After word

Nice to meet you. This is Aioi Riko. Thank you for reading this book. I started by joining the comittee, and this is my first original book. it was very nice to be able to write this story about gender transformation that I have been wanting to write for a long time. (although it was very hard to understand when Nao-kun was a boy because there was almost no description(> _<)). I Hope you found it interesting. I am still writing the continuation of this book, so thank you
