Hello, nice to meet you. It's Kannazuki Motofumi from 2 hours before the deadline. The cover is a bit simple and not going to be in color, but somehow I'm going to finish in time.

Is it meant to be erotic or funny? I'm not even sure myself at this point, but I put my love into it so I hope you enjoy.

Translator here: The title "Otona No Hologra" uses ホロ< which is a tag used for Hololive content on Twitter, and is short for "Holo no Graffiti" which was the name of the episodic videos released by the main channel periodically. I decided to use "Holovid" for the title but ホロ< does in fact cover more media forms than just videos.

P.S. Get well soon Miko!
