*All-Night Penis Review Livestream
Sleepover at a Follower's Place*

A detailed illustration of a young anime-style girl with long, wavy blonde hair and large, expressive blue eyes. She is sitting on a dark, ornate wooden chair with a tufted, light-colored cushion. She is wearing a dark blue, form-fitting, sleeveless jumpsuit or bodysuit with thin pink straps. Her pose is relaxed, with her left leg bent and her right leg extended. She has a gentle smile and is looking slightly away from the viewer. The background is dark and out of focus, suggesting an indoor setting at night.

Alice (10)
 Italian
 Cheerful slut
 Slightly cheeky and feisty
 Elegant features
 Twintails

Character design notes

Her hairstyle went back and forth quite a bit. I love twintails but I feel like I'm always drawing those, so I thought a pulled-back style showing her forehead might be better.

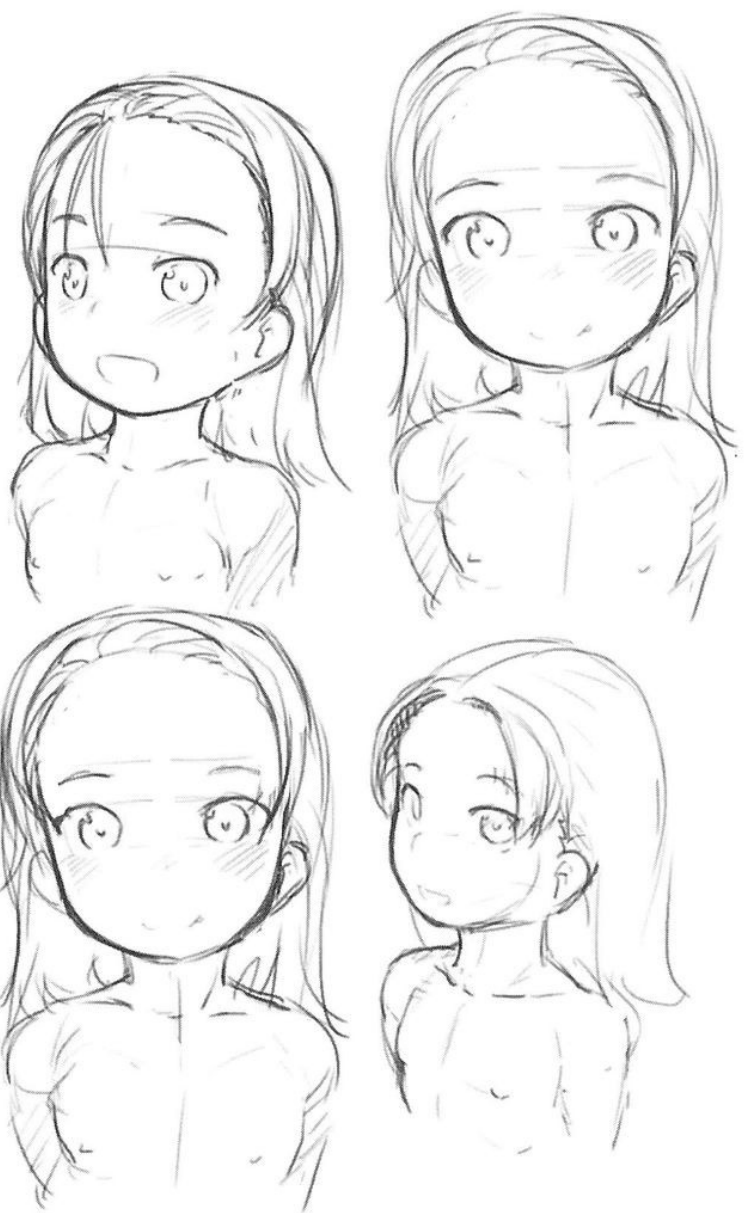

Originally her name was the Italian pronunciation of Alice, like 'Aliche', but somewhere along the line it became 'Alicia'...

This is pretty much her final design.

I was still unsure about her front hair though.

Long legs, so overall height is quite tall

High-nosed elegant features
Blue eyes
Blonde hair

Compared to the earlier design, her head is now more like an upside-down egg shape

