Uwah

Just as I thought I half-killed the guy who picked a fight I was stabbed

That's it I will die

It's been a shitty life

This end seems to suit me

Please take
good care
of me

This is
dangerous

An angel
came to
get me

Do angels
generally call
ambulances?

Ah... no
my consciousness

Ah,
hello
An amb-
ulance

I lived

I thought it was too late for an ambulance but before I knew it I recovered and was discharged from the hospital

My wings are hurt so I can't go to heaven Please let me stay as thanks for saving you

I'm the angel you helped you that time

Who are you

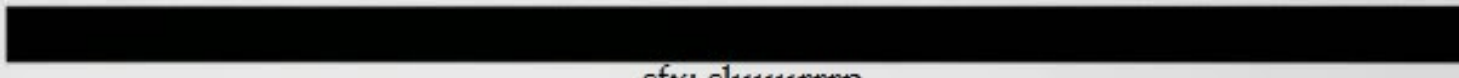

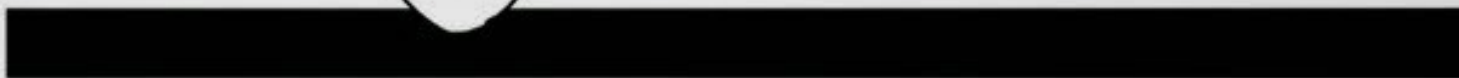

What you're hungry

An unidentifiable starved body will roll around here

Is it fine

sfx: ruuumble

sfx: sluuurrrp

I'm directly affected by the emotions of the person near me

An angel is delicate

What kinda angel makes threats

So if you want me to leave quickly please send me good feelings quietly

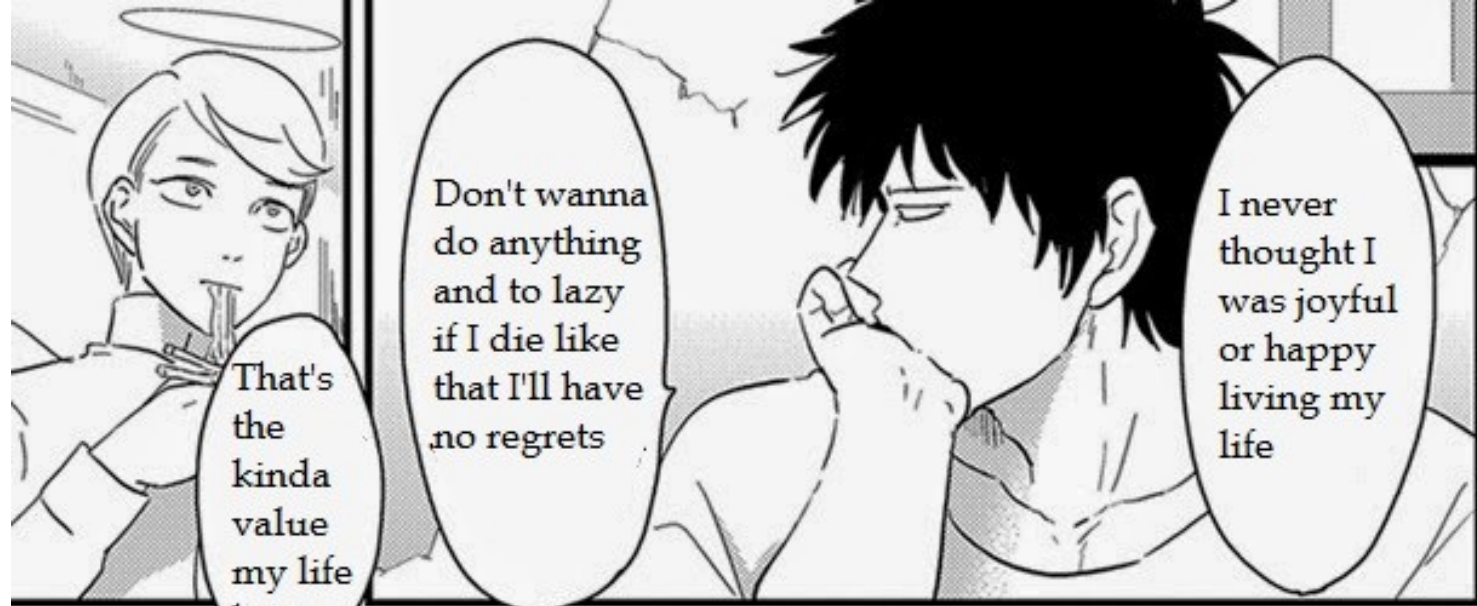

People's positive emotions (joy, happiness, pleasure, love, etc.) is best for healing. Contrarily, negative emotions (sadness, agony, dislike, fear etc.) will worsen my condition

