

D VS M

chapter 3

Preface

The demonic erosion can be seen everywhere in the world. Human cannot resist the temptation of Demons, so they become the puppets of demons. Among them, the aristocracy and royalty became the most seriously eroded group. Once noble, they are now nothing but the appearance of nothingness, behind it are the worship of obscenity and distortion from demon.

Lilith Cranach

The cranachs are one of the most important families in the kingdom. All the members of the cranachs hold important positions in the court and are the emperor's confidants. Now the executive power of the family is controlled by Lilith. She is a smart and capable woman, and the family is more and more powerful under her care.

*But it's all in the past...
Now the clanahs have changed...*

Maid

The maids of the Cranach family, all of them are orphans that adopted by the Cranachs. Living in the Cranachs, they had to learn how to serve their masters since childhood.

They were just in charge of ordinary housework before, but since the head of the family became weird, they have become props used by their masters to vent sexuality.

Iron Maiden for sex

The instruments of torture used to punish maid for their mistakes, It was used to make a sinner suffer from flesh piercing before, but now it has been transformed into this way.

The sinner who is imprisoned in it only exposes her mouth, nipples and genitals from the opening of the shell.

They will be placed outside the dormitory of male servants and forced to provide services for men to vent their sexuality every day like a giant masturbation cup.

Every day, there are special servants to feed and clean the excrement of these "cups".

The time these sinners are locked in depends on how serious their mistakes are. Some sinners will even be locked up for several years. When they come out, they have completely lost their ability to live on their own and completely reduced to a real masturbation cup.

Team Charming viper

Team Charming viper is the cranahs' personal guard. The members are all made up of women.

The members of the team have sworn their allegiance to the cranahs all their lives since they joined. However, since the hostess of the family began to believe in demons, the team has to cooperate with the host to complete various "training" besides the escort task.

Each member of the team has to wear such a suit of armor.

The meteor hammer can be combined with crotch armor, and can be fixed in vagina and anus.

Crotch armor. Team members need to clamp the ball with vagina at all times, so they need a lot of training.