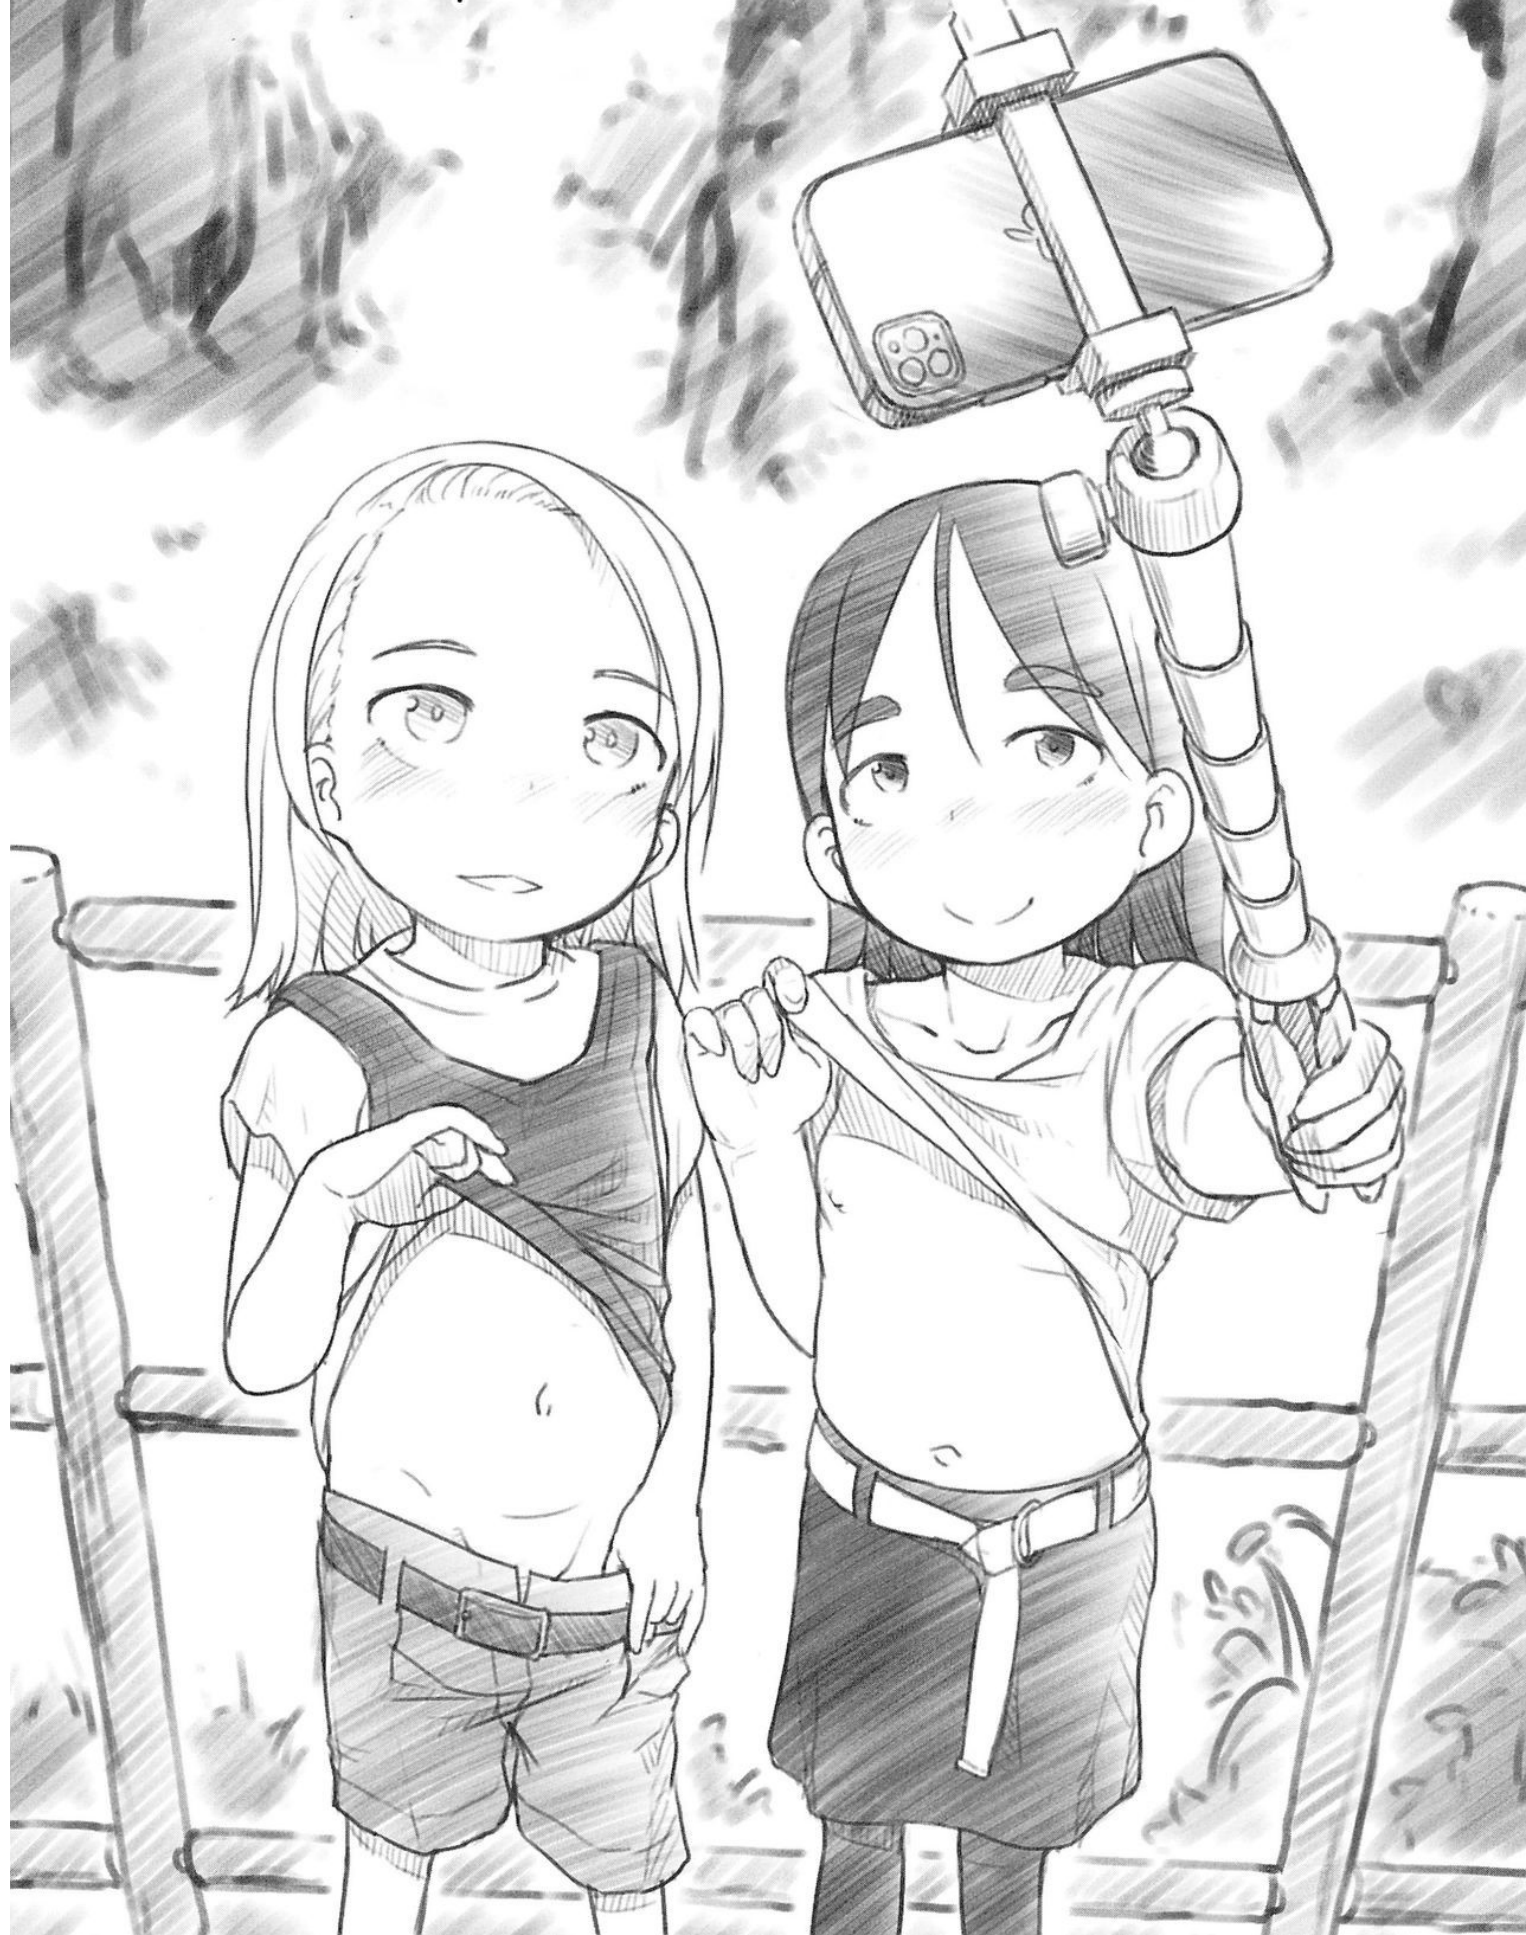

Chest same width as head

Barrel-round tummy

Pussy is quite fat and puffy

Woah!

the Dragon Ball world!

On my
way to
Japan,
I made a
short stop
to visit
a friend
in China.

But later we started following and boosting each other.

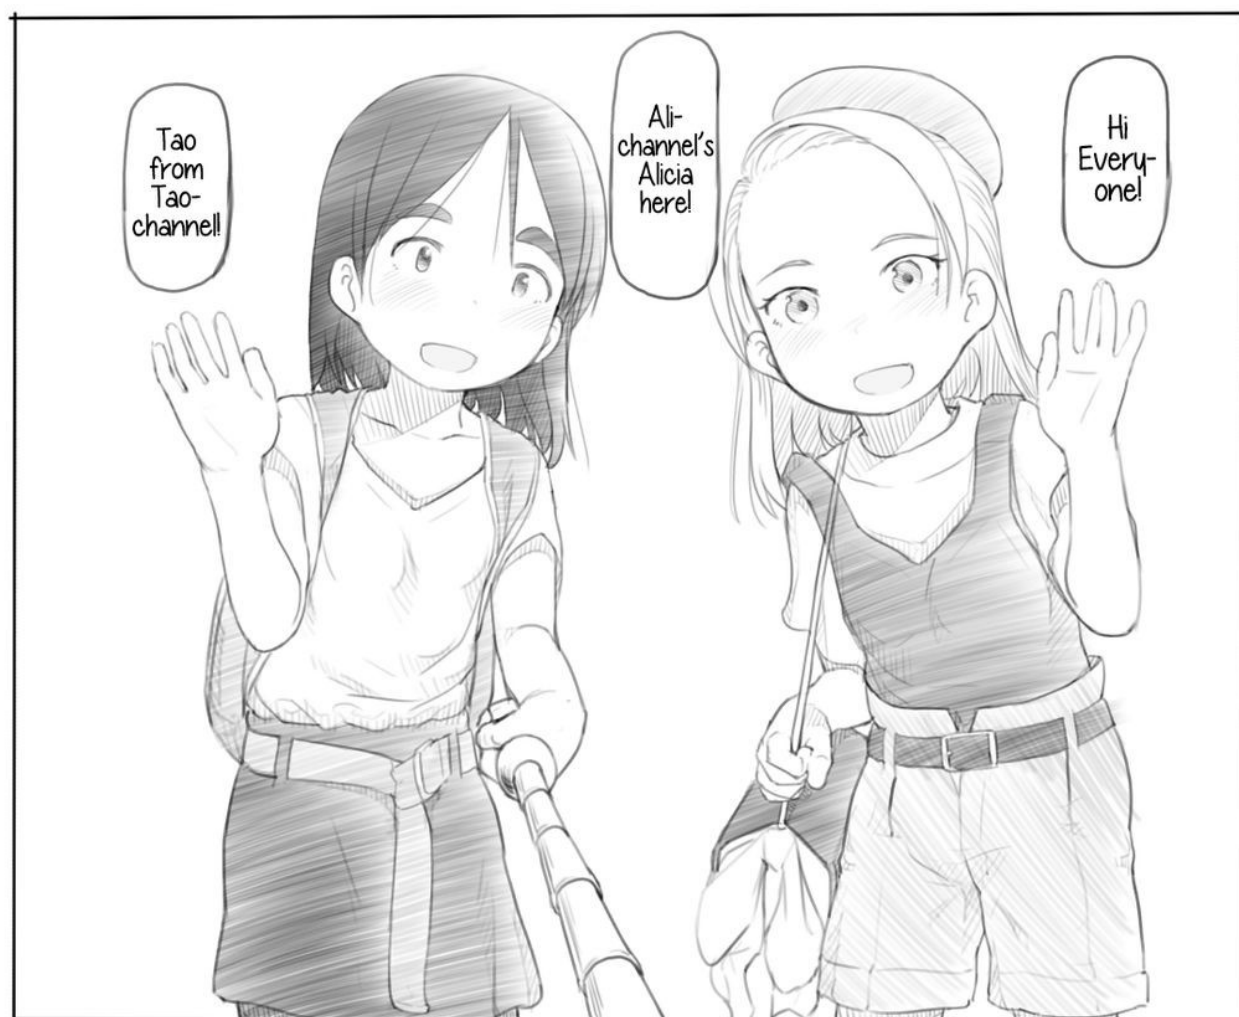

She got into streaming around the same time I did.

