Twin Succubus

The remaining page is a **bonus illustration!!**

Lately, I've started to really love succubi, angels, vampires, and otherworldly beings!

I want to draw lots of **otherworldly beings~!!**

Afterword

Thank you for purchasing this book.

It's the first book that is directed towards adult readers, so I felt nervous while I was drawing it.

I really love young, obedient little girls, so I thought I would make a whole book about one.

And I did manage to do so, so I feel really happy now.

Also, the bonus twin succubus is my favorite one.

If there's another chance for it, I hope I can draw otherworldly beings for my next book~!!
