EML

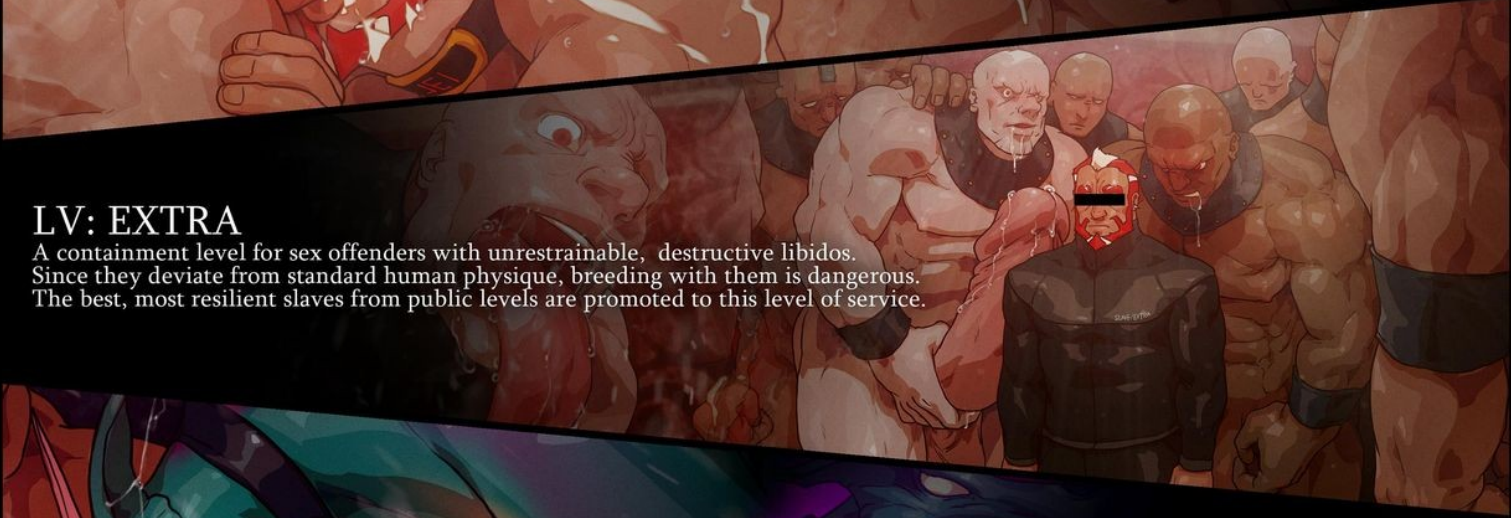

-Ejaculate Management and Logistics-

Is a corporation that comprehensively manages all kinds of resources stemming from a national Sex Offender's Prison System. We execute punishment, rehabilitation and social service for these criminals. It collects, manages and converts the energy generated by sex acts and its byproducts using the generated resources to contribute to many other industries.

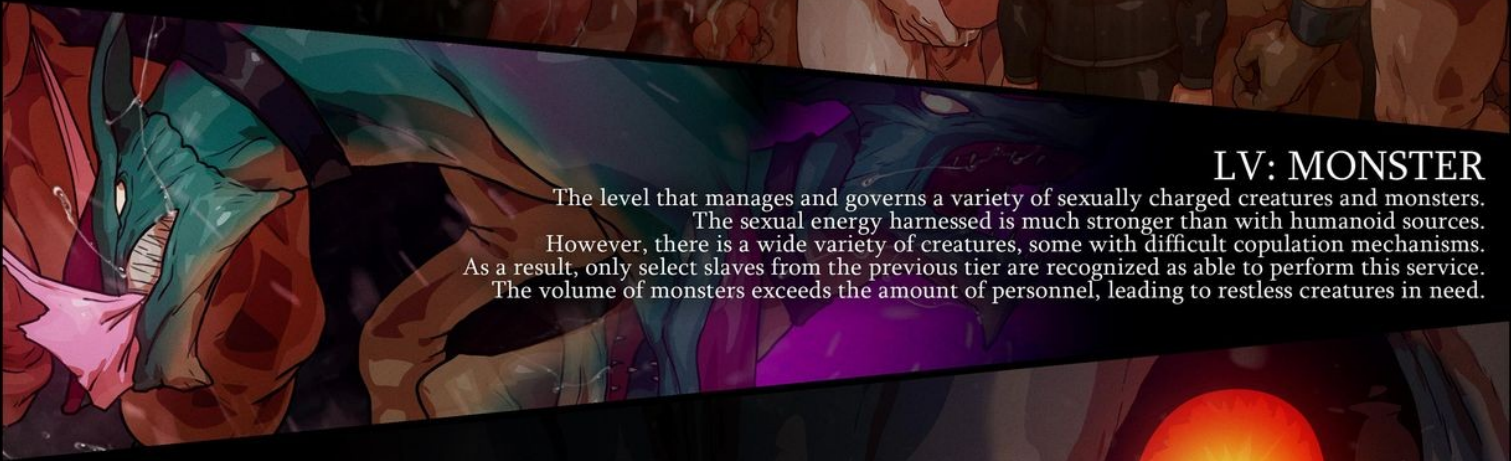

LV: PUBLIC

The initial tier of service for both slaves and employees of the company. For about \$10 a day, slaves will milk out customer's semen all day long. It has become an essential, widely used service and source of entertainment.

