Assemble!

Move,
move.

Everyone is working
hard.

Not...not at all!

Commander of
Imperial Dragon Knights
Drakosm
Talent :SS
LV 75

It has been a while since
you joined the Dragon
Knight Order, and you
must have understood our
standard of physical
and endurance.

Our Order is the most
valuable department that
has the highest physical
fitness in the imperial court,
so we don't hope that
anyone slacks off after the
training.

Recently, low-level monsters
around the patrol appear increasingly.
Next week, we shall go to the dense
forest in the north of the city
and help the newcomers clean up
the low-level spider-form monsters.
I hope everyone can take the lead in
front of other departments.

Imperial Court,
Satellite City of Human Alliance
in South Continent

For slaying monsters and expanding the realm of human existence, the "Imperial Court" has existed for thousands of years as a united human empire.

Yes, sir!

For thousands of years, humans and monsters have shared the ancient energy which bred within the continent, and have always competed for survival space.

After multiply crusades against monsters by the army of many generations, the human has reached the top of the chain with a highly developed civilization. Yet, the explored places are less than one percent of the planet.

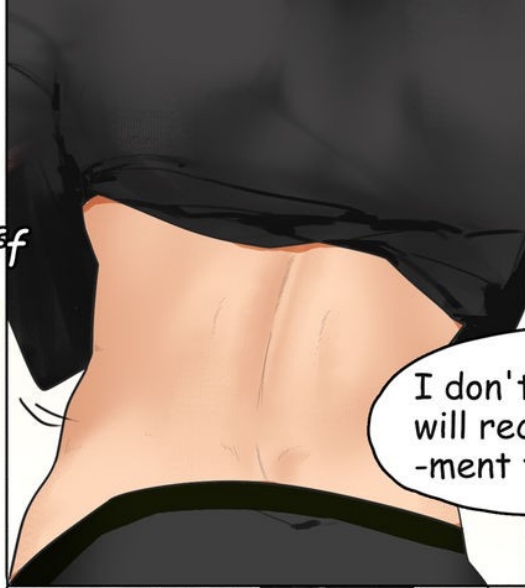

The Dragon knights Order, one of the human elite corps, undoubtedly, has the responsibility to expand the field of human.

However, Drakosm, leader of the Order, seems to have been troubled by something for a long time.

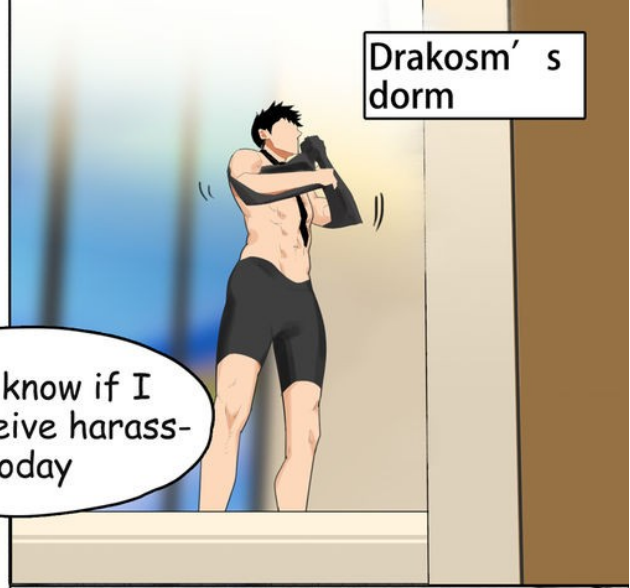

Put off

put off

I don't know if I will receive harassment today

Drakosm's dorm

It lasts more than a month

In my mailbox, I receive candid photograph every day, of different parts of my body.

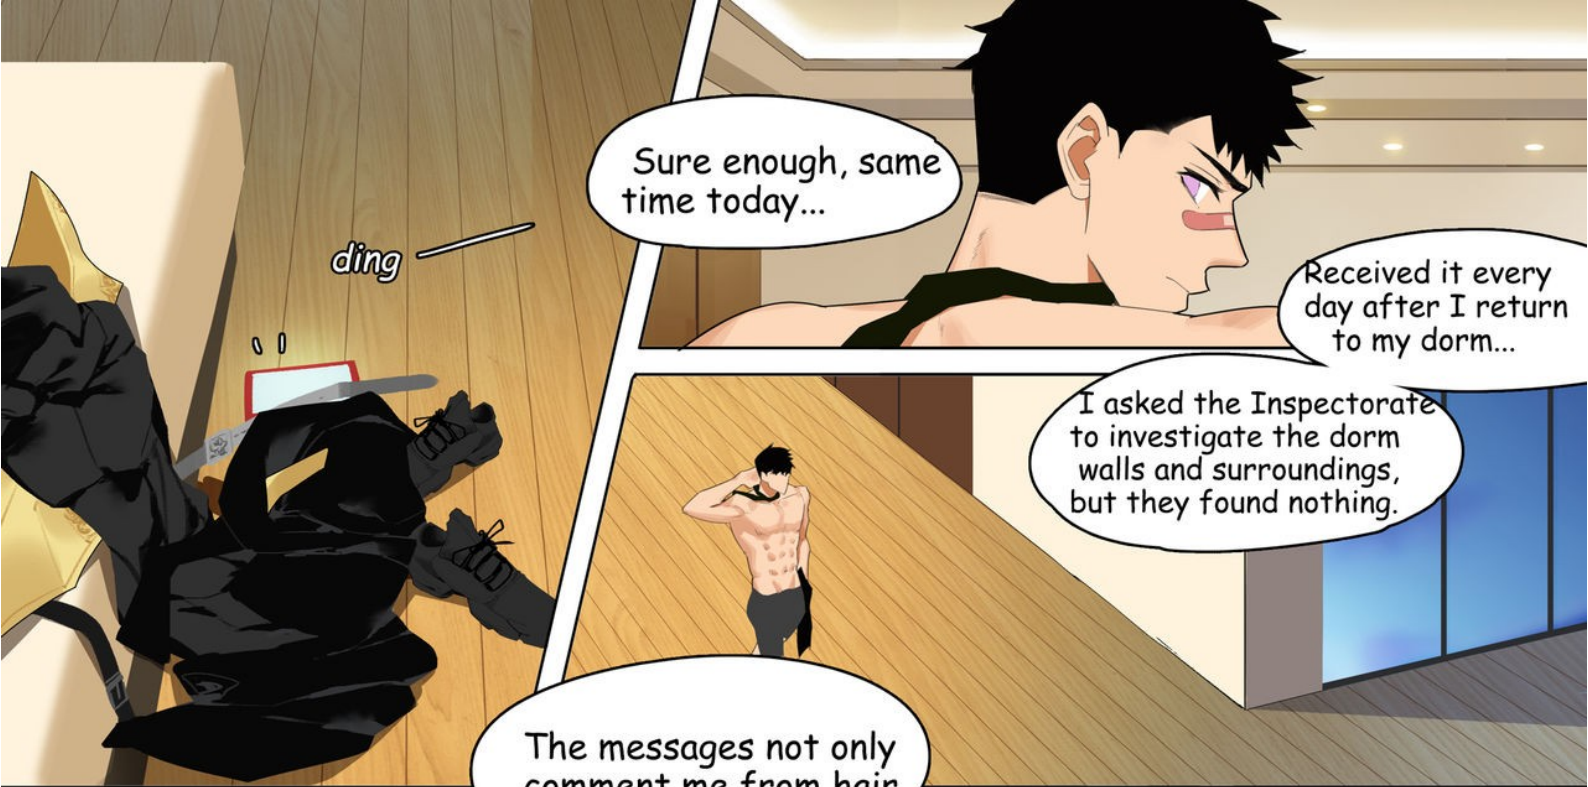

Moreover, it also attaches obscene and perverted information.

Humph

Shit

No clue can be found after a whole month. Who dares to harass me so grandly?

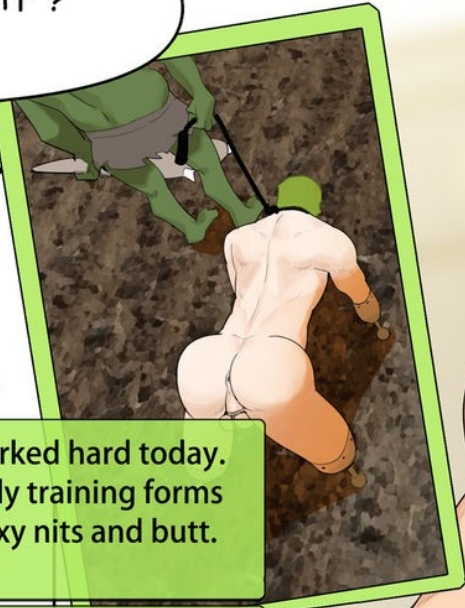

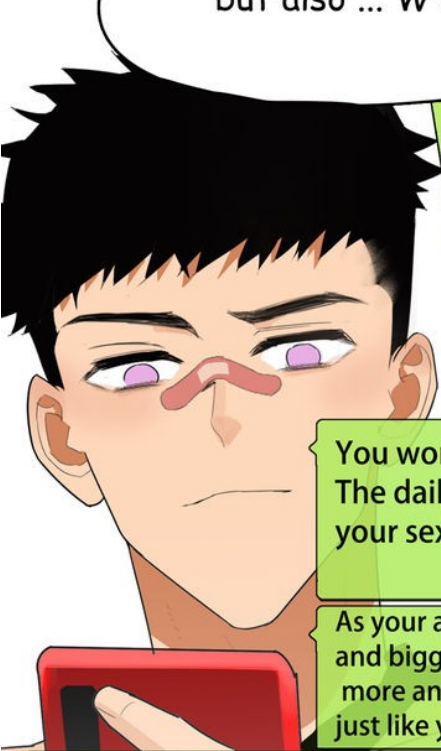

Sure enough, same time today...

Received it every day after I return to my dorm...

I asked the Inspectorate to investigate the dorm walls and surroundings, but they found nothing.

The messages not only comment me from hair to toes,

but also ... WTF ?

You worked hard today. The daily training forms your sexy nits and butt.

As your ass getting bigger and bigger, boys become more and more lascivious, just like you.

So pity. Such a good shape receives no admiration. A royal fighter like you, die in battles in the end.

I can feel the desire deep in your heart, you should face yourself

Inheriting your great genes, instead of dying in the war. It is the true destiny of your body. Oh, by the way--

-I recently saw a new guy arrive in Green Devil tribe in the northern valley

It's much happier than dying in the fight, don't you agree?

Fuck ... Somehow ... I had exciting response to this hentai suggestion from the beginning..

Because ... my sex desire has
always been ... pervert

I often steal the sneakers
and socks of my younger
brother Silvdawn who heals me..

As the leader of the Imperial
Dragon Knights Order, I must
abide by all integrity in the
outside world, but ...

The respect and praise
surround me every day.
As the result, the more I
face myself, the more I
get excited by those pervert
behavior in the secret.

the anonymous ... is Green
Devil ...? covet my body ...
inherit my genes ...

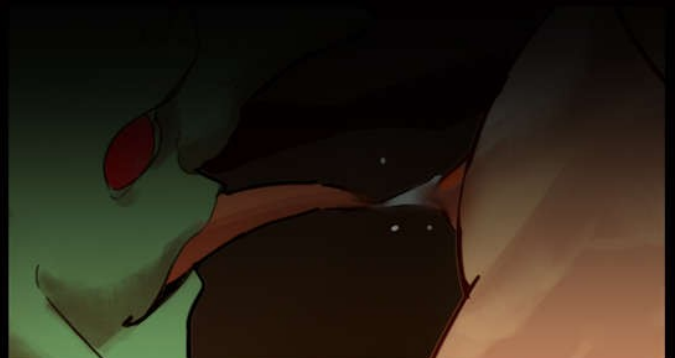

But I can easily defeat
a dozen of those
creatures like Green Devil

Although the pictures
look exciting, they don't
seem to be intelligent?

raped by a low-level monster ...
I don't know why there is
pleasure of being assaulted...

Actually ... I've been
dreaming like this
recently...

Especially last night...
the scene in the dream
seems to be so real ...
what happened to me ...
itchy...

*Drakosm's dream

It's itching ...
itching,

no ...
don't...

Deep inside the decaying
corridor of the
south continent

This place is so disgusting,
such uncivilized creatures

I'm here,
where are you?

welcome,
go forward

forward?

Where are...shit...what is this?

Dear Commander!

I...I am the emissary of the Mother. It was I who sent you those messages. 3 humanoid spider golem

*trembling

My lord ... my lord, listen to me please ... Now, the water pipe of the regiment is filled with spawns from the Mother! So please don't kill me ...!

What a disgusting thing you are! Low-level worm monster! I can kill you in one second, how dare you threaten me?

No, certainly not!