Don't wanna say it myself but I'm trash

nom
nom

That's the kinda value my life has

Don't wanna do anything and to lazy if I die like that I'll have no regrets

I never thought I was joyful or happy living my life

chug

You still took me in even though it was troublesome. You aren't that bad

haa

For sure... Looking at you worsens my condition. My feathers are falling

You clean it

Sorry I had to abstain the whole time I was hospital-ised

This is a great shame

How is it you thought of the worst solution

fap fap

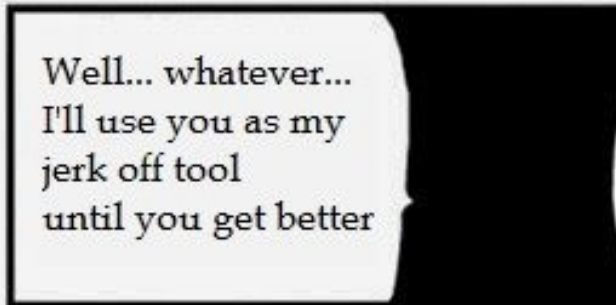

It's better to enjoy together if I'm gonna jerk off by myself next to you

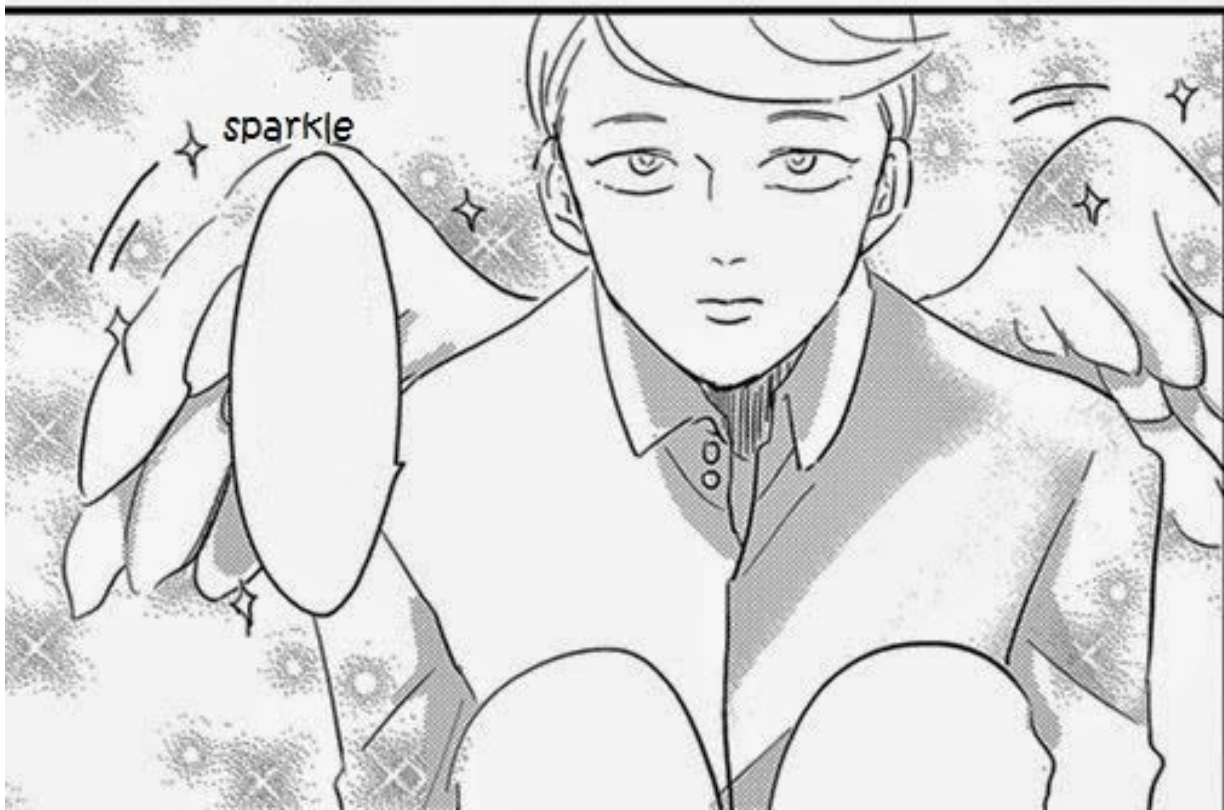

Your wings look better than before

So sexual pleasure works too
Please don't touch me

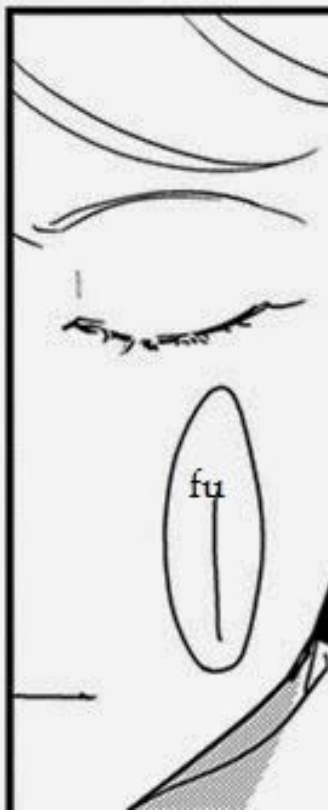

slap

