Comments: I have to imagine that confessing to your idol only for them to reply with, "Sorry, I only like old man dicks." would be one of the most soul crushing things ever. The principal looks like a badass though, so he probably deserves Shimojou. Small note about the title; it's a different title in the tank I used as a raw to translate this than the anthology that it first shows up in. I used the tank one as the title, since it came out after the other, and I used it as the raw.