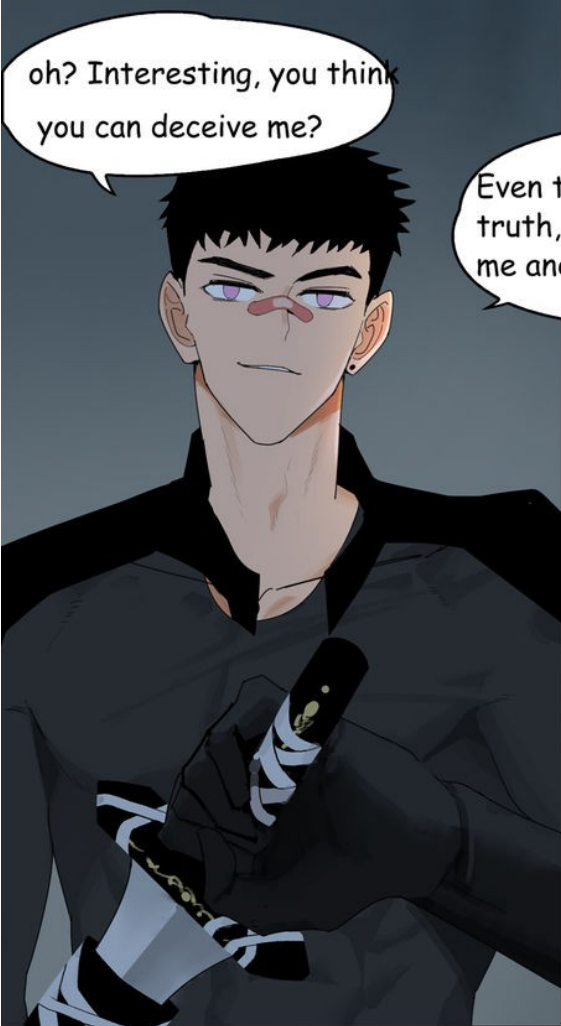

The mother is of good taste, you are tall and strong ... I dare not fight against you!

what?

Don't be foolish, I am not coming here and have sex with your "Mother" I am here purging monsters that harass me every day. It must be you, right?

Please, don't be mad. I was worried that you would destroy me with one punch, so I need to say something before after all, I am not able to control human temper

I know that your kind can be easily healed even if you accidentally drink the polluted water. So I ordered all of the spawns to invade one single pipeline. One cannot endure long enough until the doctor comes if hundreds of worms hatch simultaneously in his stomach, don't you agree?

oh? Interesting, you think you can deceive me?

Even though you are telling the truth, is that worthy to sacrifice me and save another?

Funny, I think you..

Please, my lord, our mother is dying!

? !

Mother has not eaten for a long time ... Hatching offspring needs too much energy ... please ... you just need to ejaculate a tiny little bit then you will save our species...

We will immediately evacuate all spawns in the pipe and leave this continent as soon as your aide finishes, does that work?

And ... And I am also aware that, Captain, you are here to pursue excitement? The best thing of the Worm is our reproductive system. The genital cavity of the Mother is much greater than your human females' ...!

Compact and lubricating all-round! Shrinking vacuum massage!

Please, my lord, take it like a spring dream for you!

Although it is a low-level monster, the Worm is indeed troublesome. Moreover, the drinking system can truly cause casualties...

...

It would be doable if it only requires a little semen to be used as nutrition. The biggest trouble of the Worm is their large population. It must be considered carefully.

damn...

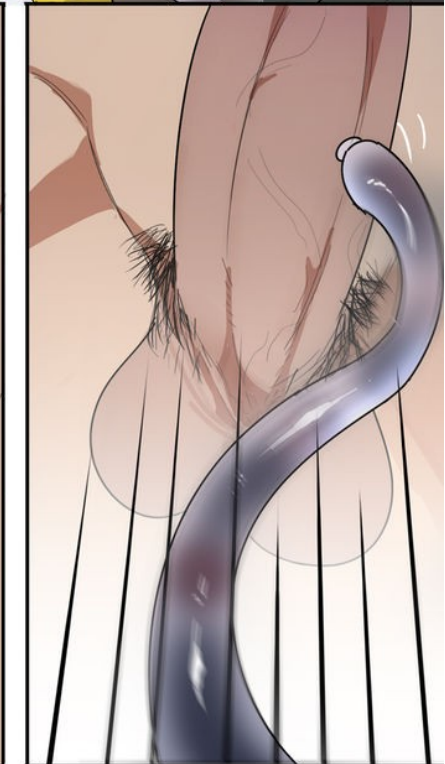

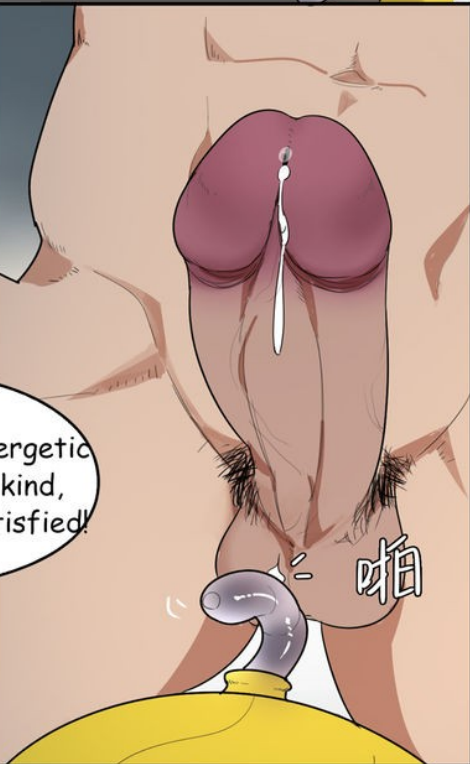

The way that low-level monsters evolve is really special ... seems that the creatures under level B are mostly ugly and strange ... Sooner or later, they will be eliminated by natural selection...

But this makes me excited...

My lord, no need to worry, it will not affect you in any way. There is a breeding worm in each genital cavity of the Mother. It would be our great honor if being fertilized by you .

Hey, it's a fresh and energetic dick, my lord you are so kind, the Mother must be satisfied!

???!

What...

what is this? Just let your
mother jerk me off, why does
it... drill into my urethra?

Uhm ... Fuck ..

