Maybe  
we can  
break  
her for  
one more  
round?

So this is how "Guro art" works in the story!  
This is the unique art form even before the Golden Age!

Then they use chainsaw to rip Sofia-chan into pieces and sell the head and torso as Onahole...  
WOW!!!

DISGUSTING!  
But somehow...  
Very exciting!  
I wonder how far this art form can develop in this age!

I'm SORRY!

But how dare you draw lord Jamila so evil?

I am okay with anything that happens to me.  
I actually don't care ...

And why not drawing me having sex with commander?

DELETE IT

NOO OO~~