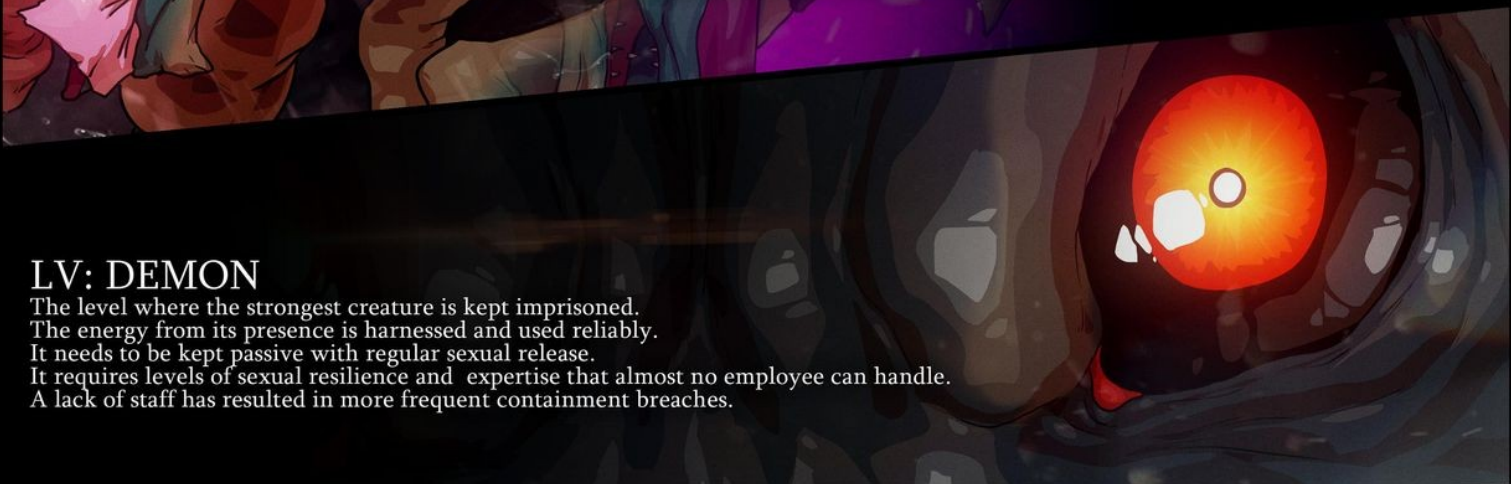

LV: EXTRA

A containment level for sex offenders with unrestrainable, destructive libidos. Since they deviate from standard human physique, breeding with them is dangerous. The best, most resilient slaves from public levels are promoted to this level of service.

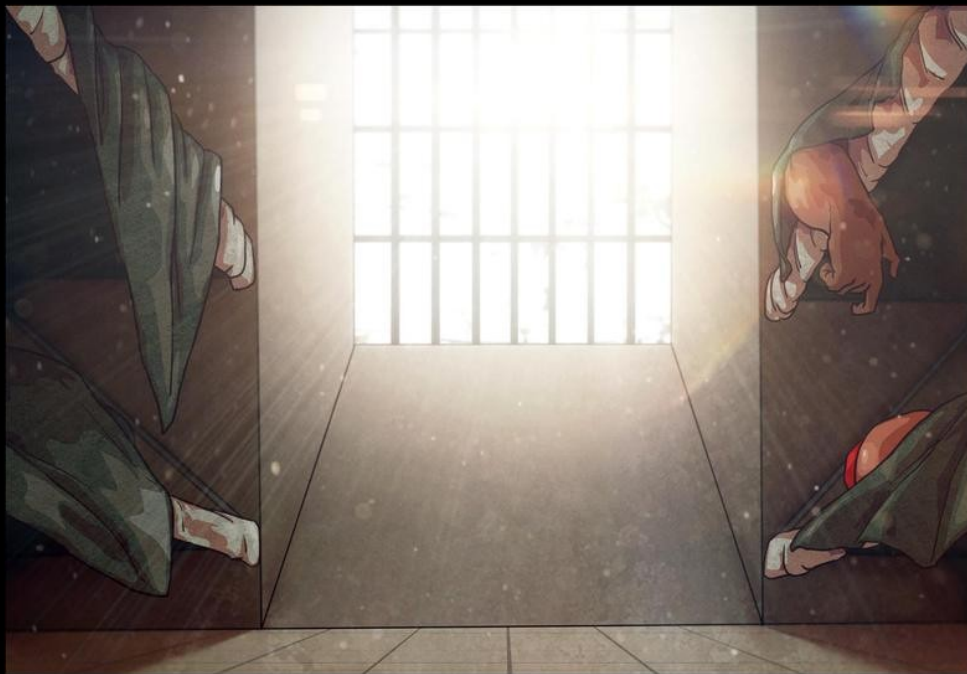

LV: MONSTER

The level that manages and governs a variety of sexually charged creatures and monsters. The sexual energy harnessed is much stronger than with humanoid sources. However, there is a wide variety of creatures, some with difficult copulation mechanisms. As a result, only select slaves from the previous tier are recognized as able to perform this service. The volume of monsters exceeds the amount of personnel, leading to restless creatures in need.

LV: DEMON

The level where the strongest creature is kept imprisoned. The energy from its presence is harnessed and used reliably. It needs to be kept passive with regular sexual release. It requires levels of sexual resilience and expertise that almost no employee can handle. A lack of staff has resulted in more frequent containment breaches.

A... Ah... Oh

We believe you will do more,
next time.

~About the other duties of slaves~
Constant physical training is required.

Some slaves are repurposed
as protein replenishment stations.