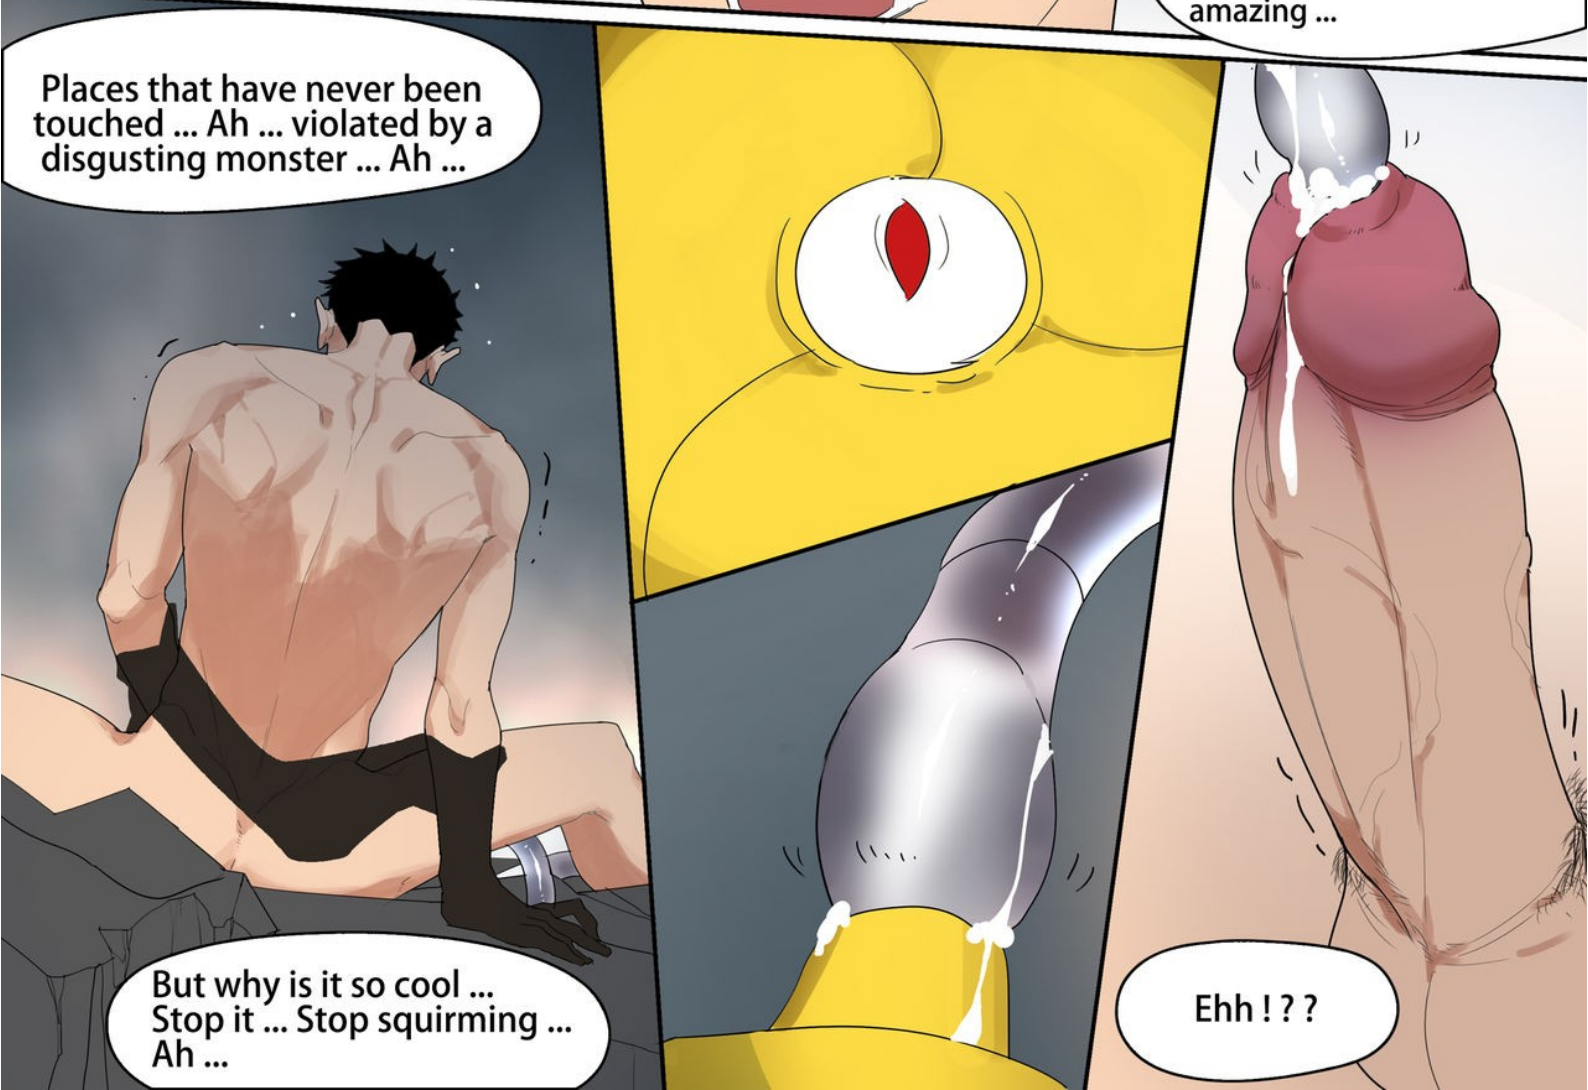

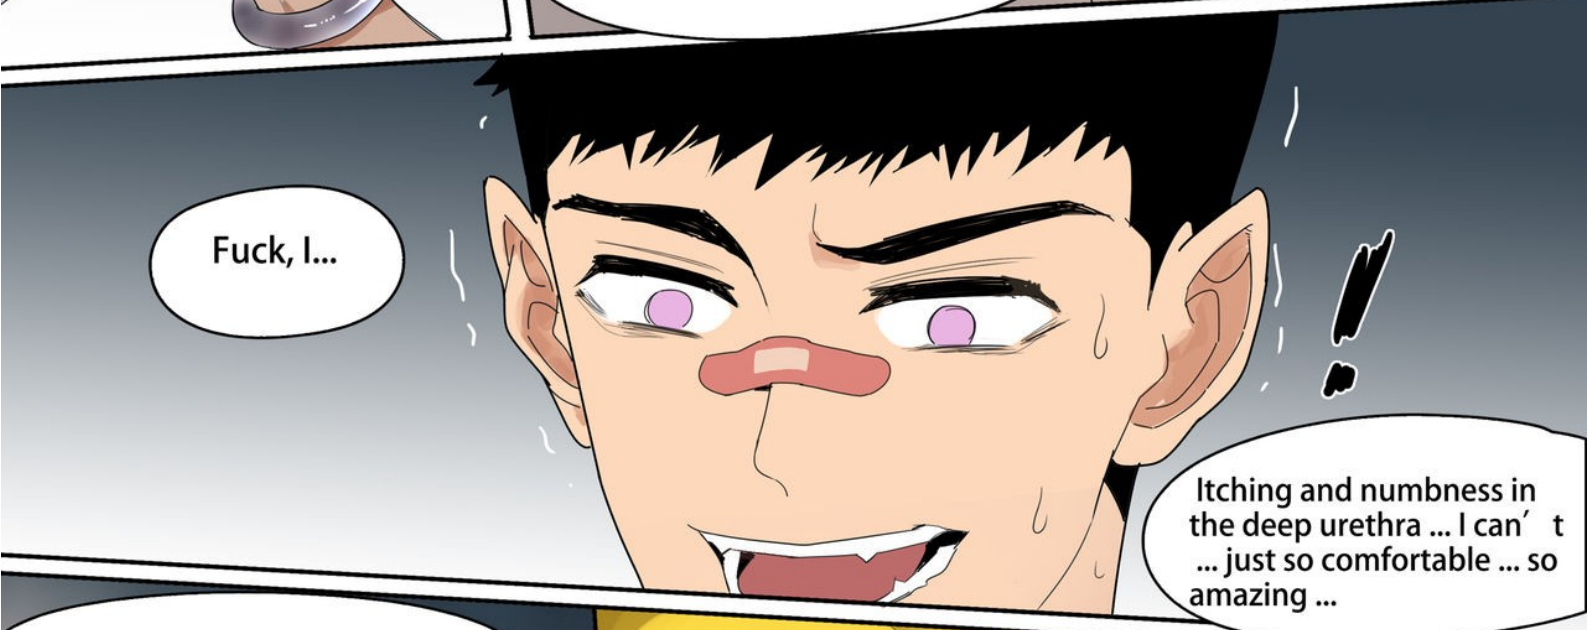

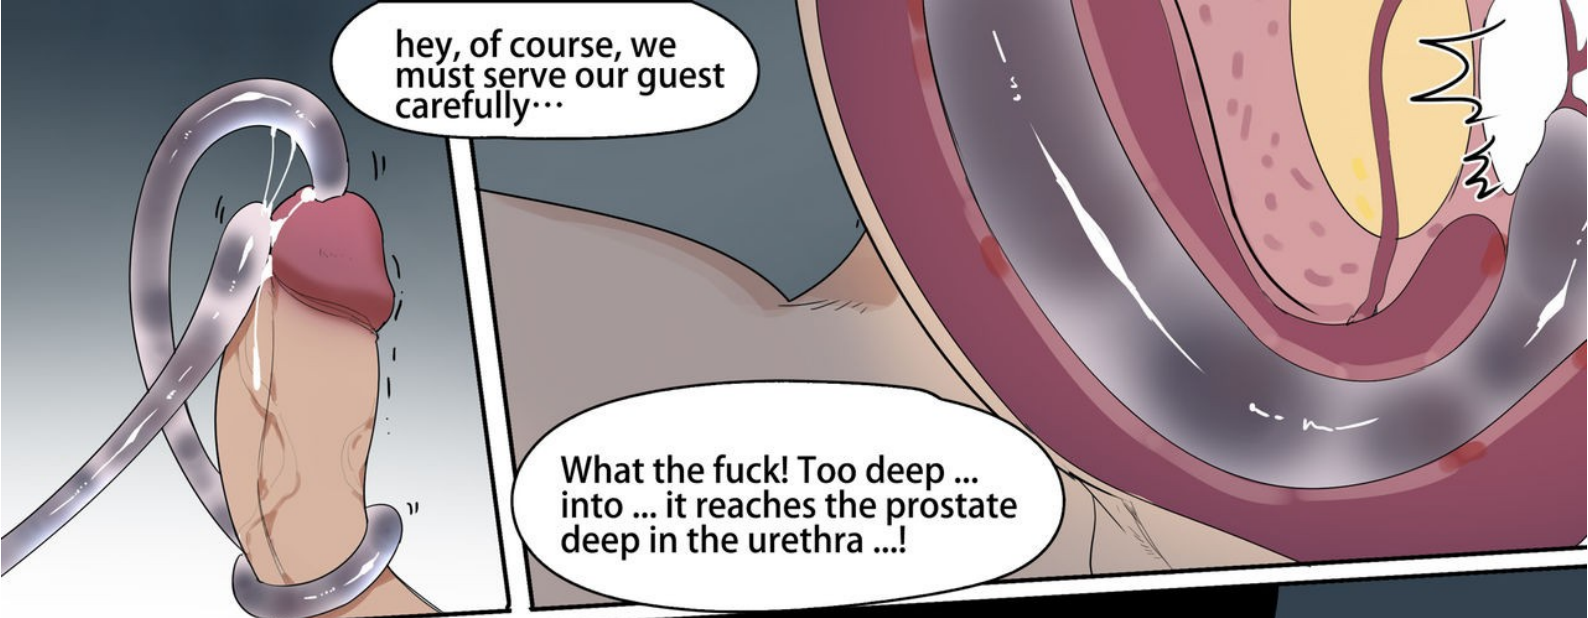

Ah, it must get inside to drink all of the semen so that it will not be wasted if you shoot it on the ground.

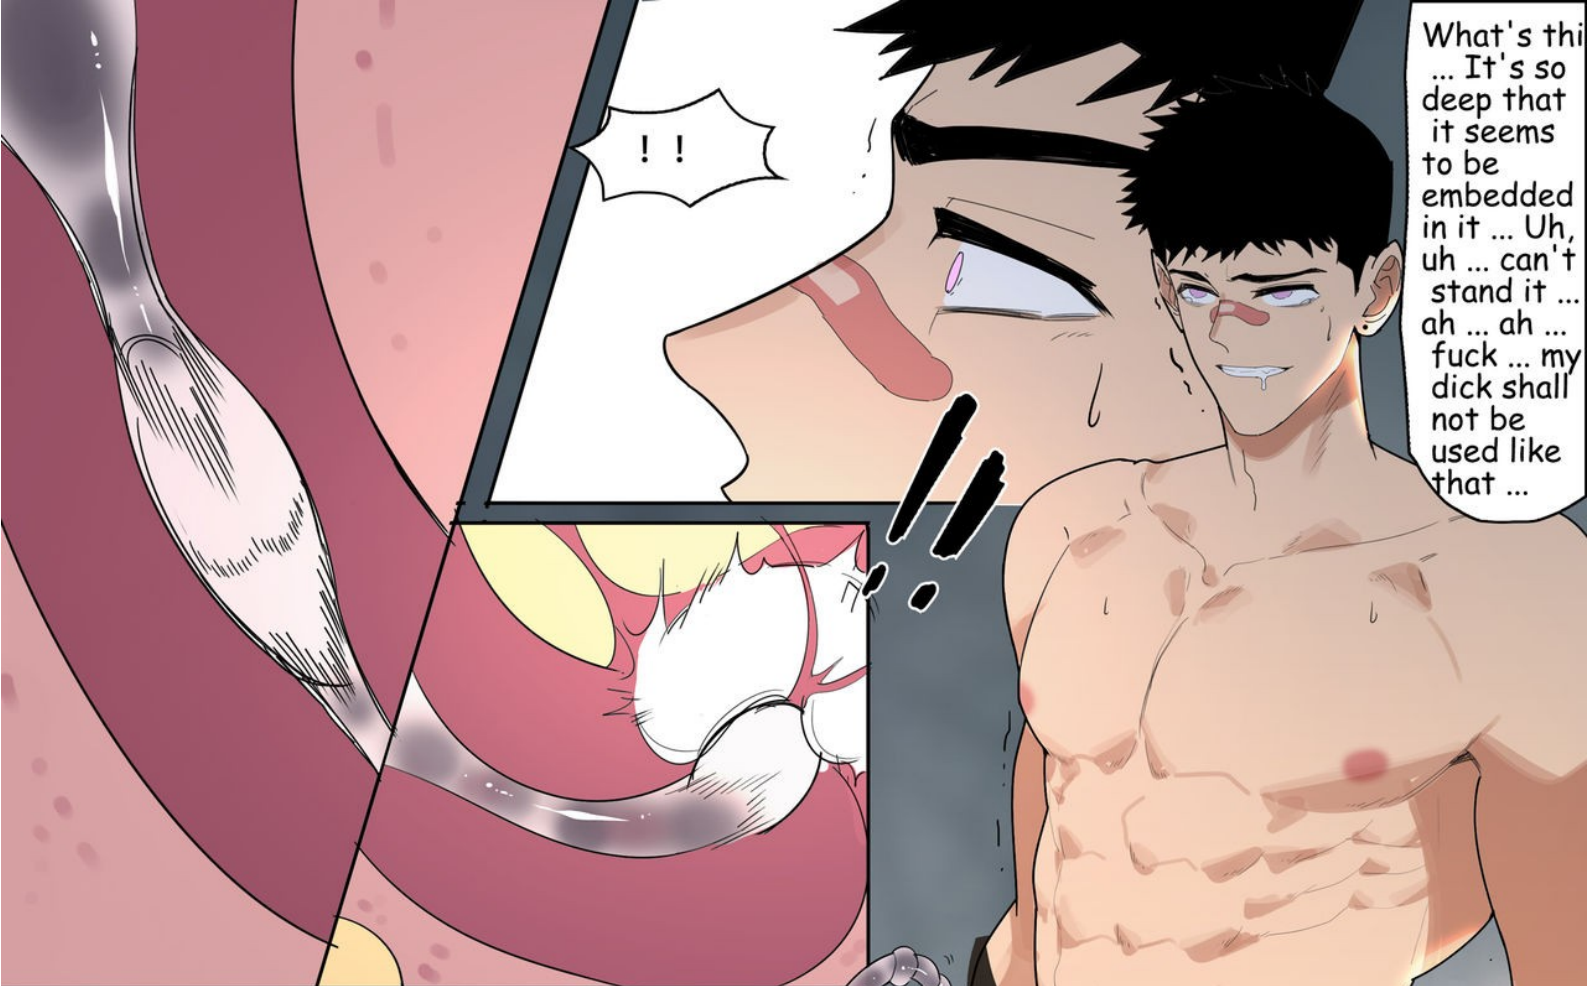

A little, a bit disgusting ...

How does that feel? Do you feel good? Exciting?

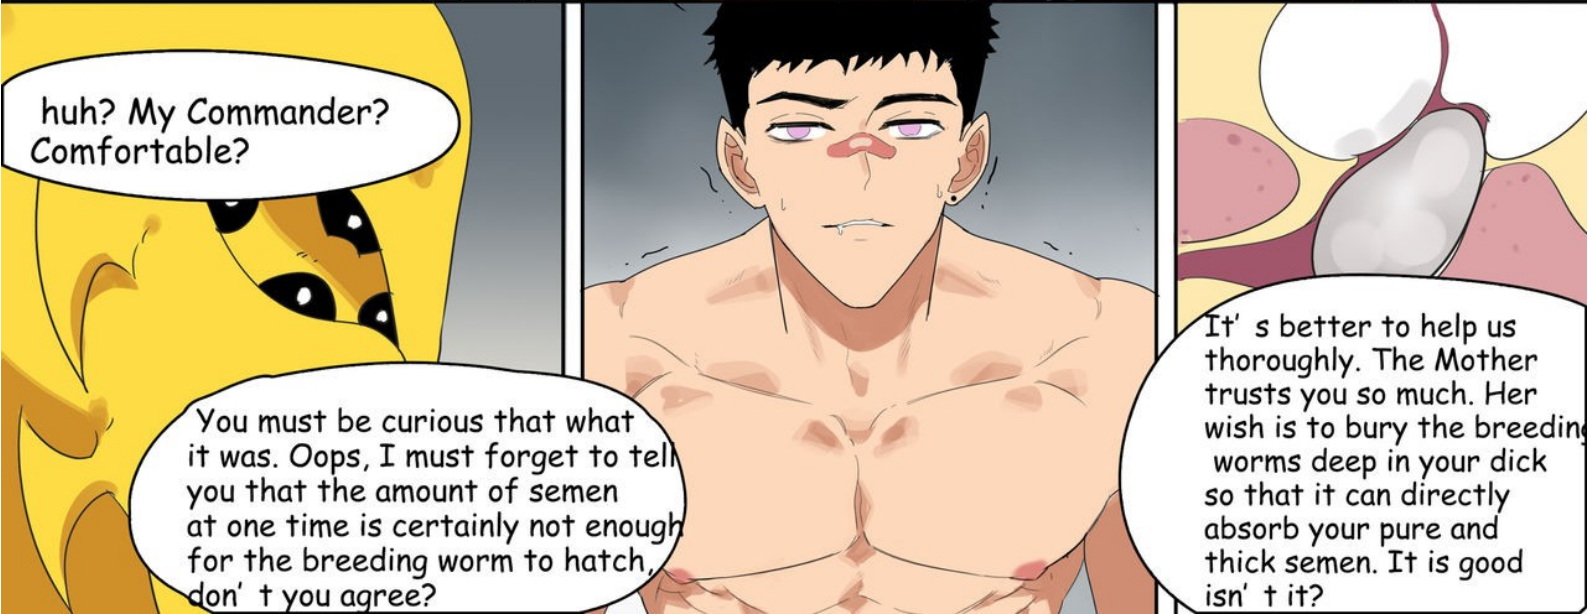

Hey, this is a special experiment

But it feels ... Disgusting worm reaches deep in my urethra ... Prostate deep in the urethra is touched ... This is much more comfortable than masturbation ... Fuck ...

What's thi
... It's so
deep that
it seems
to be
embedded
in it ... Uh,
uh ... can't
stand it ...
ah ... ah ...
fuck ... my
dick shall
not be
used like
that ...

