

APRIL 2010

After we graduated

I became a public career student

During the day I was at the Jettish...

After looking at the afternoon

I kept thinking at night in my room

Someone stopped by a few times to call me

She gave me encouragement and support

So we went to their home together

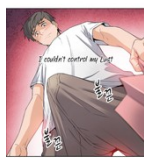

But I wanted more...

But she refused

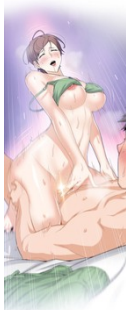

She said I had to be focused on my studies

But she supports...

I couldn't control my heart

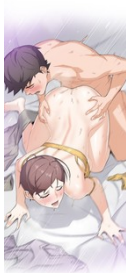

I wanted her more and more

At the time and in every moment

I had sexual relations with her

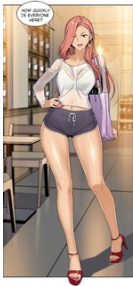

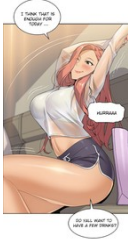

His behavior is really very stupid

Just that day

We stopped studying

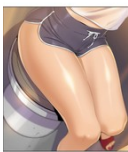

And we were

we were celebrating

having some drinks

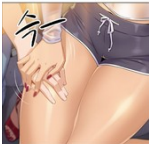

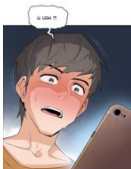

The atmosphere was heating up

After that day

I focused on studying during the day

and during the night...

We had sex every day

Almost always at her place

and sometimes at a hotel

and there were even times...

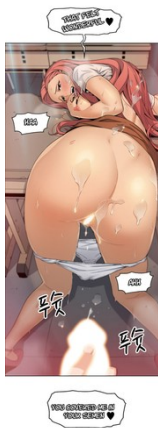

when we did it in the hallway of the building we lived in

We over...

Did it in a classroom

I often tested Jungheon

but little by little I stopped doing so

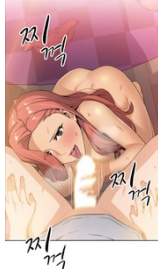

It's not that I don't like Jungheon

It's just that I was "focusing on my studies"

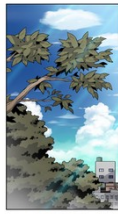

For me.

I needed pleasure

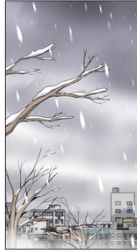

I slowly

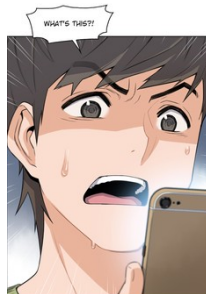

Drifted away

UNTIL I WAS NO LONGER CLOSE TO HER

And after a few months

NO WAY!!!