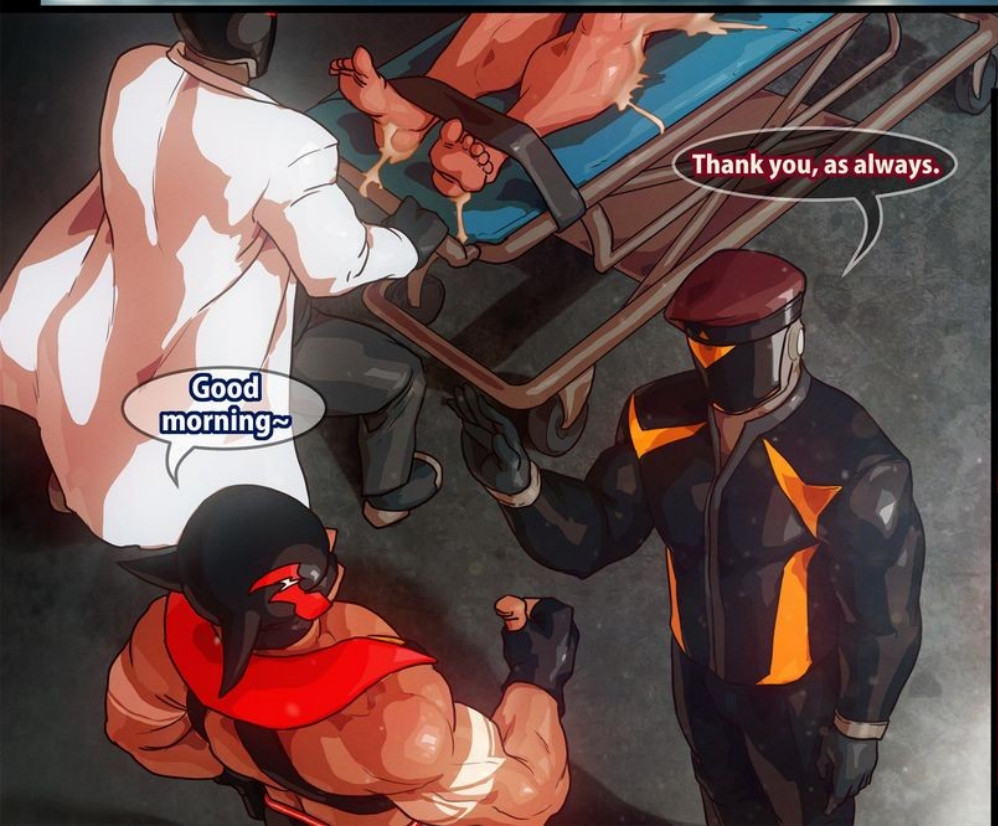

Others are employed as urinals at the EML public
toilet facilities in campuses around the world.

Additionally, serious offenders are
retrained with community service
activities using education periods
working as semen deposits.

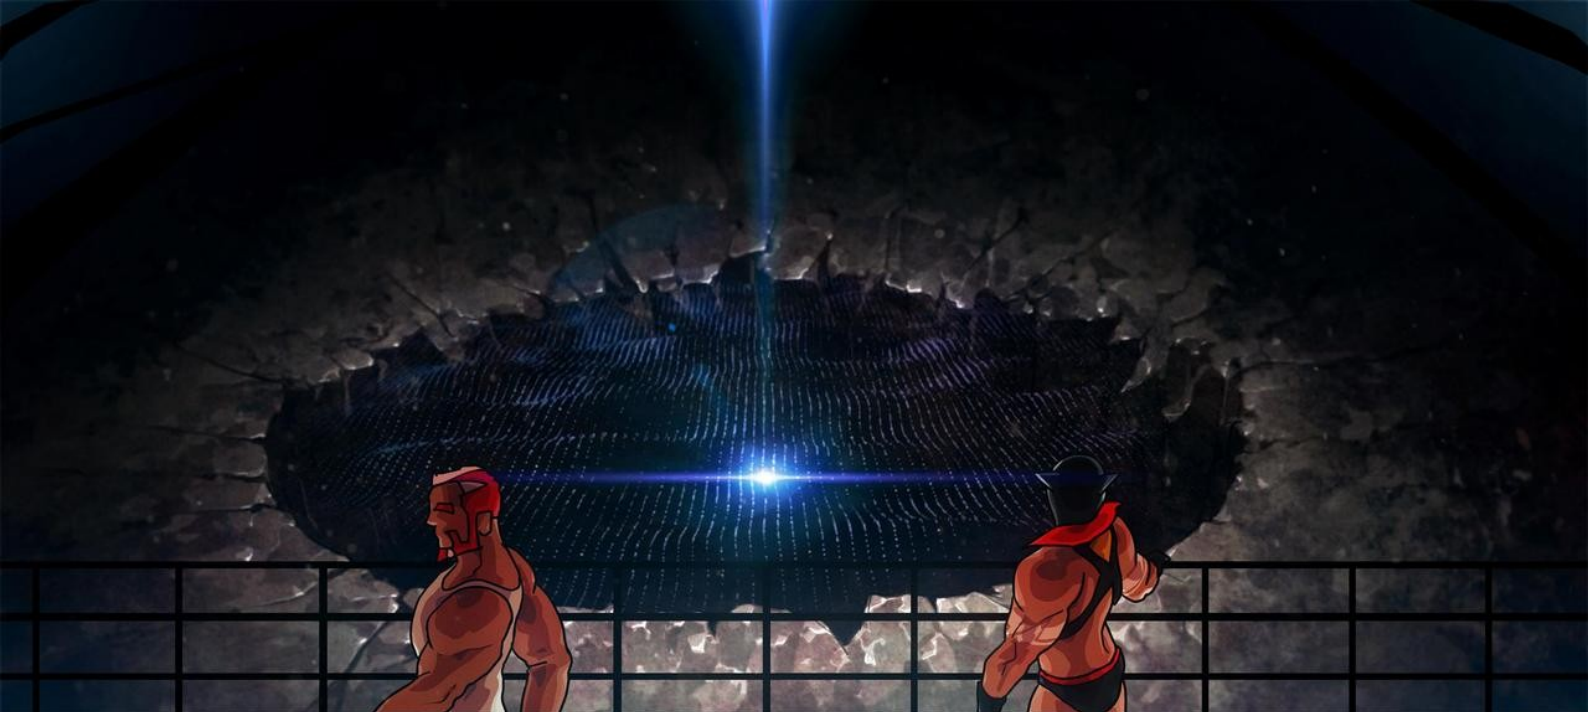

Some are fitted into limb
restraints operated by
an AI developed by EML,
nicknamed 'Goat'