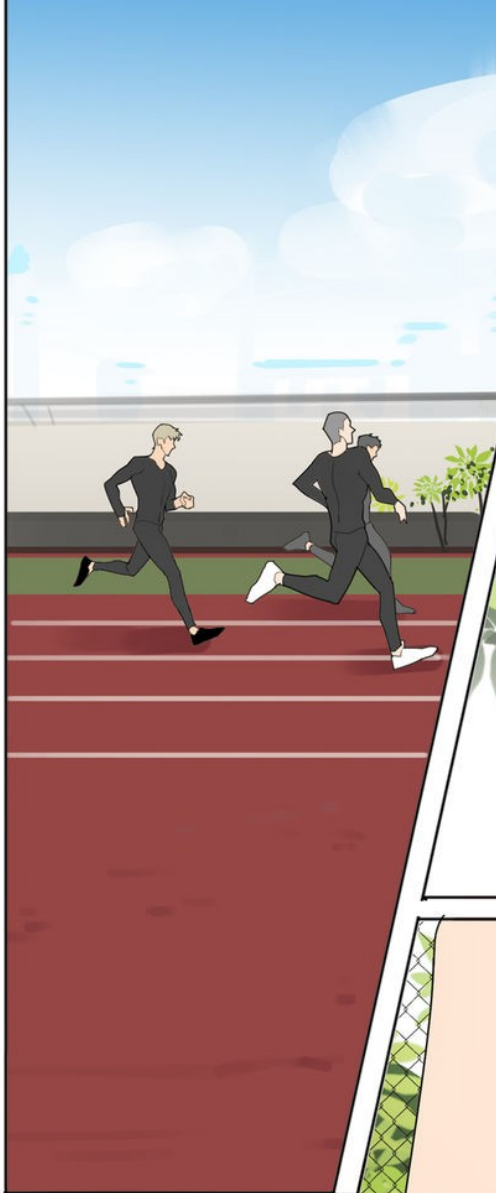

huh? My Commander?
Comfortable?

You must be curious that what
it was. Oops, I must forget to tell
you that the amount of semen
at one time is certainly not enough
for the breeding worm to hatch,
don' t you agree?

It' s better to help us
thoroughly. The Mother
trusts you so much. Her
wish is to bury the breeding
worms deep in your dick
so that it can directly
absorb your pure and
thick semen. It is good
isn' t it?

one week later

5 rounds left,
everyone, adjust
your breathing
and pace!

yes!

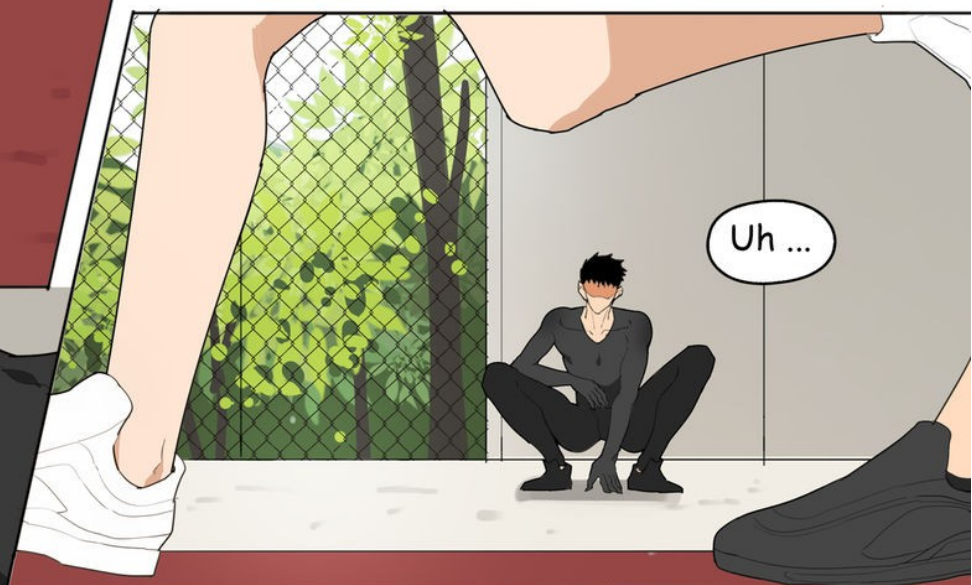

yes sir!

be fast..er..

!

Uh ...

And here it is again ...
The thing hiding deep
in the urethra creeps from
time to time. It makes
me uncomfortable ...

Not only makes me get
an uncontrolled erection
every day with no
ejaculation...

bathhouse

Captain, you are here early today!

yeh ... I'm a bit tired.

fuck!!

Every time I put on the socks from my younger brother who was healing me, I become very excited, and shoot a lot ...

now I feel my sperm is blocked in the deep ...

And ... And this thing is getting bigger and bigger ... it is drinking my semen ...?

What did the monster
implant inside me?

ah ... suck ...

Um!!

Sir~ Want to have a drink in the
sky courtyard tonight? The antler
wine from the north arrives today!

I'll see if there is any more
task tonight. Don't drink
too much or you will be
punished?

Ah, my
grand
Commander
could not
bear to punish
me!
Tonight
I will wait for
you with
those
buddies from
the scout
team!

okok

?

*mobile communication ball

That night Decaying corridor Offshore

yoh ! You are early.

Hey, my lord is so neat. I notice you wear new socks intentionally.

...

You must want to show your masculine charm to the Mother by dressing like this. Great ...

Enough talk, I don't want to directly contact disgusting worms like last time, so get it out of me quickly

Don't worry... bad temper... come down here. You have endured it long enough don't you?

Lord, I wonder if you know anything about the Mother... The Worm Mother, a masterpiece comes from the Species explosion billions of years ago, a spider-shape life form created with countless Procreation Tentacles.

The destiny of the Mother is to reproduce, and the worm servants like me, must guard Mother's tentacles.

The Mother could commander the libido of any species, and gets their genes for reproduction. They will become her offspring after being wormfied.

Have we arrived? Shut your mouth up. I have totally no interest. Disgusting, this place is filled with mucus.

Humm, this is only one of the countless underground genital cavities. We Worm are at low level, but with numerous offspring if we spend all energy in reproducing.

Last time, the Mother drilled out her pipe and put the worm baby inside your urethra. Have you raised it well, my lord?

Your vas deferens and urethra are both stuck by the baby worm's nutrition absorbing mouthparts.

So that our offspring can be stronger with the nourishment of your body fluid.

Behave yourself.

My lord, your dick is sensitive with the Mother's smell.

Holy...

Magnificent for a knowledgeable commander like you, isn't it?

We are now at the bottom of the Worm Mother's cavity. In front of you, these are the ovulation pipes, and there are thousands of larvae waiting for fertilization.

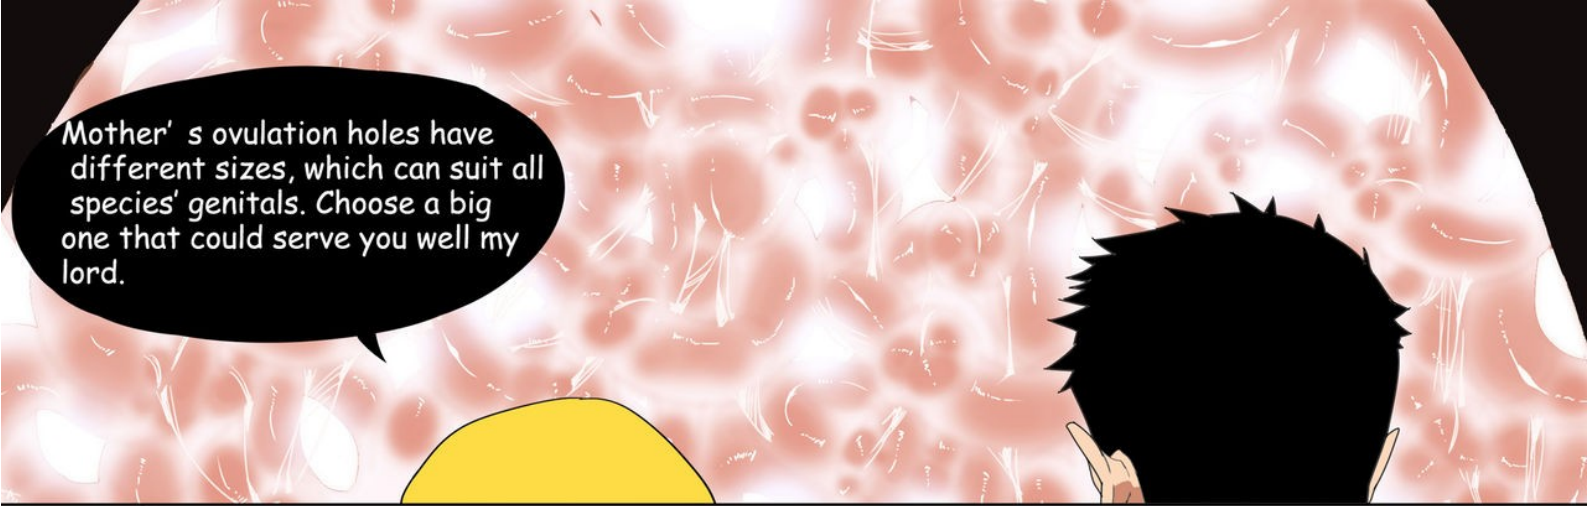

Although the Mother is partly sleeping with no activity, but tonight happens to meet her estrous cycle. The sex smell in the air...how addicting...

Strong smell...strong... The Mother must have felt your masculine smell. She is satisfied with you my Lord!

Now the only thing you need to do is shooting out the breeding worm, which has fully absorbed your great sperm, your supreme gene!

Mother's ovulation holes have different sizes, which can suit all species' genitals. Choose a big one that could serve you well my lord.

How could I shoot inside?

Just imagine that you are having sexual intercourse with another human. When your penis gets inside, the Mother will wrap and suck it.

Don't tell me that you are still... a virgin.

Shut up, I know how to do.

Shit, the aphrodisiac smell is too strong here. I will make mistakes if without a supporter calming me down. I feel dizzy, I must finish it quickly.

...

Get inside from here right?

umm.....

挿

Feel good?

Fuck! Goo...
Good...

Ah... fuck...
Why so...so good
... I just need to
shoot it out... Ah..

Just shoot them out?
It is not as simple as
making love with your
girlfriend.

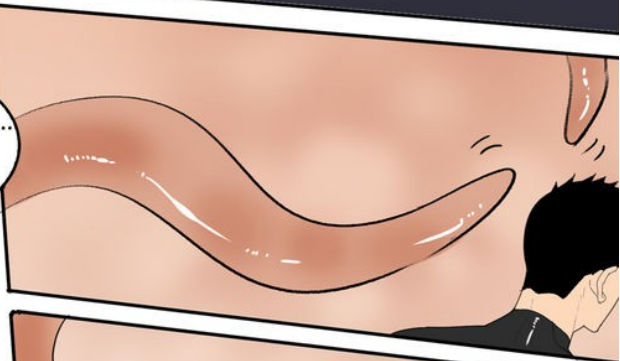

The egg cannot be
successfully taken out
if you do not cooperate
with the Mother.

You are a human after all,
another aide needs to be
done to fulfil the breeding.

The gene from a human will be rejected
when the Mother absorb it. Yet, if you could
make use of the talent loop inside your
body...just a tiny little bit, and the loop will
connect with the Mother's Level-D talent.
Only a few moment of connection and the
Mother would be able to use your enegy.

We human only
connect our talents
while breeding our
own offspring. How
could you ask me
to turn off the brain
shield and connect
with you scum
worm!

But...it is so exciting...
cannot get rid
of it..

What is this?

Relax. The process is far much
more comfortable than breeding
with a human. The Mother directly
connects with your nerve conduction,
which can achieve autonomous
sensory meridian response. Perhaps
my lord will be addicted with this
feeling.

*pop 啾

Stay calm my lord ! We are only creatures of Level-F talent. Even we tarnish your talent, you could easily be healed by a priest.

Now the worm egg is at the bottom of your urethra, and the breeding egg's hook is hooking your prostate. You have to cut off your precious penis if the hatching does not complete well. That's not your will is it?

As a warrior, you cannot resist the strong aphrodisiac gas here. Heyhey, don't get angry my lord. Your dick is so hard, your body is actively exciting... listen to me carefully..heyhey

Let...let me go...

After the gas from the worm gets inside you and see your true desire..

Just think about the spring dream in the nights, and what you do in the bathhouse in the days.

It is quite safe here...only you and me. It is really a good time to get horny..

Just relax, and be horny, my commander.

With a deep breath, and your deep can fully twitch in the Mother's cavity.

Let your big glans friction the cavity, and let the small worms drill into your horny meatus...

have a look

Master♥

Aha..♥

You know this guy? Look at his body. He is now his week enemies' muscle toy who can never escape.

*the illusion of Drakosm

Abandon all in the past, think none about the future. Throw away dignity and appearance. Fully degenerate to a worm. Indulge in the happiness forever. See, what a charming world is he in.

No need to think. Honestly face the happiness from your body. Scrafice your strong nipples and sexy fluid to the monsters who are absolutely beneath you. Let them train you and develop you. Only they can make your well-trained body be fully enjoyed!

Look at his exciting penis secreting porny sperm. The longer it is locked, the more horny his beast body becomes. Intentionally forget everything, and think only about how to please his master. The ugly moster once he looked down upon, now becomes a god who controls every part of him. Haha!

Yes, this is the true thought deep in your mind, this is the life you are running after. Admit it, you cannot deceive your own heart.

As long as you open your mouth and breathe more, let the sexy gas occupy your brain, and donate your body to us...then...heyhey...

More breath, my bitchy commander! Now the smell of the Mother is astonishingly strong. She likes you so much haha!

Too thick...too dense... holy...my will cannot focus

Yes, open your mouth! Drive the oxygen away, and let the Mother's gas fully smoke your brain.

So...so bad...no... I shouldn't... My dick...my big glans...why so itchy...my brain does not worl... ah...in...inside...

Look! The breeding worm gets exciting! It will get out more easily if you could get hornier. Breathe my lord! It is coming out!

Really?...get out...just get... out...I breathe too much... Both inside and outside are getting itchy...Brain gets itchy too...ah...

Good boy, breathe some more
and hold back...Let me help
you will you...do not hesitate,
I will please you..!