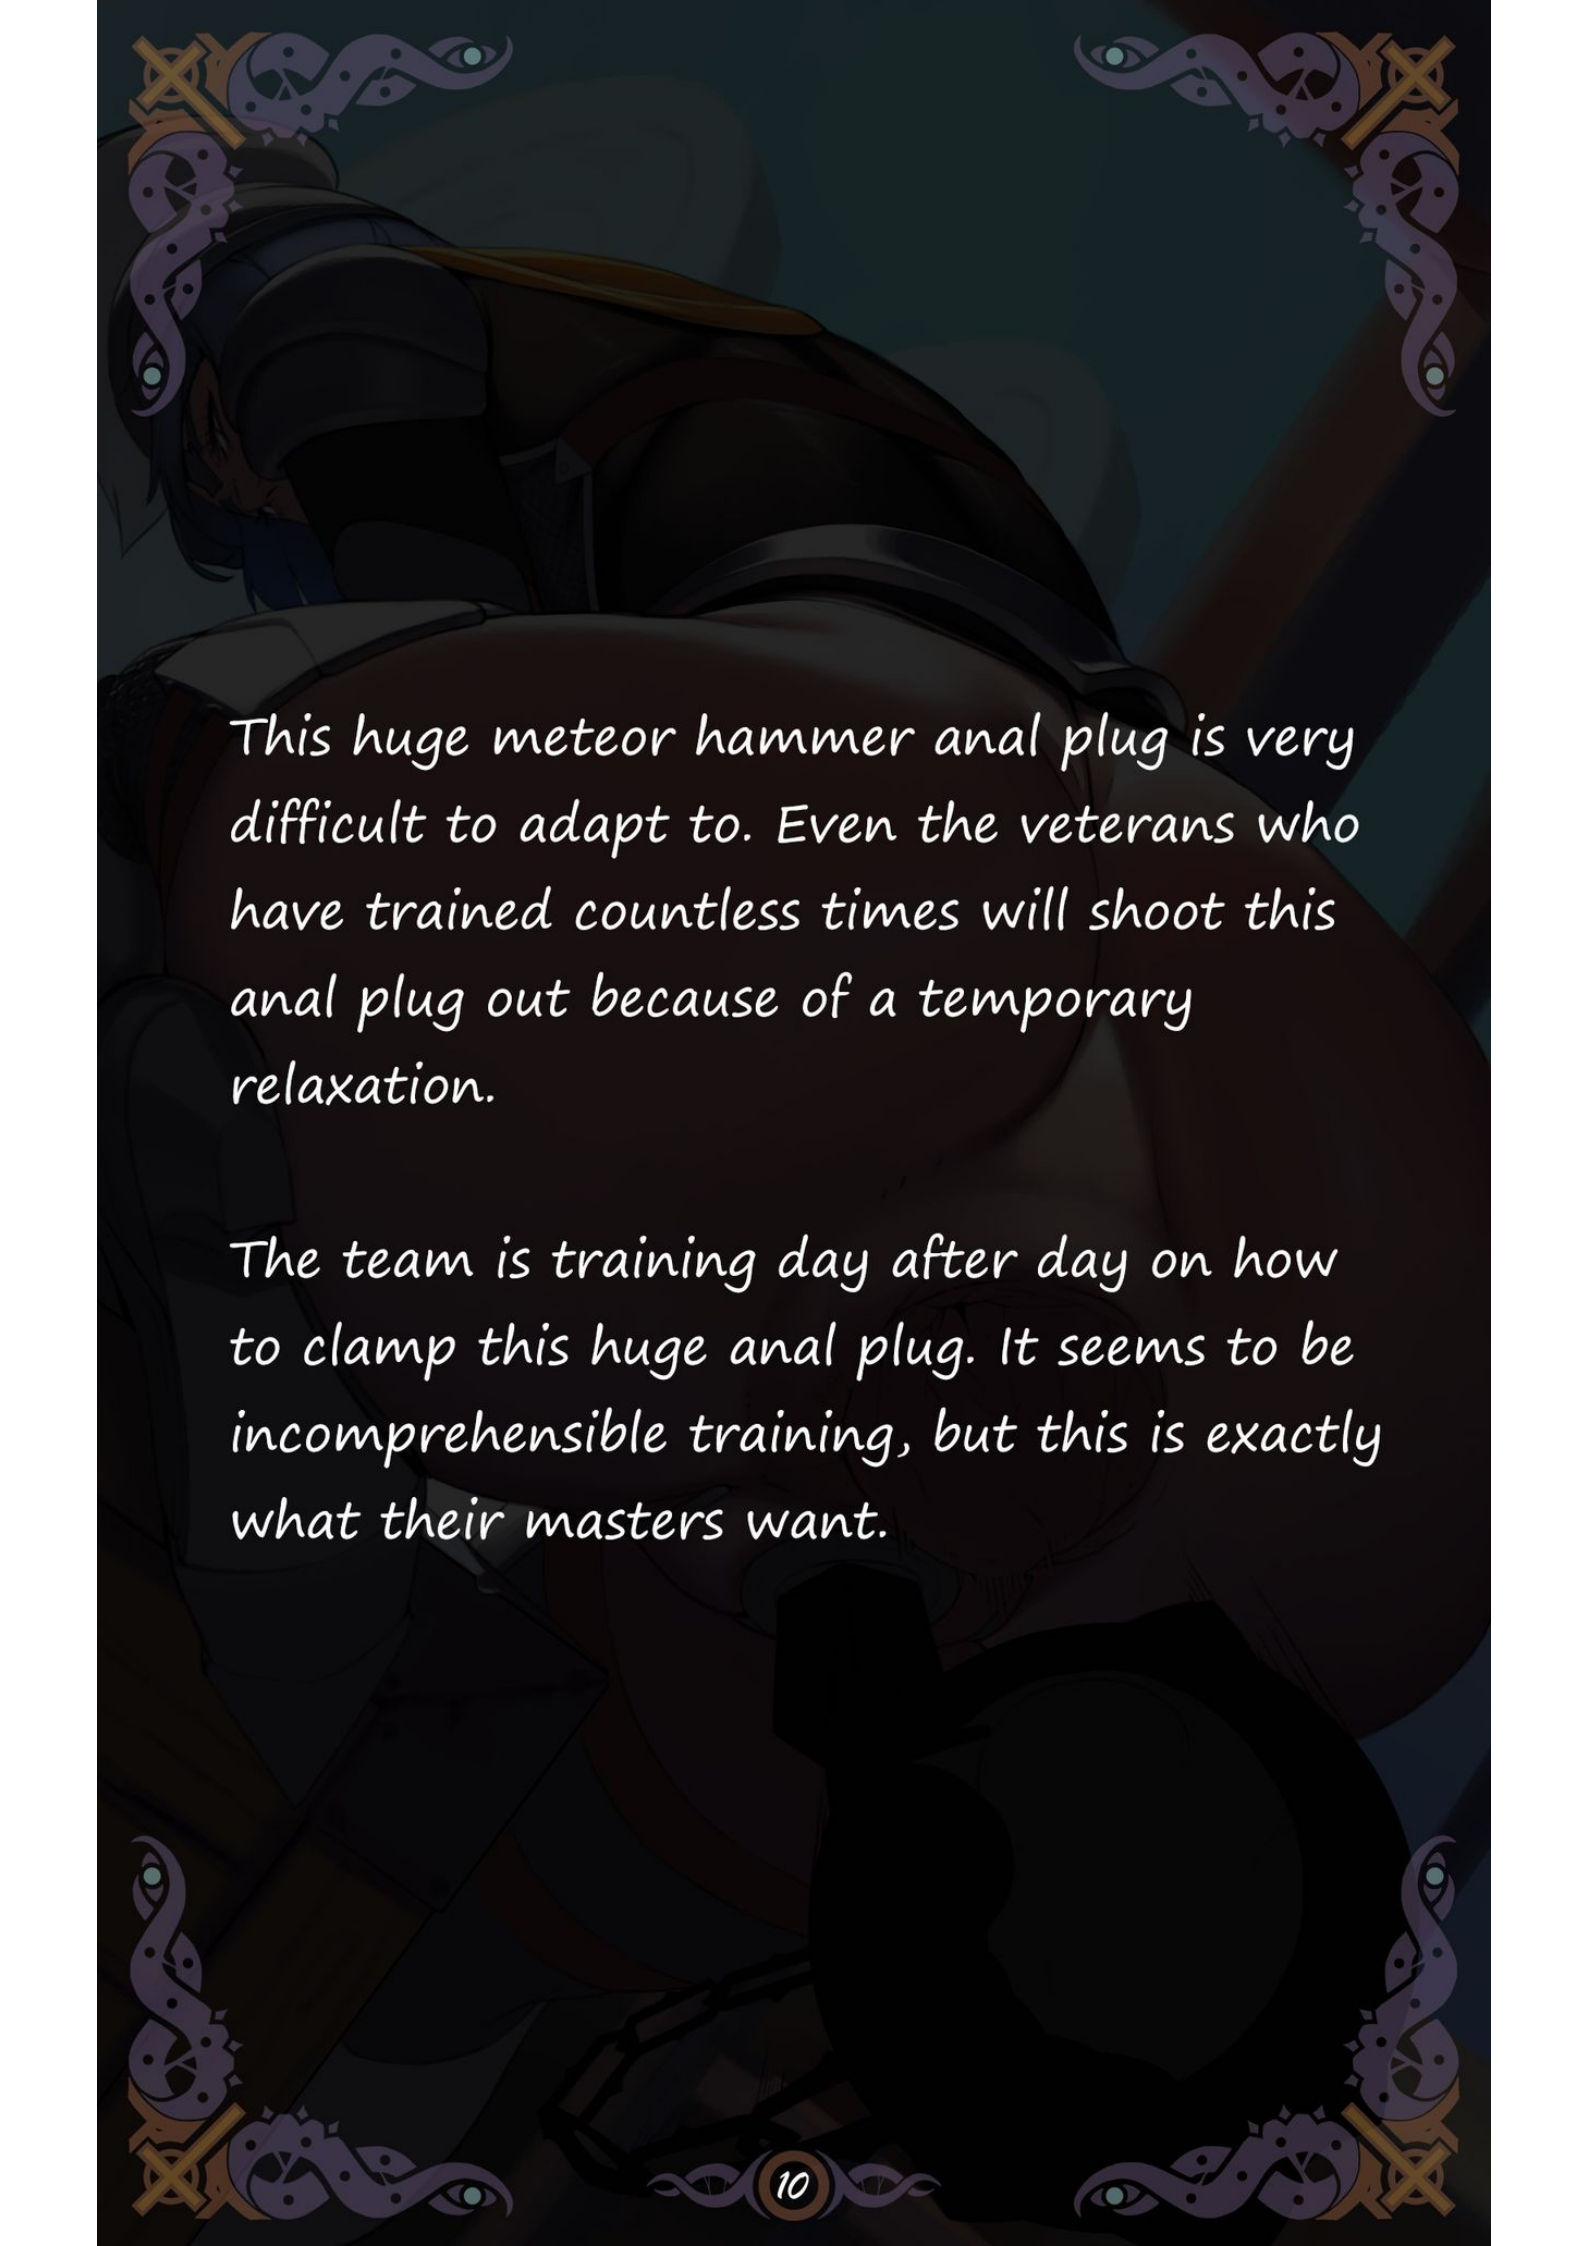

The beads used to block the urethra can be combined with the crotch armor, the other end of the chain is attached to the clitoris ring,

The meteor hammer made of a lighter metal, but because of its size, it needs a lot of practice to clamp it in the anus.

This huge meteor hammer anal plug is very difficult to adapt to. Even the veterans who have trained countless times will shoot this anal plug out because of a temporary relaxation.

The team is training day after day on how to clamp this huge anal plug. It seems to be incomprehensible training, but this is exactly what their masters want.

Lilith Cranach

The hostess
of the cranahs.
But since the
demons attacked
the world, she and
her people have
become weird and
are doing something
evil in secret.

The family emblem of the
cranahs consists of a viper
and a blue purple roses.

Lilith's nipple holes have been gaped over a long period of time have grown large enough to hold elementary demon tentacles in her breasts.

