Comments: Pictured above: the reader's face while reading this. Your guess is as good as mine. I'll be honest, after that Kyusaku quote in the beginning, I can definitely see the influence he may have had in this artist. Anyway, I tried my best to make this readable and make sense in English, but...well, hopefully you were able to decipher some of it at least. The way I read it is to just accept anything and everything that happens. Don't think too much about "Why is this happening?", or "What significance does this have?", or anything like that. Okay, a hammerhead shark dick oji-san trying to get his dick crushed with a morning star. Sure, whatever. Turns into a swindler fucking the womb seller trap. Yep, okay. That then ends up with a group of old men fucking him then doing dick and nipple sumo...going into womb birthing. A par for the course development.
