The end♡

Afterword

I put relatively more effort into it this time...
I wanted to increase the content, but unfortunately, I ran out of time.

As for my real job.
I'm not even good at it, but I just keep getting tired of it all.
Actually, it's probably because I'm not doing a good job at it...
I really want to quit.

I want a loli goddess to take care of me...