My lord, your muscle is fully
strong. The nipples on it must
be horny. Tell me my lord,
are they itchy?

Itchy..

Anywhere else?
Say it.

Go down...
asshole...itchy..

Yes...My lord, you are truly
a good and porny boy.
Your asshole is keeping
seducing me, and I won' t
stop this time.

My lord, my bitch lord,
why your penis gets so wet?
Because my dick is going
forward?

Ehh...ah...ahh...don't
be so quick...so hard...
so hot...

Isn't it great? Want to be
my woman? You shall miss
my dick forever!

No...I don't want...
ahh...don't be so fast...
so big...

You don't want?
Does your asshole feel
numb? Because my
glans is impacting my
woman's prostate.
You feel good little
girl?

Ehh...ehh...so good...I
will kill...kill you after
I leave here...

Don't be so cruel... I promise shaping
your horny asshole to be the same as my
dick, so that your asshole will remind of
me when my lord becomes horny.

Shoot...I want to shoot...your glans...
don't always touch there...punch it
hard...I hold it too long...whh...
help me...help...me...

My lord, do you want to be the same
as that guy, wearing a mask so that
no one can recognize you...be a horny
bitch as you want, be a sperm beast of
the Mother...

Come, breath...Invite the
Mother irrigate the gas
into your lungs. Imagine
what you will become.
Go to the heaven with us.
Open your mental...my
lord...donate your body...
join us...

Join the Worm!!

*Darkosm's illusion

This is what you should become.
No one knows who you are with
this mask. Forget who you are.
Donate your sperm, your life
energy to Worm's children.
The best gene should be
enjoyed by the lowest offspring.

This is your paradise, a world of
lust and happiness, a heaven filled
with dicks. We are the same.
You are only a worm with supreme
talent. We are worms. We are combined,
assimilated...share your talent with
your kind...shoot, ejaculate,
shoot as your will..

Remember this felling, this
pleasure! The feeling that
your prostate is being
crunched by an inferior
demon. Only being a worm
will you be able to shoot so
much dense sperm!

Ahh...hah...

Emm...

Good ovulation.

Fuck...

Nice...

so fucking...

Bitchy worm...

Fuck you...

Destroy you...
good...

Ahh... so fucking nice...

Wrap my dick...

Fuck..oh...

Suck it...fuck
...fuck...

Fuck you to death...
fuck...

My big glans crushes your
pussy...

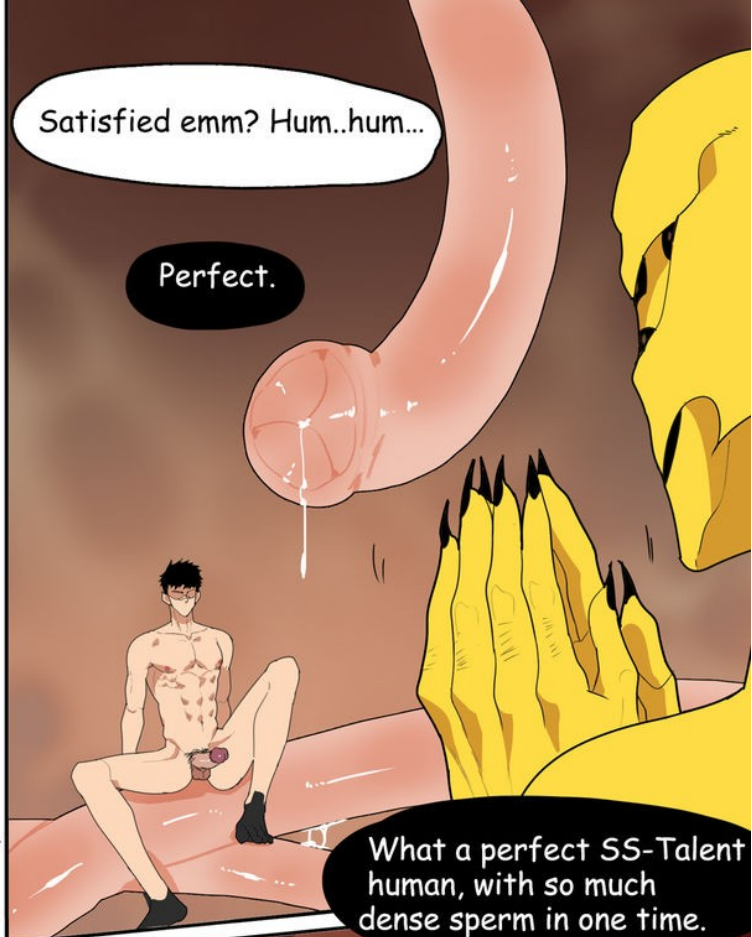

Porn worm...

Fuck...ah...ahh...
take my thick sperm!!!

Satisfied emm? Hum..hum...

Perfect.

What a perfect SS-Talent human, with so much dense sperm in one time.

The figure you fucked is also impressive. You must also be an outstanding breeder in your human world.

Ha, just take it as a game. Don't be serious about what you have seen, what I have said.

The gas of the Mother influences those who are truly porny deep in the mind. It cannot affect any on a man of integrity like you my lord.

yet...

here are some pills for corrupting the brain. They condense from the Mother's essence of lust.

The more you eat the more sensitive to the Mother's aphrodisiac gas you will become. It will let people become so eager to be the slave of the Mother...

But my lord, you were so cooperative while breeding. I will keep my word. Do not worry, I will recall all spawns.

What if...if...if
you really want
to try...

Just be kidding.
haha.

One month later

Brother Drak?
Weekly health screen~

And...I left my shoes here
last week...em?

Ah...Silvdawn,

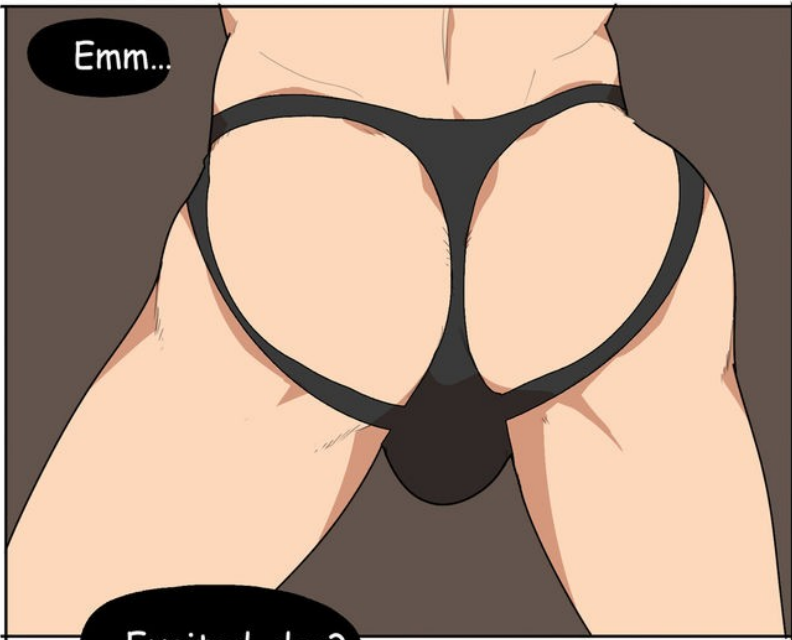

I have urgent mission
so I need to go soon.
Ehh... my dorm is a
mess...so...just pass it...

em...?..OKay...

I will return your shoes after
the logistics clean it...I need
to finish showering....

Haha, no need to wash
my shoes. See you
next week...

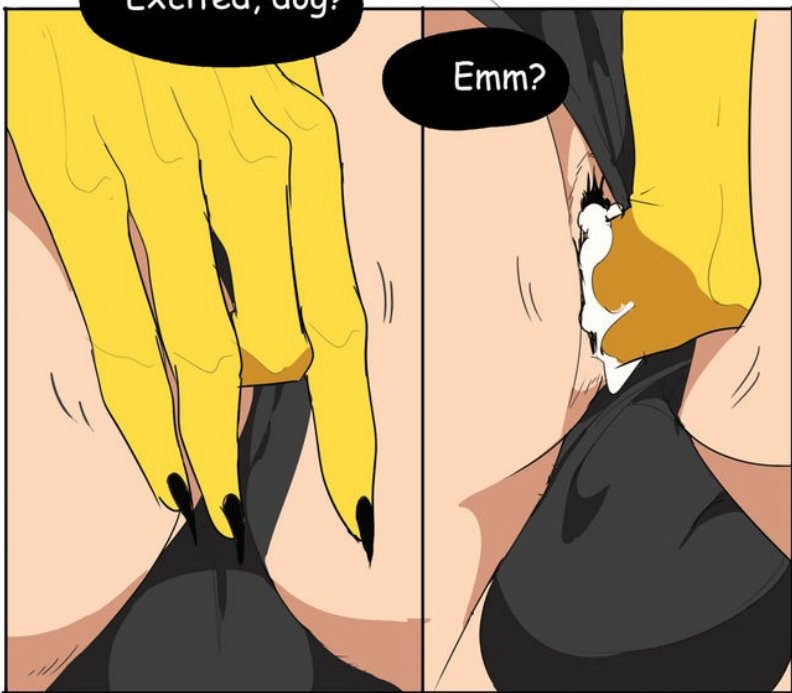

Emm...

He scared me...

Excited, dog?

Emm?

Yes...excited..

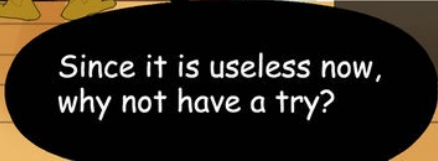

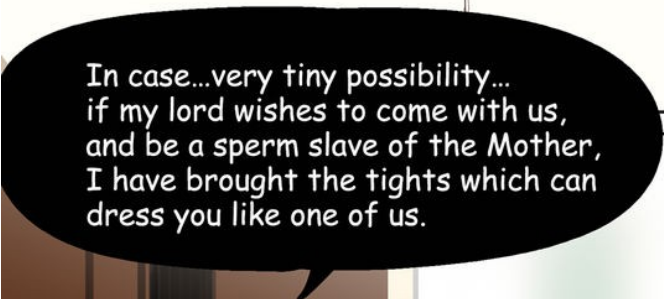

I just let you mail me a small tube of sperm for the Mother's reproduction, but you ask me to come.

蠕动

This is the breeding worm you shoot out last time. It grows up a lot. Feed it more sperm.

Tonight, the Mother will move back to the main burrow. Though our nests here are already secret, but they are still in your human's patrol area.

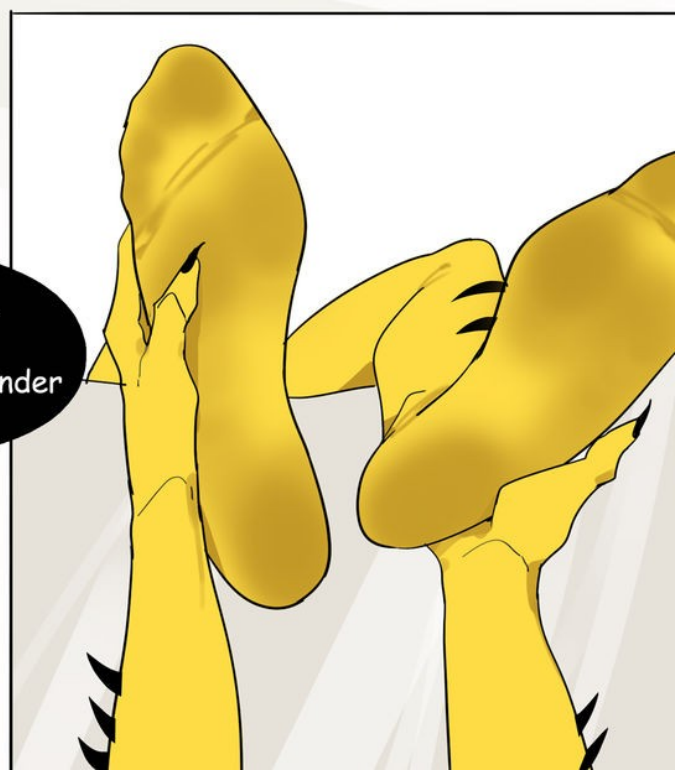

A muscular man with black hair and a small red mark on his nose is lying on his back on a white sheet. He is wearing a bright yellow catsuit with black stripes on the thighs and arms. His arms are raised behind his head, and his legs are spread apart. He has a relaxed expression.

What is it made of?
Spider silk? It feels well.

But the pattern on it is
ridiculous, just like yours.

What a pity if you don't
wear it.

Look at the tight fabric.
It is like your real skin.
Heyhey, my horny commander
truly loves it.

It is just prepared for...if my lord wants to be our slave, to be the lowest creature in the Worm, you cannot adapt yourself at the beginning.

But it can never be used...I just imagine something impossible...never mind, I just wish my lord could try a bit.

Look at your dick. It gets so hard, like a porny worm. You are more like us, heyhey, what a pity.

And there is a mask. Have a try?

Sure...

But..I have to say...

With the tights...

My lord, just wear it.

