AH... THIS IS MY INSTRUCTION MANUAL

NIGHTTIME CARE

MR-X02, 03 TYPE is a female-type android with extremely advanced artificial genitalia. She is equipped with advanced human-like features. She is equipped or even better than the real thing. She can regulate the amount of lubrication needed for smooth insertion during vaginal sex and her genitalia has advanced features allowing it to tighten around you comfortably to provide exquisite pleasure. Also, the entire body of the [Maidroid] can react in real-time with behavior identical to a human being. Previous dolls (formerly known as Dutchwives) were incapable of such reactions. Now you can get a true sense of reality that is incomparable to anything other than a real woman. In particular, her moaning and panting voice is easily mistaken for that of a real human female. It is understandable if you get confused. Furthermore, she not only performs hand and vaginal sex, but now she supports mouth fellatio and anal sex. Please tell your [Maidroid] what type of play you want.

SO SHE MUST
EXIST TO