Well... whatever... I'll use you as my jerk off tool until you get better

Please say I am delicate

Angel is a scaredy cat

Sorry It's my fault I forgot that

An angel should not say that

I was annoyed that my wings were grabbed and hoped they would get beat up

It is not your fault you protected me

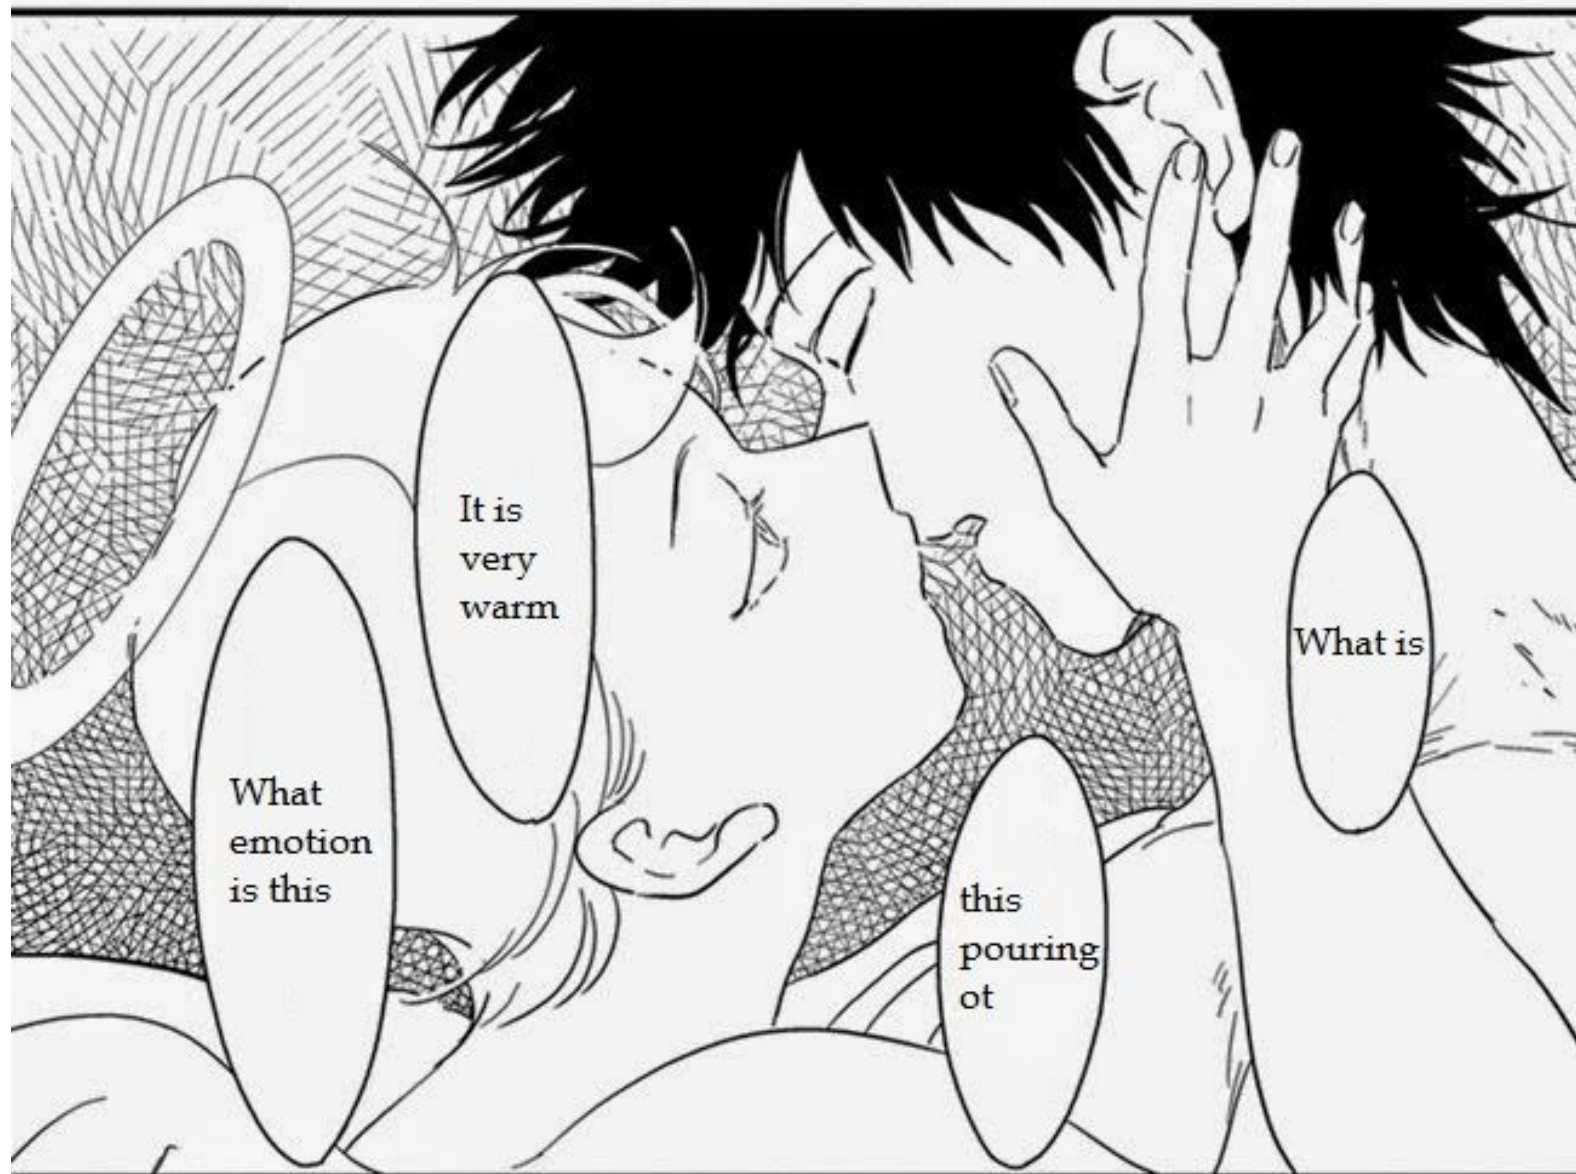

My wings feel more comfortable

When you are near

Like this?

