MOUTH FOR PENIS

The naked sexual organ "lip" has received various lusts from the ancient era, but the quality of pleasure has been only based on personal blowjob technique for a long time. The great GENETIC concept of about 100 years ago optimizing the ecstasy with a donors structure design itself ended the stagnation.
And now, We will announce the biggest innovation.
Our scientist and designers redesigned their structure of the skull and muscle, Solved the difficult problem to realize the dream of so-called "A Beautiful Face with Complete Anodontia".
No matter how many popular extensions you blend, your lovely donor can keep a lovely face.
There is no need to compromise with the old-man-like disgusting mouth for the pleasure of the edentulous anymore. The ultimate blowjob experience is here.

EXTENSIONS

SOFTENED TEETH
Today's popular extensions installed in many donors for sex pets. You can enjoy comfortable oral sex with your beautiful donor.

ANODONTIA
This is the answer to maximize the pleasure level of the blowjob. Smooth gums give you a massive pleasure to your penis. Just easy nanobot injection makes your donors completely edentulous in a few weeks.

LONG TONGUE
For spreading Variations of a blowjob. You can let donor lick from your anus to the deep inside of the sigmoid colon. It is also possible to equip the tip of the tongue with a thin, soft sub-tongue insertable to your pee hole.

PUSSYFICATION
Vulva, vagina, cervix are formed in the oral cavity. Of course, clitoris too.
A filthy female organ in a cute mouth secretes complete pussy juice. You can insert a penis into the pharynx behind the uterus safely.

FORMED VAGINA
Form a vaginal wall organ in the oral cavity. Just by making donor suck your penis and move, you can easily get a nice pleasure.

FORMED ANUS
Form the anus and rectum in the oral cavity. You can insert into the colon above the pharynx safely.
The rectum at the face that wet with clean saliva at any time is very easy to insert.

PUSSY - MOUTH
The most immoral extension for perverts. This replaces the mouth with a cunt completely.
A filthy vagina formed on a cute face brings surprising pleasure because it can move freely with voluntary muscle.

*As a basic function of oral extension, donors always have a sense of taste to love cum.

PREMIUM COMPLETE FORAGE

WE DELIVER A SPECIAL FORAGE EVERY WEEK AT 980 YEN PER MONTH TO YOU.
Most of the oral extension makes normal eating impossible for your donors.
We recommend feeding "PCF" for donors.

GENETIC INC.
OralCommunicationLab

※ All extensions except "softened teeth" deprive the natural vocal ability, but many people think that conversation is not necessary for donors who serve your sexual pleasure.

Annual bio-nanobot injection is necessary to maintain the extension. If you wish, we will deliver a maintenance kit to your home.

FUCKABLE ORIFICE

PLUS ONE 15,800 yen
PLUS ONE EXTREME 21,800 yen

HOW TO USE
*Please be patient for 3 weeks. Trying to force insertion before complete will cause serious damage to the donors.

STEP1 - Please attach the blue patch anywhere you like and keep pressing the button.
It will end adsorption to the tissue in about 30 seconds. The body tissue forms a structure like tiny vagina in one week.

STEP2 - After one week, please remove the blue patch using half of the "remover liquid 1" and attach the pink patch as in step1.
It will take another week to deform the orifice into an insertable shape.

STEP3 - As the formation progresses, the color of the patch changes from pink to yellow.
When it turns completely yellow and "END" is displayed, let's remove the patch with using "remover liquid 2".

STEP4 - DO NOT PANIC! There is one week left. Use plenty of special lotion and insert "1st Dildo (day1)" for expansion.
Replace every 24 hours with the next numbered dildo ... When you remove the 7th dildo, It's your turn.

STEP5 - AS YOU WISH!

+ONE
Pussy, Asshole, Mouth ...
Have you ever wanted to add special holes to your lovely Donor?
Our "Advanced Donor-utilize Development Department" developed a new solution that can satisfy your wishes.
If you use this brand new starter kit named "PLUS ONE", you can create an insertable hole anywhere in a soft place of your donors living body. Navel, Butt, Tits, Armpit ... everywhere.

ABDOMENS
The most recommended place is the navel. The omentum organization forming a highly comfortable filthy hole.
You can insert your penis into "inside" of your donor's body while hugs each other naturally, anytime, anywhere.

FUCKABLE PEEHOLE
You can also change the urethra into fuckable. It always causes dysuria, that is, as the donor's pee always flows out, you need to keep insert a small dildo plug in the pee hole, but the feeling of direct ejaculation to the golden holy warm water tank will surpass any experiences.

FOR EXPERTS
In response to everyone's request, we lineup "PLUS ONE EXTREME" which can be used only for low-class Donors.
It was difficult to form nice holes in the palms, feet, legs, knees, ears, nostrils, and heads so far. But, now you can make "vagina" everywhere.
The hole formed by deforming body tissue (even bone) over 2 months can completely penetrate an adult penis.
Every body part is fuckable.
"REAL" brain fuck is not a dream.

OTHER POPULAR PRODUCTS

CLITORASH

Using special mouthpiece can create countless clitoris-like tissues on the palate and tongue, and you can give it a body that gets pleasure enough to incontinence orgasm only by sucking the penis.

And special cockling and dildo are prepared to create clitoris on the penis and vaginal wall respectively.
The feeling of sucking your own many clitorides with their clitoric vagina is one of the best nondrug sexual pleasure, pay attention to pass out from extreme orgasms.
