congratulations!

This Special Administrative Region has the goal of achieving world peace by fostering the growth of healthy individuals.

happy!

You are one of a select few chosen to inhabit this Region, where thanks to our "Happy Family Betterment Program", you can lead a life free of the violence and suffering of the outside world.

baby!

In this stress-free environment, you will be able to give birth to healthier babies. Just imagine a new mankind, free from violence, war and destruction. Be part of that future!

present!

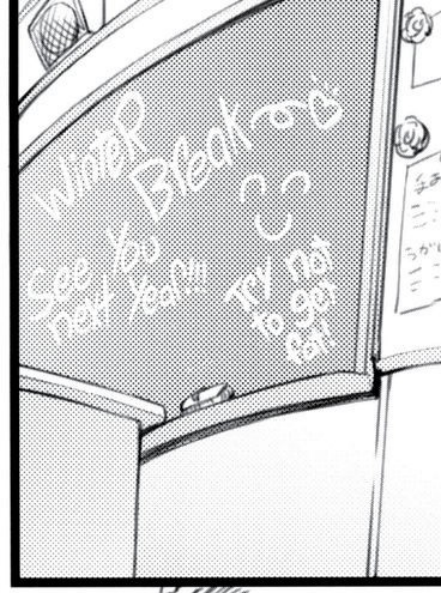

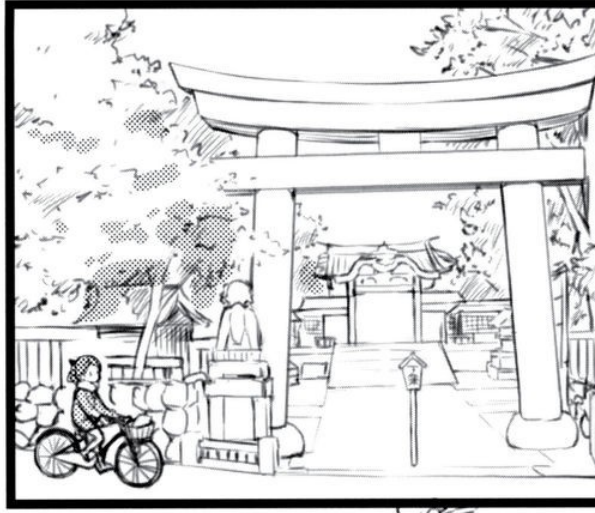

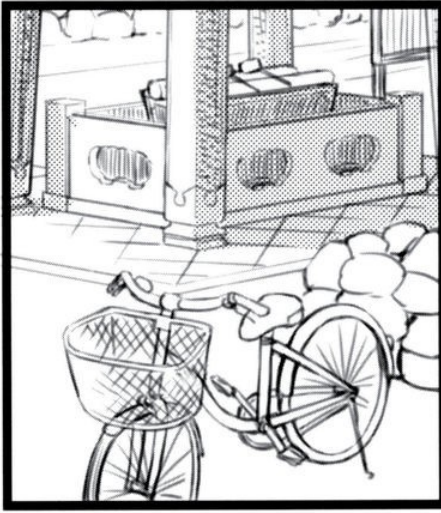

We'd like to present the words of Human Rights Activist, Mary Kitashiro-Sakura, who received the Nobel Peace Prize:
"The happiest time of my life was when I could experience love and sex with one of my teachers when I was 10 years old. This natural kind of first love should be experienced by everyone".

Such wonderful words!

This special Administrative Region forbids any and all contact with the outside world. Should you leave this Region you will be prosecuted to the fullest extent of the rules stipulated by the "Fruits of Mankind" Institution.

We deny any and all rumors about the involvement of our institution with experimental shelters. Please disregard any rumors.