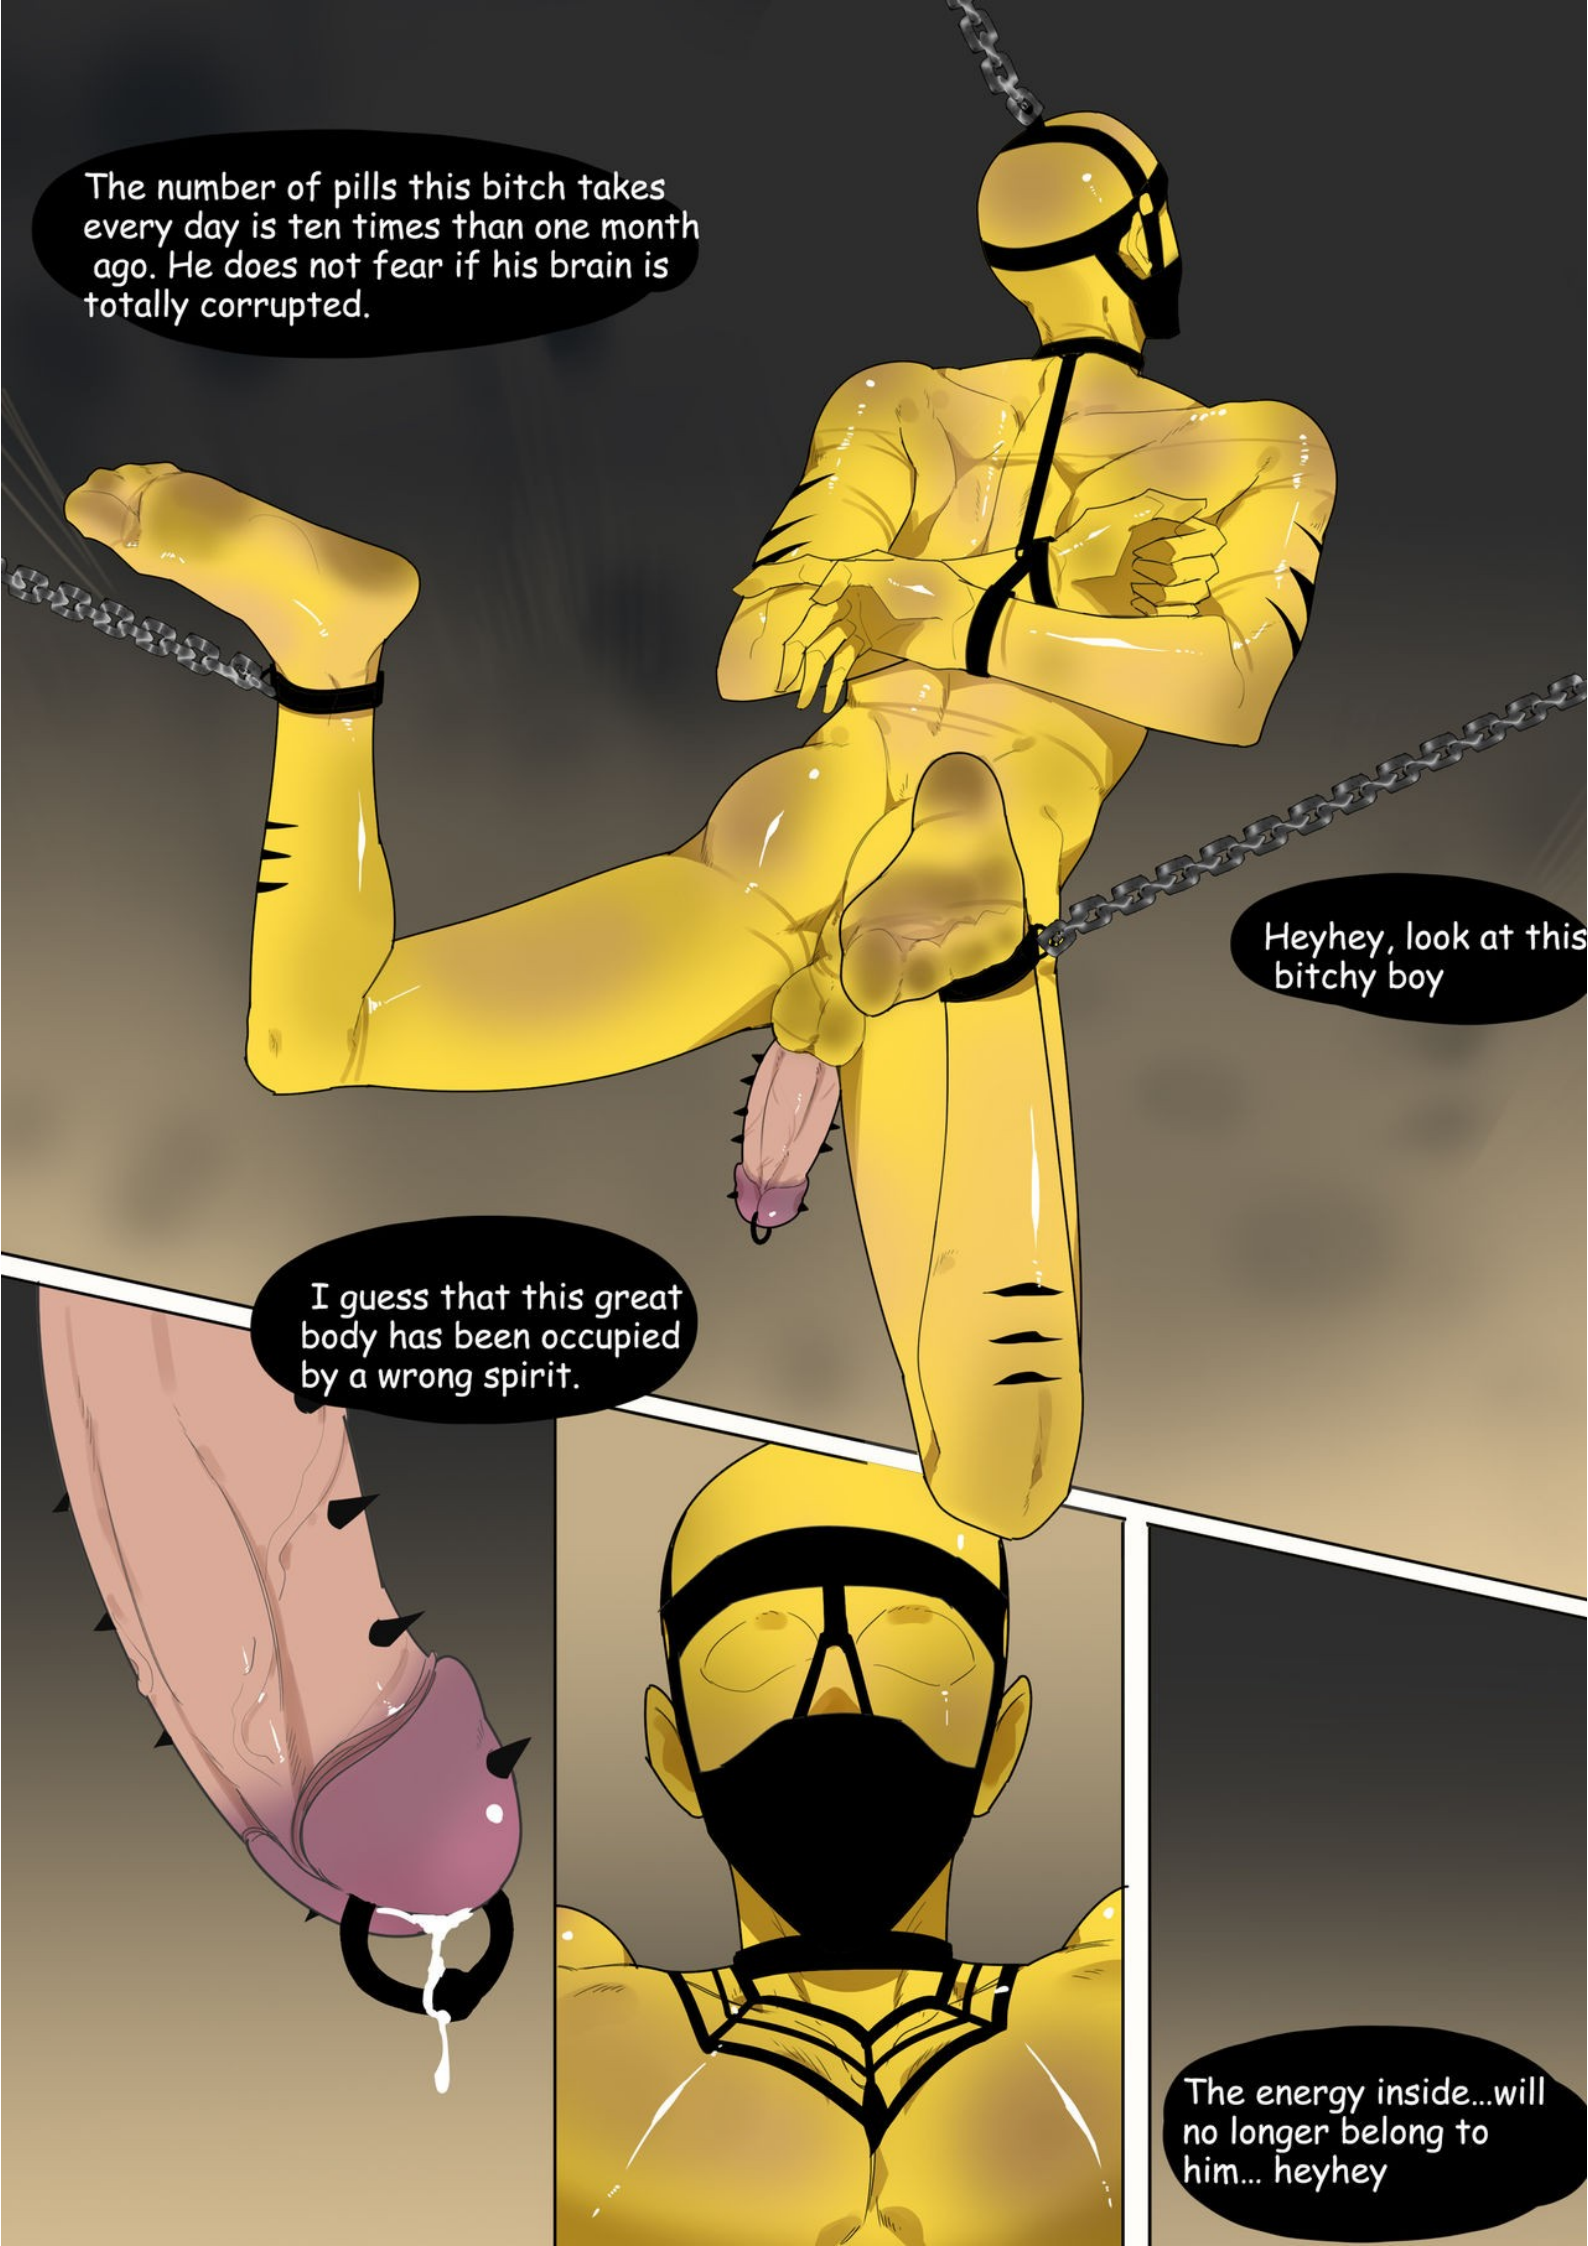

Take your life before... as a long dream.
Close your eyes,
and you will return to your real life tomorrow

... ..

... ..

One month later

The number of pills this bitch takes every day is ten times than one month ago. He does not fear if his brain is totally corrupted.

Heyhey, look at this bitchy boy

I guess that this great body has been occupied by a wrong spirit.

The energy inside...will no longer belong to him... heyhey

Ah? Who are you? Why are you wearing mask and glasses in the night?

Open the gate. This is the commander of the Dragon Knights. I am ordered to cast this monster to the field outside. Here is my identity.

You would better stay away. This monster is toxic. A radioactive human-like worm it is.

I used his identity and carry him leave the city in public. This bitchy dog was so horny that shot pee and sperm.

Holy, he looks so dirty. Is this his genital? It is keeping making fluid. I appreciate it so much if you could take it away.

He was shy when arrived without a move. I left him to the baby worms for days and his dick kept wet.

I locked his dick for one more week.

And then he obeyed all my orders to get the allowance for ejaculation.

A perfect chance to train him like a dog.

Look at bitch's face.

Ready?

Do what we promised.

Yes my master.
I will do your bidding.

Your brain is rotten after
taking the pills for two months.
You can no longer command
your SS-talent.

I will feed you some
nutrition before you donate
all your SS-talent to the Mother
tonight. They will all be
decomposed to normal nutrition
for raising the Worm.

Thanks...
emm...thanks,
my master.

Your dick is increasingly bigger and stronger. My master, you can easily defeat me with your penis. I worship you more and more my master.

My asshole is itchy as long as I see your dick. It misses the feeling of being fucked by my master...emm...

Thanks to your decomposed supreme energy. It helps my penis get bigger doesn't it?

Those energy should belong to my master. I just give them back to you. These are my responsibilities for serving my master.

My bitchy asshole is itchy again, Master... the pills work now... I cannot calm...itchy...please shoot all nutrition into my body.

No rush. Take off your tights first.

This dog is always excited when I bring him to patrol. His dick keeps trembling. His fluid flows everywhere.

Once, we reached somewhere near to the human domain. This dog just sited on my dick and fucked himself when he noticed some human adventurers came.

Hey, look there! There are two worms mating across the river. Holy.

Shit, what disgusting creatures.

After hearing those words, this bitch let my dick fuck him more deep inside. His body kept trembling.

Raise up your ass,
good.

My asshole...ah...
filled...so warm...
master....

Ahh...ahh...my prostate...
crushed...

emm...

Eat them first. It is a good day
for the Worm. Brothers from other
domains come to meet you.

Come, let others watch
my dog.