At first, we were just competing for views

I'm gonna do something way more amazing than her!

This girl is Tao, one of my mutual followers.

streaking..

We're
doing
it!

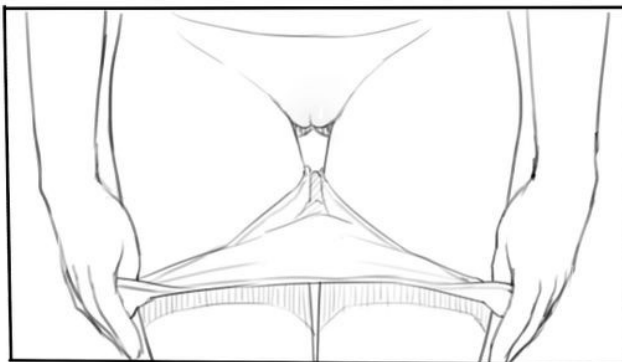

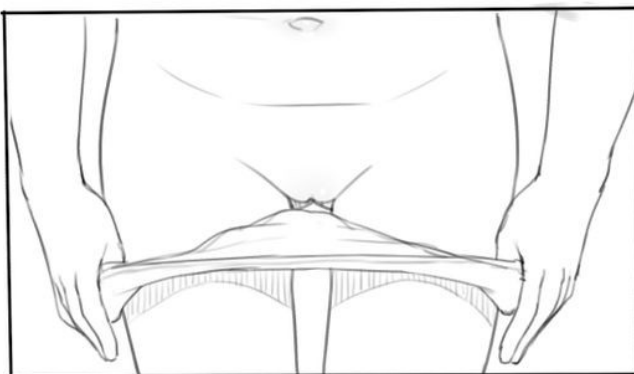

