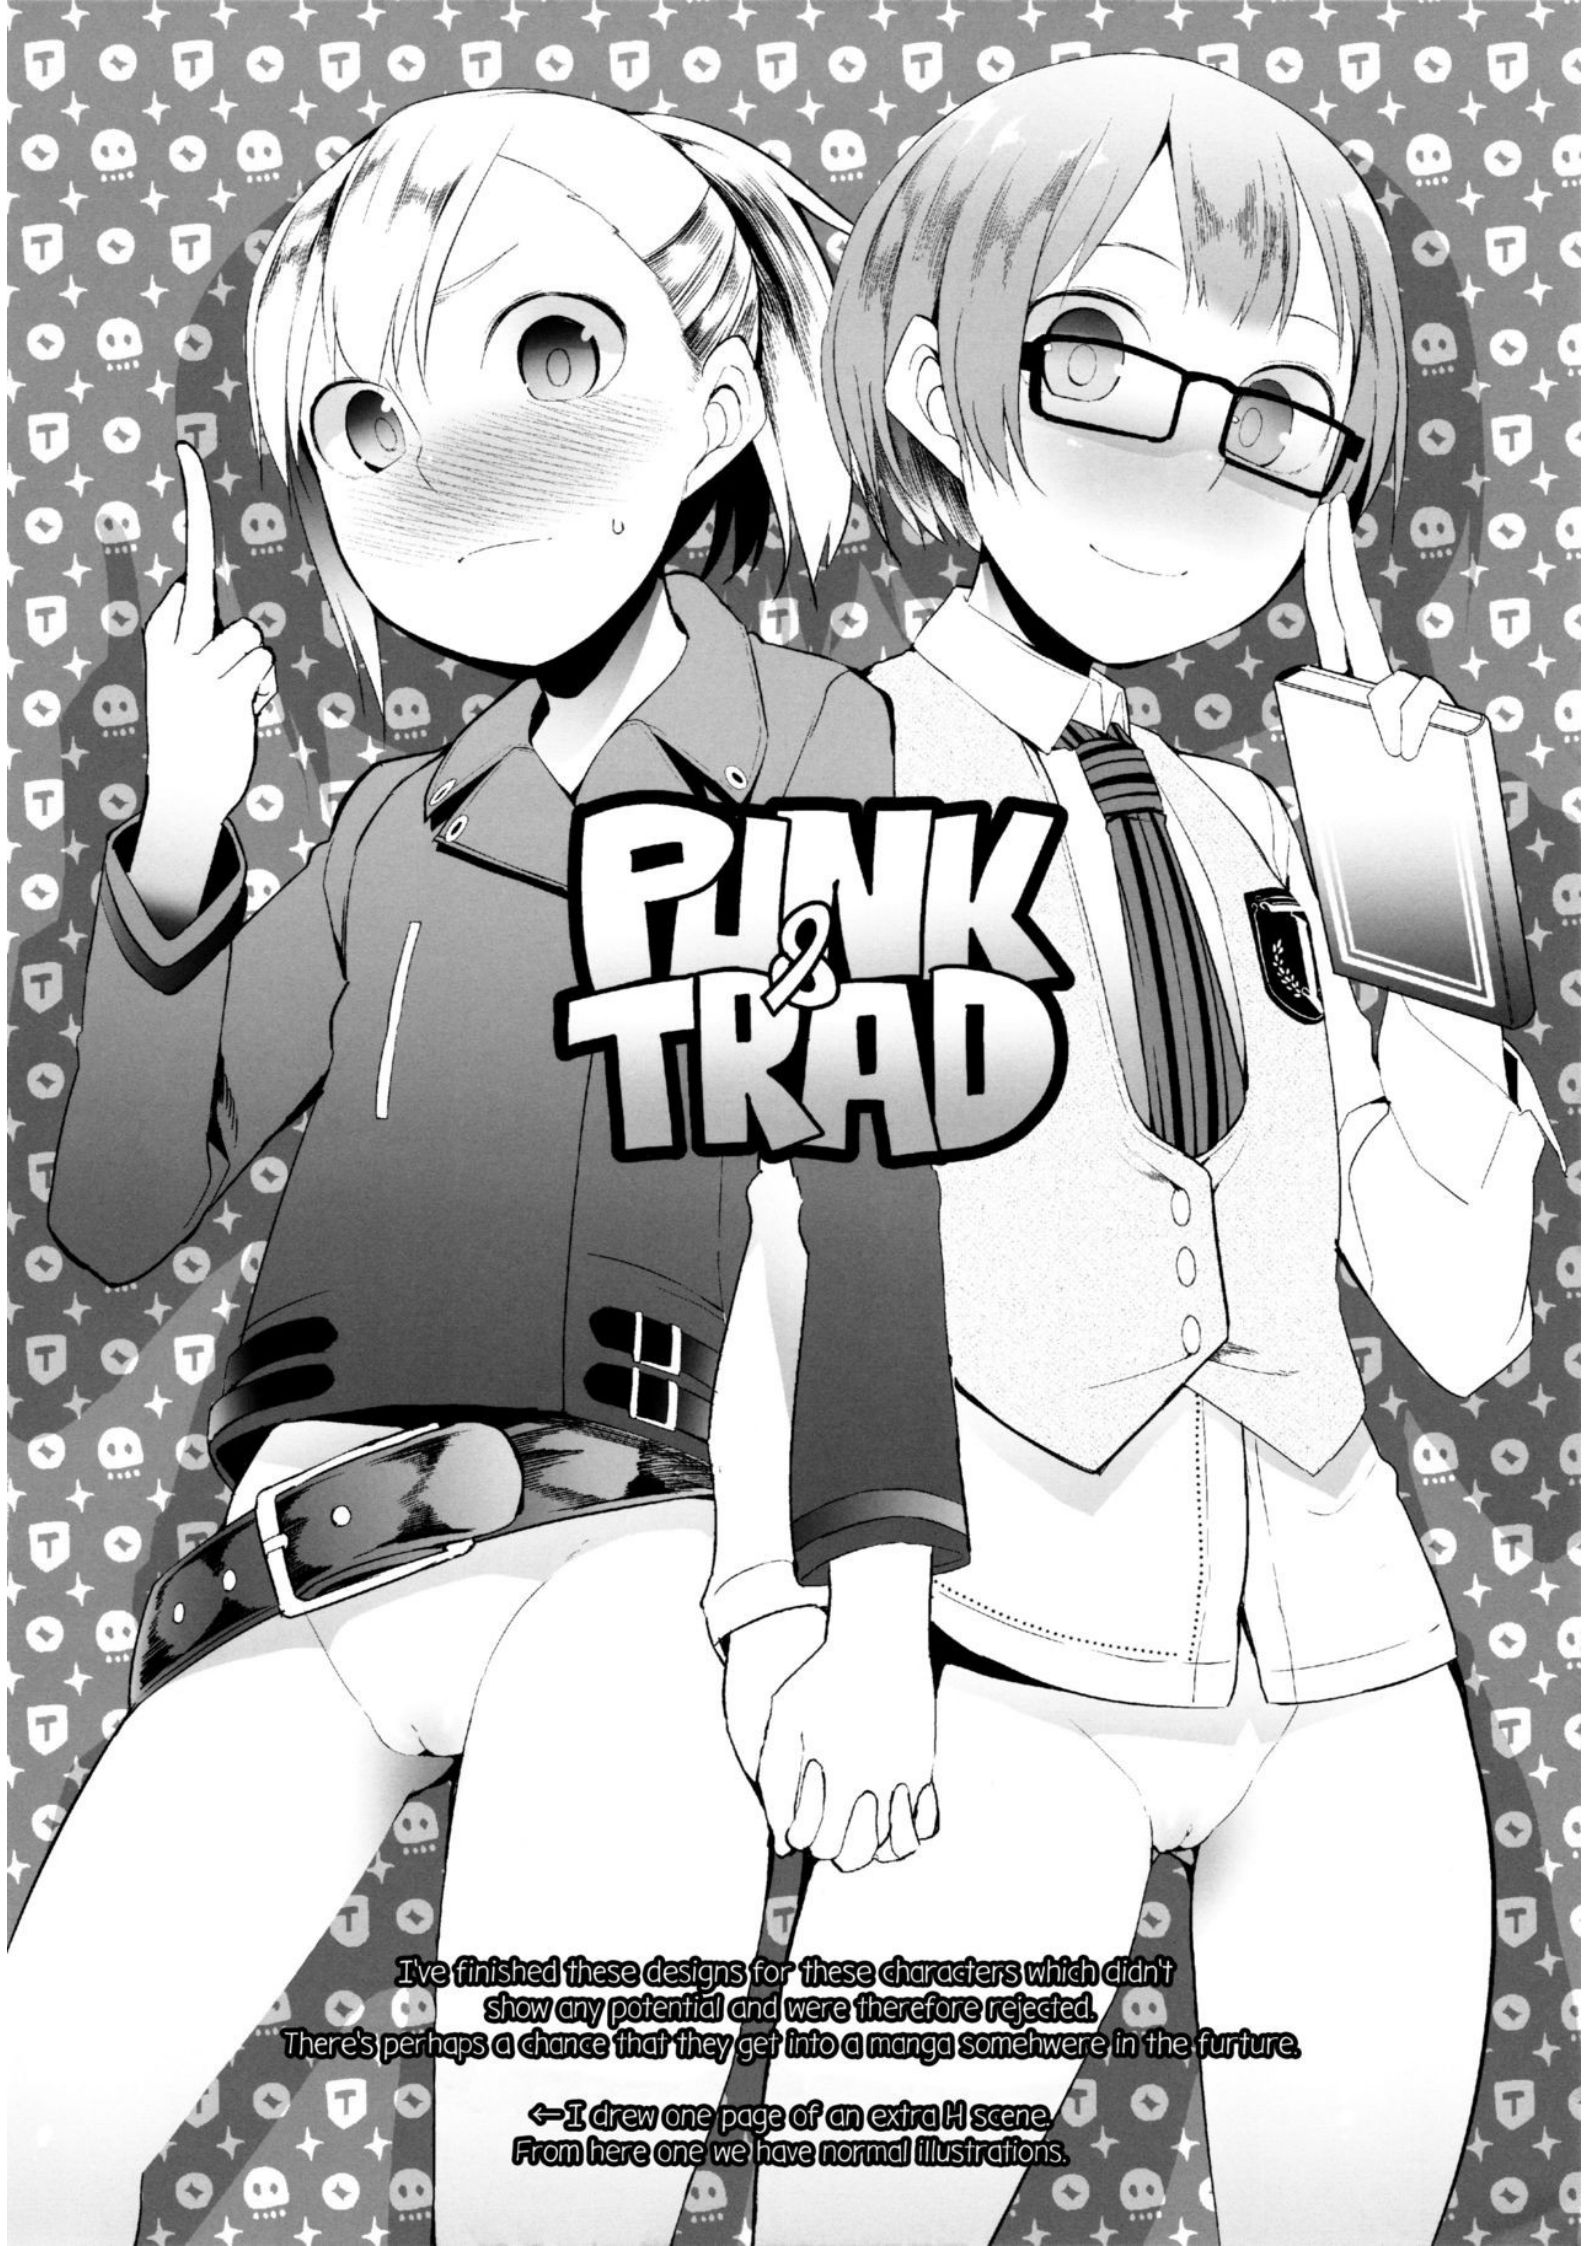

Since I got this new LCD tablet, I wanted to try out coloring. I haven't done anything else than monochrome illustrations in a long time, so this turned out to be quite the challenge. Once I get some free time from work, I should practice more, I think.

School swimsuits.

The biggest surprise about this release is for me the printing cost of these 2 pages of colored illustrations.

PINK & TRAD

I've finished these designs for these characters which didn't show any potential and were therefore rejected. There's perhaps a chance that they get into a manga somewhere in the future.

←I drew one page of an extra H scene. From here one we have normal illustrations.

Let's try
this out first

Ah

Are you
also
entering
me
...
from behind!?

Hey!
Hurry it
up and
get out!

Ah...
yes-

My
swimsuit
...
Eh...this
It won't
go off
...

あせ

Eh
!?

Huh
!?

Short idea ①
There's this so called quantum tunneling, something where the gaps between atoms collide or something and people become able to tunnel through walls, or so I've heard.