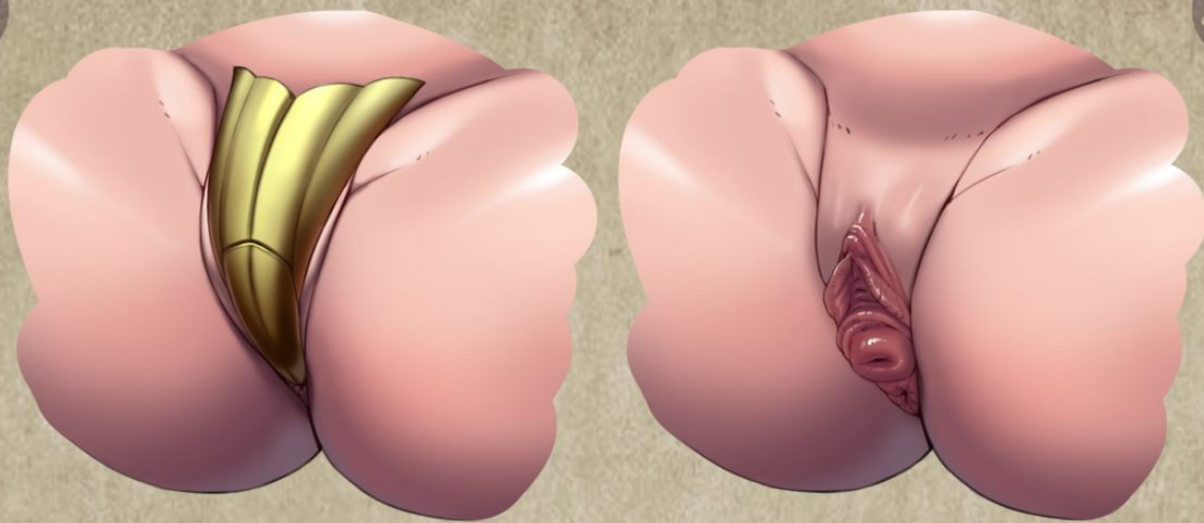

A hollow nipple hole plug for plugging the nipple hole. The hollow part is a design for convenient access of the tentacles.

The combination of the two plugs

The plug of hollow nipple hole plug that made by sapphire.

Lilith's uterus has become very loose due to the long-term parasitism of demon's tentacles. The cervix can no longer be retracted into the vagina. Once the plug is removed, it will hang outside all the time.

The hollow vaginal plug. The hollow part is the same as the nipple hole plug, which is designed to facilitate the access of the tentacles.

