

Instead, this year I cleaned the house, gave her a present and made her a nice dinner.

I WANTED TO WEAR IT

And I even bought a new skirt!

Mother's day.

Usually, me and mom go on a date or a trip. But this year, it was impossible...

Happy mother's day!

This year we couldn't go on a trip, so I want to spend the night talking...

Hey, darling? It's okay if I sleep in his room tonight?

We always get a little too excited, so you might want to use ear-plugs

ドキドキ

(Dad) I don't really mind but, don't stay up too late.

You can look now

I bought something else!

Somehow, we managed to be alone.

Turn around for a second!

After Dinner

"Always the momma's boy" said dad while I went to my room with mom.

We can still use this...

The skirt was a waste but...

Now it feels so nice

When I gave birth to you it hurt so much but...

Such a good boy ♡