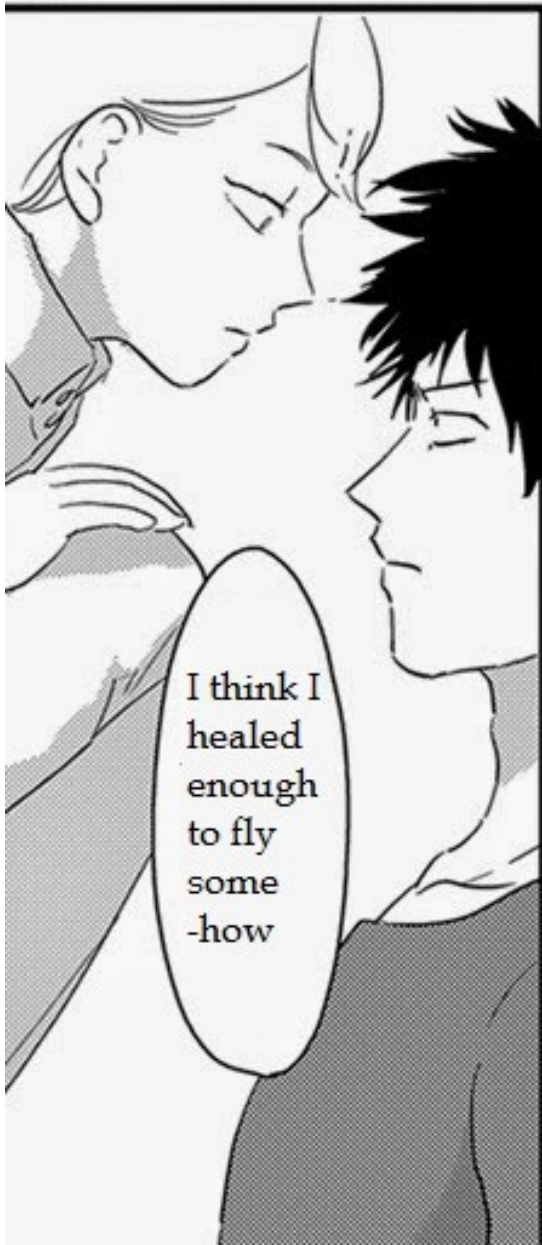

Please crouch holding your hands out

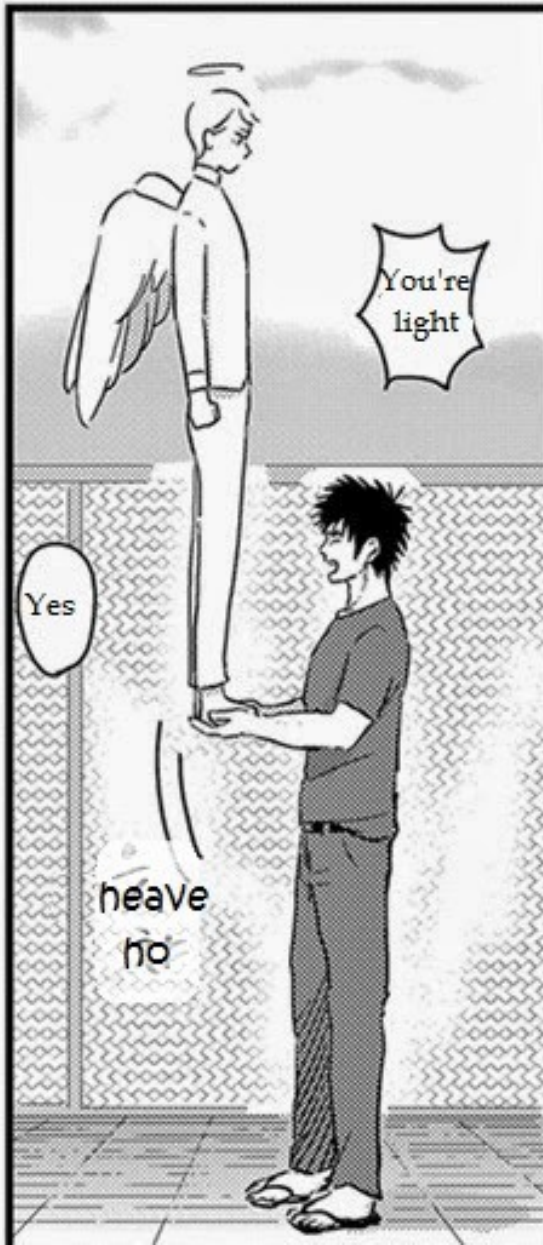

Hey

Yes

I think I healed enough to fly some-how

Yes

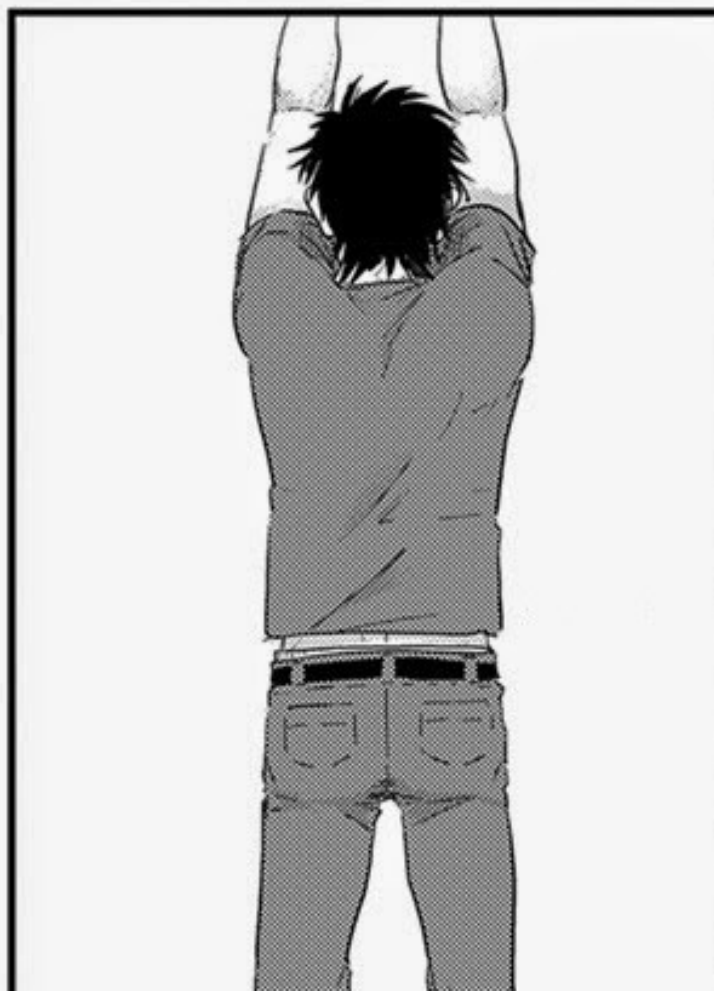

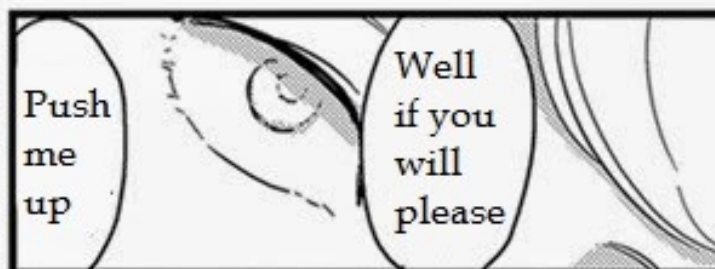

heave ho