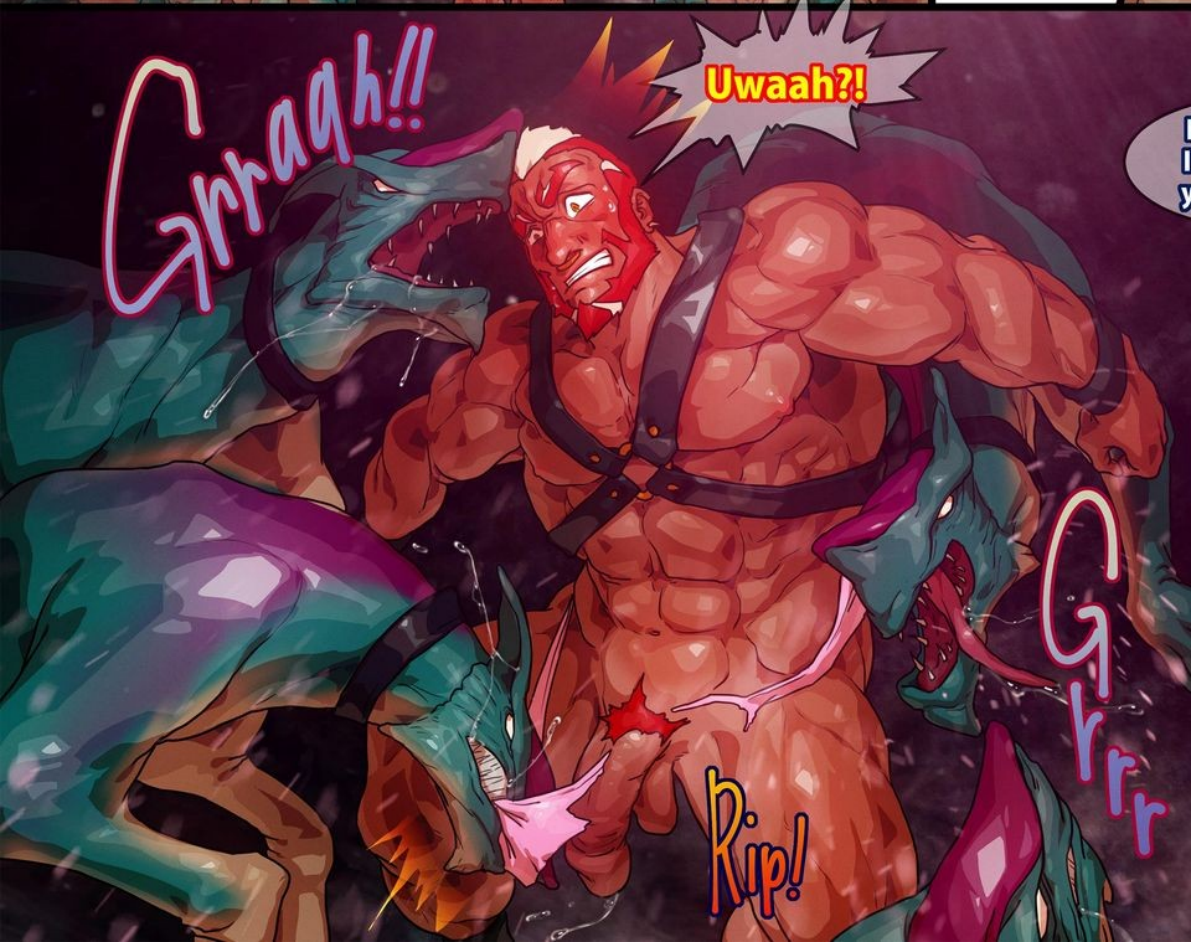

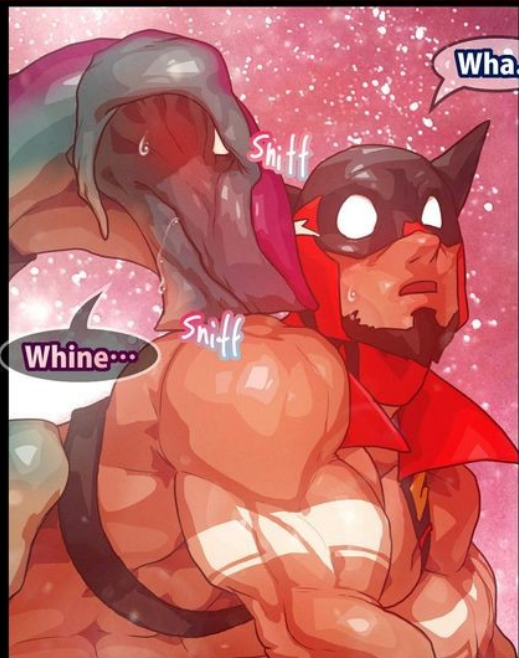

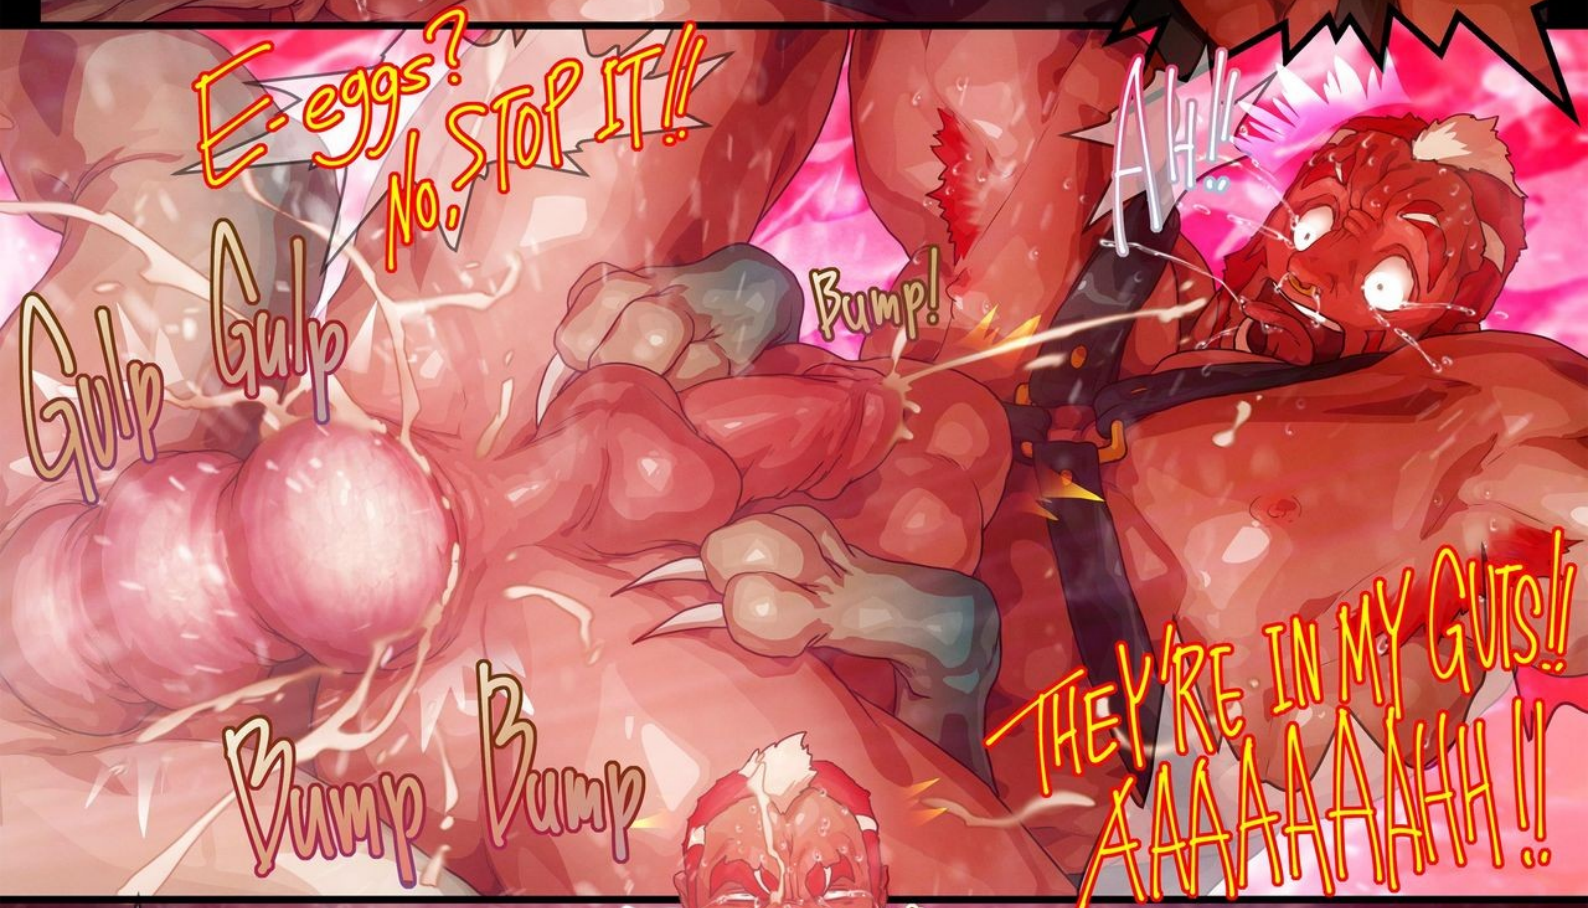

A few days later at LV: MONSTER

Well done!

You're so goddamn cute.

Ah... Aah...

Next time...

Gozz...

...To Demon level?!

Is he really recommending him?!

Are you SURE you're reading his signs right?

I am. Is there anything we can do?

