SLOWLY... HOW ABOUT WE TRY PUTTING IT ALL THE WAY IN TODAY...?

Recently, she's been frequently coming over to my home, doing dirty things in exchange for money.

This girl's Cocoa-chan. A 5th grade elementary school girl I met online. However, I know almost nothing about her private life...

Afterword

Thanks a lot for acquiring this book.

While I was working on this, my eyes opened to the harsh truth that if I install a Wacom driver in the latest version of Windows, the entire system stops booting successfully.

"Well then, I can solve that with a System Restore!"

PC: "Your most recent System Restore point was created two years ago".

Windows 7 would fill up the C Drive and randomly turn off!

Fuck you, System Restore.

Moral of the story:
Beware of automatic Windows updates.