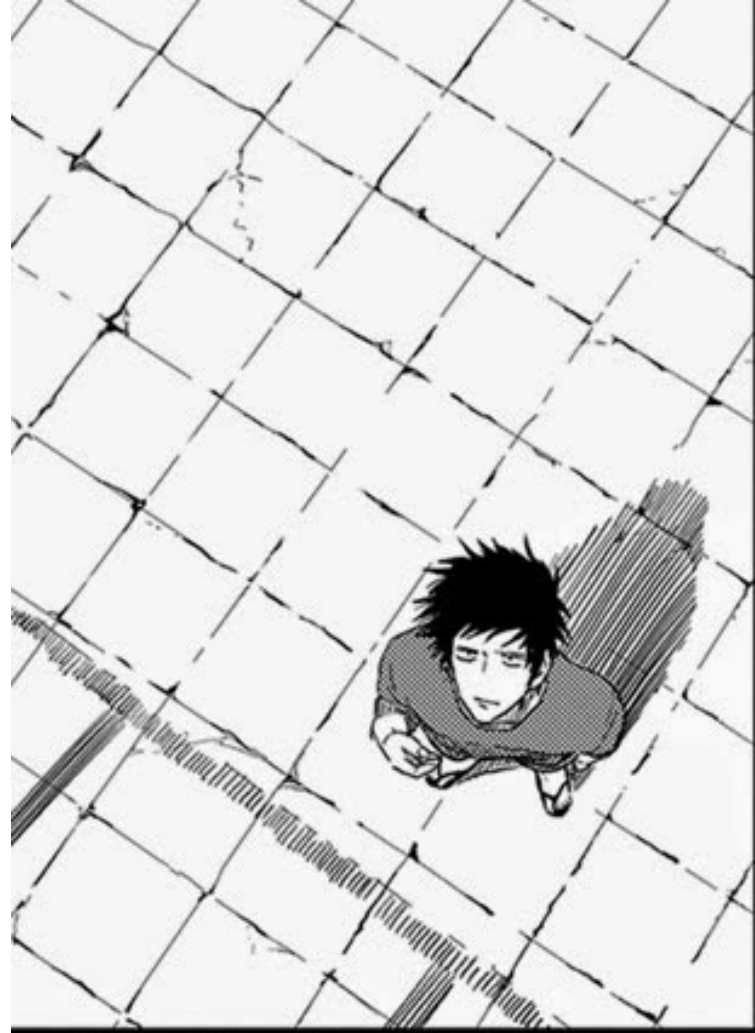

You're light

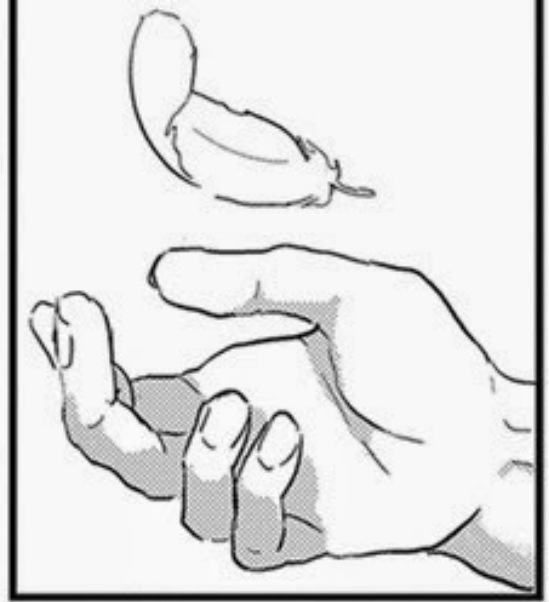

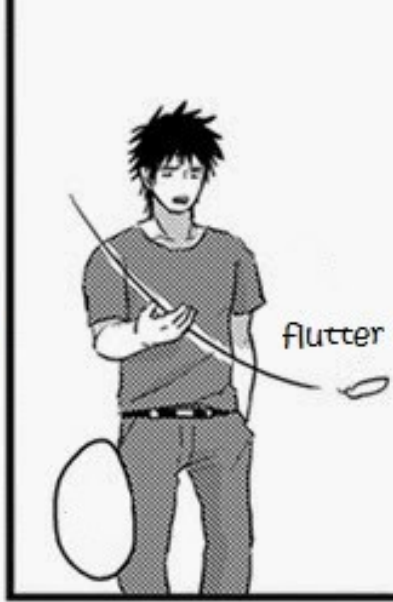

I shall be on for a bit

What

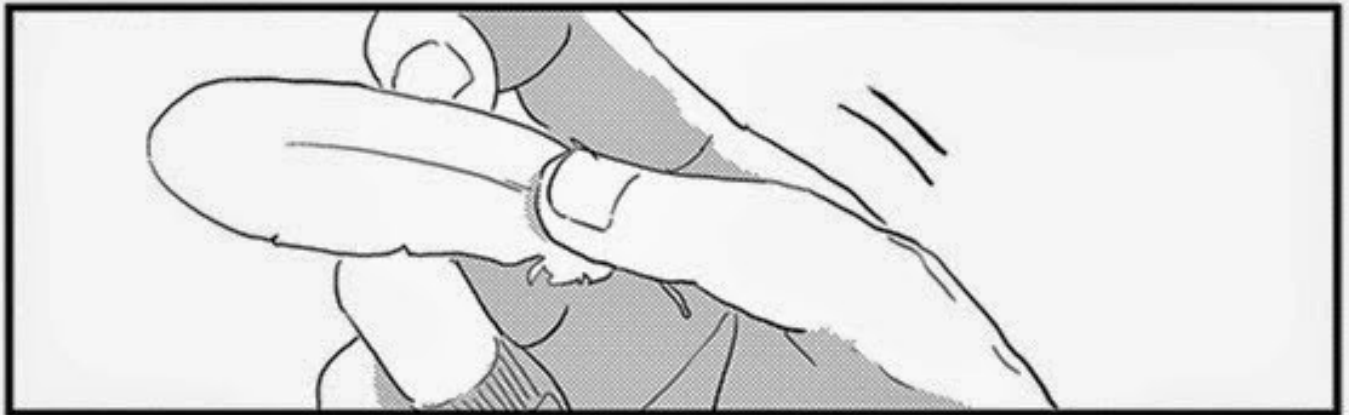

The emotion
I probably
gave him
was 'love'.

The goodbye disappointed me so I didn't say it aloud.