These are the Mother's
guards elsewhere.
Call them master.

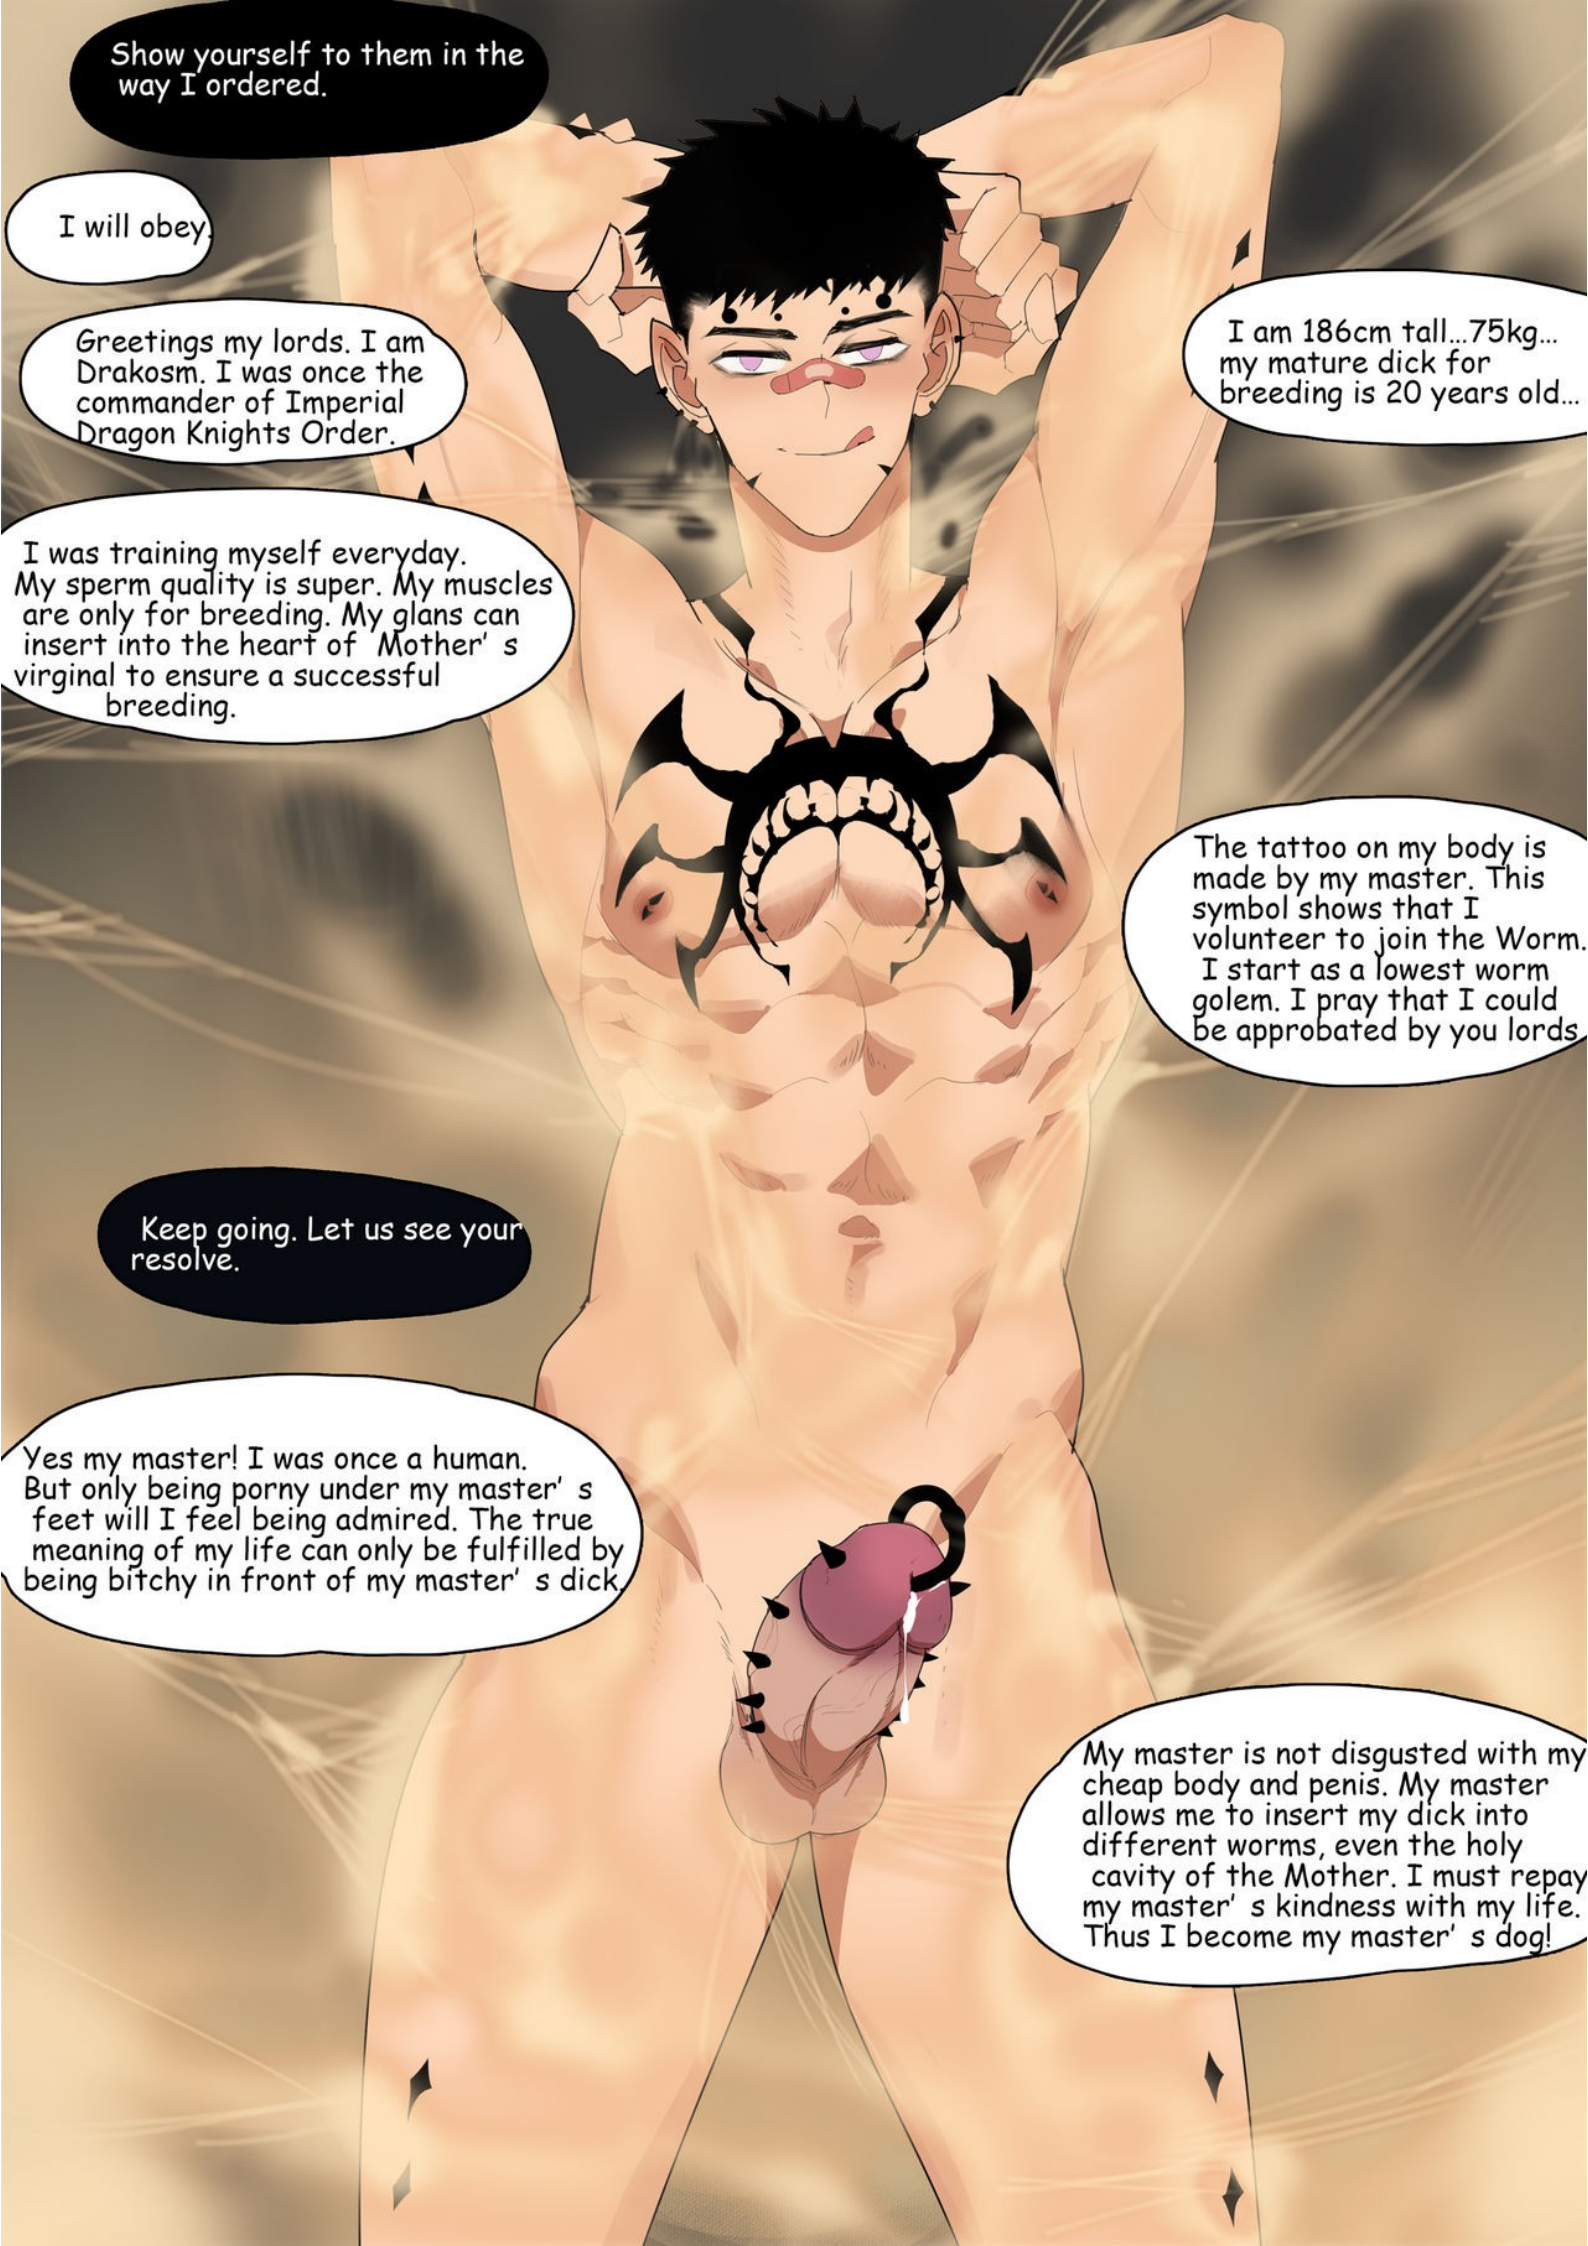

Shit. Can't believe
that you've really
caught a human.

Greetings
my masters~

First time for me being
so close to a human.

Don't be kidding. This big
dick boy is really your dog?

Is this human's trap?
The lowest talent of them
is Level C. How could you
handle it.

Show yourself to them in the way I ordered.

I will obey.

Greetings my lords. I am Drakosm. I was once the commander of Imperial Dragon Knights Order.

I am 186cm tall...75kg... my mature dick for breeding is 20 years old..