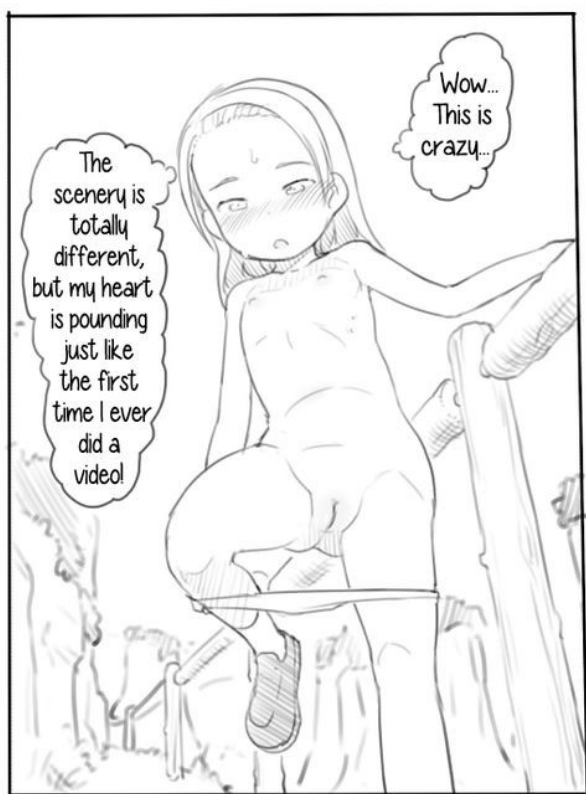

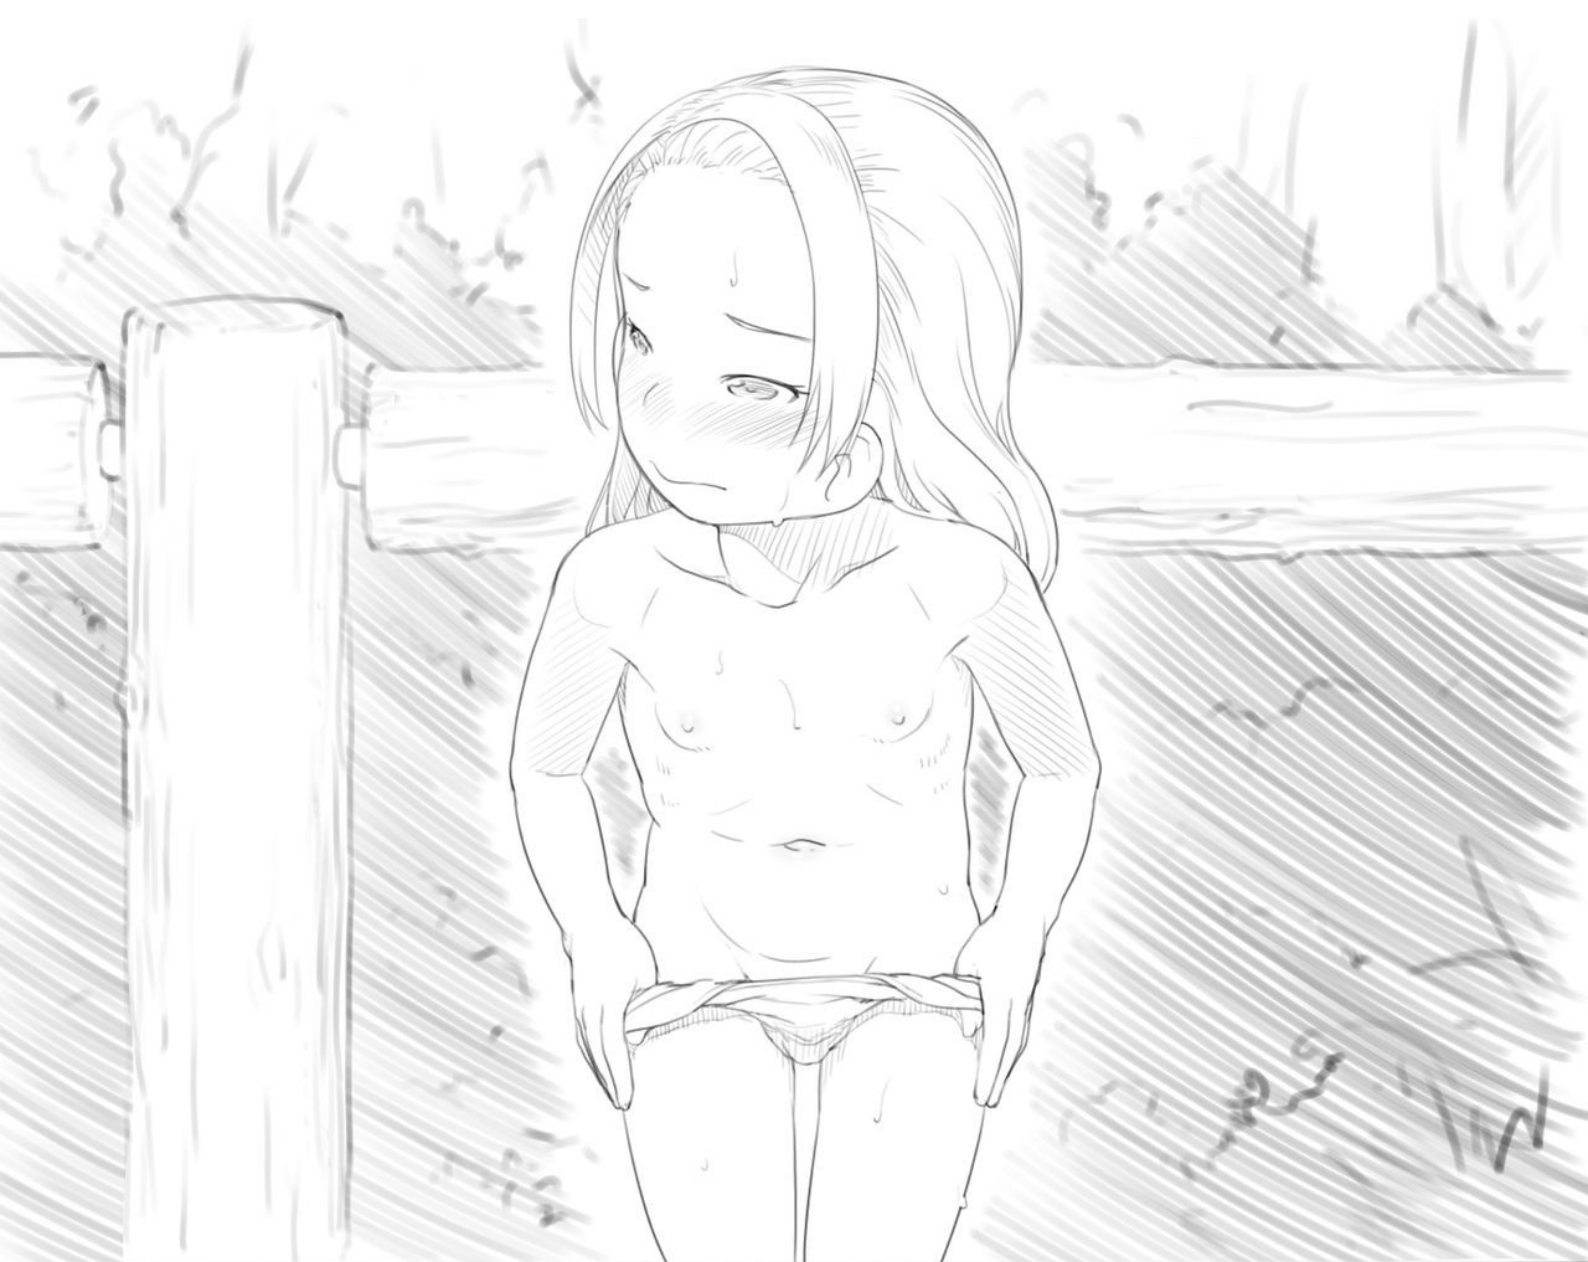

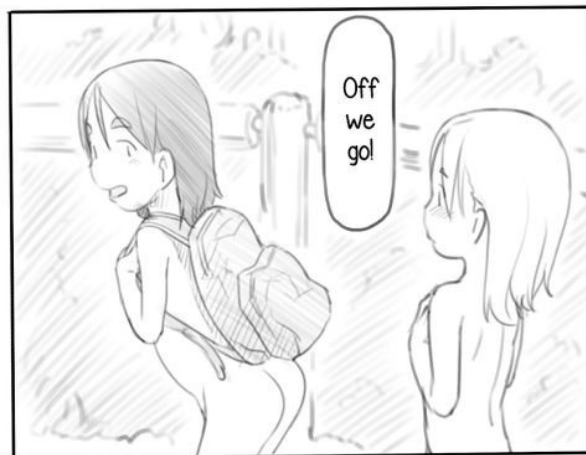

You can do it, Alicia!

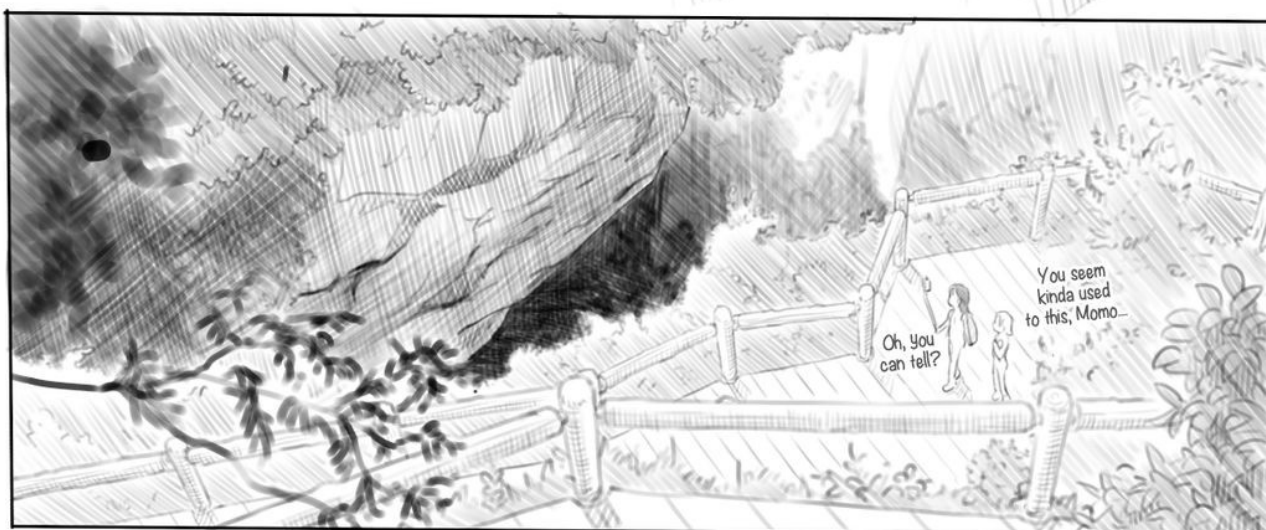

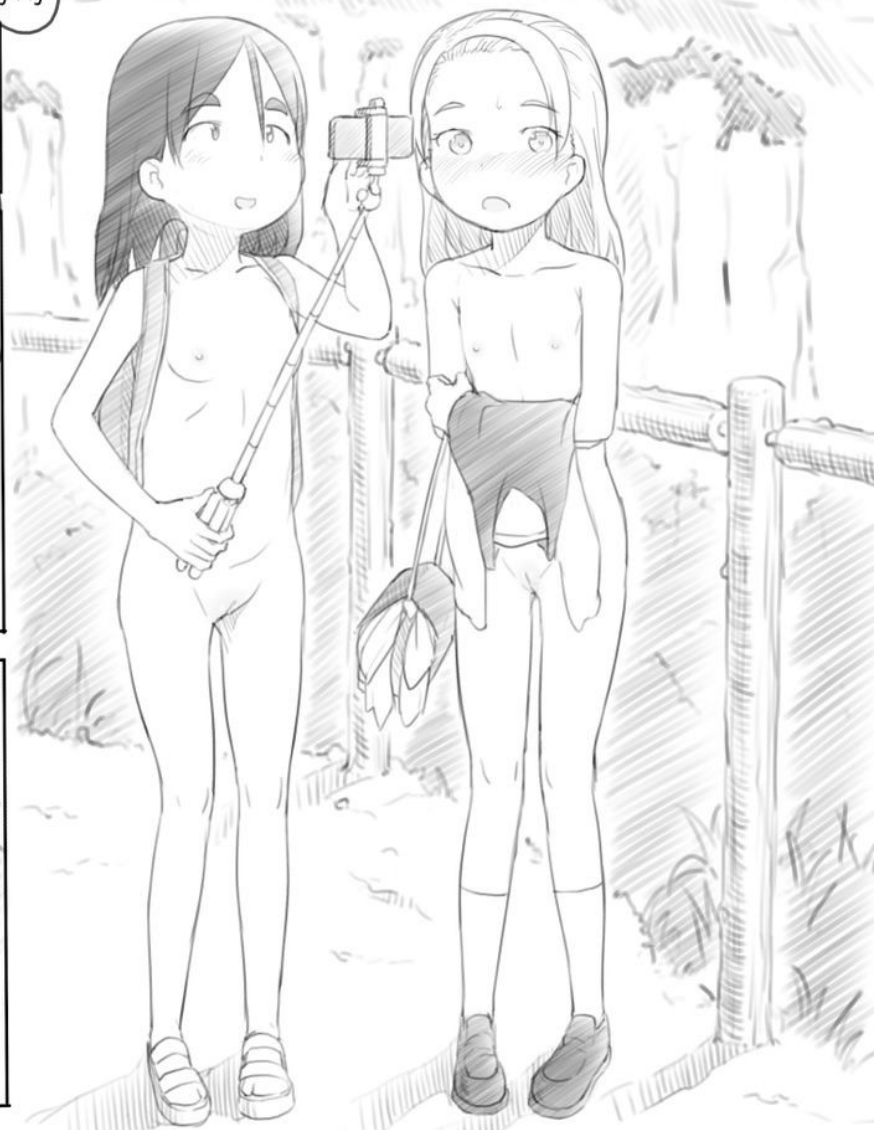

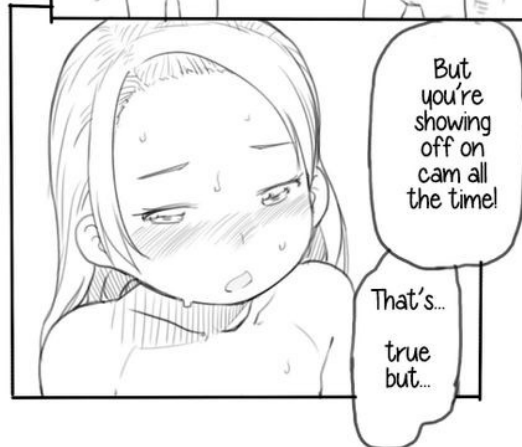

Where are we going?