So the girl panicks as part of her swimsuit slips through.

And so she's being raped

Haa

Ha-

Ah ... haa

Noo ...

Some-one ... help me ...

The End

And so she tears through her swimsuit to escape
But miraculously this results in her back tunneling through

Ahh!?

Now it's my back ...

I can't move like this ...

Don..

Don't come closer

No-

Hey, what've you been doing all this time?

Large jagged sound effect shapes

Short Idea ②
So I thought, wouldn't it be
cute to punch into your
bloomers with a *don*?

Ha

Aah

Ha-

Haa

It hurts

It hurts

Ah..

Ah

Haa-

Now that I came into this girl who had her first sex since she's been born, and delivered the whiteness of my semen, what should I tell her?

If I can't even put something this simple into words, I'm a failure as an entertainer.

Oo

Short Idea ③
I've been agonizing

Haa

Eh!?

Because you
said you
wanted to
become
"slut"
...

Why are
you raping
us!?

Ha ..

I've
meant
this as
"becoming
thinner"

● suratto (すらっと) → slim (here: ≠ slut)

But...
on your
clothes
...
eeeh!?

Ah

● baise-moi → rape me

So-
...

Haa

Someone...
help me

Eh
!?

This man...
suddenly...
attacked me
...

Ha

Wh...

Why are you...
doing such a horrible thing ...

What did ...
I do ...

Eeeh !?

But you go to the kinky university
....
eeeeh!?

Aren't you elites in the perverted arts!?

Eh !?

● Kinki (近畿) University ≠ kinky university

The End

● Rejected coloring

Afterword

To those who've purchased this book, thank you very much. Whenever I look over my conversational notes, lone ideas like these are written down here and there. I think, without the right opportunity like this, I wouldn't be able to express them (wether there's a need for that is debatable however), so these light ideas have taken the form of this book.

Some of the short ones have been incorporated several times in the past, but this time, they really stand alone and are very short ideas. If you didn't enjoy them, I am sorry for that. Really sorry. Please forgive me.
