Her twin dicks are always erect and brimming with sexual desire. She uses homunculi as onaholes to relieve her endless desire, every day searching for stronger pleasure

## Homunculi

Made for Succubus-san to use  
Extremely durable artificial humans  
With rough SEX in mind their internal organs  
are mostly placed around a cylindrical shape,  
true living onaholes! While they're not too  
expressive, they've been made so they respond  
only to considerably strong stimulus.