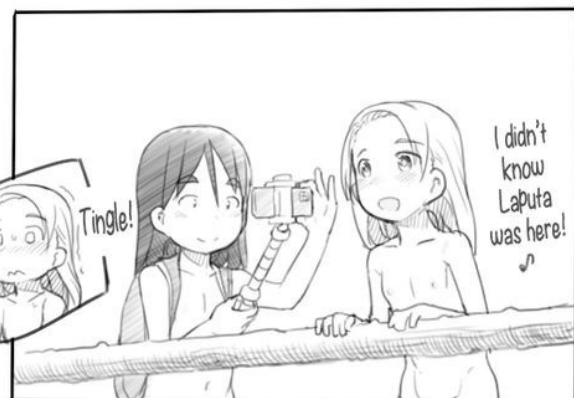

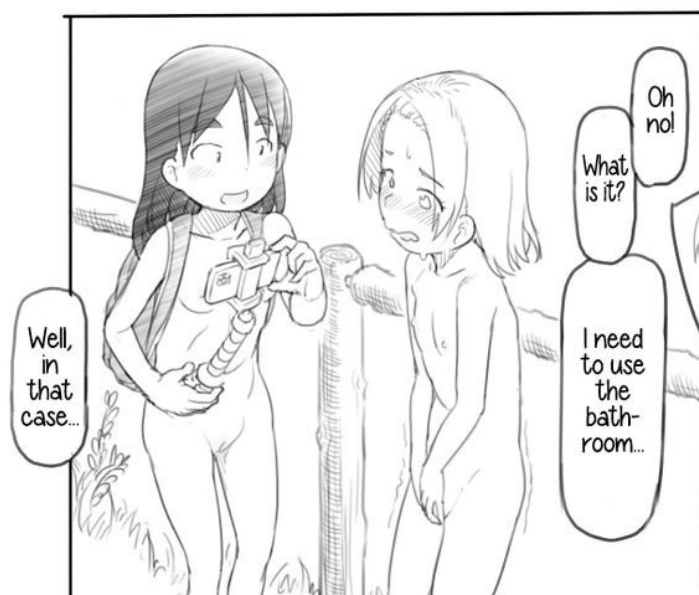

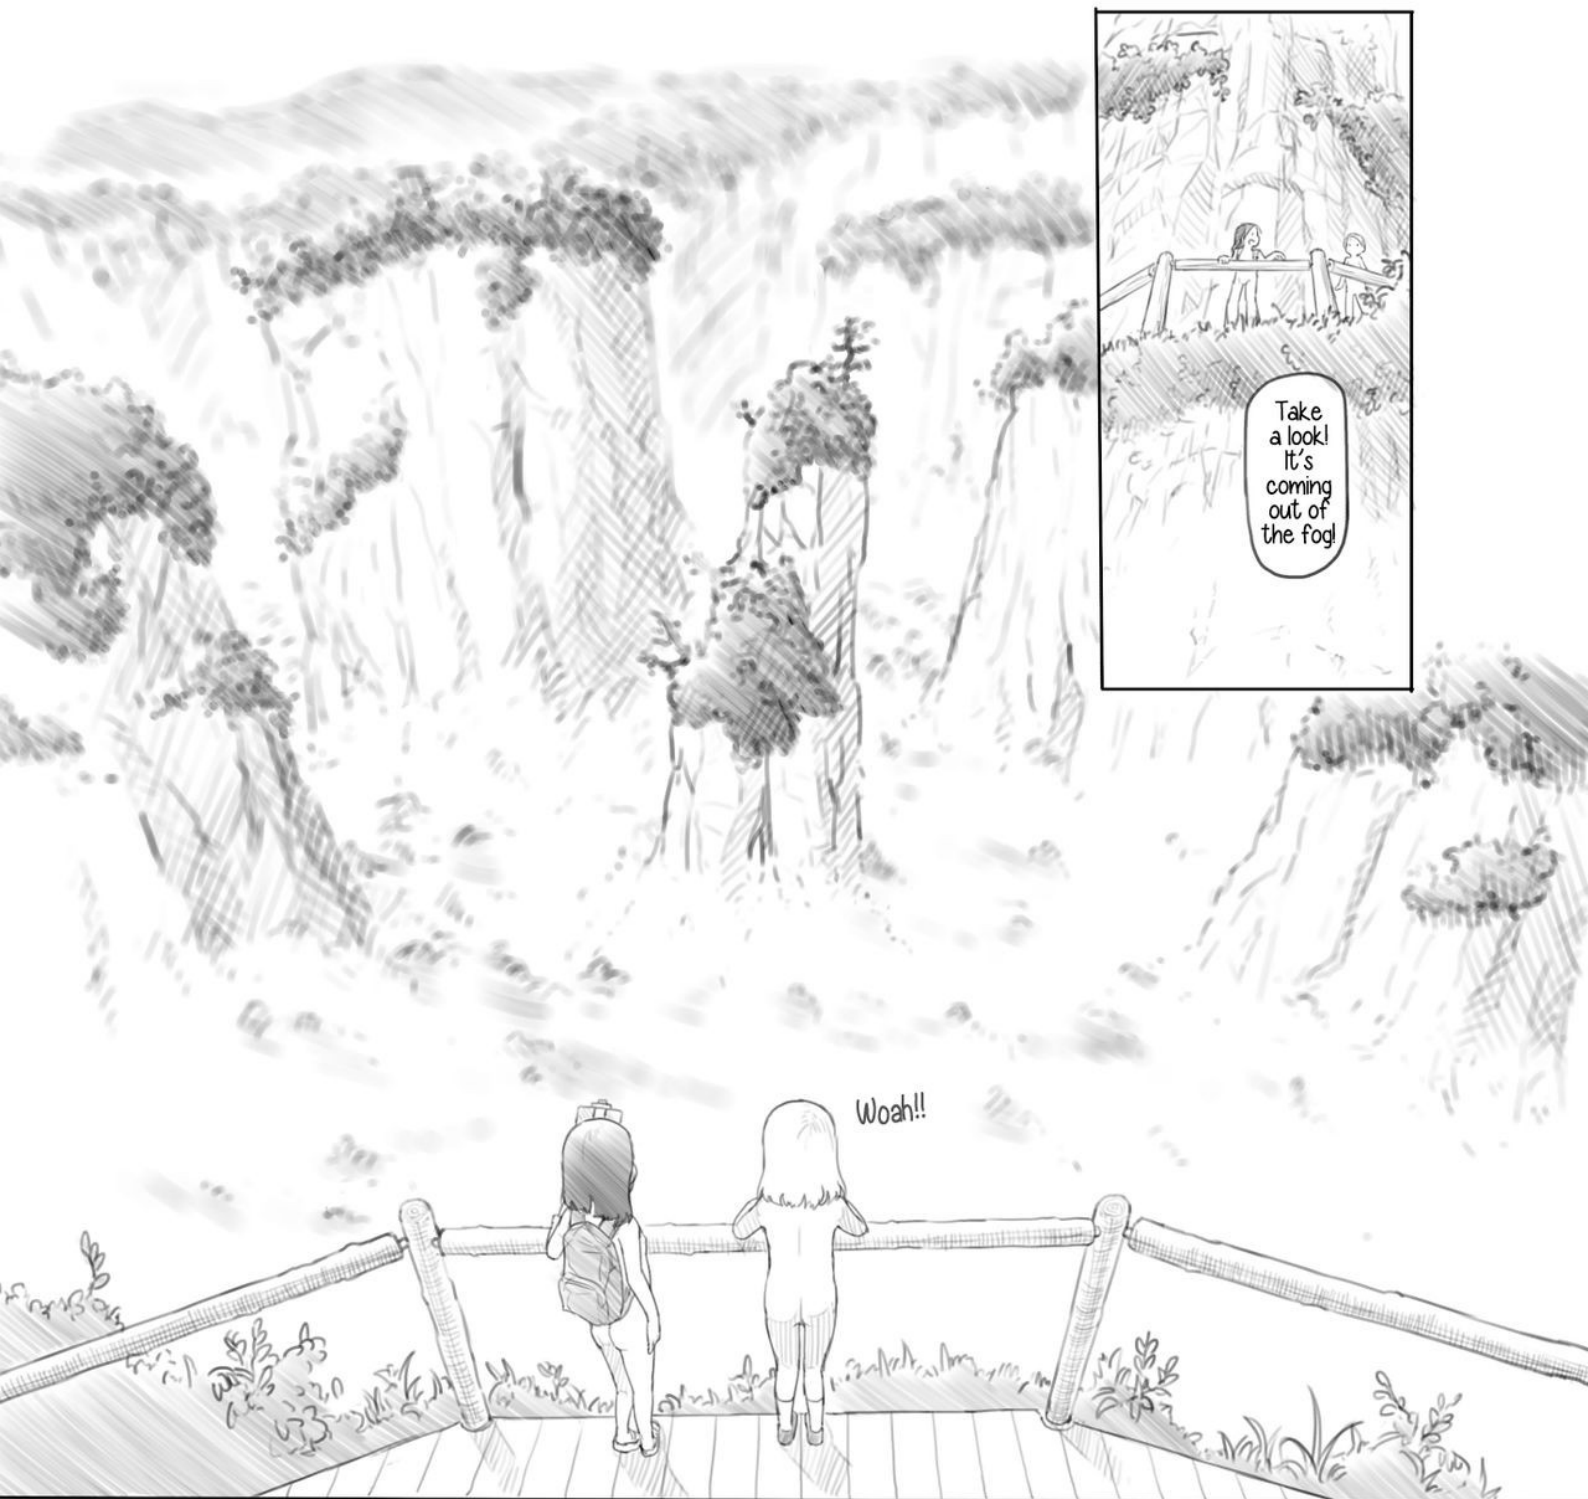