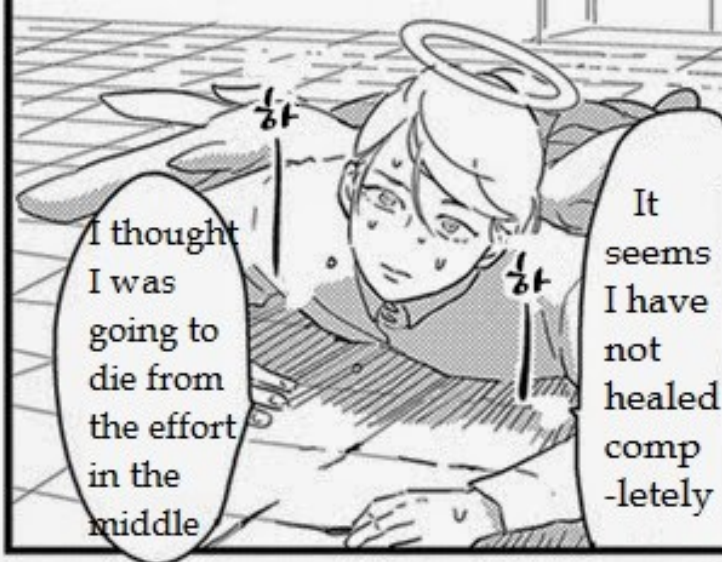

I actually knew but

Even if it was tough I should have told him some-how

I thought I was going to die from the effort in the middle

It seems I have not healed completely

CRASH

twirl

You are crying! Were you that upset?

stride stride

Oh?