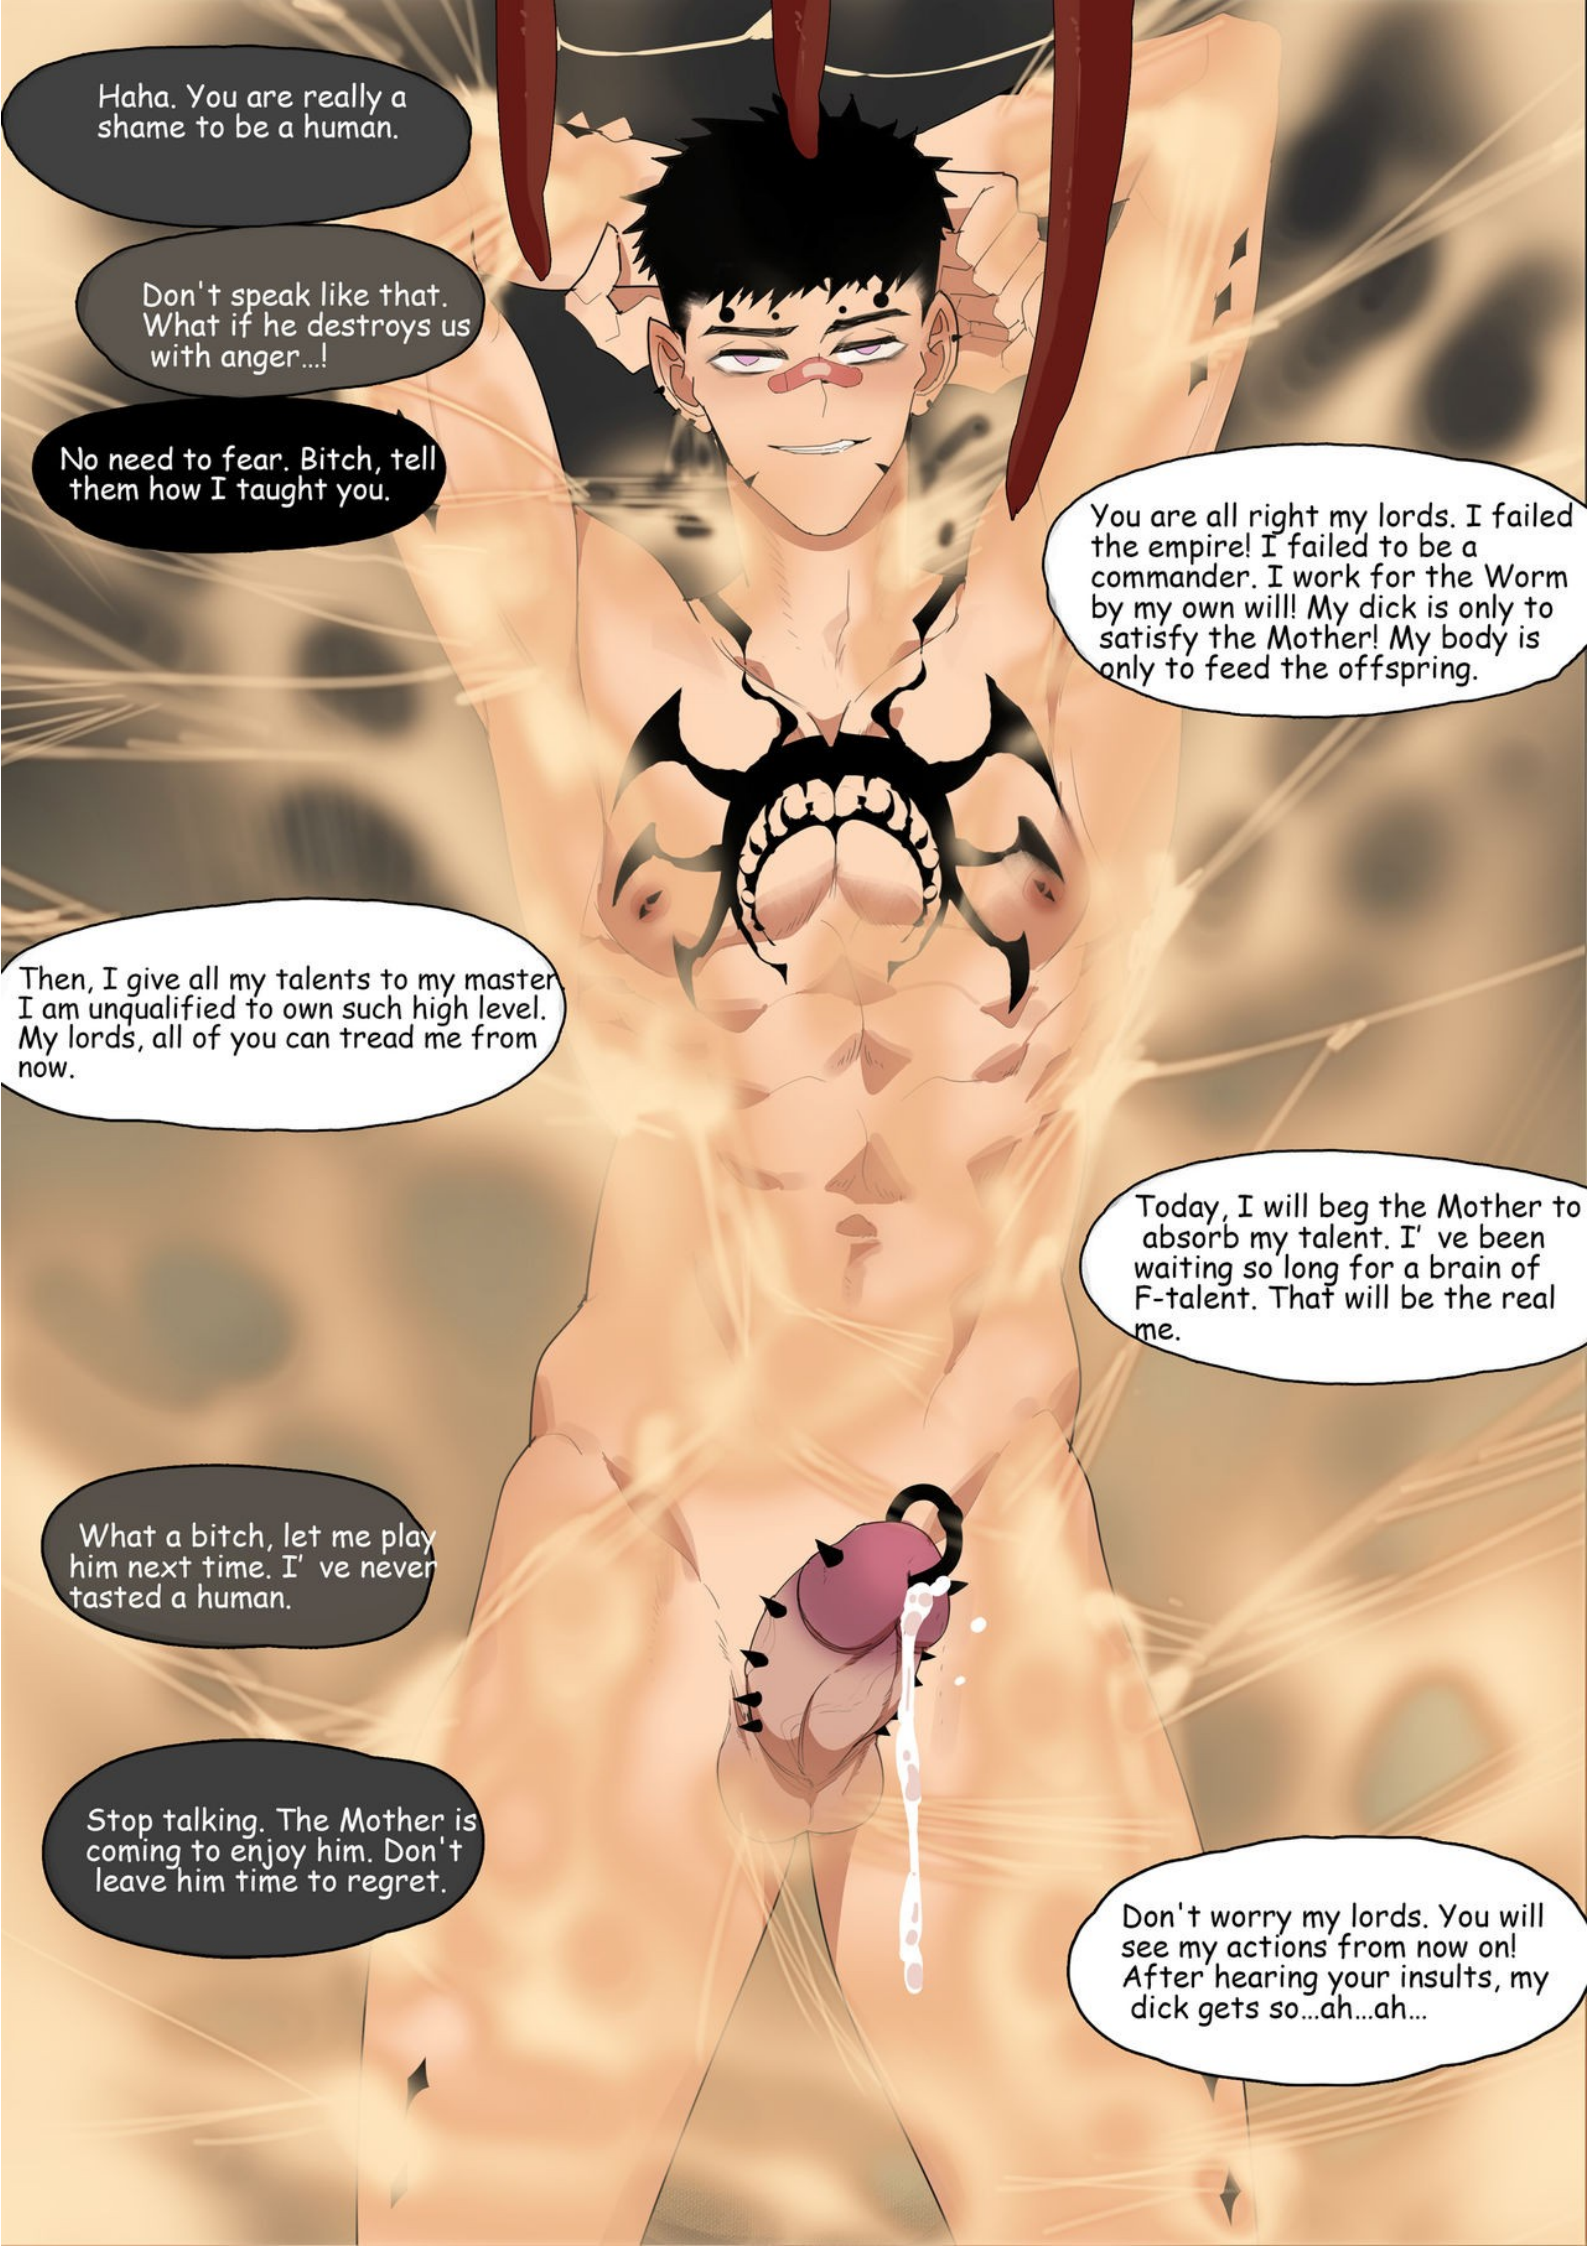

I was training myself everyday. My sperm quality is super. My muscles are only for breeding. My glans can insert into the heart of Mother's virginal to ensure a successful breeding.

The tattoo on my body is made by my master. This symbol shows that I volunteer to join the Worm. I start as a lowest worm golem. I pray that I could be approbated by you lords

Keep going. Let us see your resolve.

Yes my master! I was once a human. But only being porny under my master's feet will I feel being admired. The true meaning of my life can only be fulfilled by being bitchy in front of my master's dick.

My master is not disgusted with my cheap body and penis. My master allows me to insert my dick into different worms, even the holy cavity of the Mother. I must repay my master's kindness with my life. Thus I become my master's dog!

Haha. You are really a shame to be a human.

Don't speak like that. What if he destroys us with anger...!

No need to fear. Bitch, tell them how I taught you.

You are all right my lords. I failed the empire! I failed to be a commander. I work for the Worm by my own will! My dick is only to satisfy the Mother! My body is only to feed the offspring.

Then, I give all my talents to my master. I am unqualified to own such high level. My lords, all of you can tread me from now.

Today, I will beg the Mother to absorb my talent. I've been waiting so long for a brain of F-talent. That will be the real me.

What a bitch, let me play him next time. I've never tasted a human.

Stop talking. The Mother is coming to enjoy him. Don't leave him time to regret.

Don't worry my lords. You will see my actions from now on! After hearing your insults, my dick gets so...ah...ah...

Umm...ahh...

Save your bitchy words until the simulation completes. Seems that the Mother is ready to enjoy this beast.

You need to adapt yourself to this. Later, I will reward you with your favorite dick.

Relax, feel the sperm I shot inside. Absorb it. Use your remaining energy to connect with the Mother. Return your talent to her. It never belongs to you.

A muscular man is shown from the waist up, facing away from the viewer. He has a large, red, bulbous alien head on his back and chest. The head has several white circular spots and a long, pointed snout. Red tentacles are wrapped around his arms and torso. The background is dark with floating red and black circles.

Umm...
umm...

Emm...

Before your gene being replaced, I will offer you an escape. Leave here now and be your commander as you used to be. You have completed your task. I won't force you now in case your kind come to revenge for you.

Move your body, and I can stop all these.

If you stay still, that means what you have said will come true. From now, I am your master in your whole life. I allow you to join the Worm. You will swear to serve the Mother, and for return, your horny asshole will be pleased.

I haven' t finished my words...see how porny you become.

Seems that no more words is needed,

All empire citizens,

According to the witness
they should be classified
as spider monsters.
Their threat degree is

In the past year, several imperial

The reason behind is still a mess.
The Imperial recently plans to crusade
unknown monsters. All adventurers
should be armed during discovering,
and destroy all suspicious monsters.

Report! My lord, the cave is all
clear today. Wait for your
order!

It has been one year.
Is it better to be a worm?

My lord, I am a worm.
I always appreciate that
you have completed me!

Please keep training me
strictly. Make me your
loyal dog. I will try hard
to forget human language.
I will give up thinking.

Unfortunately, you are
ungifted. Now our species
have level-C talent. You
can only be a guard dog
with your F-talent.

My bad! But it is my biggest
honor to serve the Worm,
to be trained as a beast.

So be it. Breeding quests
await you tonight. Stay with

Greetings my sponserers. I am LYMSS

Thanks for your support.

‘Fallen Hero Drakosm I’ tells a quite rare story. It focuses on mental brainwash and Darkosm’s subconscious for self-destruction. It has a different style with my former work ‘Younger Twink’s Femdom’

I wish it could provide you a fresh reading experience.

Honestly, I met lots of troubles during the work. I need a Silvdawn to heal my fatigue. (?)

Please do not share it to any website, forum or other platforms. I hope that my work shall be respected by all. Thanks for your understanding.