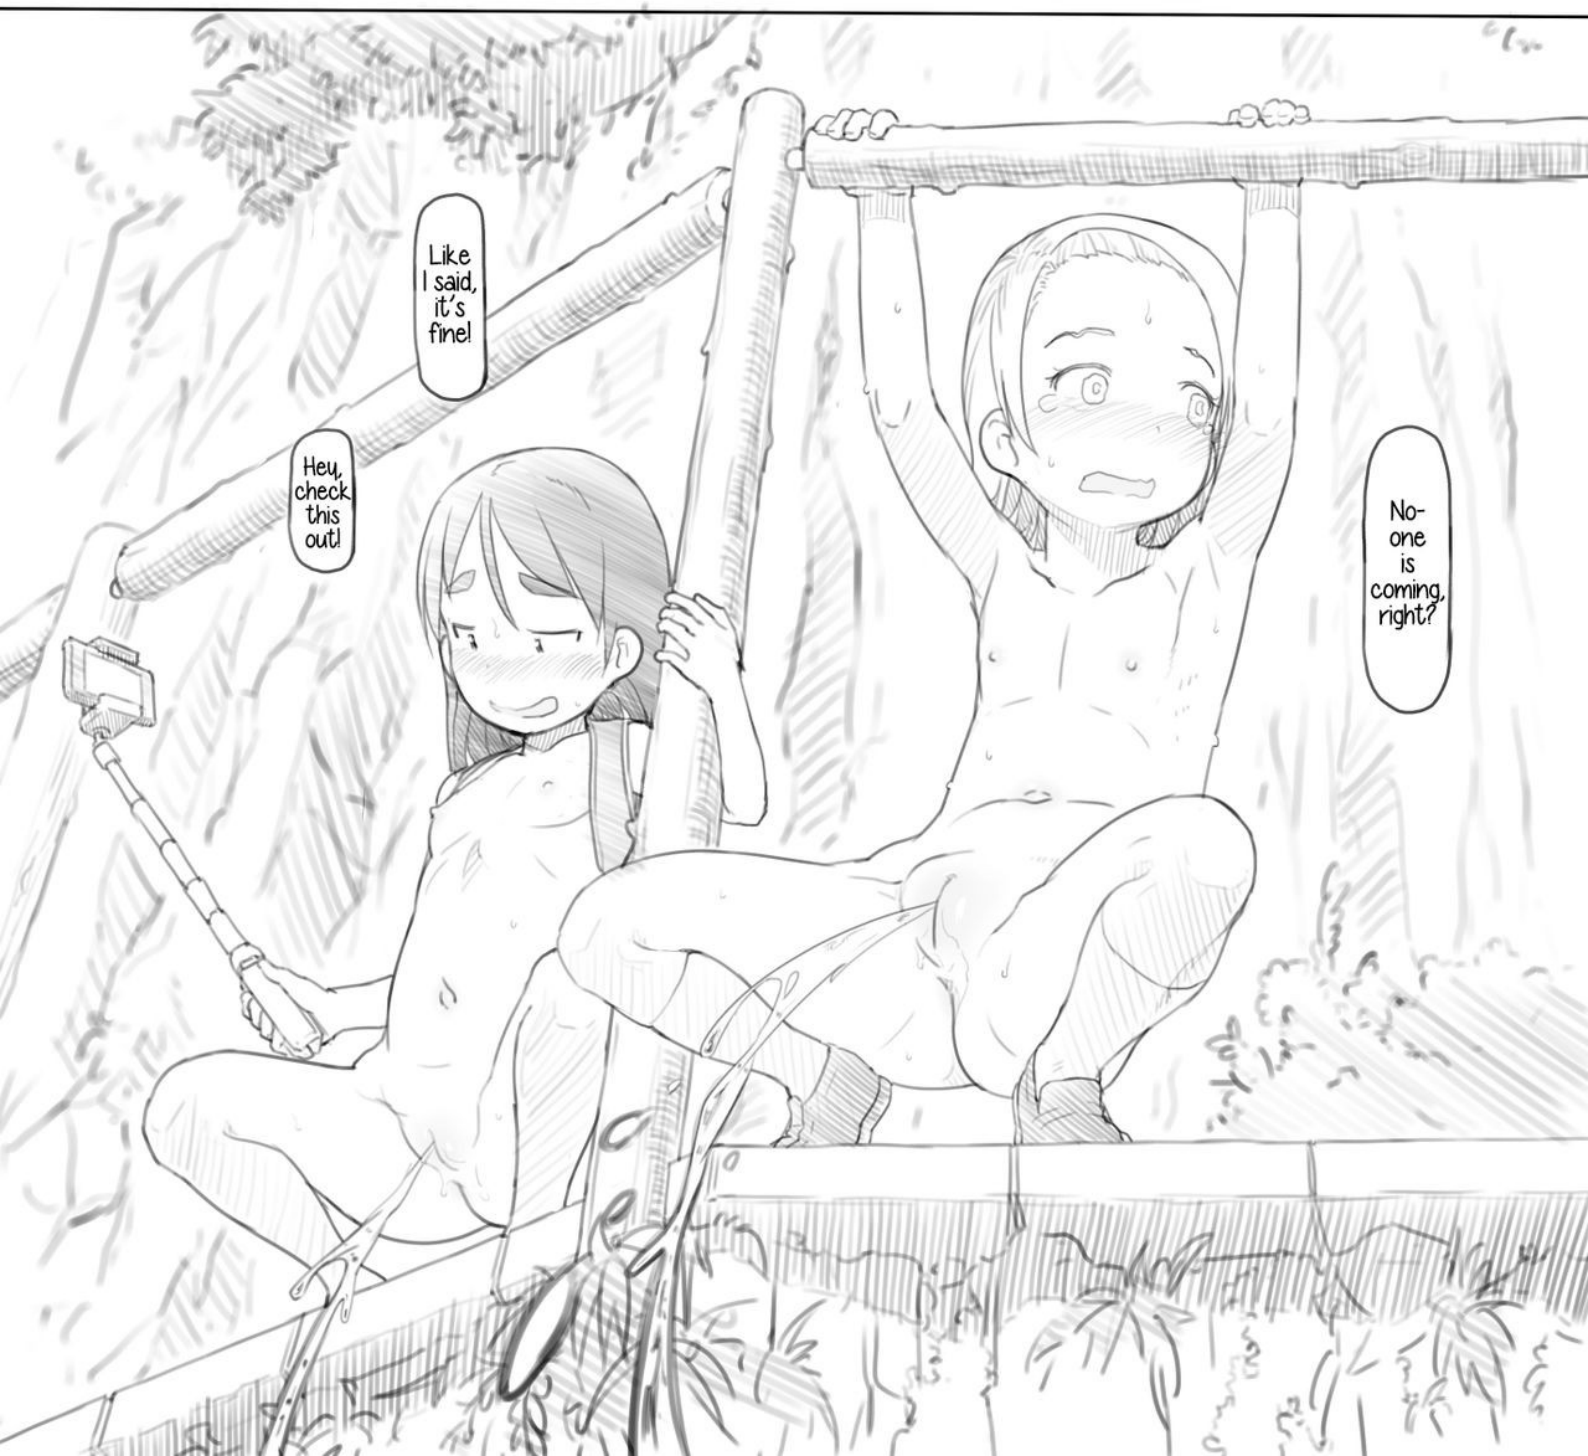

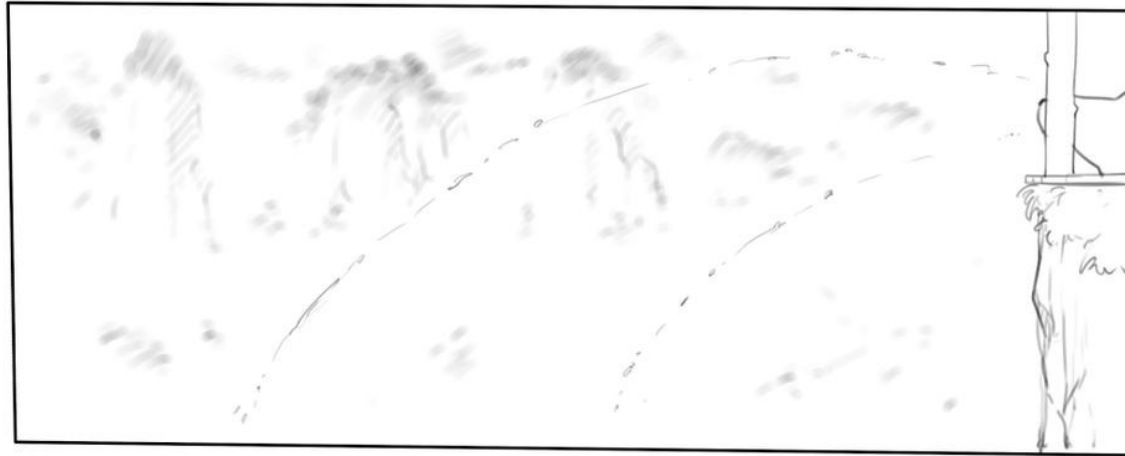

No, I'm ok.