Aha.

stride

Tch

What are you saying

... Let's go back

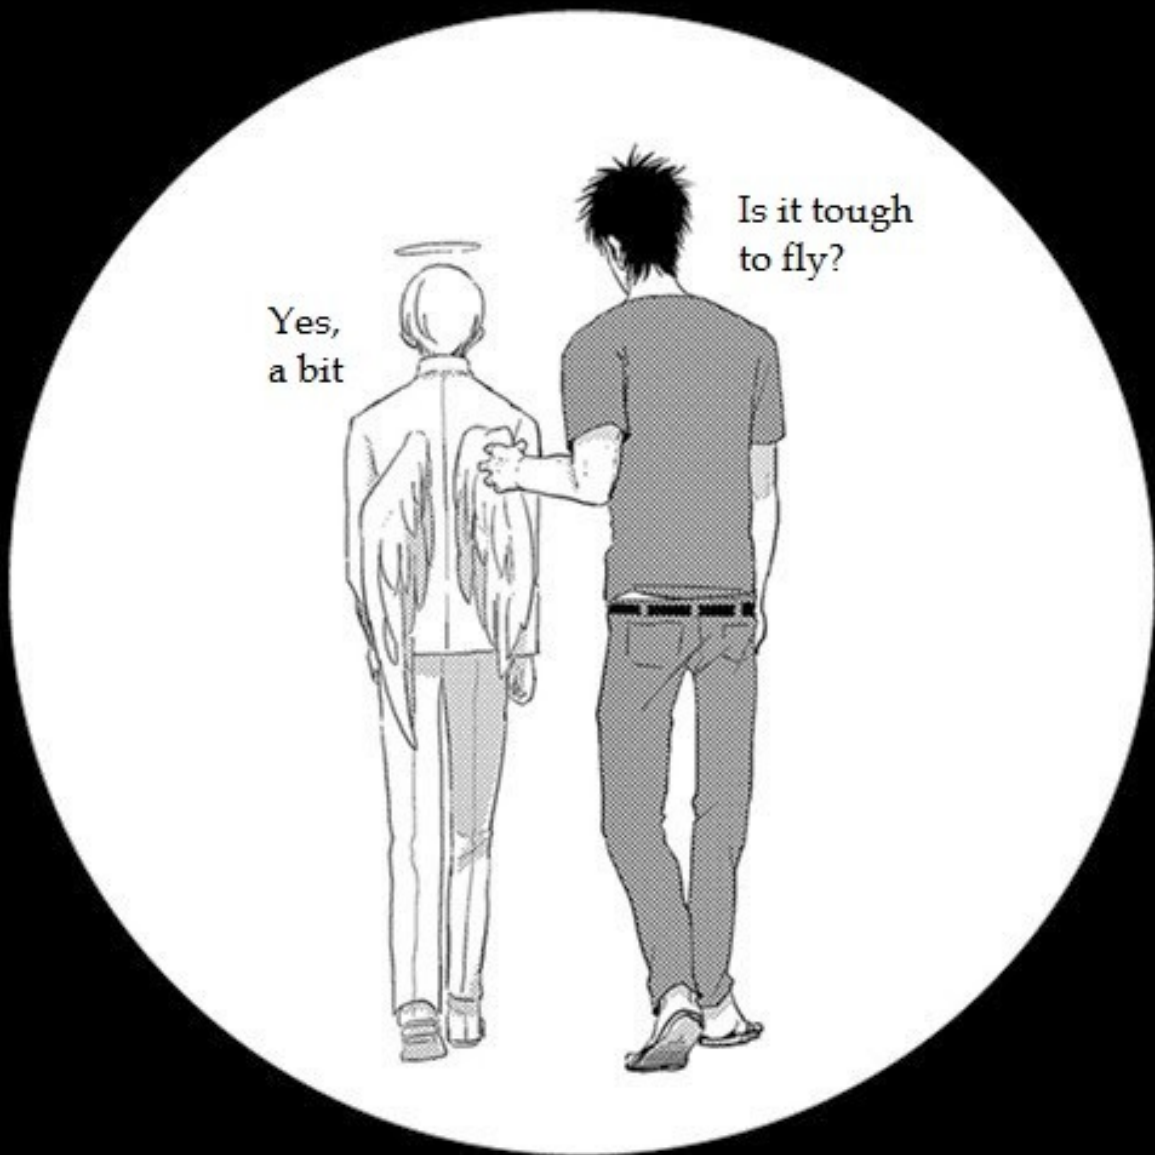

tsk tsk

Yes