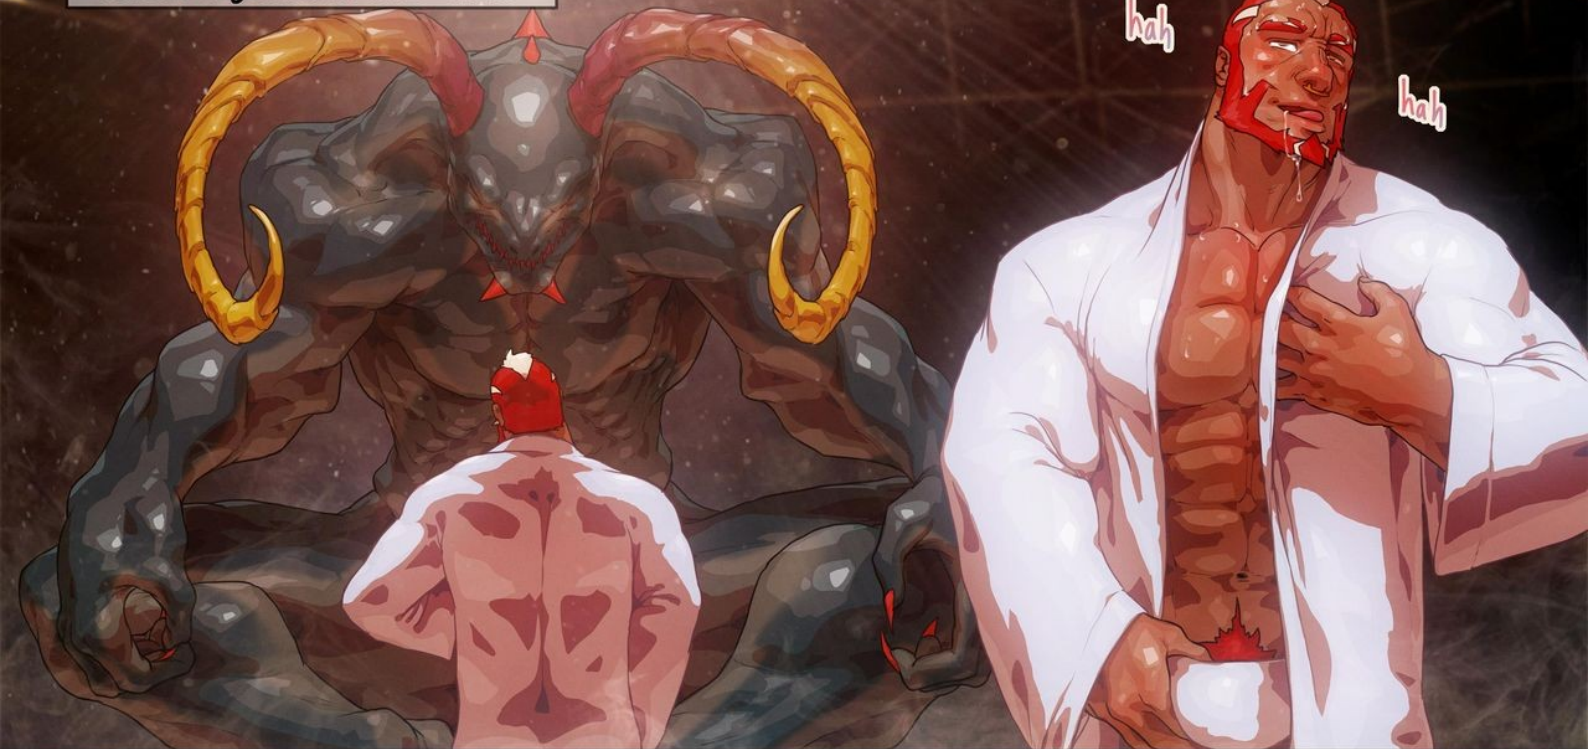

It's inevitable.

...He outranks us.

A few days later: LV. DEMON

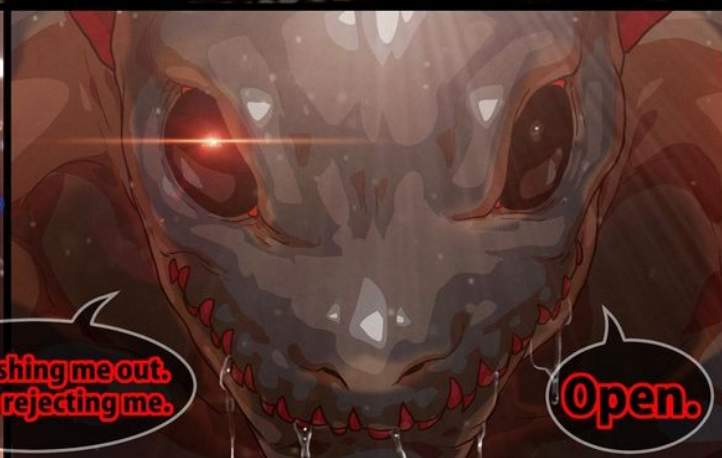

This demon has been involuntarily
abstinent for a very long time.
This task will be very dangerous.
Good luck.