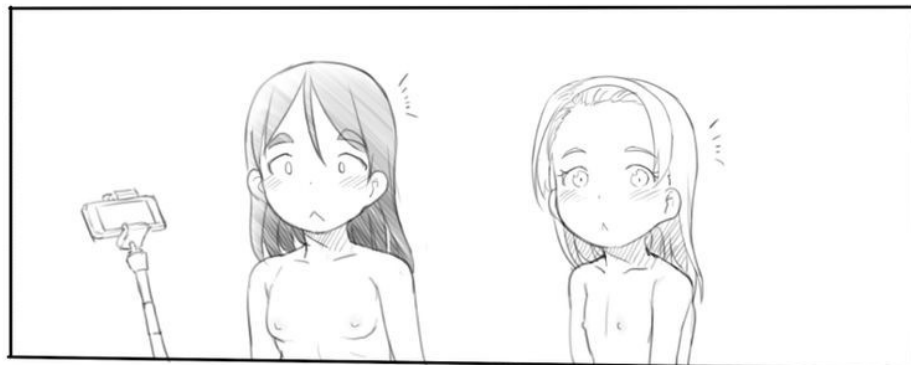

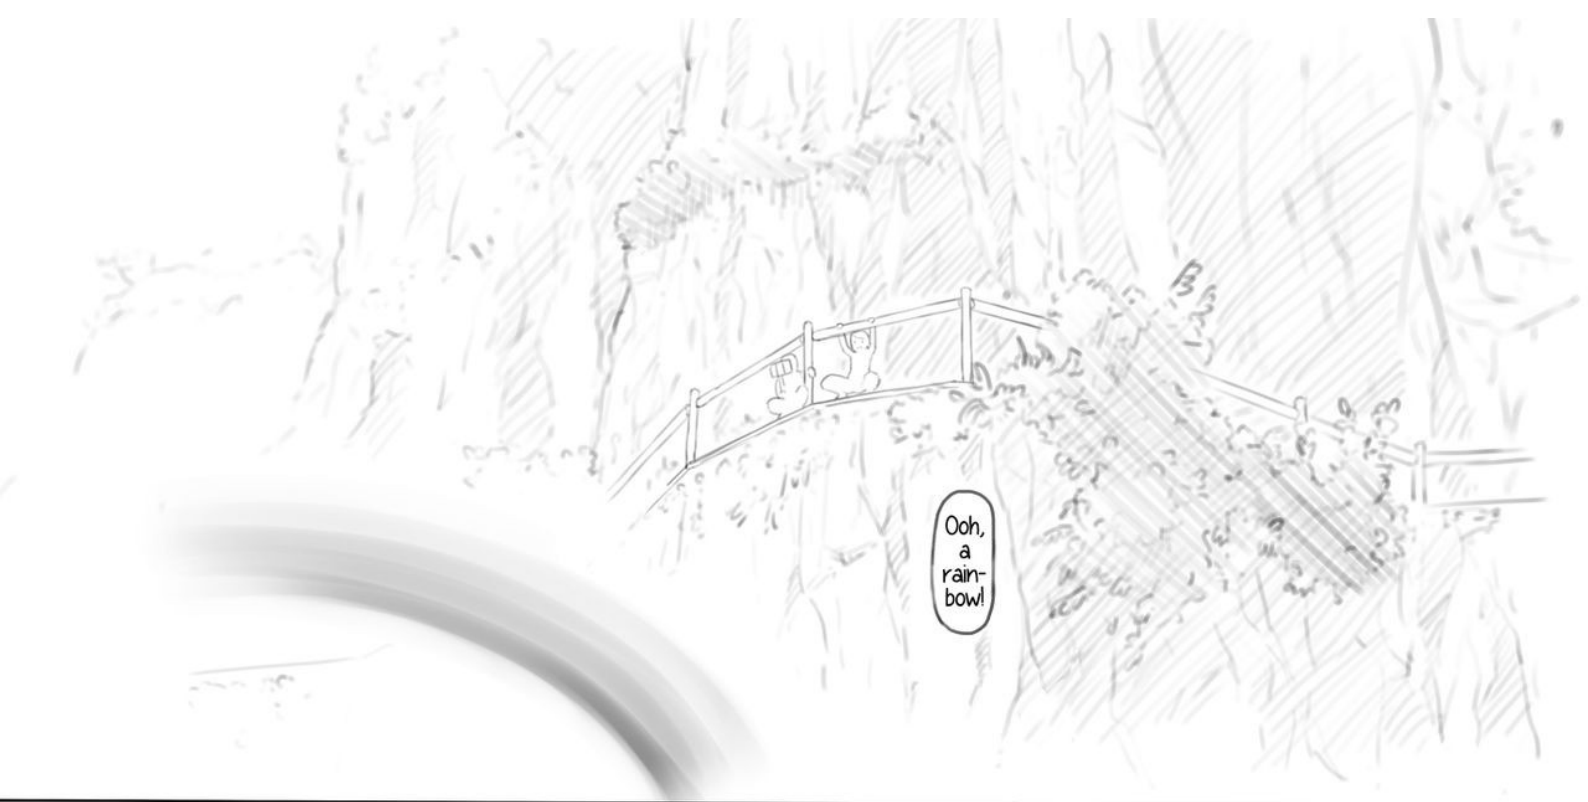

Are you cold?