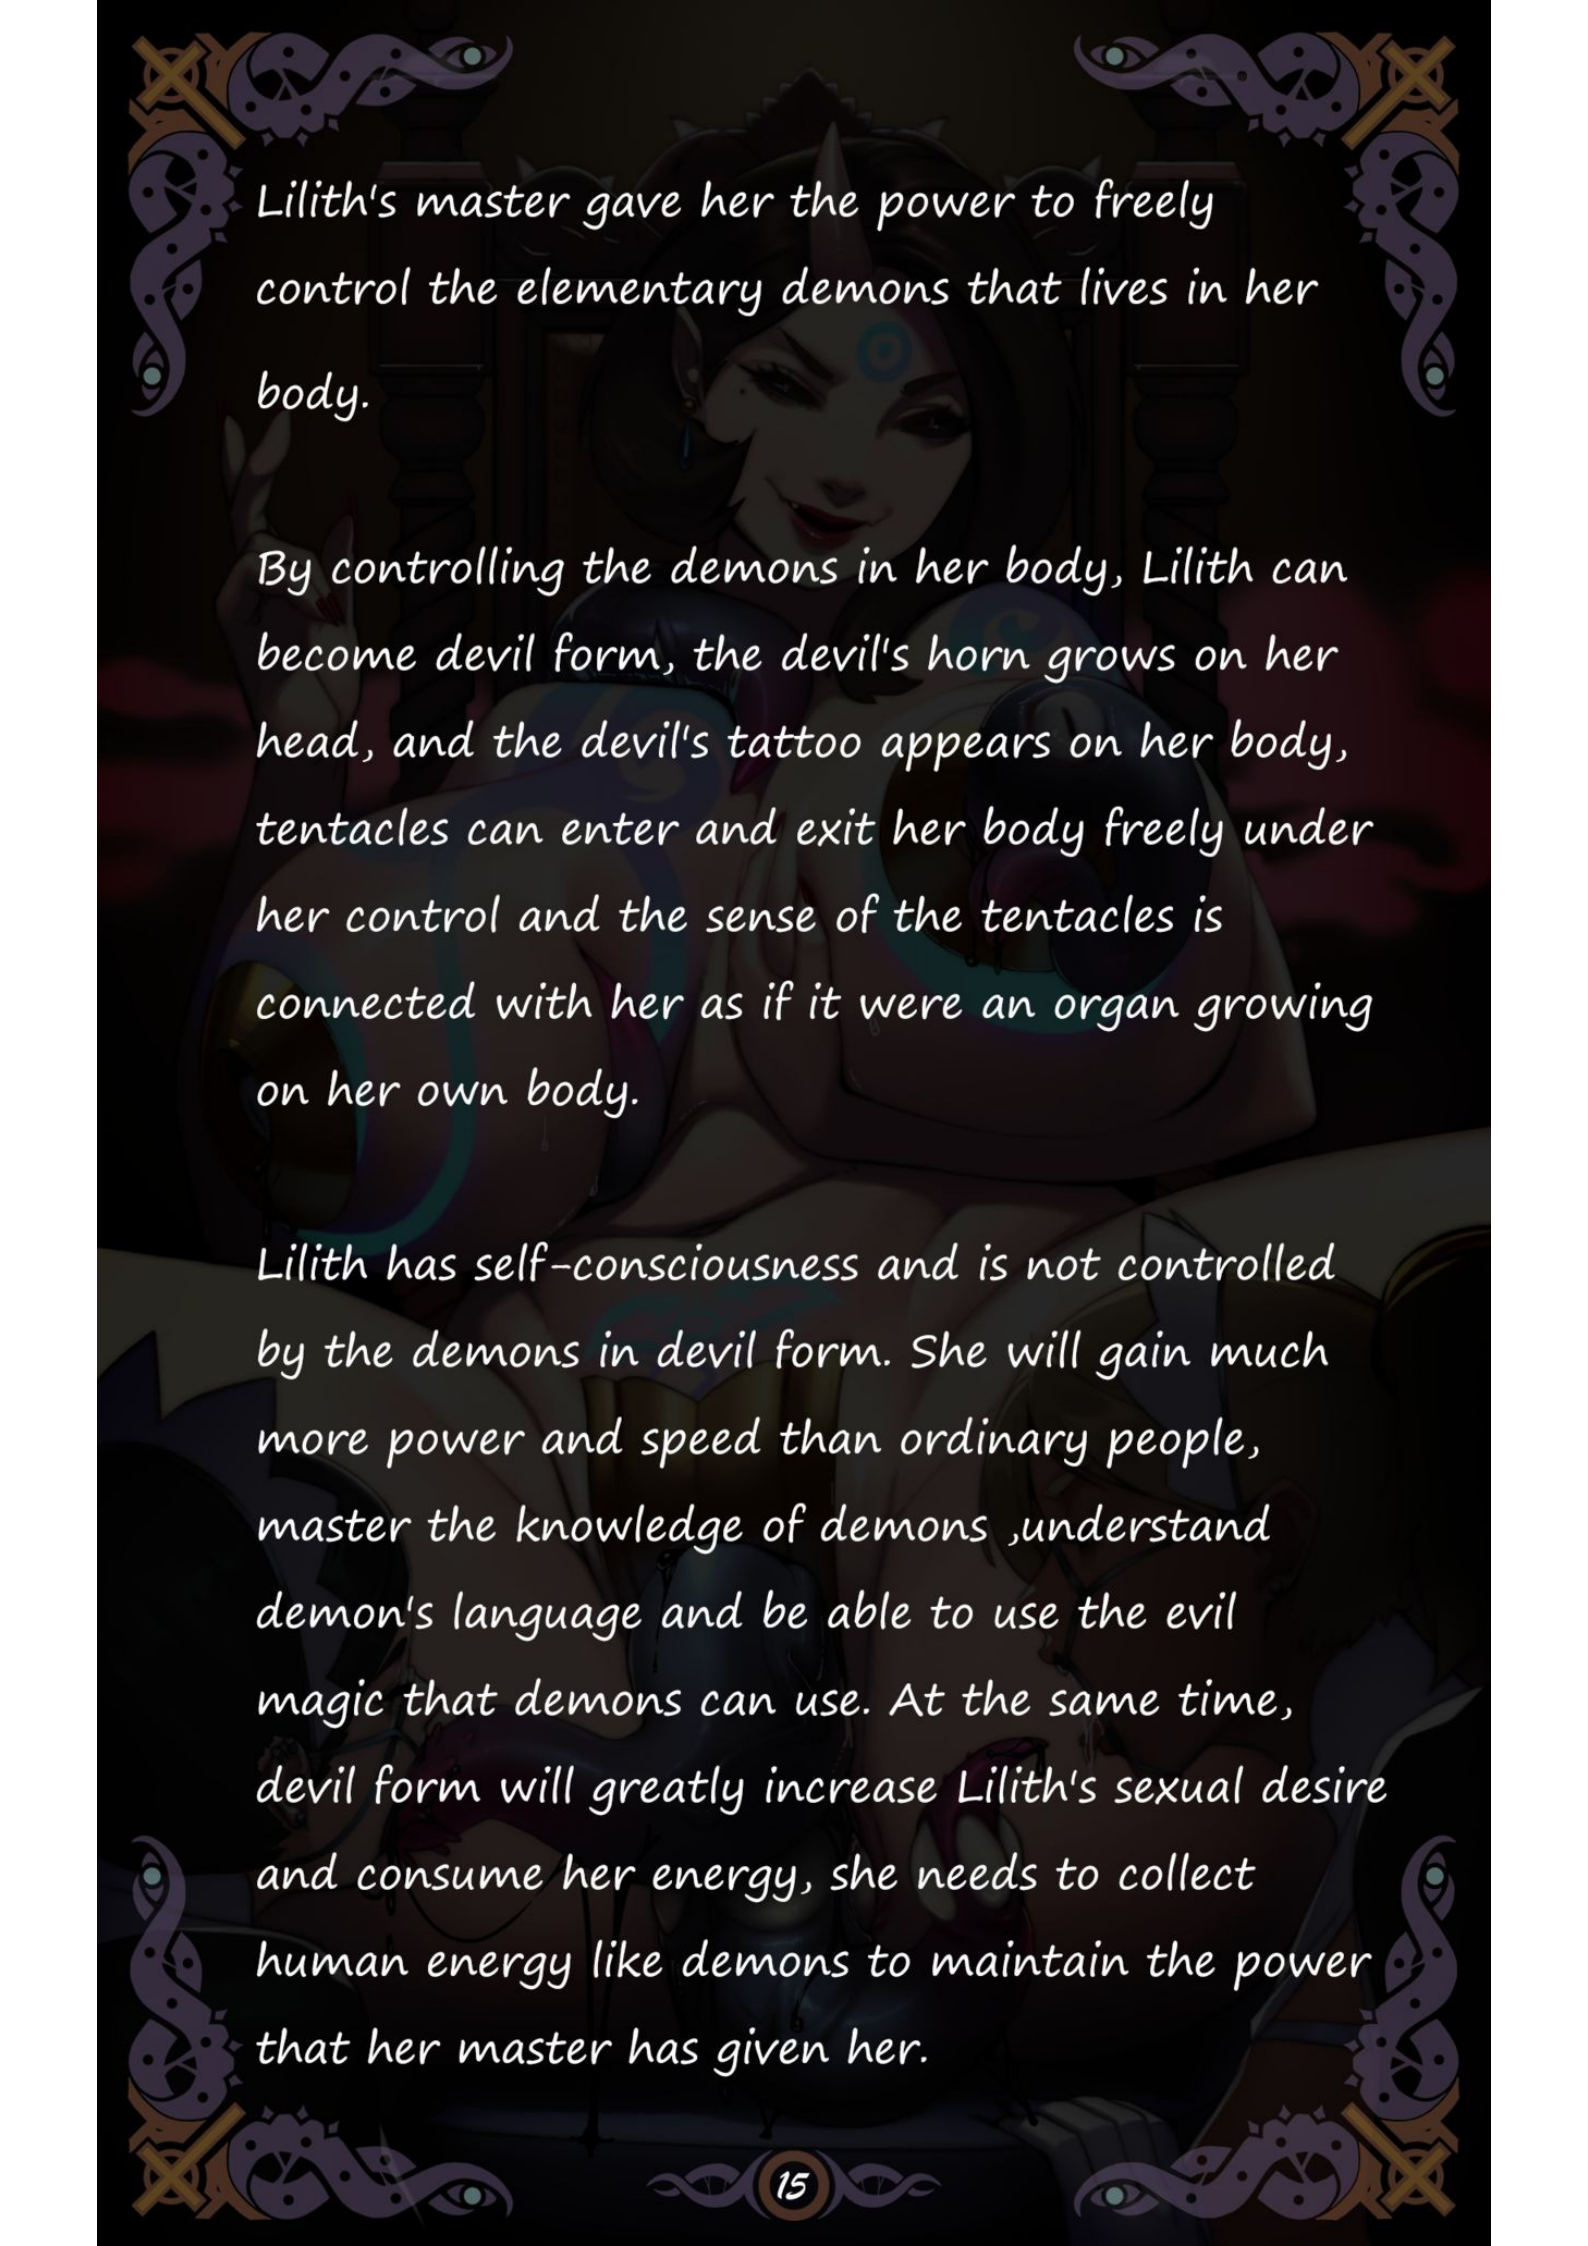

The combination of the two plugs

The plug of the hollow vagina plug is also attached with the anal plug part.