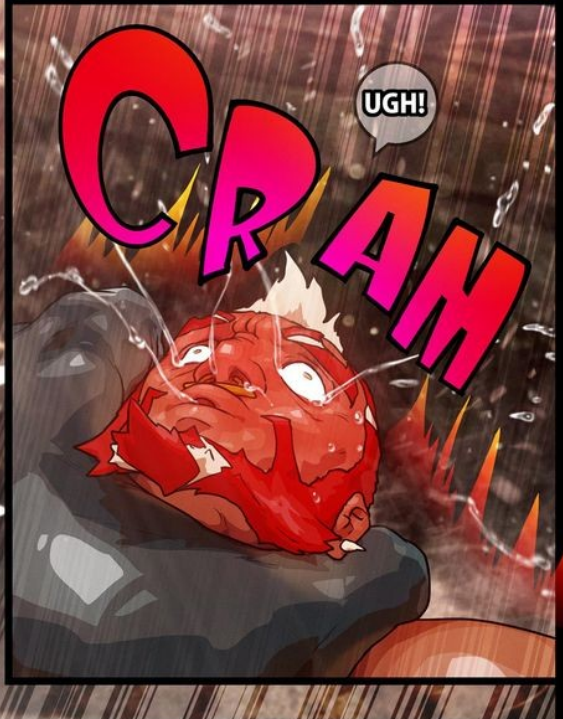

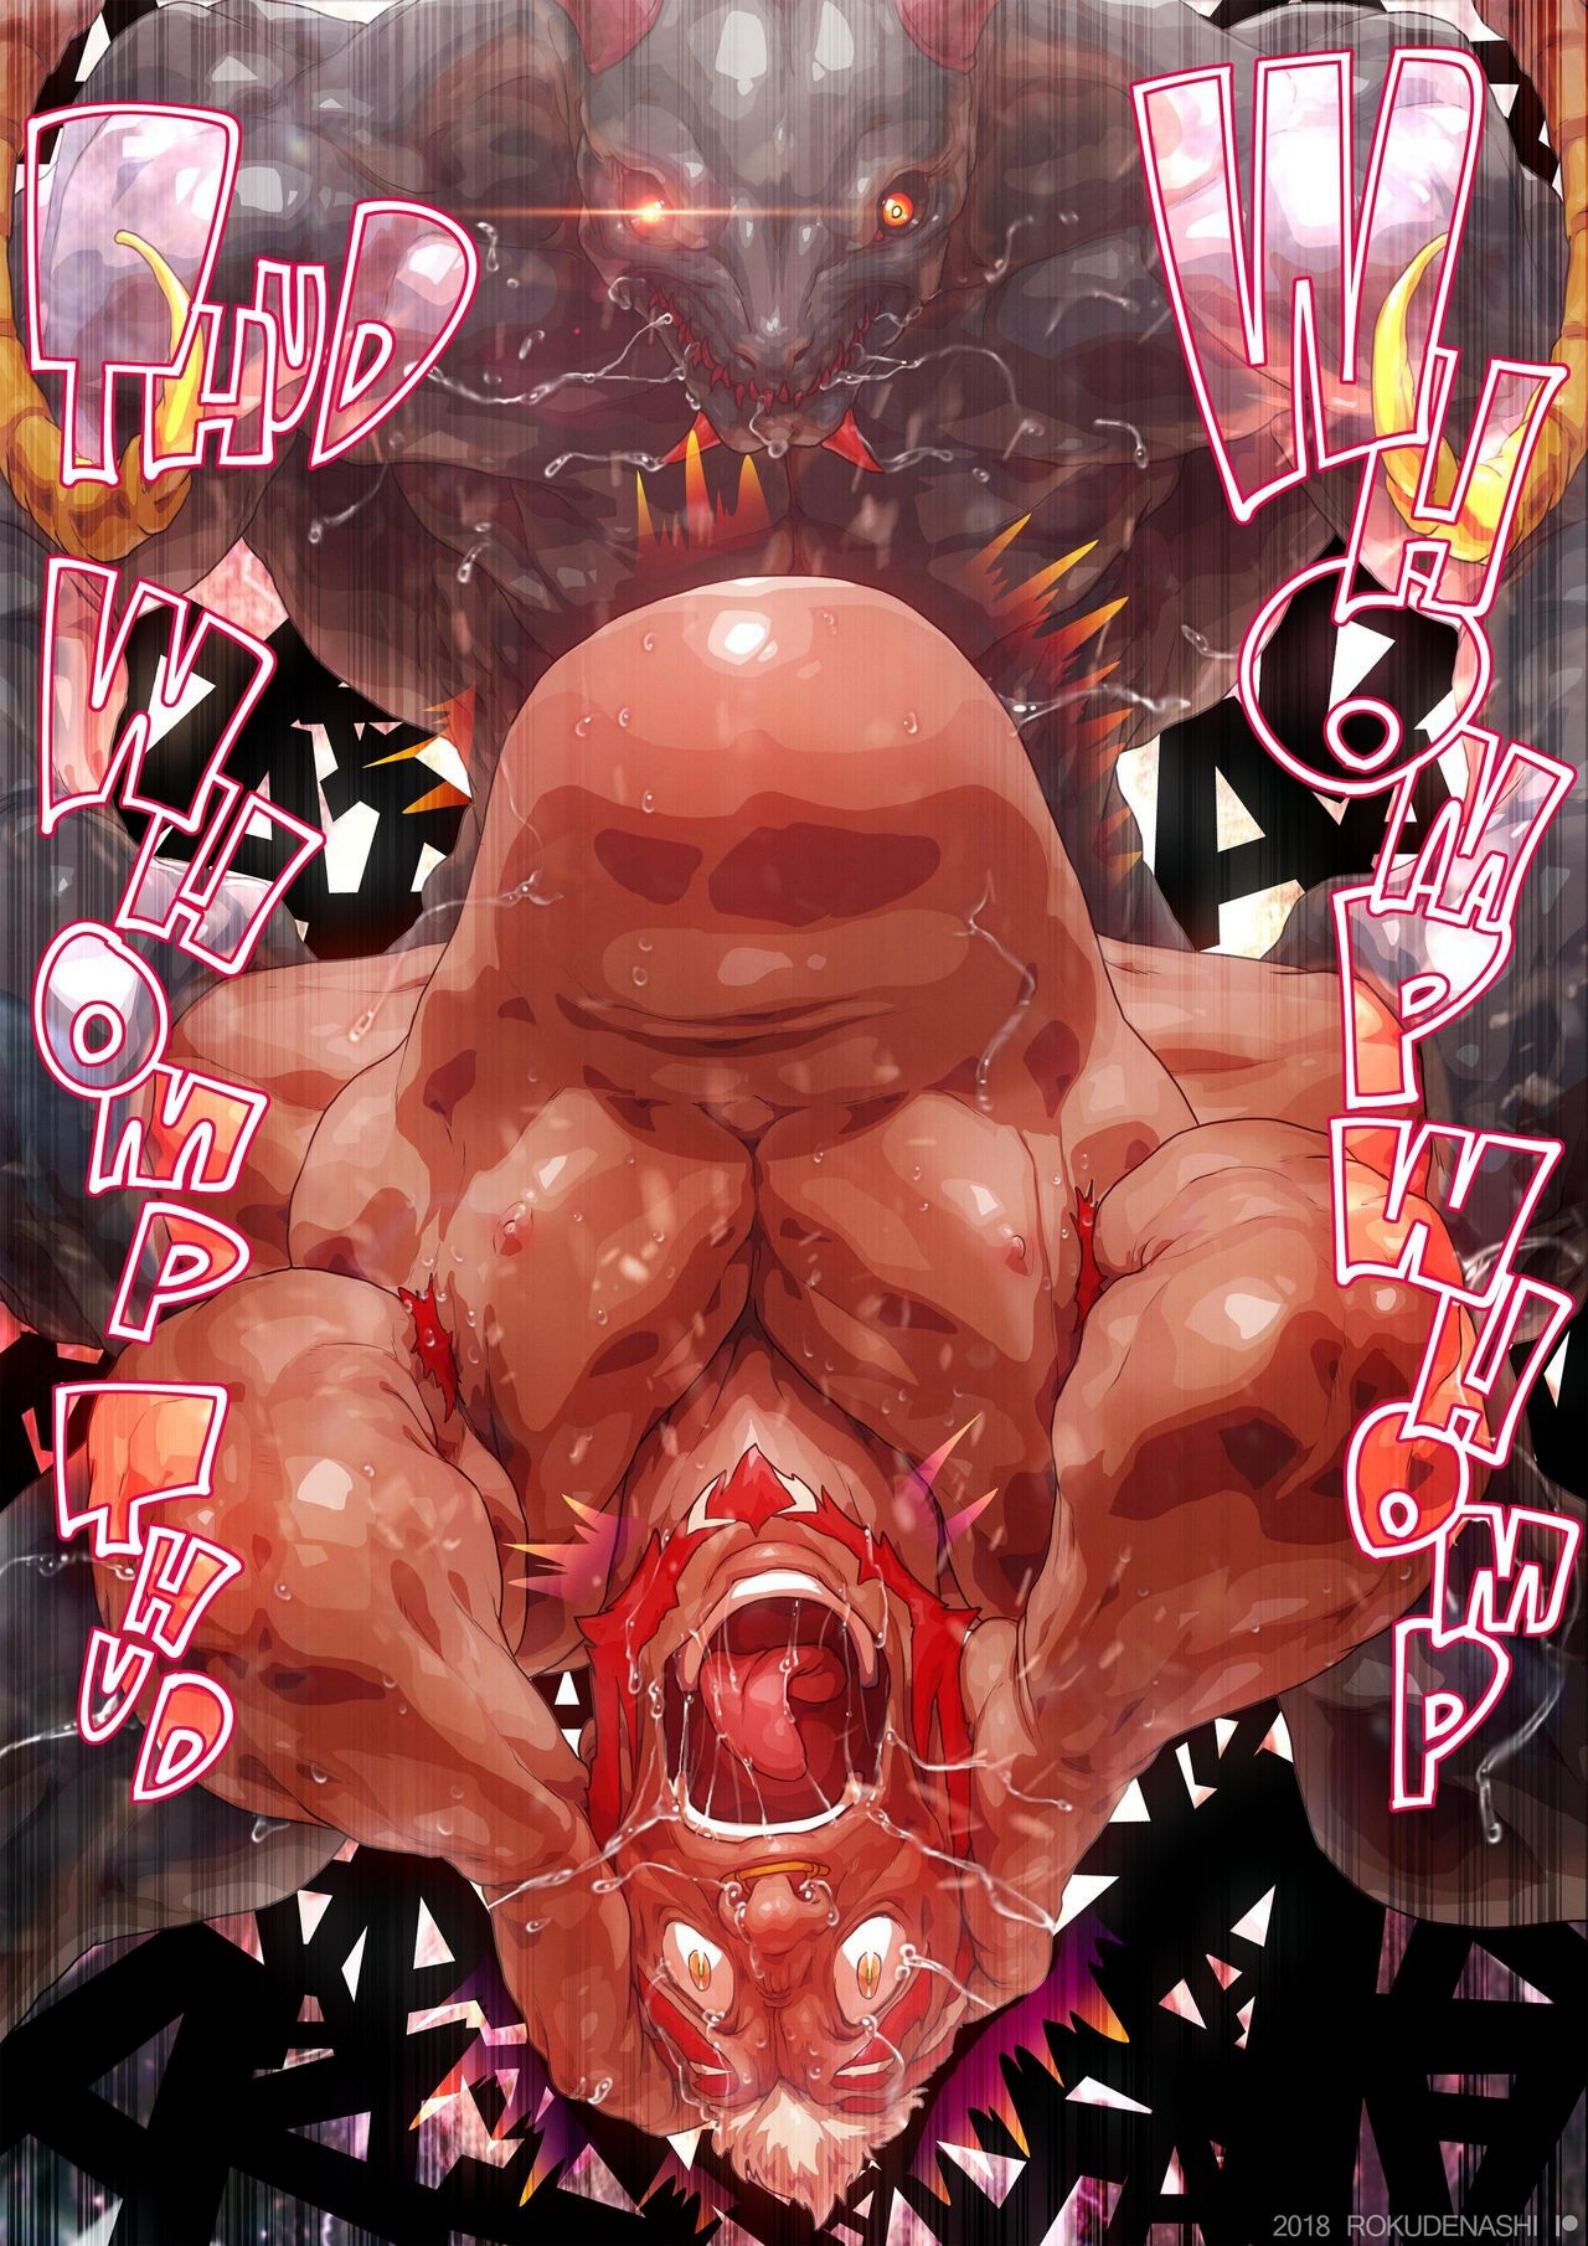

Wake the demon.

He was really cute.

Ah! Uh, I have today's warrants and schedules...

Thanks!

To be continued...

Gozz / ゴズ

A sex slave imprisoned in Ejaculate Management and Logistics. Although he was a serial rapist, after his first encounter with Zark he ended up serving as a semen deposit for the corporation. Now he wishes to get bred by all males.

Zark / ザーク

Superhero who reforms criminals through sexual domination. He has incredible powers, such as forcing unrestrainable arousal through a flashing glare, known as a Zark Leer. Gozz was an acquaintance of his before his life as a rapist.

ANGELO / DAIGO / BRUCE

Former criminals who were punished and reformed by Zark personally. They were defeated by Zark but not sent to EML, and in return they are aiding him.

Angelo (from ZARK#3)/ Shapeshifter - A sex-warring shapeshifter, he sought out Zark to defeat him in sexual prowess, and was defeated. Uses tentacles.

Daigo (from ZARK#2)/ Once a dangerous, destructive criminal, he can only orgasm anally nowadays.

Bruce (from ZARK#1)/ Zark's favorite walking dildo.