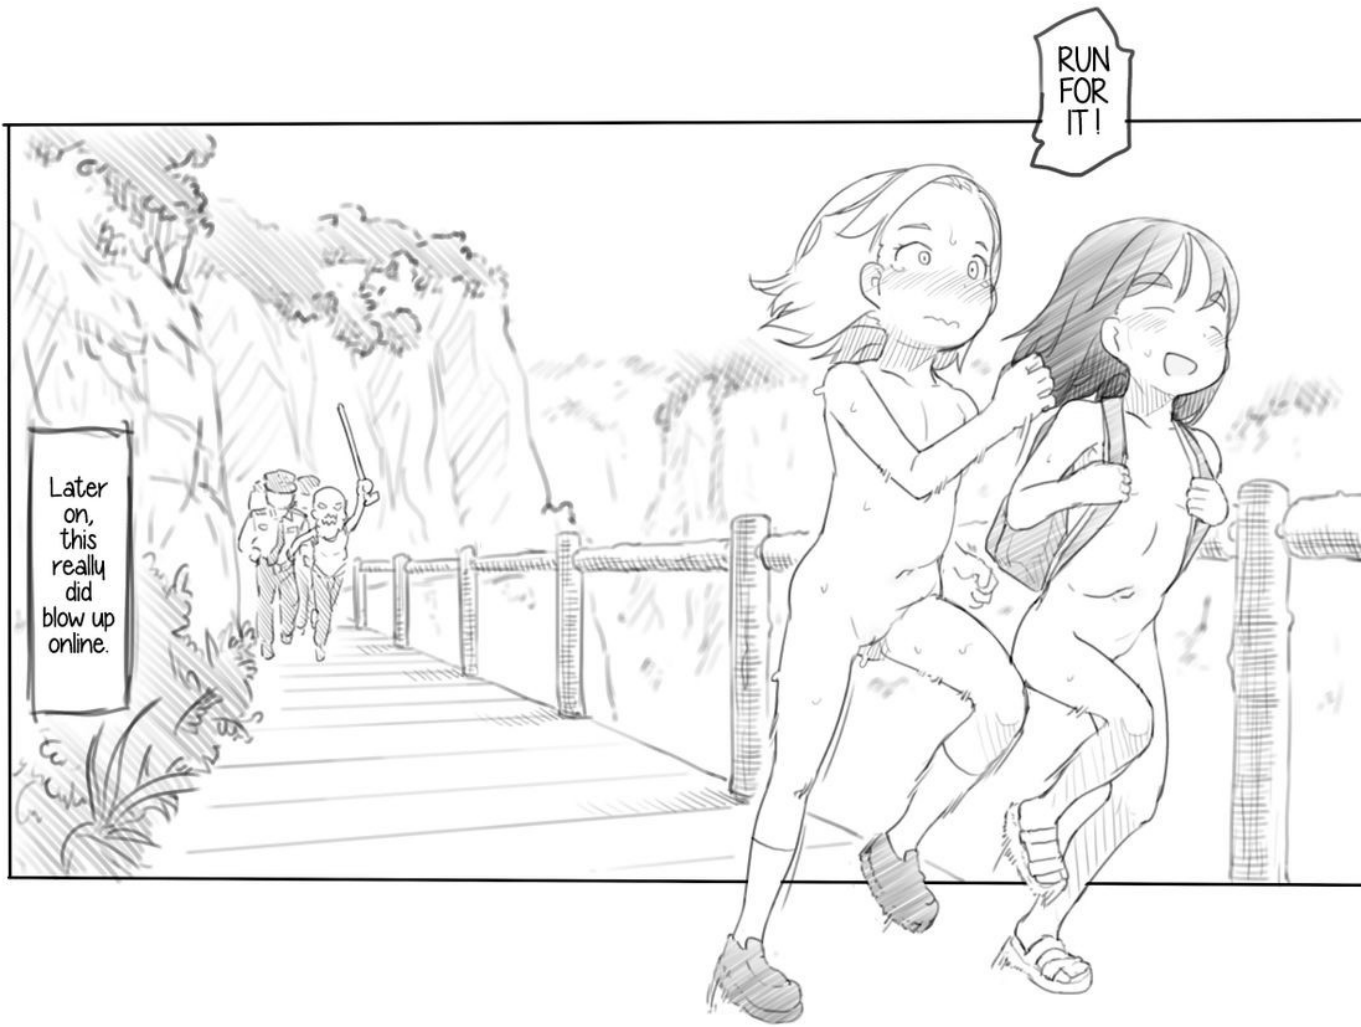

Tao (11)
Small eyes
Prominent forehead

Plain sort of girl,
but she goes streaking
quite a lot.
Super-perversed
middle-schooler

Alice (11)
Never streaked
in public before

Tao is pretty much the same height as Alicia
(shows their relationship is also on equal terms)

Recently, there are times I've started warming up to the idea that
small eyes are actually pretty cute too.

The length is about ...8 inches, maybe?

When I tried to get it all in my mouth, it felt like I was gonna puke...

So I guess deepthroat is still a bit much for me!

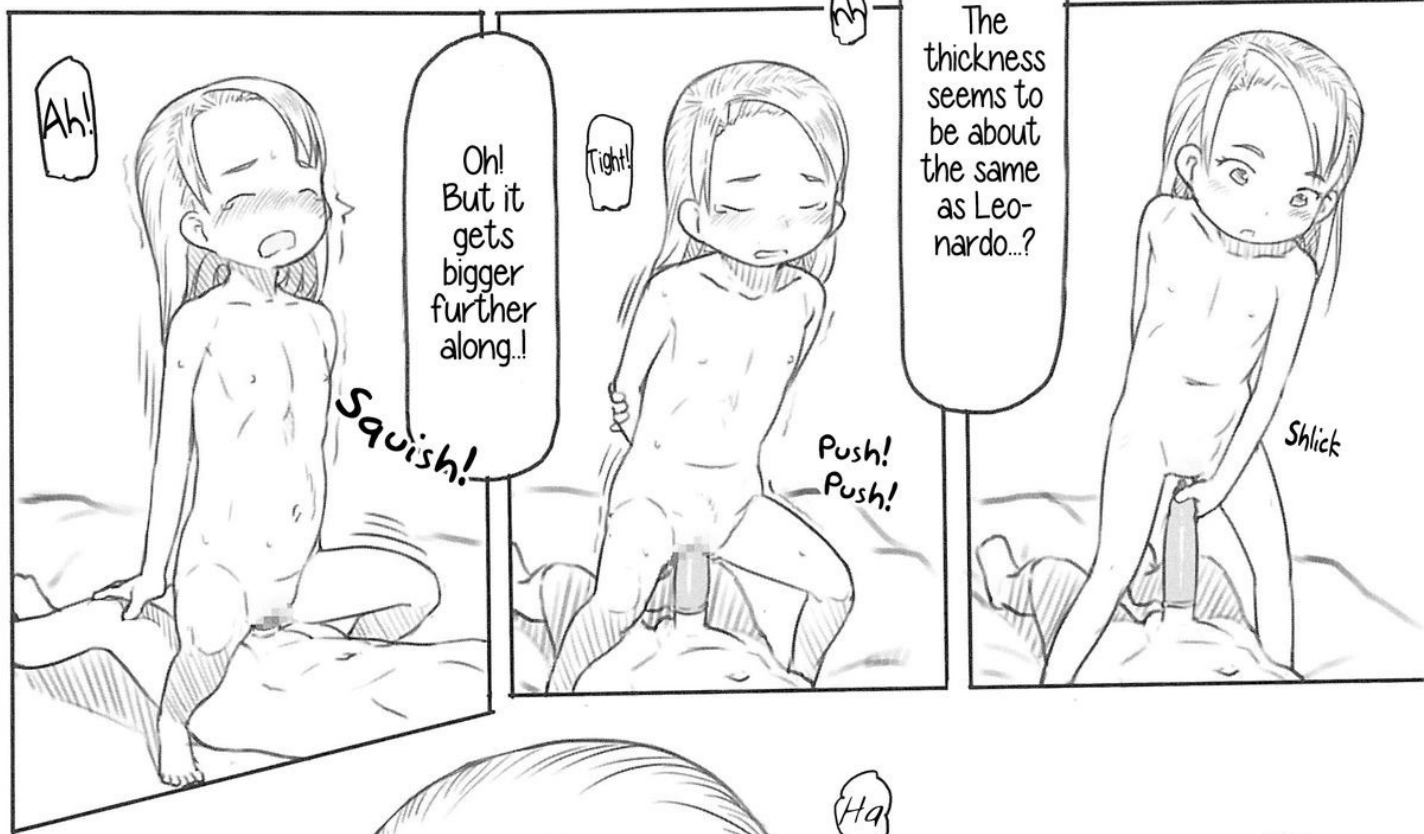

They look full-up and ready to burst, not even a wrinkle!

Seems like he must have been holding back from masturbating, all for today!

Well, let's try using it, shall we?

And here are the balls!

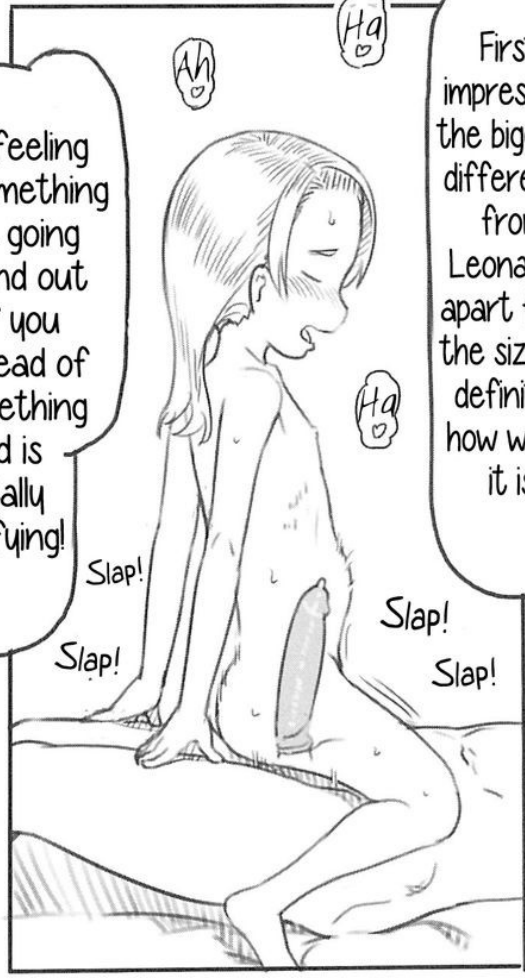

Sooo warm inside!

The feeling of something hot going in and out of you instead of something cold is totally satisfying!

Ah

First impression, the biggest difference from Leonardo, apart from the size, is definitely how warm it is!

Since I'm doing the moving, it's not much different from using Leonardo...

...you keep watching my channel, 'kay?

Just make sure...

Afterword

The book this time is a compilation of the previous two photocopy books I drew for smaller events, plus one new volume.

I don't suppose there are actually many people who would find themselves in a bind because there weren't many copies printed of the first two volumes... but well, I've released those volumes freely online anyway.

Alicia has turned into a real favourite character, so I feel like I want to put out some more books with her.

I've got loads of ideas left, after all!
