Tiny titties! (Hey, everyone.)

After what happened with my *Re:Zero* Rem doujin from last time, I'm trying again with a new original loli book. My apologies... I hope the book is alright, since I had to juggle it with all of my regular affairs.

The main character's full name is Ayaka Misaki. I planned on using her for a character in a CG set, and then releasing this manga as an alternate story afterword... but I ended up making this first instead.

The CG set will be out in another year, so another year of no fun for me... *SNIFFLES*

So, for next time... I'll probably draw another original loli book, I think. I guess if an anime comes out that makes me want to draw a book with those characters or something, I'll do that instead. Yeah, an original loli book is going to be super tough to actually do! Just the character design is...!

Well, sorry for how short this was! See you next time!