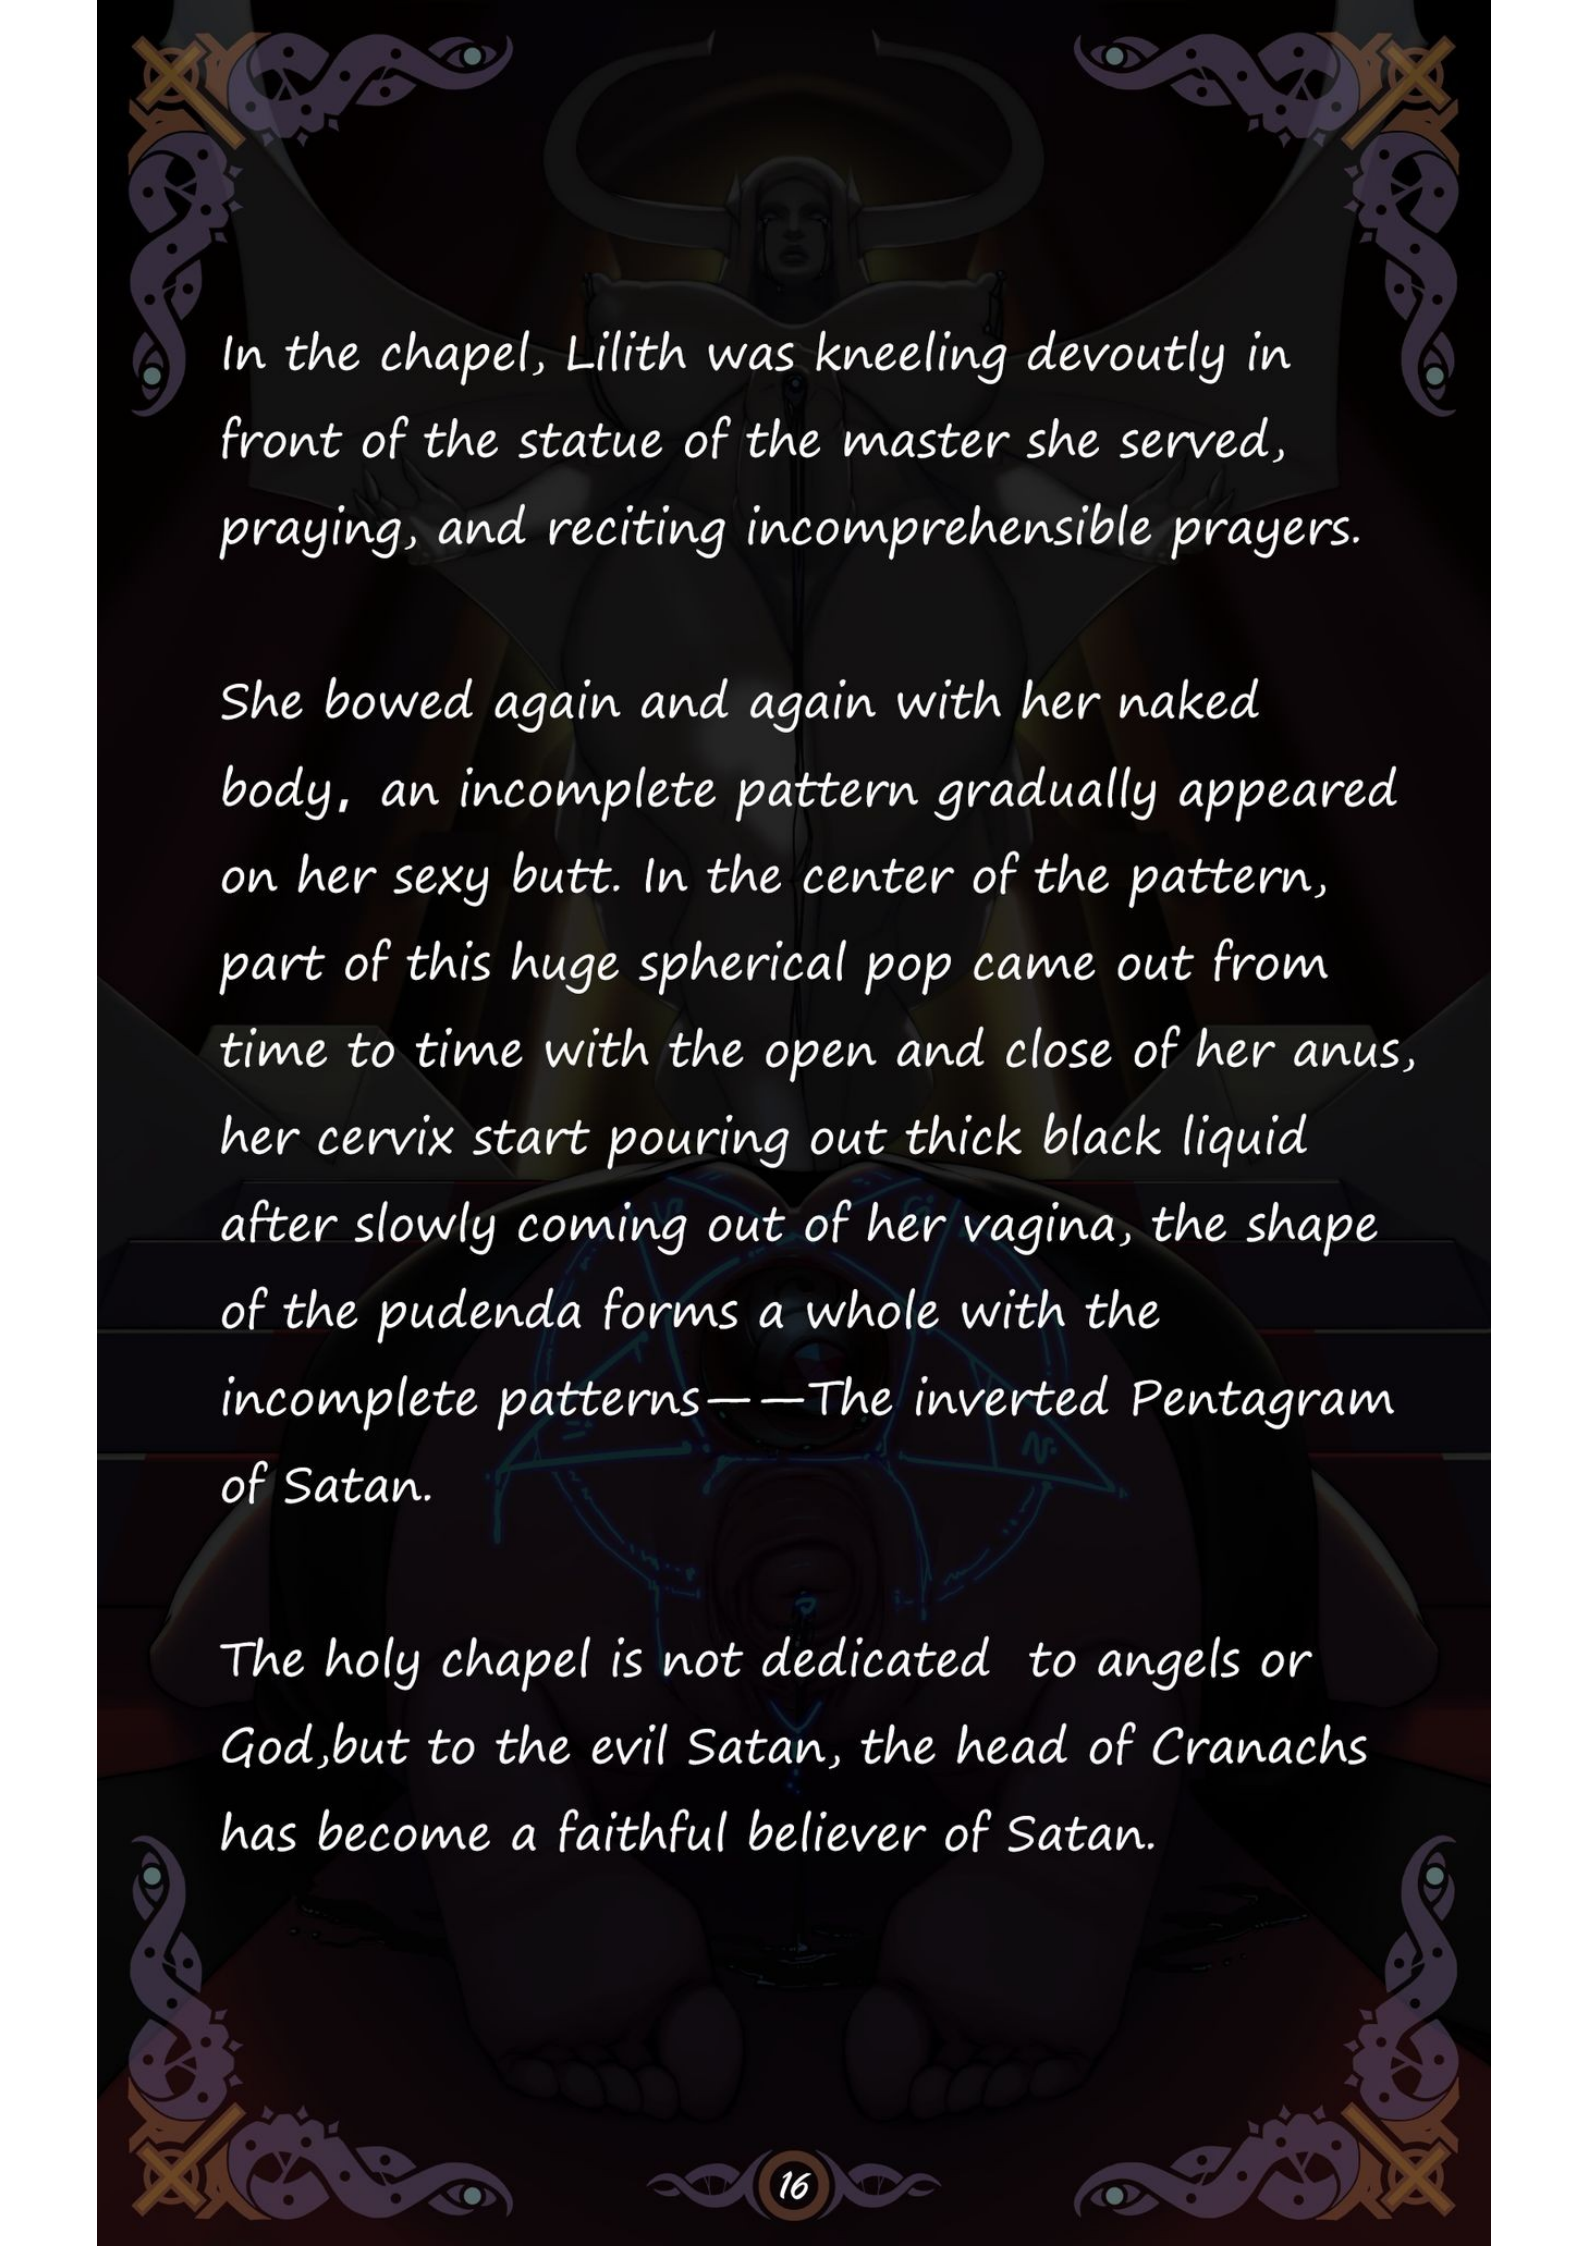

Lilith's master gave her the power to freely control the elementary demons that lives in her body.

By controlling the demons in her body, Lilith can become devil form, the devil's horn grows on her head, and the devil's tattoo appears on her body, tentacles can enter and exit her body freely under her control and the sense of the tentacles is connected with her as if it were an organ growing on her own body.

Lilith has self-consciousness and is not controlled by the demons in devil form. She will gain much more power and speed than ordinary people, master the knowledge of demons ,understand demon's language and be able to use the evil magic that demons can use. At the same time, devil form will greatly increase Lilith's sexual desire and consume her energy, she needs to collect human energy like demons to maintain the power that her master has given her.

In the chapel, Lilith was kneeling devoutly in front of the statue of the master she served, praying, and reciting incomprehensible prayers.

She bowed again and again with her naked body, an incomplete pattern gradually appeared on her sexy butt. In the center of the pattern, part of this huge spherical pop came out from time to time with the open and close of her anus, her cervix start pouring out thick black liquid after slowly coming out of her vagina, the shape of the pudenda forms a whole with the incomplete patterns—The inverted Pentagram of Satan.

The holy chapel is not dedicated to angels or God, but to the evil Satan, the head of Cranachs has become a faithful believer of Satan.
