Her sexual relationships in school are particularly very active. As far as I know, she has over 20 male sexfriends outside of her relationship with her boyfriend.

At times, she and the boys play together like this in the men's toilet. The toilet in the old school building is full of male students three to five times per week.

Meanwhile, although she is no longer being sexually harassed by her teacher, Sakura Yuuki...

The men now have full control of her through the hypnotism play and her situation is getting worse.

In fact, one of my recent hobbies is regularly uploading videos of her having sex in the internet.

Since she's

make her mine.
